GOV. HUGHES WAS THERE

Y. M. C. A. Secretaries Hear Address on Unselfishness.

SECRETARY PARKER RETURNS.

Spent Time of Vacation at Silver Bay—First Conference of Christian Laymen.

Herbert E. Parker, secretary of the Y. M. C. A., returned from Silver Bay yesterday, where he has been attending the conferences for Christian laymen besides taking a two weeks' course at the Secretarial Institution. Mr. Parker has returned brim full of enthusiasm for the coming winter's work and says that many fine talks are in store for the young men during the next few months.

He attended the first conference of the Christian laymen ever held at the bay, where the great Christian movements of the day were thoroughly discussed. Among the speakers heard at that conference were Hubert Carleton, secretary of the Brotherhood of St. Andrew; Judge Selden Spencer, of St. Louis, Mo.; C. F. Nesbitt, of Washington, D. C.; J. Campbell White, general secretary of the laymen's missionary movement; Marion Lawrance, general secretary of the International Sunday School Association, and Governor Charles E. Hughes, of New York.

Governor Hughes gave the conferees a splendid talk on the "Centuries' Opportunities," in which he made a strong appeal for unselfish living among men of whatever occupation, bringing out the point that by unselfishness the world may be made better for all those who live according to the live and let live plan. At the conclusion of his address Governor Hughes was given a song from each of the seven institutes represented at the conference. The Governor in reply to the greeting from the men said that they were exhibiting an enthusiasm which would undoubtedly bring success to every one of their plans for the betterment of men and their social conditions and thanked each one of the men for the hearty hand shake given to the accompaniment of the song sung in his honor by the assembled delegates.

MISS KAHRMANN BRIDE OF WILLIAM TAYLOR

Miss Theresa Kahrmann, daughter of Mr. and Mrs. Adolph Kahrmann, of 314 Jackson avenue, became the bride of William Taylor, of East Orange, today as the clock was striking the noon hour. The ceremony was performed by Rev. Morgan Ashley, of St. Stephen's church, Netherwood, who cut short his vacation one day in order to perform the service.

Only the immediate members of the two families witnessed the ceremony and accompanied the bridal party to the home of the bride's parents where a reception was held, followed by a collation. After a honeymoon the couple will reside at 239 Netherwood avenue and will be at home after October 1.

The bridesmaid was Miss Laura Christensen, of Woodlawn avenue, and the best man Percy Hand, of East Orange. The bride was attired in a Princess gown of white silk, entrain with veil, and a wreath of orange blossoms and carried a shower bouquet of white roses. The bridesmaid wore a pink silk Suzeraine gown and carried pink roses. Miss Lillian Brinkner presided at the organ and played Mendelssohn's wedding march.

The newly married couple left on an afternoon train for northern Pennsylvania, where they will spend the next two weeks with friends of the groom. Mr. Taylor is an accountant in the office of the Singer Manufacturing Company in New York city. Many handsome and useful gifts of cut glass, silver and furnitrue were received by the bride.

Sues to Recover Price of Coat.

Vincent W. Carroll, a fireman in the local city department, has brought suit against Charles Rogoff, a tailor, through his counsel, J. H. Crane, to recover the value of a firemen's coat, which was destroyed in a fire in Mr. Rogoff's shop on West Second street, July 9, 1908. He places the value of his coat at $28. The case will be heard in the District court tomorrow morning.

occupy so much of his time that he finds it will be impossible for him to consent to a renomination. Mr. Townsend has served but one term.

The announcement will doubtless result in many candidates being mentioned for the office. Among those already talked of are James K. Arnold, a former member of the Borough Council; Newton B. Smalley, who was Mayor for several terms, and L. B. Woolston, who is now a member of the Council. It is said that the Republicans will name a strict party man and will not join with the Democrats in supporting an independent candidate. W. J. Conroy has been mentioned as a possible candidate on the Democratic ticket.

COMMITTEE FAVORS PUBLIC PARK PLAN

The Councilmanic Public Affairs' committee met last night and informally discussed the question of establishing a city park and playgrounds. Nothing definite was done and the matter practically stands as it did early in the summer. It is believed that a majority of the members of the Common Council favor a park and playgrounds, but there are certain features about it that must be overcome before a unanimous vote can be secured.

One of the provisions in the present proposition calls for North road to be opened from the city into the borough, in the West End. The greater part of this thoroughfare would be in the borough, and some of the city fathers do not favor the idea of the city paying for the work of opening this street, even though the borough would pay its proportionate share for maintenance afterwards. Albert street would be opened by the city and the bridge built. Only one member of the public affairs' committee is opposed to the plan.

In conversation with an official of the borough, a reporter for The Daily Press learned that the Borough Council is growing rather indifferent to the proposition. The official intimated that there is plenty of land within the borough limits suitable for park purposes and it is not without reason to believe that this may be used, if the present proposition falls through.

There was no discussion of the joint sewer subject last night.

To Wed This Evening.

Miss Anna Coriell Randall, daughter of Mrs. Elizabeth M. Randall, will become the bride of William Young Bellerjeau, of Trenton, this evening at 7 o'clock at the home of Mrs. Randall, 241 Somerset street, North Plainfield. The ceremony will be performed by Rev. Albert J. Neisley, pastor of the Third Presbyterian church, of Trenton.

BODINE FAMILY REUNION

Plainfielders to Attend Gathering Near Easton Early This Month.

A TWO DAY CELEBRATION.

Reception Planned on Wednesday, September 8—Organization to Be Held on Thursday, September 9.

Mr. and Mrs. A. B. C. Bodine, T. C. Bodine, L. B. Bodine, David Bodine, John M. Bodine and William Bodine, of this city and the borough, will attend a reunion of the Bodine family to be held at Island Park, near Easton, Pa., on Wednesday and Thursday, September 8 and 9. Mainly through the efforts of the Rev. John V. Bodine, of Tallman, N. Y., who has spent several months in investigating the records and looking up the surviving members and representatives of the family, a general desire for a reunion has been brought about.

More than five hundred persons claiming descent from the common Bodine ancestry or connected with it by marriage, have been found in the States of Pennsylvania, New York and New Jersey in addition to those scattered throughout the Western States.

The Rev. John V. Bodine has been assisted in the work by the following committee: Henry F. Bodine, Flemington; E. P. Bodine, Lodi, Seneca, N. Y.; John A. Bodine, M. D., 151 West 72d street, New York city; Professor John R. Bodine, Catawissa, Pa.; B. Frank Bodine, Doylestown, Pa.; Miss Caroline W. Bodine, Stockton; Miss Mattie C. Bodine, Belvidere.

The first day of the meeting will be given up to a reception and making acquaintances and on the second day they will organize, elect officers and the history of the family will be read.

OLIVER IS CONVINCED TIME WAITS FOR NO MAN

Because his fellow workmen wanted to keep close watch of the flight of time as they hammered and sawed, Oliver Hulmer, a carpenter whose home is at 314 East Second street, hung his watch, which he values at $22, on a nail at the new house he is employed on at Dixie lane. Noting subsequently that it was time to quit, Hulmer went home, but forgot to take the watch with him.

After he got to his house, he remembered that he had left the timepiece, and he went back for it. But it wasn't there.

At police headquarters shortly afterwards, the carpenter told the story of his loss, and furnished the police with a description of the watch. Unless somebody brought an alarm clock to work this afternoon, the carpenters may work overtime tonight.

"TOBY'S" CONTRIBUTION TO THE POLICE BLOTTER

Fired on twice by Patrolman Nolan as he ran from the policeman on West End avenue late last night, an unknown man escaped into North Plainfield. The patrolman can give no description of the man, but says he was rather short.

Nolan spied the man loitering in the vicinity of West Front street and West End avenue at about 10:45 o'clock. As he approached him, the man turned up West End avenue toward the borough. The policeman shouted to him to stop, but he broke into a run. Still pursuing him, Nolan drew his revolver and fired twice. Apparently neither shot took effect, for the man only ran faster and escaped across the county line into the darkness.

PRINCIPAL B. J. PHELPS WEDS IN CONNECTICUT.

Miss Clarissa Halliday, daughter of William Halliday, of West Suffield, Connecticut, became the wife of Principal Benjamin J. Phelps, of the North Plainfield High School at her home today. Following the ceremony, which concluded with a wedding collation, the couple left for a honeymoon sojourn at Nova Scotia.

Mr. Phelps will bring his bride to this city in about two weeks, when the borough schools open for the fall term, and the couple will reside in North Plainfield.

TRUCKMAN HELD FOR "MOVING DAY" ROBBERY

In the shuffle and confusion of moving from his apartments in the rear of the Woodhull & Martin Company's building on East Front street last Thursday, John Mackey was a victim of robbery. Today he swore out a warrant against Napoleon Wyatt, colored, of South Second street, who was one of the "moving men." Wyatt has been arrested by Detective Sergeant Flynn, and the case will be brought before Judge Runyon for a hearing tomorrow morning.

Mr. Mackey's daughter, Mrs. Wilson, of Brooklyn, is said to have been victimized by Wyatt to the amount of $18, when her pocketbook was taken during the moving. An axe and a big can of tobacco were also taken from the old home and not deliver at the new.

Wyatt was arraigned today before Judge Runyon, and at his own request was given a hearing. Mackey told the court of the reasons for his suspicions of the man, but his story was largely on hearsay, and Judge Runyon stopped the hearing and postponed it until tomorrow, when Mr. Mackay says he will have his wife and daughter in court.

PROPOSED BUILDING CODE DRAFT IS PREPARED

Lengthy consideration was given the proposed new building ordinance at a meeting of the Councilmanic buildings committee at Mayor Fisk's office last night. Chairman Duncan W. Taylor presented a rough draft of the suggested ordinance. The voluminous document was carefully gone over but no material changes were made in the wording or intent of the proposed law.

It is hardily likely that the matter will be brought up at the Common Council meeting on Monday night inasmuch as the committee desires to go over its recommendations carefully again. H. W. Barlow, of New York, an expert on building codes, who was engaged by the Common Council for a fee of $500, to draft the proposed ordinance, was present last night and answered many questions put to him by the committeemen.

Miss Nellie Higgins to Wed.

Miss Nellie Higgins and T. J. Ferrell, both of this city, will be married at St. Mary's church at 5 o'clock this afternoon, by Father B. M. Bogan. The prospective bride and groom, accompanied by a few relatives and friends, received early communion at the church this morning.

SUNDAY GOLF IS SAME AS DISORDERLY HOUSE

The opinion expressed by Craig A. Marsh during the recent debate at the Casino on the Sunday golf question, that the habitual playing of golf on Sunday on the Country Club grounds would constitute the keeping of a disorderly house, seems to be abundantly sustained by a decision of the highest court in the State, mentioned in the August number of the New Jersey Law Journal. In that case the manager of the Loan Company of Trenton was indicted for keeping a disorderly house because the Loan Company habitually took usurious interest on its loans. The manager was convicted, and was fined $1,000 by Judge Rellstab, now U. S. District Court Judge. The case was appealed to the Supreme Court, and then to the Court of Errors and Appeals. To quote from the extract in the Law Journal:

"In both the lower courts it was argued that the habitual taking of usurious interests for loans could not make a place a disorderly house, but the Court of Errors held, following the views of both lower courts, that 'it must be accepted that any place in which illegal practices are habitually carried on is a disorderly house.'"

MRS. LILLIAN S. RUNK PASSED AWAY TODAY

Mrs. Lillian S. Runk, widow of Charles Runk, died this morning at her home, 110 East Fifth street, following an illness from pleuro-pneumonia and Bright's disease, with which she had been a sufferer for sometime. She is survived by a daughter, Miss Ethel Runk, and a brother, Theodore Randolph, who was a former resident of this city.

Mrs. Runk was the second daughter of the late Mr. and Mrs. Daniel F. Randolph, who lived for a great many years at West Seventh and Liberty streets. A rather unusual thing recalled by her death is that her mother and sister both died of pleuro-pneumonia and at that time Mrs. Runk was critically ill with the same disease and it was not thought possible that she could recover. She did, however, but her mother and sister died within a short time of each other.

Mrs. Runk, as well as her parents and sister, was a faithful member of the First Baptist church. For many years her father was an honored deacon. He was one of the pioneer shoe merchants, his store being on West Front street, where George Finger is now located. He and his wife were among the oldest residents of the city and the family had a large circle of acquaintances and friends.

TO PENSION THE POLICE

By Resolution, Common Council Will Submit Scheme to the Voters.

HALF PAY IN OLD AGE.

Disabled Men Will Also Be Benefitted—Up to the People in November.

To provide in their old age or during illness for those who spend their best years in the service of the people, the Councilmanic police committee is planning to have brought before the voters for their approval, the police pension law. An act passed by the Legislature in 1906 permits cities and towns to pension police officers and policemen and provides how such a benefit shall be conducted.

Chairman Frank W. Randolph and the other members of the police committee are favorably impressed with the idea and it is expected that they will bring the matter to the attention of the Common Council with a favorable recommendation. It is not improbable that the scheme will be discussed by the city fathers on Monday night inasmuch as it is planned, if possible, to take advantage of the referendum in November.

The Act in question gives authority to a city or town to pension members of the police force after twenty years honorable service when they reach the age of sixty years as well as those who have served twenty-five years as soon as they reach the age of fifty-five years. It also allows pensions to policeman disabled by injury or disease contracted during service. This applies to both temporary and permanent disability. The amount of pension allowed will be equal to half pay of the candidate for pension.

Authority is given by the Act for the Councilmanic finance committee to borrow a sum sufficient for the purpose during the remainder of the fiscal year during which the law is adopted, but if Plainfield approves of the statute for local purposes it would not be necessary probably to take advantage of this provision for it would go into effect on January 1. From the time the Act takes effect, the city deducts one per cent of the salary of each member of the police force at each payment. To provide revenues, in addition to this, in every annual tax levy a sum equal to at least four per cent of the salaries in aggregate paid to the police force is laid aside as a fund out of which such pensions are paid.

The money received from the city taxes in this way, the law provides, must be invested in city interest-paying bonds to be kept for the purposes of the fund. The police committee is empowered to take charge of this matter and also to arrange for proper regulations. Provision is made for the Common Council to have the adoption or rejection of this law decided upon by the people at a general election. This is done by resolution of the city fathers.

When asked today about the matter, Chairman Randolph would say nothing definite beyond the fact that he favors the adoption of the law's provisions and would work hard for it. He said he thought the majority of the councilmen felt the way he does about the matter.

SOUTH END GARDENS RAVAGED BY BOYS.

With vegetable gardens and fruit trees in their prime, commuter farmers are having all sorts of trouble with garden thieves, who shake their fruit trees by night, and passing through the vegetable patch, pick and carry away the beans, corn, tomatoes and other "sass." Complaints about such nightly depradations come to the police frequently, and in a majority of the cases, small boys seem to be the offenders.

A property owner at West Eighth street and Clinton avenue, who raises vegetables, complained yesterday at police headquarters that Italians and small boys living in the vicinity have been visiting the garden patch and getting food supplies. The house is outside the city limits, so the police can do nothing.

Mrs. James DeGraff, of Central avenue, telephoned a similar complaint to the police yesterday and a policeman will keep his eye on the vegetables. Other South End commuters have suffered similar depraditions, and have complained to the police before this.

SUNDAY SPORTS FORM THE BASIS FOR SERMON.

Speaking before 700 men in the Young People's Temple, Ocean Grove, Sunday afternoon, Bishop Luther B. Wilson said that in bygone days it was not respectable to play baseball on Sunday. "Now," he continued, "respectable people play baseball and golf on Sunday, but it's a drift away from God, and our word and example must be against it.

"We are living in too easy times. We are putting aside what are styled old Puritanical ideas. But in these strenuous days we must stand for conscience in the little, as well as the great things. Wrong is never right, and right is never wrong—no matter what happens.

"Standing for conscience may mean new systems of book-keeping and new methods in the counting-room and shop; it may and will affect our relations to business, the home, family, church. State, nation, politics—but we must stand true to conscience.

"It is easy to lose conscience. The men who make their money by crushing others to do it—I should think they would be afraid to go to sleep by themselves.

"We must stand for evangelism. We Methodists must bestir ourselves or the Presbyterians will get ahead of us. They can preach 'whosover' as well as we. They are spending thousands in evangelistic efforts. We must work or be losers.

"Too many of us are traveling alone and letting the world go by itself.

"Take the matter of amusements. The five-cent shows and vaudeville places are going to a lower level all the time. We've got to take a stand against such things. They are sensuous and debasing. The world is hungry not so much for anything as it is for God. They are feeding on the husks in this twentieth century."

The other meetings in connection with campmeeting were also well attended, and there was a religious enthusiasm that extended from one end of Ocean Grove to the other.

EXPERTS ON CENSUS FORMS.

This is the formulation of schedules to be used by enumerators in entering the information they secure.

The agricultural, manufactures and population schedules are the principal ones under the current discussion.

The experts aiding the director in this talk have been appointed special agents to serve until the formulation of the schedules is complete. In the preparation of the agricultural schedule four of the experts are acting as conferees. They are J. L. Coulter, instructor in agricultural economics, University of Minnesota; H. C. Taylor, professor of agricultural economics, University of Wisconsin; G. F. Warren, Jr., professor of farm management and farm crops, Cornell University, and Thomas M. Carver, professor of economics, Harvard University.

To the manufactures schedule the attention of the following experts is being directed: Spurgeon Bell, formerly assistant editor of The Economist of Chicago; Arthur J. Boynton, assistant professor of economics, University of Kansas; C. W. Doten, assistant professor of economics in the Massachusetts Institute of Technology; E. D. Howard, assistant professor of economics, Northwestern University; Emil P. Secker, professor of finance in Dartmouth College. Horace Socrist, instructor of economics, University of Wisconsin; A. H. Willett, professor of economics in the Carnegie Technical School, and Alvin S. Johnson, a statistican, of Chicago.

The population scheduled is in charge of Professor W. B. Bailey, of Springfield, Mass. Professor Bailey is an instructor in political economy in Yale.

BAG CONTAINED LOCKS.

Slot Machine Man Causes Arrest of "Absent-Minded" Man.

John Bergen, a collecter of the New York and New Jersey Telephone Company, whose duty it is to make collections from slot telephone stations in Newark, was covering his district Saturday morning with a grip full of new locks for automatic telephone boxes, a number of old locks having been tampered with. The grip was the one in which he usually puts the coin collected from the machines. He set the heavy bag down in a drug store at Springfield avenue and Jones street and went into the booth.

When he left the booth his bag was gone. The clerk in the store said that an elderly man with a white mustache had entred the drug store and left with two bags. Bergen boarded a Clifton avenue car in front of the 6th Precinct station and saw a man with the missing bag open on his knees and a disappointed look on his face seated in the car. He caused the man's arrest.

The prisoner said he was Thomas Benton, sixty-six years old. He refused to give his address. He said that he took the bag 'absent mindedly."

BIG POSTAL DEFICIT.

The Postoffice Department has another enormous deficit for the year which ended on June 30 last. According to figures which are now being compiled this deficit may reach the amount of the deficit for the year which ended June 30, 1908, when it was $16,873,222.

The appropriations for the fiscal year which closed June 30 last were $222,960,892 to run the postal service. Mr. Meyer, the then Postmaster-General, in announcing the deficit a year ago, the largest in the history of the department, estimated that the sum of the deficit which is to be announced in a few days would again be more than $16,000,000. Mr. Meyer attributed the deficit to the maintenance of rural delivery and the carrying of second-class mail matter at the present rates. Postmaster-General Hitchcock has mapped out a plan to increase the postal revenues and decrease expenses.

SUES FOR REWARD OF $5,000.

Suit has been begun in the New York Supreme Court by Paolo Campanella to recover the promised reward of $5,000 for the return of the jewels found by him on an Erie ferryboat last June. The jewels, which were estimated to be worth from $60,000 to $100,000 were owned by Richard Mortimer, of New York. The suit is brought against Dreicer & Co., jewelers, who advertised for the missing package. As told in this paper, the valuables were recovered by Captain James F. Larkin, of the Jersey City detective bureau, and Detective Sergeants Daniel Lee and William Maxwell.

Dreicer & Co., have withheld the payment of the reward awaiting the outcome of the suit.

Mrs. Herbert Buxton and daughter, of West Front street, have returned from Connecticut, where they spent several weeks.

Miss Giles, of Grove street, who has been enjoying her annual vacation, has returned home, and has resumed her position as pianist at Proctor's theatre.

COUNCIL WON'T AID MULCTED POLICE HEAD.

Chief of Police Snyder, of Roselle Park, has learned by the lamp of experience that his police powers do not allow him to shoot a dog, even though the animal is suffering and it would be humane to dispatch its life. It has cost the chief money to learn this lesson, for he has been notified by the Borough Council that the borough will not pay the amount of the judgment found against him by Judge Whittemore, in the District Court, Elizabeth, as the result of a suit brought against him by Arthur Lounsbury, for killing a valuable bulldog.

Lounsbury's dog had been run over by a trolley car and Snyder to end its suffering shot it. The owner of the animal sued the chief for $500 damage. A peculiar decision was handed down by the court in giving judgment. Judge Whittemore decided that the police officer had no right under the law to shoot the dog without the permission of a police magistrate or agent for the S. P. C. A., on the theory that the dog was valued at $5 before he was struck by the trolley car, and that after or when he was shot by Snyder he was worth one-half that amount. Judge Whittemore found judgment against the chief for $2.50.

The latter asked the borough to pay the judgment and the cost of suit. The matter was considered by the Council at several meetings and yesterday the chief was informed that he must stand the expense himself.

A MAGNIFICENT FIGURE.

Reginald McKenna, Kid-Gloved, Represents Labor Constituency.

Reginald McKenna is certainly a magnificent figure with an oar, and while triumphs on the water in one's undergraduate days at Cambridge count for much less in English politics than they did before John Burns got into the Cabinet, they do count still. Moreover, as the London Post somewhat dubiously concedes, Reginald McKenna is "so nice."

To complete the anomaly of his position in official life, he represents a distinctively labor constituency of miners and iron workers, who roared mercilessly at every allusion to his kid gloves and his spats at the last election.

Reginald McKenna is an extremely elegant looking person at all times—what might be called fashionable. His strolling air, the inconsequentiality of his expression, a deprecating and even timid way in conversation and a most amiable assent to every adverse criticism that can be leveled against him, confirm the impression conveyed by those who insist that he is destitute of talent.

"He has a head for figures," the Prime Minister is reported to have said to one amazed politician who expostulated at the selection of Reginald McKenna for the Treasury when the Asquith ministery was formed. Into the mouth of Prime Minister Asquith has been put the verdict that Reginald McKenna is a sage, mingling a little folly with his wisdom.

"Reginald McKenna has been a strong man, with that strength which never allows the silken glove to fall from the iron hand." Thus his chief, who bestows higher praise yet: "A rapid worker, quick to grasp guiding principles, as well as the minutest details. He is an administrator, above all."—Current Literature.

CHEAP GAS IN ENGLAND.

Low Rates Produced Large Profits Abroad.

Consul Albert Halstead reports that for the year ended March 31 the Birmingham municipal gas department has been able to contribute $347,754 to the reduction of city taxation, the details of which follow:

This is an increase of $49,375 over last year, and is the greatest profit that this British city has ever made on its gas undertaking. In addition, the gas department contributed $20,000 direct to the city treasurer and $75,000 worth of gas in aid of public lighting within and without the city. The profit was made after a large allowance for depreciation of plant and a controbution to the reserve fund of almost as much as the profit, and with the plant being kept at the highest maximum of efficiency. It is also of interest to note that the last contribution to reduce taxation has been possible desuite the considerable reduction in the price of gas for the last half of the year. The rate of gas, showing reduction made, follows:

For lighting and heating purposes in one premises: Under 50,000 cubic feet, from 61 to 57 cents; between 50,000 and 250,000 cubic feet, from 55 to 53 cents; between 250,000 and 1,000,000 cubic feet, from 49 to 46 cents; from 1,000,000 cubic feet and upward, from 44 to 42 cents. For motive-power purposes: Under 100,000 cubic feet, from 44 to 42 cents; 100,000 cubic feet and upward, from 38 to 36 cents. All the foregoing rates are subject to 5 per cent. discount for prompt payment.

For supplies of gas through prepayment meters: With gas fittings and cookers free, from 26 to 28 cubic feet per two cents; with cookers free from 31 to 33 cubic feet per two cents.

Mr. and Mrs. Joseph O'Keefe, of East Seventh street, have returned home after spending two months at Asbury Park.

The Plainfield A. C. will go back to Berkeley Heights Saturday prepared to trim the mountaineers. Last Saturday the Plainfield boys were defeated by a score of 8 to 2, but Manager Pope will use Slocum this week and there will be a different tale to relate afterward.

The Plainfield Baseball club will try and defeat Rahway at the latter place, Saturday. Manager Dorflinger's aggregation has not yet been able to get away with a game from the Rahwegians this season, although Scotch Plains has been victorious every time they went up against the latter club.

The Elizabeth club that trimmed the Plainfield team on Sunday will be here early in September, when a determined effort will be made to regain lost honors. Brewer was not in the best of condition Sunday, after pitching a hard game against the Plains on Saturday.

Ortleib, formerly with the Plainfield team, is popular as a twirler. He appears to be making good with Elizabeth, although his last work with the locals was not up to the standard.

After the Chicagos defeated the Giants with Ames in the box on Monday, in an eleven inning contest, Mathewson twirled the second game and whitewashed the Cubs, 5 to 0.

The Detroits are travelling a fast pace this season, although the Athletics are pressing them hard for first place.

"Lou" Wiltse, who is pitching for the Syracuse New York State League club, is doing good work.

Clifford Randolph continues to play good ball for Binghamton, of the New York State League. He has won several hard-fought contests.

The Eastern League race has aroused unusual interest here among the fans. They anxiously wait for the returns of the games every night.

The Daily Press posts the scores of the big league games every night at 6:30 o'clock. If the fans want to get the scores quickly and accurately they should watch The Daily Press bulletin.

GOLF.

As it now stands, the plan of a match at Wheaton this week having fallen through, the first contest for the challenge cup presented by the Royal Canadian Golf Association will be over the Garden City Golf Club course in October. The Canadians will play a team of ten against a picked ten of the United States Golf Association, a sportsmanlike offer, but one that is vastly in favor of the Americans. The United States has 100 good golfers to choose from for every 10 possessed by Canada. Matters are not definitely fixed and a more equitable arrangement would be a match between teams of any recognized golf association, the U. S. G. A. to have charge on the alternate years when the match is in this country; or, while changing the conditions of the Lesley cup match to let an all Pennsylvania team play against the Massachusetts and the Metropolitan teams for that trophy, why not let in a Canadian team? This would raise the match from a local to an international contest, and as it would have to be played but once in four years across the border it would not be a burden to travel to Toronto, Montreal or Quebec to play in it. Besides, while a winning match against the U. S. G. A. may be an impossibility, the Canadians should not be so outclassed in a match of four teams—for the best men in the opposing aggregations would be in the other instance be massed on the all America team, not to speak of two or three clinkers from the West.

An international match will not be of interest if a one sided affair. This condition killed the former Canada-United States annual match, played ten on a side. In 1898 the Americans won at Toronto by 27 to 7 holes; in 1899 at Morris county by 93 to 0, and at Quebec in 1900 by 19 to 14. In the three matches the Americans scored 139 to 21 holes by the Canadians. There has not been a match since, except the informal and successful visit of A. W. Tillinghast's team to Toronto two seasons ago, for the Canadians asked that the meeting be dropped until such time as they had developed a higher grade of golf.

On the turf there is a well defined state of mind known as "stable madness," and if they hope to win here the Canadians must be influenced by some similar golfing delusion. If they could induce the three associations in charge of the Lesley cup to let in their team the situation would be different. But if they are in earnest, however deluded on their "dope," or if an annual home and home match will do good for the game and afford pleasure the Canadians will be welcome by all our golfers. They will be welcome, for that matter, how or when they come.

P. D. Ross, president of the Royal Canadian Golf Association, has the team in formation. Of players known to Americans it will include George S. Lyon, runnerup to Byers in the amateur championship at Englewood, and F. R. Martin, both of Toronto, with Legge, the present, and Alec Wilson, last year's amateur champion of Canada.

VARIOUS SPORTS.

The Crescent Gun Club, of Whitehouse Station, has arranged a shooting tournament, which will be held on the club's grounds, Saturday, September 25, when the strong Elizabeth Gun Club will send its ten man team to contest with the Whitehouse club in a 1,000 bird match

DEMOCRATS' SECRET MEETING.

It leaked out yesterday that a secret meeting of the Elizabeth Democratic executive committee was held at the Democratic headquarters in Broad street, Elizabeth, Monday night to discuss candidates for county and city office and to be voted for next November. It is said a strong list of names was presented for consideration.

All the members of the committee were apparently being pledged to secrecy, as they refused to talk about the matter yesterday.

It is known, however, that the Democrats intend to put up a very stiff fight for county clerk, register and three Assemblymen this fall. It is rumored that some State leaders from out of town were present at Monday night's confab. The real estate office of Alderman Owen Farley, chairman of the city committee, and his partner, Alderman James Walker, at Broad street and Caldwell place, Elizabeth, were crowded shortly before noon with Democratic leaders, who held a conference in the rear room of the place.

It was plainly evident that something more than ordinary importance was going on among the braves, who, when the conference was ended, filed solemnly out, refusing to talk to any press representatives as to what had taken place.

—There are now twenty-five patients under treatment at Muhlenberg Hospital.

LOCAL AMUSEMENTS.

D. M. Clarke's new comedy drama, "The White Squaw," which will be presented at the Plainfied theatre tomorrow night, is a play of exceptional dramatic worth, of pathos, tears and comedy. Among the members of the company, who are given excellent opportunity for the display of their historic talents, are: Miss Della Clarke, Miss Grace Cahill, Miss Mindie Kohman, Joseph Gillow, Edmond Carew, and Wm. F. Kohman.

"The Honeymooners" which comes to the Plainfield theatre September 3, Friday night, is the complete New York production and powerful Broadway cast. There are two score pretty girls costumed in Paris gowns and some typical Cohan song hits and there is action every minute and a story that carries through the play. "The Honeymooners" combines in one fascinating entertainment all the Cohan excellencies and the verdict of New York is enthusiastically endorsed everywhere.

When the fact that the new "Buster Brown" will be seen at the Plainfield theatre Saturday afternoon and night becomes known throughout our community there is scracely a doubt that in many a family there will be resolutions made as strong as any made by the pen of the prolific "Buster," but the local "resolves" will all have the one subject matter and that will be—ways and means to be present at the fun dispensing visit of the inimitable "Buster" as above quoted. This season Master Rice plays "Buster," and to his credit be it said that he is saturated and imbued through and through with the spirit that actuated R. F. Outcault when he first lined "Buster" on paper.

Theatregoers will be delighted at the announcement that "Polly of the Circus," the most popular play seen here last season, has been booked for a return engagement on Wednesday night, September 8, when it will be presented with the same large excellent cast and elaborate production.

Theatrical Changes.

The Majestic theatre at Perth Amboy, now under the management of Proctor & Sanderson, will re-open for the coming season on Labor Day, September 6, when a policy similar to the Proctor house in this city, will be introduced and followed. It is proposed to work the vaudeville specialties with the Proctor house, this city, and the Majestic theatre, Perth Amboy, while Proctor's theatres in Elizabeth and Newark will work together.

Damage by Fire Too Great to Warrant Reconstruction.

Liverpool, Sept. 1.—The Cunard Steamship Company has decided not to reconstruct the damaged steamship Lucania, which was partly destroyed by a fire on August 14. The ship was finally sunk in thirty feet of water to extinguish the blaze.

The damage has been found to be so extensive, the cost of reconstruction being estimated at between $500,000 and $600,000, that the company will apply the money received from the underwriters toward the construction of the new vessel, which is to be faster than either the Lusitania or the Mauretania.

SOME STATE NEWS BRIEFS

The annual session of the Grand Castle of New Jersey, Knights of the Golden Eagle, will be held at Trenton on Labor Day.

Rev. Dr. A. E. Ballard, president of the Ocean Grove Campmeeting Association, has invited the members of the Legislature to attend the camp next Sunday.

The body of William Linderman, who was drowned off the mouth of Mantua Creek last Thursday, was found floating in the river a short distance from Paulsboro.

The contribution boxes were rifled in the Simpson Methodist Episcopal church, Central avenue, and Fleet street, Jersey City Heights, by a burglar, who broke in a window of the Sunday-school room.

John Hogg, about fifty years old, of Vineland, was found unconscious in a gas manhole, where he was at work mending a leak. Physicians tried in vain to resuscitate him, and he died at 2 o'clock yesterday afternoon.

Suffering from a kick in the stomach, sustained, he says, in a fight with a stranger, Gasper Odemfanski, twenty-seven years old, of Burlington, was admitted to Cooper Hospital, Camden, yesterday. He was in a serious condition. His assailant escaped.

Falling about fifteen feet from a tank he was painting near Front and Market streets, Camden, Arthur Graham, fifty-eight years old, of 2426 Somerset street, Philadelphia, sustained a broken arm, sprained ankle and other injuries. He was cared for at Cooper Hospital.

Rev. A. S. Kleinfeld, who for two years and a half has been pastor of the Temple Emanu-El, in Van Houten street, Paterson, and prior to that was cantor of the Barnert Memorial Temple, has accepted the position of rabbi of the large B'nai Israel congregation, at Atlanta, Ga.

Falling about twenty-five feet while at work on the battleship Utah, at the plant of the New York Shipbuilding Company in Camden, Peter Roedrick, fifty-nine years old, of 645 Central avenue, Camden, was injured about the back, but no bones were broken. He was taken to Cooper Hospital.

Wanted since April a year ago on a charge of embezzling $70 from M. W. Taylor and John H. Fort, of Camden, Edward Smith was arrested at Syracuse, N. Y. Smith was advanced the money for the purpose of securing the completion of a patent, and is alleged to have used it for another purpose.

Admitting that he had stolen cinnamon buns because he was hungry, James Malone was held by the Camden police yesterday until the management of the Catholic Protectory, near Norristown, is heard from, the youth stating that he had not eaten anything since he escaped from that institution, several days ago, until he was found with the buns in Camden.

The dreaded poultry disease known as "limber neck" has made its appearance in parts of Burlington county and farmers are fearful of a spread of the malady and may call upon State health authorities to assist them in stamping it out. The plague wiped out the entire flock of over nine hundred promising young fowls on the farm of Japhet B. Nixon, near Vincentown.

Workmen engaged to tear down an old farm house at Hammonton were attacked by a large swarm of bees, and it was not until considerable sulphur was burned to destroy the bees that work could proceed. Between some of the floor joists of the old house a deposit of honey weighing 150 pounds was found. The house was built in 1860, and had not been occupied for several years.

While Jacob Foster, a barber, at 7 Holsman street, Paterson, was shaving a customer, last night, a rock crashed through the shop window and grazed his head. While wondering what was up, another rock flew in and struck his five-year-old daughter, Lizzie, on the left temple. Frank Vander Paelt, a weaver, aged thirty-four, of 45 North Straight street, was arrested for the offense. It is thought he is demented.

In the City District Court at Trenton yesterday judgment for $500 was entered against Herman Hoekier and A. Morris Thompson, of New York, in favor of Mary E. Hart, five years old, of Trenton, who was run down by the defendants in their automobile, February 22, near White Horse. The child was riding in a goat wagon by the side of the road, when the auto struck the vehicle and seriously injured its occupant.

Scores of people yesterday afternoon saw Lieutenant Thomas McDevitt, of Engine Company No. 3, Atlantic City, hurled from the machine while responding to an alarm, and remain motionless after striking the ground. The engine was turning from Maryland into Atlantic avenue when the accident occurred. He was picked up by Chief Black in his automobile, and rushed to the hospital. One shoulder was dislocated and he was painfully bruised, but no symptoms of serious injury were found.

B. C. Applegate, of East Seventh street, have returned from a sojourn at Asbury Park.

POWLER NOT AN AGENT OF THE "PLUNDERBUND."

La Follette's Magazine, in its leading article this week discusses Speaker Cannon's revenge in demoting insurgent Republicans from committee positions. It says in part:

"Cannon's revenge in demoting the insurgent Republicans of the House from their committee positions is of double aspect. It looks both to the past and the future. The case of Fowler, of New Jersey, is a good illustration. Fowler was chairman of the House Committee on Banking and Currency. He was a student and a recognized authority on banking and currency. He had some scruples, too, which would not permit him to run his committee as a mere legislative agency of the 'plunderbund.'

"Relations between Fowler and the Cannon regime, for a long time strained, came to an open breach during the days of the patching of the so-called 'emergency currency legislation' in the spring of 1908.

"The fact that he was one of the progressives who voted against the readoption of the old Cannon rules at the beginning of the present Congress is only incidental. But even these circumstances would not warrant Cannon in stirring up a storm of criticism just to get even. It would not matter much who was chairman of the Banking and Currency Committee if the system did not have work for it to do.

"But it has some work to be done which is in the regular jurisdiction of this committee. Read a Wall street paper, or the circulars sent out over the country every day by Wall street institutions, and you will be advised that the time is at hand now that the tariff is out of the way for a reorganization of our banking and currency system."

PLANS FOR CONVENTION OF GERMAN CATHOLICS.

The fifteenth annual convention of the State Federation of German Catholic Societies of New Jersey will be held Sunday and Monday next in St. Nicholas hall, Jersey City. The delegates will assemble at 9 o'clock Sunday morning, and at 10:30 o'clock will attend pontifical high mass in a body in St. Nicholas church. The sermon will be preached by the Rev. Bernard Gerstl, pastor of St. Benedict's church, Newark. Sunday afternoon will be devoted to a meeting of the executive committee, and to the work of the several committees.

A meeting will be held in the hall Sunday evening at 8 o'clock, at which it is expected Bishop John J. O'Connor will be present. Joseph J. Lambrecht, president of the federation, will deliver the address of welcome. The principal speakers at this meeting will be Rev. Polycarp Scherer, pastor of St. Mary's church, Newark, and Joseph Mielich, of Brooklyn, former president of the New York State federation.

The business meeting will be opened Monday morning at 10 o'clock. Reports by the State officers and individual societies will be received, officers elected, and the next convention city designated. In the afternoon the societies of St. Nicholas parish will tender a reception to the visiting delebates and their friends.

THE JUDICIARY AMENDMENT.

Former Supreme Court Justice Van Syckel, in his letter concerning the proposed judiciary amendment, has met in clear and straightforward fashion the decision of the State Federation of Labor to oppose the pending amendments. It if worth recalling that the Federation's attitude is directly adverse to the advice given by the Federation's special counsel, who advised that any specific objections that might be urged against the amendments were more than offset by the advantages to be secured.

Justice Van Syckel points out the saving in time and money for the litigant to be effected under the judiciary amendment, and that if the amendment is adopted the responsibility for delay and expense in the trial of causes will be put squarely upon the judiciary, with which responsibility will go to the power for the courts to remedy defects in procedure. Speedy justice will thus be insured.

But in spite of all these obvious benefits the Federation of Labor, through its various branches, proposes to defeat this and the other amendments on the ground that they do not include jury trial in cases of contempt of court where the contempt has not been committed in the presence of the court.

Clearly the laboring man is standing in his own light by opposing the judiciary amendment. There is every commonsense reason why he should enthusiastically support it. Win or lose, the Constitution cannot be amneded again for five years. To refuse for that long to enjoy the privileges and benefits that are offered also is unwise, particularly when there will be just as much chance five years from now of making further changes by accepting present advantages as there will be by refusing them.—Jersey City Journal.

Frank Dencklau, of Fairview avenue, has returned from his annual vacation.

Archibald Hawthorne, son of Mr. and Mrs. Bayard Hawthorne, of New Market, who is at the hospital under treatment for tetanus, continues to improve and his recovery now seems assured.

HAPPY RESULTS.

Have Made Many Plainfield Residents Enthusiastic.

No wonder scores of Plainfield citizens grow enthusiastic. It is enough to make anyone happy to find relief after years of suffering. Public statements like the following are but truthful representations of the daily work done in Plainfield by Doan's Kidney Pills.

Mrs. J. C. Manchester, 120 Lafayette place, Plainfield, N. J., says: "I was a sufferer from kidney and bladder trouble for a long time. I doctored a great deal but failed to fined a cure until I saw Doan's Kidney Pills advertised and made up my mind to give them a trial. Good results followed their use and my kidneys were soon restored to a normal condition. I believe my cure is a permanent one, and I will always give Doan's Kidney Pills my endorsement when an opportunity occurs."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

CASH PRIZES FOR FINE DAIRY CATTLE.

Best Butter Producers In Country Will Be at Trenton Fair.

By the expenditure of more than $15,000 the Interstate Fair association has been able to cause the erection of three new cattle barns that will be ready for use at the coming exposition at Trenton, which opens Monday, Sept. 27, and continues until Saturday of that week. The new barns are 200 feet long and 30 feet wide and will accommodate more than 300 cattle.

With this increase of capacity the cattle show at the Interstate Fair this

PROFESSOR F. C. MINKLER.

fall will be the greatest without exception of all fairs ever held in America. This may appear like a rather broad statement, but Professor F. C. Minkler of New Brunswick, N. J., who will manage this department, is the authority for the opinion.

The directors will set aside $3,200 as prize money, and this will go to four classes—Jerseys, Holsteins, Guernseys and Ayrshires. It has been wisely decided to eliminate all except dairy cattle because the other classes are not of interest in this vicinity.

Deep interest will be attached to the twenty-four hour butter test, which will be open to all breeds and their grades. The cow producing the most butter in twenty-four hours will be awarded $35. Three other prizes also will be given out in this contest.

In addition, the Holstein-Friesian association will give a silver cup to the Holstein cow making the best butter test.

The most prominent breeders in the country have already sent in numerous entries for this remarkable cattle show, and it is sure to be one of the most talked of features of the fair.

WILL STOP TICKET SCALPING

Mail Order System For Trenton Fair Insures Square Deal.

Always careful in protecting the interests of its patrons, the Interstate Fair management this season will adopt a method of disposing of the grand stand and clubhouse seats that will practically make it impossible for the speculators to prey upon the public, as is the case with almost every other fair in the United States. This year the reserved seats will be sold only through the mails, and all orders must be sent to Holmes E. La Rue, agent, Box 105, Trenton, N. J. The sale will begin Tuesday, Sept. 14, and every order must be accompanied by cash, certified check, postal or express money order payable to the Interstate Fair association.

Orders will be filled according to the postmark on the envelope, beginning with Sept. 13. No more than six tickets will be sold on one order.

Except on Thursday the price for the reserved seats will be 50 cents for the grand stand and $1 for the clubhouse. Thursday the prices will be $1 for the grand stand and $2 for the clubhouse.

TRENTON TRACK MADE OVER.

Now Said to Be as Fast as Any Fair Track In the Country.

By spending more than $1,000 on its half mile track this summer and practically rebuilding it the Interstate Fair association now rightly claims one of the best tracks in the country for light harness racing. In former years horsemen did not look upon the Trenton track as being fast, but this opinion is certain to be changed at the big fair meet in September. For more than six weeks a squad of experts has been busy completely overhauling the track. The topsoil has been removed and substituted with other soil that is guaranteed to make the Interstate Fair track remarkably fast and of unusually good footing. Several race horses owned in Trenton and vicinity have tried out the track since it has been reconstructed and in each instance have created new records.

In view of the fact that the entry list at the fair this fall promises to climb close to the 200 mark, there is every indication of the best horse racing sport ever witnessed at the New Jersey capital.

CHAPTER II.

OBJECT, MATRIMONY.

WINTER fogs in New York are never quite so intolerable as their counterparts in London, and while their frequency is a matter of complaint, their duration is seldom of any length. So by the morrow a strong wind from the west had winnowed the skies and cleared the sun. There were an exhilarating tingle of frost in the air and a visible rime on the windows. Hillard, having breakfasted lightly, was standing with his back to the grate in the cozy breakfast room. He was in boots and breeches and otherwise warmly clad and freshly shaven. He rocked on his heels and toes and ran his palm over his blue white chin in search of a possible slip of the razor.

Giovanni came in to announce that he had telephoned and that the signor's brown mare would be at the park entrance precisely at half after 8. Giovanni still marveled over this wonderful voice which came out of nowhere, but he was no longer afraid of it. The curiosity which is innate and childlike in all Latins soon overcame his dark superstitions. He was an ardent Catholic and believed that a few miracles should be left in the hands of God. The telephone had now become a kind of plaything, and Hillard often found him in front of it patiently waiting for the bell to ring.

The facility with which Giovanni had mastered English amazed his teacher and master. But now he needed no more lessons. The two when alone together spoke Giovanni's tongue, Hillard because he loved it and Giovanni because the cook spoke it badly and the English butler not at all.

"You have made up your mind to go, then, amico?" said Hillard.

"Yes, signor."

"Well, I shall miss you. To whom shall I talk the tongue I love so well when Giovanni is gone?" with a lightness which he did not feel. Hillard had grown very fond of the old Roman in these seven years.

"Whenever the signor goes to Italia he shall find me. It needs but a word to bring me to him. The signor will pardon me, but he is like—like a son."

"Thanks, Giovanni. By the way, did you hear a woman singing in the street last night?"

"Yes. At first"— Giovanni hesitated.

"Ah, but that could not be, Giovanni; that could not be."

"No; it could not be. But she sang well," the old servant ventured.

"So thought I. I even ran out into the street to find out who she was, but she vanished like the lady in the conjurer's trick. But it seemed to me that, while she sang in Italian, she herself was not wholly of that race."

"Buonissima!" Giovanni struck a noiseless brava with his hands. "Have I not always said that the signor's ears are as sharp as my own? No; the voice was very beautiful, but it was not truly Roman. It was more like they talk in Venice. And yet the sound of the voice decided me. The hills have always been calling to me, and I must answer."

"And the unforgetting carabinieri?"

"Oh, I must take my chance," with the air of a fatalist.

"What shall you do?"

"I have my two hands, signor. Besides, the signor has said it—I am rich." Giovanni permitted a smile to stir his thin lips. "Yes, I must go back. Your people have been good to me and have legally made me one of them, but my heart is never here. It is always so cold, and every one moves so quickly. You cannot lie down in the sun. Your police, bah! They beat you on the feet. You remember when I fell asleep on the steps of the cathedral? They thought I was drunk and would have arrested me!"

"Everybody must keep moving here. It is the penalty of being rich."

"And I am lonesome for my kind. I have nothing in common with these herds of Sicilians and Neapolitans who pour into the streets from the wharfs." Giovanni spoke scornfully.

"Yet in wartime the Neapolitans sheltered your pope."

"Vanity! They wished to make an impression on the rest of the world. It is dull here besides. There is no joy in the shops. I am lost in these great palaces. The festa is lacking. Nobody bargains; nobody sees the proprietor. You find your way to the streets alone. The butcher says that his meat is so and so, and you pay. The grocer marks his tins such and such, and you do not question, and the baker says that, and you pay, pay, pay! What? I need a collar; it is quindici—fifteen you say! I offer quattordici. I would give interest to the sale. But, no! The collar goes back into the box. I pay quindici or I go without. It is the same everywhere—very dull, dead, lifeless."

Hillard was moved to laughter. He very well understood the old man's lament. In Italy if there is one thing more than another that pleases the native it is to make believe to himself that he has got the better of a bargain. A shrewd purchase enlivens the whole day. It is talked about, laughed over and becomes the history of the day.

Hillard presently left the house and

PATENTED

This is the Square Pot of the

BOYNTON FURNACE

that saves fuel and dollars and will heat the whole of a house. In every great engine and under every big boiler you'll find a square fire box. Ever noticed it? Well—we have adapted that principle to our furnaces. A square pot gives a clean, hot, clinkerless fire without waste of fuel. It requires the least attention and responds instantly. BOYNTON furnaces *only* have square fire-pots. It is our patent. There are other improvements. A square ash pit that improves the draft and makes removal of ashes easier. A pure air supply—for health's sake. A dust flue that saves the rooms above.

Look up the BOYNTON dealer in your town and talk it over.

There are BOYNTON heating plants of all kinds. Ask about our Round or Sectional Boilers for Steam or Hot Water. Also Ranges.

named a Fifth avenue omnibus. He looked with negative interest at the advertisements, at the people in the streets, at his fellow travelers. One of these was hidden behind his morning paper. Personals! Hillard squirmed a little. The world never holds very much romance in the sober morning. What a stupid piece of folly! The idea of his sending that personal inquiry to the paper! Tomorrow he would see it sandwiched in between samples of shopgirl romance, questionable intrigues and divers search warrants. Ye gods! "Will the blond who smiled at gentleman in blue serge, elevated train, Tuesday, meet same in park? Object, matrimony." Hillard fidgeted. "Young man known as Adonis would adore stout elderly lady independently situated. Object, matrimony." Pish! "Girlie. Can't keep appointment tonight. Willie." Tush! "A French widow of eighteen, unincumbered," and so forth and so on. Rot, bally rot, and here he was on the way to join them! "Will the lady who sang from 'Mme. Angot' communicate with gentleman who leaned out of the window? J. H., Burgomaster Club." Positively asinine!

There was scarce one chance in a thousand of the mysterious singer's seeing the inquiry, not one in ten thousand of her answering it. And the folly of giving his club address! That would look very dignified in yonder agony column. He would cancel the thing.

He dropped from the omnibus at the park entrance, where he found his restive mare. He gave her a lump of sugar and climbed into the saddle. He directed the groom to return for the horse at 10 o'clock, then headed for the bridle path. It was heavy, but the air was so keen and bracing that neither the man nor the horse worried about the going. Only one party attracted him, a riding master and a trio of brokers who were verging on embonpoint and were desperate and looked it. Hillard went on. The park was not lovely; the trees were barren, the grass yellow and sodden.

"She is so innocent, so youthful!"

He found himself humming the refrain over and over. She had sung it with abandon, tenderness, lightness. For one glimpse of her face! He took the rise and dip that followed. Yards ahead a solitary woman cantered easily along. Hillard had not seen her before. He spurred forward, faintly curious. There was nothing familiar to his eye in her charming figure. She rode well. As he drew nearer he saw that she wore a heavy gray veil. And this veil hid everything but the single flash of a pair of eyes the color of which defied him. Then he looked at her mount. Ha! There was only one rangy black with a white throat—from the Sandford stables, he was positive. But the Sandfords were at this moment in Cairo, so it signified nothing. There is always some one ready to exercise your horses. He looked again at the rider. The flash of the eyes was not repeated, so his interest vanished, and he urged the mare into a sharp run.

So he went back to his tentative romance. She had passed his window and disappeared into the fog, and there was a reasonable doubt of her ever returning from it. The singer in the fog—thus he would write it down in his book of memories and sensibly turn the page. At length he came back to the entrance and surrendered

the mare. He was about to cross the square when he was hailed.

Hillard wheeled and saw Merrihew. He, too, was in riding breeches.

"Why, Dan, glad to see you. Were you in the park?"

"Riverside. Beastly cold too. Come join me in a cup of good coffee."

The two entered the cafe.

"How are you behaving yourself these days?" asked Merrihew.

"My habits are always exemplary," answered Hillard. "But yours?"

Merrihew gulped his coffee.

"Kitty Killigrew leaves in two weeks for Europe."

REEDIES, BUTTER-FAT, READY FOR GUNNERS

With the rising of the sun today thousands of sportsmen in this State shouldered their guns and made for the meadows and marshes. The rail and reedbird season opened at midnight.

All day yesterday the forces in sporting goods stores were kept on the jump selling guns and ammunition. The sportsmen were eager for "a crack at the reedies," and indications are that the old saying of "a hunter for every bird" will be borne out today.

Many changes have been made in the game laws in this State and New Jersey. Pennsylvania gunners who cross to the Jersey side of the river in quest of game will find themselves up against a stiff license fee. Non-resident hunters in both Jersey and Delaware must pay a license of $10 with an additional fee of 50 cents for the issuance of papers.

Reed and rail birds are on their way to the South, where they spend the winter season. They usually stay in this region until the weather is actually cold, and an incalculable number fall a prey to the gunners annually.

With its plumage of white, yellow and black in the summer, the reedbird is the bobolink of poetry. Feeding on wild rice in the meadows and marshes, the bird becomes fat about this time of the year, and is then transformed into the "reedie" of the sportsmen. If it is successful in dodging shot here, it is identified as the ricebirds in the South.

In size the reedbird is not much larger than the English sparrow. As it appears in feather, it is brown and white striped, and the further south it goes the lighter its color becomes.

Railbirds are somewhat larger than reedbirds, and their meat is superior to that of the latter. Like the reedbird, it migrates north in the summer and returns to the southland when winter's chilly blasts sweep the coast. Both birds have a preference for fresh-water marshes, but they have been known to invade salt-water marshes also.

In gunning for "reedies" sportsmen usually go afoot, but when in quest of "rails" a boat and a "pusher," a man to shove the boat through the marshes, are required.

CHANCELLOR PITNEY TO DECIDE MEANING

William H. Brokaw, of Bernardsville, and Mrs. Mary K. Willis, of Piscataway Township, named by the late Asa Bush, of Dunellen, as beneficiaries of his estate, may not get anything at all from the estate, although specificially mentioned in the will. This is because previous clauses in the document "double up" on their legacies, and if the beneficiaries are disposed of in the order named, there is grave question as to whether there will be anything left.

Walter G. Runyon, the executor of the estate, has secured Henry C. Suydam to look into the complexities of the estate's distribution, and the lawyer has filed a bill with Chancellor Pitney at the Court of Chancery asking for an interpretation of the will and the probable intent of the estator. Mr. Bush died on March 17. Francis J. Blatz has been retained as counsel by Brokaw and Mrs. Willis, nephew and niece of the deceased. The will provides that after the other beneficiaries have received various legacies, all the real estate shall be sold and the proceeds divided between the nephew and nice.

WESTFIELD TO HOLD BIG RACE MEET LABOR DAY

The Labor Day races at Fair Acres track, Westfield, should prove of unusual interest to horsemen and all lovers of light harness racing. Five events will comprise the card and $750 in purses will be paid out to winners. The entries for the 2:14 trot and 2:17 pace promise exceptionally good racing, while the 2:21 trot and 2:24 pace also have a full list of entries.

The 2:25 trot has proven attractive also and about an even dozen will start in this event. The purses in each of these events will be $250. The 2:30 and 2:45 trots are for members of the club and in these events silver cups will be offered. As many of the best stables in the East will be represented in the races, a big crwod is expected and the meet is expected to be one of the best of the season. The purses are liberal and the races will be of a bigh class. Special arrangements have been made for handling the crowds and an afternoon of good sport may be expected.

The Sunday-school of St. Stephen's church will resume its sessions on Sunday, September 12, and the rector, Rev. Morgan Ashley, is expected to return from his vacation next week.

Rev. and Mrs. J. O. McKelvey, have returned from an enjoyable vacation spent on the St Lawrence River.

LABOR VOICES PROTEST AGAINST AMENDMENTS

The Union County Central Labor Union has appointed a committee of three to visit labor organizations and protest against the amendments to the State Constitution which will be voted upon September 14. The union has also sent out the following circular letter:

It is very important that these amendments are defeated and you are urged to see that every member of your local is made acquainted with the action of the Central Labor Union.

Undoubtedly there will be a multitude of politicians, lawyers and other interested persons ready to offer explanations and reasons why the "dear workingmen" should vote for the amendments, but you are warned to pass up such "friendly" advice and unite solidly with your representatives in the various central bodies and go to the polls on September 14 with but one object in view—the defeat of all the proposed amendments.

PARK CLUB "AT HOME" LABOR DAY AFTERNOON

The members of the Park Golf Club have arranged for an "At Home" to be held at the club on Labor Day afternoon from 3 to 6 o'clock, an extra attraction being an approaching and putting competition at 5 o'clock. The idea, a novel one, is intended to bring out as many of the members as possible, while each one is privileged to invite their friends to the club for the day.

In this way the club hopes to stimulate greater interest in its affairs and at the same time afford an opportunity for others to join if they so desire. During the summer season nearly forty new members joined the club and it is enjoying the most successful season in its history. Monday afternoon women of the club will act as a reception committee and refreshments will be served.

Grace P. E. Church.

Rev. E. Vicars Stevenson, rector of Grace Episcopal church, will be in his pulpit Sunday, September 12, and the Sunday-school will resume its sessions on that date. The choir, which has had a vacation during August, will begin its regular work next Sunday, the 5th.

1910 Chalmers-Detroit "30" $1,500

ARRIVED

The only car selling under $2,000 having full floating type rear axle, annular ball bearings throughout; double drop frame and 115 inch wheel base.

It won the Indiana Light Car race on the 18th of June, averaged 51.5 miles per hour for 232 miles. On straightaways its recorded speed exceeded 75 miles per hour.

In the 202-mile race over the Santa Monica course in California, on the 10th of July, the "30" won with an average of 55.2 miles an hour. In both of these contests the "30" motor was the smallest entered.

Any car that can go from Denver to Mexico City or can go 208 miles a day for 100 consecutive days, as a Chalmers-Detroit "30" did, is a pretty safe car to buy.

We strongly advise placing your order early as the Chalmers entire output for 1910 will be sold out early.

WINS U. S. RIFLE HONORS

Major William B. Martin the New National Military Champion Shot.

HIGHEST INDIVIDUAL SCORE.

Former Captain of Company K Carries Off Prize at National Rifle Tournament.

Major William B. Martin, of the Second Regiment, and former captain of Co. K, of this city, won the highest individual rifle honors of the year, yesterday, at the close of the National Rifle Association's tournament at Camp Perry. With the combined national individual and President's match scores, Major Martin won the military championship of the United States, the highest American rifle honor of the year. Major Martin was a member of the American rifle team that visited Bisley, doing such fine work, winning the famous trophy.

In the national individual contest Martin scored 322, in twenty-first place, and in the President's match, the second stage of which was finished in a rush during the afternoon, he made 314. A letter from President Taft is among the many honors coming to the Jerseymen in response to the following telegram sent by Lieut.-Col. R. K. Evans, the executive officer: "The President, Beverly, Mass.: Winner of the military championship of the United States, Major William B. Martin, New Jersey National Guard, Elizabeth; score, 636."

Major Martin has been a member of the Jersey team for eleven years, won the $500 Wimbledon cup in 1901 at Sea Girt, has won the Spencer match there, shot on the Palma team at Sea Girt in 1901, at Ottawa in 1902 and was alternate on the Palma team that went to Bisley in 1903, and last year tied Sergt. William F. Leushner, of Buffalo, for high score on the winning Olympic team—430. Martin also gets a gold medal and 50 per cent. of the entrance rees. Second place was won by Midshipman Thaddeus A. Thomson, whose score was 634, and third by Midshipman Andrew J. Denny, 634.

Midshipman Denny, who first shot up the camp two years ago, when as an unknown Annapolis cadet he made off with both the national individual and the national pistol matches, took the President's with a 316, but Major Martin and Lieut. A. D. Rothrock, of Ohio, winner of the national individual match a year ago, ran him hard. Rothrock got in second with 315 and Martin with 314 was third.

Lieut.-Col. William A. Tewes, of Jersey City, who was second at the start of the second stage, made 38 at rapid fire and 47 at 800 yards in the gale that blew down the tents right and left last night and whistled across the range all the morning, but on the 1,000 yard target he blew up and came home tenth with 311. Sergt. Leushner held twelfth place with 310.

NAPOLEON WYATT HELD FOR GRAND JURY.

Napoleon Wyatt (colored) who is accused by John Mackey of having stolen $18, an axe and a can of tobacco from his home in the rear of the Woodhull & Martin building last Thursday, when the Mackey family moved, was released on bail bond of $100 this morning by City Judge Runyon to appear before the grand jury.

Wyatt denied the charge about the money and attempted to prove that he was not in the room where the money was supposed to have been. His testimony on this point was not clear enough to convince the judge. Regarding the disappearance of the axe which Wyatt claims that Mrs. Mackey told him he might take, Mrs. Mackey says she told Wyatt he might carry it to the moving van, but did not tell him to appropriate it. Wyatt disclaimed all knowledge of the tobacco.

Mrs. Lillian S. Runk's Funeral.

The funeral service of Mrs. Lillian S. Runk, whose death occurred yesterday, will be held tomorrow afternoon from the late home, 110 East Fifth street, at 2 o'clock. Rev. Dr. J. A. Chmabliss, pastor of the First Baptist church, of which Mrs. Runk was a life-long member, will officiate. The burial will be at Bound Brook. The pall-bearers will be Percy McVoy, Millard Fillmore Elderton, L. L. Manning and A. T. Runyon.

DR. WILSON WILL SPEAK

President of Princeton to Deliver Address Here on "Democracy as I See it."

FRIDAY NIGHT, OCTOBER 29.

New Jersey's Leading Democrat and Scholar to Be Heard at the Local Theatre.

The new Democratic club held a special meeting last night in Exempt Firemen's Association hall and besides transacting the regular routine business definitely settled upon the arrangements for the coming visit of Dr. Woodrow Wilson, of Princeton University.

Dr. Wilson has accepted the invitation of the club to speak at a mass meeting to be held in the Plainfield theatre on Friday, October 29, and a committee composed of H. W. Marshall, P. J. Reville and James Colvin were appointed to decorate the theatre and hire the band. Dr. Wilson will address the meeting on "Democracy as I see it" and it is expected that a full house will be on hand to hear him.

The eminent president of Princeton was a candidate for United States Senator some years and now is spoken of as a possible candidate for the Presidency in 1912. He was a lifelong friend of Grover Cleveland and belongs to the Cleveland school of Democrats. He is probably the foremost Democrat in the State of New Jersey, a well known political economist, an author and an educator of the highest attainments, and will no doubt if nominated make a splendid race for the coveted honor of President of the United States.

President Leroy J. Ellis presided at last night's meeting and there were fourteen members of the club present. Four vice-presidents of the club were elected—one for each ward as follows: First ward, Walter L. Hetfield, Sr.; Second ward, W. E. Hoyt; Third ward, A. H. Atterbury; Fourth ward, J. J. Varley. The nominating committee for the coming primaries is composed of P. J. Reville, chairman; Harry W. Marshall, W. L. Hetfield, Sr., and J. T. McCarthy.

Next Tuesday night James E. Martine and John Seifert, of Arlington will engage in a debate on the question of the Constitutional amendments. This ought to prove a thriller for members of both parties and will undoubtedly bring out a crowd which will fill the club room to its utmost capacity.

TWO WOMEN BATTLE WITH FENCE PICKETS

A dead chicken was the cause of it all. Fence pickets were the weapons and Mrs. Susan Orlach and Mrs. Bertha Richter were the combatants. Mrs. Richter says that Mrs. Orlach, a neighbor, killed the chicken, and in properly punishing her for the offense. She, herself, was bruised and battered in the fight.

Patrolman McGinley stopped the battle, which took place at Mrs. Richter's East Second street home yesterday afternoon, and arrested Mrs. Orlach, who lives on Midway avenue. The prisoner was badly battered about the face and shoulders with the fence picket weilded by her neighbor, but had apparently made good use of the similar weapon she flourished. The bad feeling between the neighbors was clearly evident at their appearance in court this morning when Mrs. Richter came, with several witnesses, to press the complaint. Judge Runyon postponed the case until tomorrow morning, and Mrs. Orlach was released on her own recognizance to appear in court at that time.

Wants Information About Accident.

W. M. Ward, of Newark, today advertises in The Daily Press for information of an accident in which a Public Service Corporation car hit a milk wagon, at night or early morning and killing one or more persons. MILK BOTTLE THIEF CAUGHT

Charles Feller Nabbed While Stealing Empties from St. Mary's Convent.

HE IS FINED TWENTY DOLLARS.

Has Been Stealing for a Year—Confesses to Other Thefts in City Court This Morning.

Arrested by Patrolman Vanderweg as he was leaving the yard at St. Mary's convent early this morning with a milk bottle he had stolen from the back stoop, Charles J. Feller, a milkman of 37 Pearl street, was fined $20 by Judge William N. Runyon at his hearing this morning, when the larceny charge was pressed by A. R. Phillips, a Grandview avenue milkman, to whom the bottle belonged. Several local milkmen, who serve their customers in plain bottles have suspected Feller of taking them, and the arrest was made by the policemen after a five-hour watch at the convent, from which bottles have been missed for several weeks past.

At his hearing before the city judge, Feller confessed that he had been taking bottles belonging to other milkmen for several weeks past. He has been in the milk business for about a year, and during that time has only bought 500 bottles. In imposing the fine, Judge Runyon said that he felt that the practise of stealing bottles should be stopped, and that, fearing that matter might be looked upon as trivial by the grand jury, he would impose the fine at the local court. The fine is an equivalent to twenty days' imprisonment.

Phillips, who has missed bottles at frequent intervals for some time past, complained to the police, and Patrolman Vanderweg was detailed to keep watch at the convent, from which bottles belonging to Phillips have been taken for several weeks past. The policeman saw Feller, who delivers milk at a house next the convent, climb the fence and take the bottles from the back stoop.

Business College Opens.

The school session at the Plainfield Business College was opened for the regular fall term yesterday and the indications point to a most successful season. This is the beginning of the fifth year of the college under the proprietorship of Professor A. S. Herr, who purchased the business from Dr. Phelps. The faculty this year will remain the same as last year—Miss Stone, assisted by Miss Korf, in the stenographic department; Professor Herr, assisted by C. D. Burgees, in the bookkeeping department, and Mrs. Herr, who is vice-principal, in charge of the English department. Martin B. Stutsman will take the place of J. Henry Crane in teaching commercial law.

KING BOLT BROKE— TURNED SOMERSAULT.

If you want to know just how it feels to be thrown head-over-heels in the air for ten feet and land on the back of a bronco that doesn't mind the impact of your body, just go to Emil Flackner or Jules Fourquet who came into town yesterday afternoon, driving a quiet enough nag whose sole ambition seemed to be to get somewhere and enjoy a good feed.

Emil and Jules accompanied by a friend were driving east on Front street and when opposite Somerset (this is almost appropriate) the king bolt of the wagon snapped and the three occupants of the wagon were tumbled out over the dashboard. Both Fleckner and Fourquet turned completely over in their descent to the street, but fortunately arose uninjured. The trio said they came from over Dunellen way and as soon as repairs were made to the outfit they turned around and went home.

To Open Bowling Season.

The local bowling season will be inaugurated on Saturday, when Johnny Campbell will open his alleys on East Second street, for the fall and winter. The local pin knights are anxious to knock the pins over, having had a long vacation, and it is expected that a large number will gather at the alleys for the first game of the season. As yet no plans have been made for tourneys, and until the local "champers" get into their stride, open games will be the rule.

MARRIES A TRENTON MAN

Miss Anna Coriell Randall the Bride of William Y. Bellerjeau.

WERE MARRIED LAST EVENING.

Home of Mrs. Elizabeth M. Randall on Somerset Street, is the Scene of Happy Wedding.

Miss Anna Coriell Randall, daughter of Mrs. Elizabeth M. Randall, of 241 Somerset street, and William Young Bellerjeau, of Trenton, were married last evening at 7 o'clock at the bride's home by the Rev. Albert J. Neisley, pastor of the Third Presbyterian church of Trenton. Miss Harriett Randall, a sister of the bride, was the maid of honor, and Clarence E. Holcomb, of Brooklyn, was the best man. The bride was given away by her uncle, B. Frank Coriell.

The general color scheme was gold and white, the parlors being handsomely decorated with golden rod, hydrangeas and palms. Eight ribbon bearers preceded the bridal procession into the front parlor, where beneath a canopy of goldenrod and white roses the ceremony was performed. The ribbon bearers were Misses Elizabeth Randall, sister of the bride, Lucie Coriell, a cousin; Daisy, Marie and Elizabeth Bellerjeau, sisters of the groom; Anna Holder, of New York; Mary Dunham and Mrs. John I. Holder, of New York. LeRoy Raisch, of Trenton, a cousin of the groom played the bridal chorus from Lohengrin as the couple approached the temporary altar and as a recessional Mendelssohn's wedding march.

The bride wore a white mousseline gown over white silk and wore a veil. She carried a boquet of bridal roses and smilax. The maid of honor was attired in corn colored liberty satin over silk and she carried a shower bouquet of asters and smilax. After the ceremony a short reception was held after which Mr. and Mrs. Bellerjeau took a train for a wedding trip keeping their destination a secret.

Among the guests were Mr. and Mrs. W. L. Raisch, and Mrs. B. V. Reeves, of Asbury Park; Mr. and Mrs. D. V. Bellerjeau and Mr. and Mrs. Charles H. Young, of Trenton; Mr. and Mrs. John I. Swackhamer appeared for Ramsberger.

LIABILITY ACT EFFECTIVE

Statute for Which E. R. Ackerman is Responsible is Progressive Measure.

PROVISIONS OF THE LAW.

It's of Great Benefit to the Workingman—Went into Effect Yesterday.

New Jersey lawyers are interested in State Senator Ernest R. Ackerman employers' liability act, which went into effect yesterday. A salient feature of the new law which should be known to all employees is section 2. No action can be brought for injury or death unless the employee shall within 120 days give to the employer notice of the time, place and cause of the injury upon which suit is to be brought.

The action must be commenced within one year after the accident. This was formerly two years. The notice must be in writing, signed by the person injured or some one in his behalf. In case of the death of the injured person without giving notice the executor may give such notice within sixty days of his appointment.

The notice must be served on the employer, or, if there is more than one, upon one of them. It may be served by delivering the same to or at the residence or place of business of the employer. It may also be served by registered mail.

This is a complete change from the present laws, and puts upon the injured person restrictions which never existed before. Unless he serves the notice required in the act he will be absolutely barred from recovering for his injuries, even though the employer is fully as well informed as to how the accident happened as the injured man.

Brennan Used Indecent Language.

Joseph Brennan, of Dunellen, was arrested on West Front street, near Somerset street, this morning at about 11 o'clock by Patrolman Myers, for disorderly conduct. The Dunellenite was intoxicated and stood near the corner making insulting remarks to women and children who passed. As he was unable to navigate accurately, he was taken to the police station in the patrol wagon and locked up to await a hearing tomorrow morning.

Fence Was on Fire.

A small fence fire in the rear of Daly Bros.' grocery store on West Front street, called the department out at 2:30 o'clock this afternoon in response to an alarm from Box 12. By the time the apparatus arrived the blaze was extinguished. The damage was slight.

ELKS STALK TO DOVER

"Best People on Earth" Have Big Time at a Stag Affair.

ATTEND SHOW AT THEATRE.

Following a Repast Speeches and Songs Are Liberally Provided by the Guests.

About fifty members of Plainfield Lodge, No. 885, B. P. O. E., were guests of Dover Lodge of Elks, last night, and the Plainfielders were royally entertained. The Elks made the trip to and from Dover in automobiles, a dozen machines being pressed into service for the journey. The start from here was made about 5:30 o'clock and it was 2 o'clock this morning when the Elks reached home.

The Bon Ton theatre was specially engaged by the Dover Elks for a private performance for the Plainfield Elks and a small party of Paterson Elks, who, together with the Dover boys comfortably filled the orchestra seats of the small theatre, which is directly underneath the Elks' rooms.

The performance was a thriller. Encore followed encore. A moving picture exhibition filled in the gap before the party adjourned to upstairs, where a "bountiful spread" awaited them.

After the spread speeches were made by Exalted Ruler Fritts, of Dover; Exalted Ruler John H. Cose, of the Plainfield lodge; Past District Deputy A. D. Findlay, of this city; Past Exalted Ruler Gillen, of Dover and Past Exalted Ruler George O. Stevens, of this city. Interspersing the speeches, a quartet comprising Elmer D. Cutting, Harry Blimm, John Todd and William Smith, of this city, entertained the company with a number of the latest songs. They were repeatedly encored.

It was about 1 o'clock when the Plainfield Elks began to take their departure, the last machine leaving at 3:30 o'clock this morning. The Plainfielders are loud in their praise of the fine entertainment provided by the Dover lodge. The committee in charge of the affair comprised Joseph V. Baker, W. B. Gillen, W. H. Cawley, Jr., and Charles K. Ely.

"Tom" Muir, a former Daily Press reporter, went to Dover from Lake Hopatcong and sang several selections, for which he was loudly applauded. Taken altogether the visit was one of the most pleasant ever made by the local Elks, and on the streets today our boys are extolling the good fellowship of the Doverites whom they expect to entertain in Plainfield before long.

Mr. and Mrs. Linke Going Abroad.

Mr. and Mrs. Frank Linke, of West Front street, will leave next week for Europe, where they will remain for several weeks. While abroad they will visit Mr. Linke's native home in Germany.

AN ALLEGED HORSE THIEF

Mike Riccardi and Son, Benjamin, Accused by Norristown, Pa., Sleuth.

HELD IN $1,500 BAIL EACH.

Horses Stolen in Eaglesville, Pa., Found in North Plainfield—Prisoners Say They Bought 'Em.

Mike Riccardi, 50 years old, and his son, Benjamin, 25, both Italians claiming Pittston, Pa., as their home, were held in $1,500 bail each this morning by Borough Recorder Dolliver in the borough police court, on a charge of horse stealing preferred by Detective Charles H. Martin and Jacob Lampert, of Norristown, Pa. The two men were apprehended last night and locked up on suspicion.

Detective Martin and Mr. Lampert, the latter owner of the two animals now located in Stonewall Jackson's livery stable off Somerset street, in the borough, have traced the horses all the way from Pittston, where they were first offered for sale.

There were three horses stolen from Mr. Lampert at the same time last spring, one of which has been disposed of by the thieves during the long drive from that city, and which it has been impossible to trace. The Riccardis claim to have bought the animals at Pittston and say they are willing to go back there and prove their claim. But the two men tell such conflicting stories that neither is believed and they are being kept apart so that they cannot frame up anything that will harmonize.

Although Detective Martin was unwilling to state how the alleged horse thieves were caught it was learned that the animals were offered for sale at Jackson's stables and that becoming suspicious Officer Pope of the borough police was summoned and the men taken into custody.

Mr. Lampert said that he has positively identified the horses now in Mr. Jackson's stable as his property, and will prosecute to the fullest extent the two men whom he believes to be the guilty thieves. The penalty in Pennsylvania for horse stealing is from fifteen to twenty years in State's prison.

The New Jersey law is very specific in cases like this and it will not permit the release of the men who have been captured except upon requisition papers from the State from which they are alleged to be fugitives. Up to 2 o'clock the two suspected man had been unable to obtain the amount of bail demanded by Recorder Dolliver.

GILES ARRESTED AGAIN; PAYS FIVE DOLLARS FINE.

John Giles, of Highland avenue, whose love of liquor has made him a prisoner at the city police court for an even dozen times within the past five years, paid his first fine this morning, leaving $5 with Judge Runyon to secure his freedom. He was arrested by Patrolman Myers, and explained his unfortunate condition by saying that yesterday was pay day.

Intoxication has been the cause of jail terms totalling 160 days for Giles, and at one time he was banished from Plainfield for a time. "I'm going to try fining you this time'," said the Judge in imposing today's punishment. "It'll be five dollars this time, and double that penalty after your next arrest."

MISS LILLIAN PAULY TO WED GEORGE B. HOOLEY.

Announcement is made of the approaching marriage of Miss Lillian Pauly, daughter of Mr. and Mrs. Emil Pauly, of South avenue, and George B. Hooley, son of A. G. Hooley, of Rockview terrace. The event will be celebrated quietly at the home of the bride's parents, Wednesday afternoon, September 15, at 4 o'clock.

Both Miss Pauly and Mr. Hooley are well-known in the younger society set and have a large circle of friends and acquaintances. Mr. Hooley is engaged in business in New York as a stock broker and the couple will continue to reside here.

Alleged Bike Thief Caught.

The police yesterday captured Joseph Schwartzman, who is accused by Richard Harris, colored, of having stolen his bicycle several days ago. Schwartzman was locked up and at the session of court today Judge Runyon postponed his hearing until tomorrow. The bicycle was taken from the curb at Grant avenue and South Second street.

LEADER AMONG NEWSPAPERS.

The Philadelphia Record a Journal That Is Not Selfish as to the News.

One of the many traits that commend the Philadelphia Record to people who do not live in the great cities is that it is a newspaper that is not selfish about its news, and is not city-centered in its ambitions. There has long been a well-grounded complaint that most of the great metropolitan dailies are provincial, and take it for granted that city news is all that it is necessary for them to print.

The Record apparently takes a different view. While giving a faithful chronicle of all that occurs in its own city, it does not neglect nor skimp the news of any part of the wide field that it covers. Any issue of this big newspaper is full of proof that it prints full and reliable reports of everything of interest that occurs in its whole territory.

Mr. and Mrs. Nathan E. Lewis, of Arlington avenue, who have been spending their vacation near Westerly, R. I., have returned home.

Mr. and Mrs. Francis J. Blatz, of West Front street, who have been spending their vacation at Atlantic City, returned home yesterday.

JOURNALISTIC OPINIONS

The Press and the Amendments.

Of the fifty-four daily and 235 weekly newspapers published in New Jersey only nine, so far as the News has noted, are actively opposing the adoption of the proposed constitutional amendments. Five times as many are vigorously standing for the changes. The rest of the papers are non-committal on the subject. Some of them have been absolutely silent, while others have simply urged their readers to go to the polls on September 14 next and cast their ballots "according to the dictates of the conscience." Notable in this latter class are the acknowledged organs of some of the Republican "real leaders." Six of the nine active opponents of the amendments are newspapers absolutely controlled by the bosses of the Democratic machine.

It is perhaps possible to use these known facts as to the stand of the newspapers for a gage to forecast the popular feeling as it will be recorded at the polls next month. The silence of the big majority of the newspapers is significant of the lack of interest in the propositions on which the people are to vote. It probably indicates an unusually light vote for even a referendum election. The fact that the personal organs of Republican achine leaders are silent or evasive would seem to indicate that their sponsors oppose the changes, but do not dare to say so openly. The Democratic bosses, on the other hand, are more frank and are willing to take the responsibility of letting it be known where they stand. Some of them have private interests to serve by fighting against the amendments, while others simply follow the leadership in order to retain the good will of the bosses. The majority of the independent papers are in the class favoring the amendments, and they are constantly giving their reasons for the position they have taken.

There are still tow weeks before the special election will be held, and it may be that a good many of the heretofore silent and non-commital papers will come out into the open and take a stand on the important issues contained in the proposal to change the fundamental law of the State. If they do so it will be possible to more accurately fix the strength of the friends and the opponents of the amendments. The campaign so far has been almost exclusively a newspaper campaign, at least on the surface. In the next fourteen days, however, with noted speakers in the field, the scope of the campaign may be widened and some of the real inwardness of the opposition ay be developed in a way to open the eyes of the voters to the necessity of going to the polls and vting for a reform in the judiciary system.—Newark News.

REGISTERED LETTERS TO COST 2 CENTS MORE.

Washington, Sept. 2.—Postmaster General Hitchcock on Monday officially announced his decision to increase the registry fees from eight to ten cents in a brief address before a general committee of registry officials, who were called to Washington from various parts of the country. The committee was instructed to consider the registry system in all its ramifications and reajust its operation in accordance with the change in the fee, making such improvements in methods as will insure greater efficiency in the service and less expenditure.

The conference was called to order in the office of the Third Assistant Postmaster-General by acting Chairman Henry D. Temple, assistant superintendent division of registered mails of the Postoffice Department

CHEER UP!

There's a tariff on sugar,
A tariff on ice,

That comes from the sea—
But, whoop, hallelujah!
Salvation's still free!

There's a tariff on muskets,

The Plainfield Baseball club will play at Rahway on Saturday, when the locals hope to defeat the Rahwegians for the first time this season.

"Bill" Dalton, who formerly played on the Plainfield team, has certainly made himself solid in New Brunswick. "Bill" was out of the game for a time with a sprained ankle, and the fans presented him with a gold watch fob upon his return Sunday.

Langstaff put one over New Brunswick, Saturday, pitching for Bound Brook, and the fans from Brunswick haven't gotten over it yet.

Speaking of popular baseball fans, "Dave" Driscoll can have most anything he wants in New Brunswick. He apepars to have delivered the goods.

Manager Pope will take the Plainfield A. C. to Berkeley Heights Saturday afternoon, where he expects to administer a crushing defeat in return for last week's result. Slocum will put 'em over the pan for Plainfield and a different story should result.

Bound Brook is putting up a fast game these days. Plainfield fans would like to see the combination on Crescent Oval.

Now that it is practically a certainity that the Giants cannot win the pennant, the fans are showing their interest in other teams. There are many supporters of the Philadelphia Athletics and the Boston Americans here, while not a few would like to see Detroit win the American League flag.

It is the hope of many fans that Pittsburg win the National League championship. It has been several years since the honors went to the Smoky City aggregation and considering the fast game being played, Fred Clarke's team is entitled to first place.

All things considered Roger Bresnahan has done better with the St. Louis team this season than former managers, and this club will doubtless be a strong contender for first honors next year under Bresnahan's able coaching.

Despite the fact that the Giants have spent a lot of money for players the 1909 season is closing with practically the same condition as last, that is the club is weak in the pitching department. Mathewson and Wiltse are the dependable ones, while Ames can only be used occasionally.

GOLF.

In response to a question sent from the Nga Motu Golf Club, New Zealand, the rules of golf committee of St. Andrews, Scotland, recognized except by the Western Golf Association as the supreme authority, has decided it is not permissible to use a small croquet mallet to putt with. The question referred to the make and form of golf clubs as dealt with in the revised rules, is not a golf club and is inadmissible." This forbids taking a croquet mallet from its own game to use on a golf course; it is an implement of another game, which was the reason the committee forbid Richard Peters using a billard cue to putt with in the United States championship in 1895. Then St. Andrews decision does not affect mallet headed putters or making a stroke in croquet style, but the committee never crosses a bridge until it comes to it, and if asked for a decision subsequently it may place a ban against both.

The first mallet headed putter in use here was the device of A. Z. Huntington, now for some years a leading member of the Scranton Country Club. He took the idea from a croquet mallet, for he formerly excelled at that game. Before the start of the first open amateur tournament at Van Cortlandt Park in the fall of 1896 Huntington showed the club to John Reid, the referee, and asked him if it was against the rules to use it. "'It is a queer looking golf club," said Reid, 'but you may put with an umbrella handle if you want to."

In the spirit of the suggestion on the make and form of golf clubs in the revised rules, an umbrella handle would now be unorthodox. It must be said for the mallet putters that all clubs with a broad, flat sole are in a way on the same principle as compared with the ordinary putter or putting cleek. A move against mallet headed putters might ultimately react on the flat sole putters of aluminum, wood, celluloid or what not. Some of them suggest sadirons and the celluloid one the soap dish on the washstands of old style hotels.

"Croquet style" is the term to describe the method of a player who faces the hole and swings the club forward to strike the ball, in pendulum fashion and as yet this has not been pronounced an illegitimate stroke. Miss Pauline Mackay, now Mrs. Bruce Smith, putted in this style when she won the women's championship in 1905 and it is favored also by Miss M. B. Adams, champion of the Women's Eastern Golf Association. She putted in the same way when she competed in the British women's championship, having since had many imitators in that country both among her own sex and the men. Many men put that way here. H. H. Hilton, in the British amateur championship of two years ago, tried one handed putting with an aluminum club. As long as the ball is hit fairly and not scraped, spooned or pushed, the St. Andrews committee has thus far ignored the position of the person putting, provided it is a standing pose. The weight of the body must be borne on the two feet, not on the hands and knees as when a put is attmepted with a billiard cue.

LIBRARY APPROPRIATION OMITTED FROM BUDGET

Application has been made by the public library commissioners of Cranford to the Union County Board of Tax Equalization to have the tax board insert in the Cranford budget for the coming year an appropriation for the Cranford public library. This the board refused to do.

According to law every municipality in the county must file with the county board before the third Tuesday of August a copy of the budget for the ensuing year. When the Cranford township committee filed its budget it omitted to make any appropriation for the library.

The citizens of Cranford voted on the library proposition in the same way that the citizens of Elizabeth did last year, and the library commisioners there claim that it was the duty of the township committee to make provision for the library according to the law, as the voters were in favor of its establishment. The township committee claim that as there is no library at the present time there is no need of the appropriation.

This plea the library commissioners hold is not valid, as there is need of money for the preliminary steps, and as soon as their new $10,000 Carnegie library is completed there will be immediate need of money for books, furnishings, etc.

The County Tax Board refused to add the library appropriation to the budget filed by the township committee on the ground that the tax board has no jurisdiction in the matter at all.

It is said that the township committee has been advised that it must eventually make an appropriation for the library and the library commissioners are determined that it shall be made.

WOULD BEAUTIFY CEMETERY.

Westfield Man Starts Fund to Restore Historic Spot.

R. P. Greaves, who probably has more ancestors than any other man in Westfield, buried in the historic First Presbyterian church burying ground on Mountain avenue in that town, has started a popular subscription to raise money and beautify the old cemetery.

The burying ground is under the charge of the Presbyterian church. The cemetery is located high above the roadway and the town authorities have been trying for some tome past to devise some means, whereby the embankment can be cut down and a sidewalk laid.

George Ober as "Rip VanWinkle."

George Ober, who will appear here at the Plainfield theatre, Labor Day, as "Rip VanWinkle," in the play of that name, it is said, is truer to the part as acted by Joseph Jefferson than his son, Thomas Jefferson. He has been appearing in the Catskills, where the scene of the play is laid, and has met with great success. Natural scenery, instead of painted scenery, is used in the production. An exceptionally fine company supports Mr. Ober.

At Proctor's.

An unusually fine vaudeville bill will be offered at Proctor's theatre, today and for the rest of the week, equally as good as the one during the first of the week. There will be the Rupert Trio, spectacular jugglers; Gordon & Keyes, an exceptionally clever team of comedians; Althea Morrison, fancy dancer, and Ellery & Rainford in a sketch, "The Love Making Machine." There will be new films d'art.

ALLEN ADMITS HIS GUILT

When Questioned by Authorities, He Confesses He Killed J. J. Carey, Jr.

HELD ON MURDER CHARGE.

Lodged in County Jail to Await the Action of the Union County Grand Jury.

Handcuffed to Deputy Sheriff James Crann, John Allen, known as "Sailor Jack," the slayer of James Carey, Jr., shortly after noon yesterday was taken in the patrol wagon from police headquarters at Elizabeth to the county jail, where he will await his trial on a charge of murder.

Before being removed to jail, Allen was taken to the Detective Bureau, where for more than a half-hour he was in the presence of Chief of Police George C. Tenney, Assistant Prosecutor Walter Hetfield, Jr., County Detective John A. Galatian, Coroner Adolph Degenring, Judge Mahon and several police detectives. Allen confessed when questioned, to having stabbed Carey. He said that he had been fighting with the young man. The prisoner was committed by Coroner Degenring to await the action of the grand jury on a murder charge.

Allen, when taken from his cell today, complained of pain in his left arm, which he carried in splints. When questioned about it he said that it had been broken several weeks ago. He expressed little emotion when removed to the jail.

Since his arrest the prisoner has not seen his wife. Mrs. Allen was at police headquarters Monday night, but when told then that she could see her husband on the next day she said that it would be impossible as she worked during the daytime.

The grief at the Carey home today is pathetic. James Carey, the boy's father, is very much broken up over his son's fate. Mr. Carey, through his long service as a constable and as assistant custodian of the county courthouse, is probably one of the best known men in the county. He received more than a hundred letters yesterday and today, among them being many from city, county and State officials, expressing sympathy.

The dead boy was well known about town. He was one of the first to enlist when the call was made for troops at the beginning of the Spanish-American War.

"We find that James J. Carey, Jr., came to his death by a stab wound in the right chest, inflicted by a knife in the hand of John Allen, between the hour of 5 and 5:40 o'clock on the afternoon of August 30, in a field adjoining the Jenkins Rubber Works in Magnolia avenue."

This was the verdict returned by a coroner's jury yesterday afternoon following an inquest held in the Courthouse. The jury deliberated on the evidence furnished by the State but a few minutes. Coroner Adolph Degenring presided over the inquest.

The State, represented by Assistant Prosecutor Walter Hetfield, Jr., through the testimony of Carey's companions and police officers, established a strong chain of evidence against Allen. The blood-covered knife with which Carey had been stabbed was produced by Police Officer Frank Lehman, who testified to taking it from Allen's hand when he arrested him. It was identified by several witnesses as one which Allen carried Monday afternoon.

Evidence of Premeditation.

Evidence of premeditation on the part of Allen was produced by Mr. Hetfield through witnesses who had been present Monday afternoon when the accused quarreled with the murdered young man.

It was brought out clearly by several witnesses that only a few minutes before Carey was found lying in the lots fatally wounded, Allen had threatened to "get even" with him. Not one witness called had actually seen the stabbing. The two women—Miss Ellen Donnegan and Mrs. Catherine Maran—whom the police believe to have been eyewitnesses of the affair, were not called, nor were they prsent in the courtroom.

A summary of the evidence given yesterday is that Carey and Allen had been members of a party of six young men all Monday afternoon. The party had spent most of the afternoon in the fields near the rubber works, during which time Allen was drinking from one of two bottles of whiskey he had in his possession. Allen later in the afternoon arose from a position he had occupied on the ground and in doing so struck Carey on the nose, knocking off a scab from an old wound. Carey remonstrated with Allen and a war of words ensued. It was then Carey told Allen that a year ago the latter had knocked his brother, Frank Carey, from a wagon and severely injured him.

Threatens to "Get Carey."

The quarrel between the two was quieted by the young men's companions. Allen then sat down and, according to several witnesses, cried. At that time it is said he declared he "would get Carey yet." Shortly after this Allen left, saying that he was going home. A few minutes later Carey also started for his home.

These details were given by Joseph McCandless and William Conway, two of the young men who were with Carey and Allen in the field. Conway told of the early part of the quarrel between the two young men. McCandless said he arrived on the scene later but in time to hear Carey refer to the incident when Allen pushed his brother from a wagon.

Some time after Allen and Carey had started for their homes, McCandles said that he saw two women who were crossing the lots some distance away and in the direction of Magnolia avenue, pause and start back as though in fear. With his companions McCandless rushed to the assistance of the women, thinking that possibly they were afraid of a cow or a dog. Going around the corner of the rubber factory, he said he found Carey staggering about the lots.

McCandless Gives Assistance.

He asked him what had happened and he declared Carey replied that he had been stabbed. McCandless opened the injured man's shirt and blood gushed out. Carey asked to be taken to the hospital but was compelled to lie down after he had been assisted for a few feet across the lots by McCandless. Carey did not say who stabbed him, according to the witness.

Allen, in the meantime, had boarded a wagon driven by a man named Decker. The latter was an important witness at the inquest. He said that Allen ran after his wagon and boarded it with his assistance. Allen at the time held a knife in his hand and muttered when he crawled up beside him that he had "fixed him that ime."

Saw Blood on Knife.

Decker said he saw blood on the knife, but paid no attention to the fact at the time. At the entrance to the rubber works he said Allen had left him, going over Division street in the direction of the railroad.

Probably one of the most important witnesses at the inquest yesterday was William Carey, brother of the murdered young man. His description of the pursuit and capture of his brother's slayer, as told in yesterday's Journal, was dramatic. He found Allen in Division street, and accused him of stabbing his brother. Allen, he said, fired a bottle of whiskey at him and told him if he didn't go away he would "wind up his watch like he had wound up his brothers." Allen, he said, had bitten him while he struggled with him.

"IN THE WRONG WIGWAM"

Scene from "The White Squaw" at Plainfield Theatre tonight.

LOCAL AMUSEMENTS.

Until the past year or two very little though has been given the Indian. Mr. John Wanamaker with his beautiful pictorial production of Longfellow's ever-loved Hiawatha, and the production of the same poem enacted by real Indians the past summer on Lake Champlain, in which President Taft, Governor Hughes, and many other well known men and women from all parts of

William Dunley with Geo. M. Cohan's "Honeymooners" at Plainfield Theatre Friday night.

the country, showed so much interest, leads us to believe that the present generation has a far kindlier feeling for the red men than did our ancestors. The white squaw, who is the central figure in the play of the same name, which will be presented at the Plainfield theatre tonight, was feared and loved by Chippewa Indians. She will tell you how kind they were to a white man's daughter. There are two Indian characters in the play, a chief and his squaw; also a French trapper; a fur trader for the John Jacob Astor Co.; the white squaw's beautiful sister, and a surveyor and his wife.

Geo. M. Cohan is prodigal with his wonderful gifts of humor, musical composition and dialogue. He lavishes riches upon his productions and "The Honeymooners," his latest and greatest son show, which comes to the Plainfield theatre tomorrow night, contains no less than twenty new songs, a breezy stirring plot, crisp fascinating dialogue, and two score of the prettiest girls who have ever left Broadway under the Cohan banner. "The Honeymooners" comes direct from the world famous New Amsterdam theatre in New York, where it played all last summer to record breaking business, seats selling throughout at $2.00. It is precisely the same production which will be seen here. Those who saw the New York presentation will remember what a gorgeous spectacle it was, the gowns and scenery being singularly beautiful.

Polly and the Minister in "Polly of the Circus," at Plainfield Theatre, Wednesday, September 8.

In speaking of the coming of the new edition of "Buster Brown" at the Plainfield theatre Saturday matinee and night, its a striking peculiarity of this production, for it appeals with equal force to all classes of theatregoers. There is nothing in this little musical comedy with which the most fastidious taste or the most moral sensibility can find any fault. Buster Brown recognizes that patronage is derived from the best class of people, of which ladies and children form a very important element, and it is with a view of entertaining without nauseating and with the idea of entertaining and interesting without vulgarity, is the secret of its popularity. This season all new costumes and scenery have been provided together with the latest and most popular songs and music. Master Rice will be seen in the character of "Buster" and Tommy Colton as "Tige."

In the coming presentation of "Rip Van Winkle," at the Plainfield theatre on Labor Day, Mr. George Ober will be supported by his Sylvan players, who have been especially selected for the parts in the two plays he will present in the open air this summer, as he has for the past three seasons. The first presentation was at Palenville, in the heart of the Catskills, which is known as "The Village of Falling Waters," selected by Washington Irving as the scene of Rip's home and the Kaaterskill Clove, between two mountains, the path up which Rip climbed to his meeting with the Heinrich Hudson's Gnomes, with whom he drank the fatal draught which caused him to slumber twenty years, while his

Bessie Merrill with "Honeymooners" at Plainfield Theatre Friday night.

little girl grew up and his wife and others grew old, and he grew to look like Father Time, himself, so no one recognized him when he climbed slowly down to the village where he had revelled and danced and enjoyed his lazy, vagabond life—twenty years ago. For three summers now, Mr. Ober has followed the example of Rip's irate wife, and turned Rip "out of doors," where he lives the old story over again, with the wildwood for a stage and leafy bowers for scenery.

An instance of the endeavors the management of the Plainfield theatre is making to secure the very highest class of contemporary attractions for local theatregoers, is found in the announcement that contracts have just been signed for the presentation here on Wednesday, September 8, of the great American play, "Polly of the Circus," which has firmly established itself as the really worthy theatrical success of the present generation. In addition to disclosing one of the prettiest romances the stage has recently brought forward, "Polly of the Circus" is famous for two of the most amazingly realistic scenic productions in history— its elaborate picture of a circus performance, and the departure of the red wagon caravan after the night show, setting a new high-water mark in stage illusions.

AMERICAN HUMORISTS WILL HONOR BURDETTE.

Merrymaking will cease for one day at the American Press Humorists' seventh annual convention in Buffalo, N. Y., this year as a mark of love and sympathy for the "perpetual parson and pastor emeritus" of the association, Rev. Robert J. Burdette, who is seriously ill at his home near this city. The suggestion, made by Frank T. Searight, of Los Angeles, president of the humorists, met with full approval of the fun writers, and Acting Secretary John D. Wells, of Buffalo, has arranged to call September 11 "Bob Burdette day."

The convention, which begins September 6, will be noted for a visit to the home of Elbert Hubbard and luncheon and dinner at Roycroft Inn.

The program, as announced by President Searight, includes trips to Niagara and Canada, yacht races specially for the humorists, banquets, theatre parties and a day at the Hamburg County Fair.

FILES BILL IN COURT TO GET DOUBLE TRACK.

An application for a bill has been filed in the Court of Chancery by the Atlantic Coast Electric Railway Company, restraining the borough of Bradley Beach from interfering with the work of laying a double track in the municipality. The trolley people contend that an ordinance providing for a double track was passed by the Borough Council twelve years ago, but the right was never exercised.

The bill declares that public necessity practically demands a double track through the borough, that an ordinance was passed granting franchise for a double track and that it is still effective.

Under the present circumstances it is believed that further opposition to the trolley company's extension through the borough will be removed and that a double track in Bradley Beach will be in operation by another year.

EX-ELIZABETH WOMAN ADMITS CHICAGO THEFT.

Mrs. Frances Everett, forty years old, who said she once mingled in New York society and that she had wealthy relatives in the East, told a pitiful story to Municipal Judge Torrison, in Chicago yesterday, who is holding her pending a further investigation.

Mrs. Everett was charged with stealing silver and clothing, valued at $75, from Mrs. E. Mullen, owner of a boarding house.

"I was a wealthy woman once," she said. "My father was a graduate of Yale. I have to Europe six times. I was married to Frank Roberts in 1883 and we lived for a time in Elizabeth, N. J. Frank was killed and I fell heir to $30,000. In 1888, I married a man named Boist, a grocer in New York. I eventually became penniless. I worked for years to pay back money he owed. I got a divorce in 1901."

The Lure of the Mask

"And who the deuce is Kitty Killigrew?" demanded Hillard.

"What!" reproachfully. "You haven't heard of Kitty Killigrew in 'The Modern Maid?' Where have you been? Pippin! Prettiest soubrette that's hit the town in a dog's age."

"I say, Dan, don't you ever tire of that sort? I can't recall when there wasn't a Kitty Killigrew. What's the attraction?" Hillard waved aside the big black cigar. "What's the attraction?"

"The truth is, Jack, I'm a jackass She went downstairs to the piano and played with strong feeling. Presently she began to sing a haunting, melancholy song by Abt. She was mistress of every tone, every shade, every expression.

The door opened gradually. Crash! The music was over.

"Bettina? Bettina, *are you listening?*"

"I am always listening." Bettina squeezed into the room. "It is beautiful, beautiful! To sing like that! There will be kings and dukes at your feet!"

"Enough!"

"Pardon, signora, I forgot. But listen. I bring a message. A boy came to say that the rehearsal will be at 4 this afternoon. It is now after 12."

"So late? We must be off."

"And the letter upstairs on the floor?"

"Some day, Bettina, you will enter the forbidden chamber, and I shall have to play Bluebeard. This time, however, I do not mind. Leave it there or burn it," indifferently.

Bettina knew her mistress. She thought best to leave the letter where it lay, forgotten for the time being.

CHAPTER IV.

BLINDFOLDED.

FOR two days the club steward only nodded when Hillard came in. He had no letters to present.

"I am thirty-three years old," Hillard mused as he sought the reading room. "Downtown I am looked upon as a man of affairs, a business man, with the care of half a dozen fortunes on my hands. Now, what's the matter with me? I begin to tremble when I look that sober old steward in the face. If he had handed me a letter tonight I should have had to lean against the wall for support. This will never do at all. I have not seen her face; I do not know her name. For all I know she may be this Leddy Lightfinger. No; that would be impossible. Leddy Lightfinger would have made an appointment. What possesses me to dwell in this realm of fancy, which is less tangible than a cloud of smoke?" He smoked thoughtfully. "Or am I romantic? To create romance out of nothing—I used to do that when I was a boy. But I'm a boy no longer. Or am I a boy thirty-three years old? She does not answer my letter. Sensible woman. Well, well," reaching for the London Illustrated News, "let's see what the society folks have been doing."

He dropped the paper. There was really nothing new in the world. If Giovanni returned to Italy in the spring he was of a mind to go with him. He looked up and was glad to see Merrihew in the doorway.

"Been looking for you, Jack. Want your company tonight. Kitty Killigrew is giving a little bite to eat after the performance and has asked me to bring you along. Will you come?"

"With pleasure, Dan. Are you dining with any one tonight?" Hillard was lonesome.

"Yes. A little bridge till 11."

"*You're hopeless. I can see you in limbo, matching coffin plates with Charon.* I'll hunt you up at 11."

"Heard the talk?"

"About what?"

"Why, some one in the club has been using the agony column. The J. H.'s are being guyed unmercifully, and you'll come in for it presently. It's a case of wine on the man who did it."

Hillard felt of his collar and drew down his cuffs. "Probably some joke," he ventured tentatively.

"If it isn't the man who would stoop to such tommyrot and tack the name of his club to it must be an ass."

"No doubt about that. Odd that this is the first time I have heard about it." But silently Hillard was swearing at his folly.

"I may depend upon you tonight, then?" said Merrihew.

"I shall be pleased to meet Miss Killigrew," which was a white one. Hillard would have paid court to a laundress rather than offended Merrihew.

And promptly at 11 he went up to the card room and dragged Merrihew away. Merrihew gave up his chair reluctantly. He was winning. The amateur gambler never wants to stop.

On the way to the Killigrew apartment Merrihew's moods varied. At one moment he was on the heights, at the next in the depths. He simply could not live without Kitty. Perhaps if this trip abroad turned out badly she might change her mind. Seven thousand could be made to muster. Twice Hillard came very near making his friend a confidant of his own affair, but he realized that, while Merrihew was to be trusted in all things, it was not yet time.

He found a pleasing and diverting company. There was Mere Killigrew, a quaint little old lady who deplored her daughter's occupation, but admitted that without her success heaven only knew how they would have got along. There was the genial Thomas O'Mally, a low comedian of genuine ability, whom Hillard knew casually; Smith, a light comedian, and Worth, a moderately successful baritone, to whom Hillard took one of those instant and unaccountable dislikes. These three and Kitty were going abroad.

Kitty fancied Hillard from the start, and he on his side found her well educated, witty and unaffected. She was even prettier than her photograph. Merrihew's face beamed upon them both in a kind of benediction. He had known all along that once Jack saw Kitty he would become a good ally in fighting down her objections.

"Think of singing in Italy!" cried Kitty. "Isn't it just wonderful?"

"And has Merrihew told you to get a return ticket before you sail?" with half a jest.

"Don't you think it will be successful?" a shade of disappointment, addressed to Mme. Augot. And be quick, for I may change my mind."

The maid was back in a half hour.

"There was a letter, then?" The points were dancing again in the blue eyes.

"You may go. Perhaps," and Bettina's mistress smiled—"perhaps I may let you read it and answer it after I am done with it. That would be rather neat."

The slight nod was a dismissal, and the maid went about her duties, which were not many in this house.

Meanwhile the lady with the venetian hair toyed with the letter. Club paper! Evidently he was not afraid to trust her. But would he amuse her? The contents gave her a genuine surprise. She ran to the window. Italian! It was written in Italian, with all the flourishes of an Italian born. She turned to the signature—Hillard. So he had signed his name in full? She ruminated. How came such a name to belong to a man who wrote Italian so beautifully? She looked at the signature again. John—Giovanni. She would call him Giovanni. She had been rather clever. To have had the wit to look in the library for the blue book and the club list—not every woman would have thought of that. Then a new inspiration came to her. She sent Bettina for the card basket. She scattered the contents upon the floor and sat down Turkish-wise. She sorted the cards carefully, and, lo, she was presently rewarded. She held up the card in triumph. He had called at this house on Thanksgiving day. He was known, then, to the master and mistress. Very good. She now gave her full attention to the letter, which she had not yet perused:

To the Lady in the Fog:

To begin with, let me say that I, too, have laughed. But there was some degree of chagrin in my laughter. On my word of honor, it was a distinct shock to my sense of dignity when I saw that idiotic personal of mine in the paper. It is my first offense of the kind, and I am really ashamed. But the situation was not ordinary. Ordinary women do not sing in the streets after midnight. As you could not possibly be ordinary, my offense has greater magnitude. To indite a personal to a gentlewoman! A thousand pardons! I doubted that it would come under your notice, and, even if it did, I was sure that you would ignore it. To find a woman with an appreciable sense of humor is rare. To find one who couples this with initiation is rarer still. How you found out my name confuses me.

"Indeed!" murmured the lady.

Doubtless you have the club list in your house. Do you know, when the letter was brought me I saw nothing unusual about the address. It was only when I began this letter that I comprehended how clever you were. There are half a dozen J. H.'s at the club. I tell you truthfully over my own name that your voice startled me.

I was startled because my thoughts were far away. I was dreaming of Italy, where I was born, though there is no more Italian blood in my veins than there is in yours.

"What made him think that, I wonder?"

I therefore write this in a language familiar to us both, certain you could not sing Lecocq's songs in Italian if you did not speak and understand it thoroughly. Signora or signorina, whichever it may be, have we no mutual friends? Are you not known to some one who knows me—some one who will speak for me, my character, my habits?

"It is rather a dull letter so far," said the lady.

You say you sang because at that moment you were happy. This implies that you are not always so. Surely with a voice like yours one cannot possibly be

She held up the card in triumph.

unhappy. If only I might meet you! Will you not do me that honor? Isn't there just a little pure, healthy romance waiting to be given life? Your voice haunts me. Out of every silence it comes to me—"She is so innocent, so youthful!"

JOHN HILLARD.

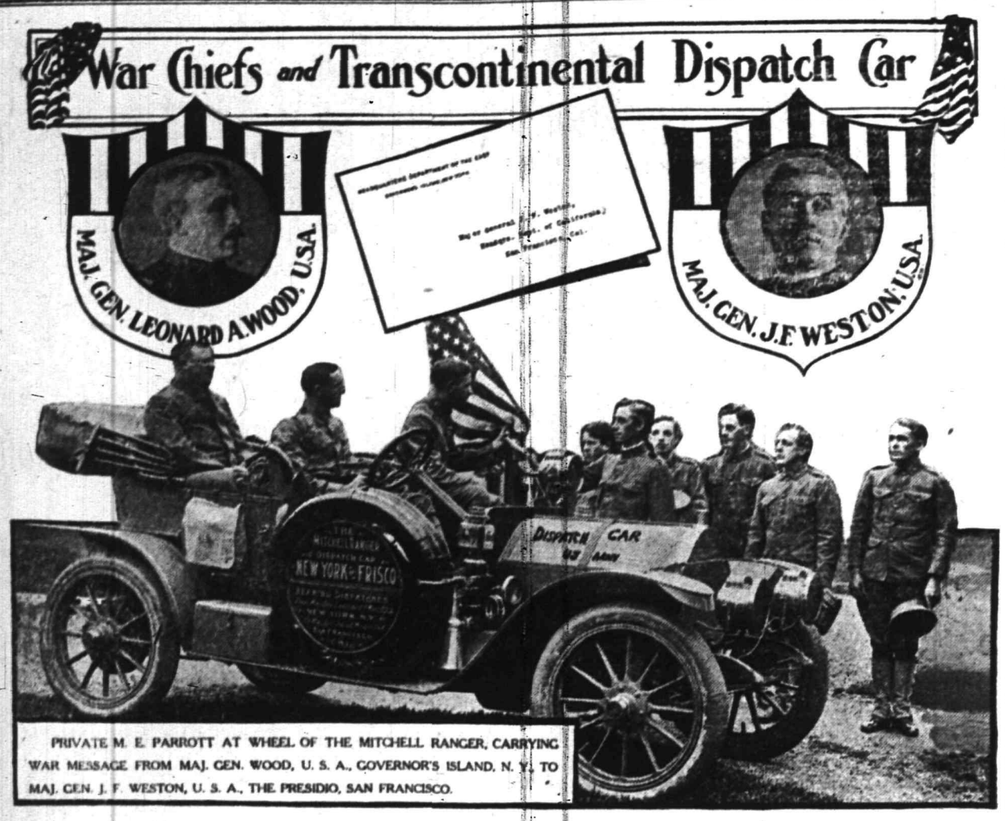
War Chiefs and Transcontinental Dispatch Car



PRIVATE M. E. PARROTT AT WHEEL OF THE MITCHELL RANGER, CARRYING WAR MESSAGE FROM MAJ. GEN. WOOD, U. S. A., GOVERNOR'S ISLAND, N. Y., TO MAJ. GEN. J. F. WESTON, U. S. A., THE PRESIDIO, SAN FRANCISCO.

Clad in the regulation military khaki, in a decidedly warlike car, equipped with firearms, haversacks, picks and shovels, Private M. E. Parrott, N. G. S. N. Y., accompanied by Lieut B. B. Rosenthal and their mechanician, Frank X. Zirbes, left New York at high noon, Thursday, August 19, carrying dispatches from Major-General Leonard A. Wood, U. S. A., commanding the Department of the East, to Major-General John F. Weston, U. S. A., commanding the Department of California, in the Mitchell Ranger.

When the long journey is completed at the Presido, in San Francisco, the Mitchell Ranger will have covered approximately 3,993 miles, traveled through eleven states, and will have completed the first "transcontinental" run ever essayed for military purposes.

Because of Major-General Wood's desire to see the establishment of an automobile service in connection with the regular and volunteer forces the present trip was inaugurated and unusual interest is being evinced in the run by military authorities all over the country on account of the large appropriation which will be asked from Congress next year for automobiles to be used in connection with the Signal Corps of the U. S. A. The war car which is being used to convey Major-General Wood's message is the first of the 1910 low-priced four-cylinder models turned out by designer Bate at the Mitchell Motor Car Company's factory, Racine, Wis.

Prior to leaving New York, Private Parrott was presented with a flag by the men of the Tenth Regiment, Col. John J. Pruyn commanding. The presentation was made by Capt. W. L. Burnett, of Company K, at Poughkeepsie, which is Mr. Parrott's home town.

DEMOCRATS MAY NAME W. T. COX FOR REGISTER

Fire Commissioner William T. Cox, of Elizabeth, is mentioned prominently by the Elizabeth and some Union county Democratic leaders as a candidate for county registrar to oppose Frank H. Smith, Republican, the present incumbent. It is known that Captain Cox is being urged to enter the field. Because of his popularity the Democrats believe that he will be the strongest candidate obtainable.

Captain Cox has been connected with the local fire department for more than twenty years, and has also been active in Elizabeth Democratic politics, having served the party as a county committeeman. He was foreman of the Jackson Hook and Ladder Company in that city in the days of the old volunteer department and was assistant chief and chief of the volunteer department.

He was appointed commissioner when the paid fire department was organized and made president of the board in Elizabeth. He served in the capacity of president during his entire first term of five years. At the time Mayor Samuel J. Berry was elected pressure was brought to bear and Sheriff Robert J. Kirkland, Republican, was appointed in his place. Two years later, when Mayor Ryan was elected, Captain Cox was reappointed. He is at present a member of the Board of Fire Commissioners.

FILLS ELECTION VACANCIES.

Union County Board Names Two in Elizabeth.

The Union County Board of Elections met at Elizabeth yesterday afternoon and filled the following district vacancies in Elizabeth:

First district, Eleventh ward, Henry G. Bauer, to succeed John White, resigned; Third district, Tenth ward, John P. Fitzgerald.

The board will meet again on September 11 and 14, according to law. On the latter date the board will consider challenges and on the former will enroll legal voters whose names have been omitted from the district registry lists.

The Y. M. C. A. team will go to Dunellen Saturday afternoon and play the Dunellen Field club. Peacock and Linke will be in the points for the Y. M. C. A. and if the team plays up to the form it has recently displayed the game ought to be interesting. Dunellen is playing a fine game as they have been doing all summer.

THREE TIMES HAS CHILD WON PRIZE.

Dr. Grace Flanders Wilson, of Morristown, whose eldest daughter, Ruth, has won two cups and a third prize at Asbury Park baby parades and whose second daughter, Margaret, received "honorable mention," has this year entered her third daughter, Janet Hillard Wilson, less than three years old, for exhibition honors.

Ruth, three times honored, is also again entered. She was not two years old when, in 1905, she led the college colors division, being the smallest baby in that class, her costume being an exact reproduction of those worn by the Columbia College basket ball team.

In 1906 she represented Puck and again carried off a carnival cup. In 1907 she was found in the flowing robes and adornments of an ancient Grecian maiden, as she appears in an illustration.

Janet, the new candidate, will appear in the fancy dress division.

Dr. Wilson is a physician of the homeopathic school, her husband being C. Franklin Wilson, of the law firm of Vreeland, King, Wilson & Lindabury.

TO SERVE AT SEA GIRT.

U. S. Government Names Range Officers for Coming Matches.

The War Department has assigned a number of officers for duty as range officers for the tournament to be held at Sea Girt from September 2 to 11. They include Captain Jas. C. Rhea, Seventh Cavalry; Captain Oliver S. Eskridge, Eleventh Infantry; First Lieutenants James G. Hannah, Orlando C. Troxel, Robert G. Caldwell, of the Tenth Cavalry; Second Lieutenants John B. DeLancey and William J. Fitzmaurice, Tenth Cavalry, and Second Lieutenant O. S. Albright, of the Thirteenth Infantry.

Captain John Malcolm, assistant inspector of rifle practise of the Fifth Regiment, has been selected by General Bird W. Spencer as a member of the New Jersey team to contest for the $4,000 trophy given by former United States Senator John F. Dryden. Captain Malcolm's record throughout the national match was one of the best of the New Jersey team.

HITCHCOCK ORDERS BETTER POST CARD

Postmaster General Hitchcock at Washington provided for a postal card more ornate and decidedly superior to the one now in use when he awarded a contract for 3,485,000,000 cards to the government printing office. The estimated cost, covering a period of four years from January 1, 1910, is $934,714.

The postal card will be made of a stock better suited to writing, possessing snappiness free from fuzziness and presenting a neater appearance. While the weight of the card will be reduced from 150 pounds to 130 pounds to the ream, its tensile strength will be increased from 45 to 50 pounds, as compared with the current card. This will make a stronger and lighter card, resulting in better material for the public and less expenditure by the department.

The saving to the government can be appreciated when it is remembered that the postal cards shipped last year by the manufacturer to the large distributing postoffices weighed 6,200,000 pounds, and that the department must pay not only the freight on such shipments, but also the transportation charges when the postal cards are shipped from the distributing postoffices by mail, and again when the postal cards are mailed by individuals and still again when reply postal cards are used. It is estimated that the department will save 13 per cent. in weight.

Of the total number of postal cards contracted for, 3,400,000,000 are to be 3½ by 5½ inches, the regular or single size; 75,000,000 are to be double or reply cards, and 10,000 are to be the size corresponding to the current index card by five inches.

Rev. Dr. and Mrs. J. A. Chambliss, of Central avenue, have returned from Schwartzwood Lake, where they spent the great part of last month.

PLAINFIELDERS SAW THE ECLIPSE OF MARS

What astronomers declare to be a most unusual phenomenon was the eclipse or occultation of the planet Mars by the moon for nearly an hour last evening. The sight was plainly visible in this city last evening from about 8:45 until a few minutes before 10 o'clock. A large number of persons in the centre of town could be seen gazing at the heavens to get a glimpse of the eclipse.

When the moon rose last evening Mars was nearly at its edge. The planet could be easily distinguished because of its great brilliancy and reddish hue. Mars is the brightest star in the heavens at this time, and in contrast to the silvery lustre of the moon, could be easily picked out by the observer.

The eclipse was so rare that those who failed to notice it missed something very interesting. As the exact time of the planet's disappearance could not be foretold, those who were anxious to observe the occultation noted the relative positions of the two bodies as soon as the moon rose.

By then considering that the moon moved eastward a distance equal to its own diameter it was noticed the planet disappeared in less than an hour.

A very few minutes' watching showed the moon moving nearer the planet, and soon after it was seen to pass between us and this body, gradually cutting off its light. The planet remained hidden about one hour, after which it emerged from the moon's west edge. As viewed from Washington, the planet disappeared at 8 hours 50 minutes p. m., and reappeared 57 minutes later. These times, however, greatly varied at different places. In the southwest they were nearly an hour earlier, while as seen from the southern states the path was nearer the lower edge of the moon. To observers in the far west the moon did not rise unutil the planet was hidden.

TWO INQUESTS SAME DAY; NEW RECORD FOR COUNTY.

For the first time in its history, Union county had two inquests Tuesday in one day. Both investigations were held at the courthouse in Elizabeth in the afternoon after the juries had viewed the bodies and autopsies were held.

The inquests were conducted by Coroner Adolph Degenring, of Elizabethport, and Assistant Prosecutor Walter L. Hetfield Jr., of Plainfield. The first case was that of Hattie Huyck, aged sixteen, of 159 Catherine street, Elizabeth, who was suspected with regard to her infant's death. It was shown the young mother had no one with her at the time and in consequence of her ignorance the baby died. She is now lying in a serious condition in the Elizabeth General Hospital. The jury fully exonerated her from blame.

The second case was the killing on Monday evening of James Carey, Jr., aged twenty-eight, single, and a resident of Elizabeth, who was stabbed to death with a big jackknife by John Allen, a roustabout along the water front and who is known as "Sailor Jack." The evidence of four eye-witnesees showed the tragedy to have been a wilful murder and so the jury declared it. Allen was committed to the county jail without bail to await the grand jury's action.

Among automobilists registered this week at the Hotel Wentworth, Newcastle, N. H., are Mr. and Mrs. M. Stockton, Mr. and Mrs. H. Reeve Stockton, Miss Cruikshank and S. A. Cruikshank, of Belvidere avenue.

A NEW SCHEME FOR THE U. S. MAIL BOXES

A new time card for use on mail boxes has been invented by William W. Day, assistant chief of the supply office of the Washington, D. C., postoffice, and has been placed in various parts of Washington for test purposes. This time card is a great improvement over those now in use. Heretofore when changes were made in time of mail collections there was no way of making a change in the time on the card. Mr. Day's card is fitted with slides containing the time of collection. When changes are made in the schedules the postman is given a slide with the new time, and substitutes it for the old one.

"Under the present system there is nothing definite about the information printed on the cards, except that "within an hour and a half after the stated time of collection the mail will be delivered at the postoffice." This statement may cover a whole route, so that the mail in the first box reached by the carrier may be taken up an hour before the mail from the last box on this route, there being no individual marking of the boxes. Under the improved card system every box will be marked differently, so that persons using a particular box may know that within ten minutes after a certain time there will be a collection from that box. This will enable postoffice patrons to know exactly what time a letter will reach the postoffice after being deposited in the box, and they can calculate what train it will catch and the time of its receipt in the city to which it is destined.

Another advantage of the new scheme is that it is a perfect check on the letter carrier. With the individual cards in operation it will be impossible for a carrier to fail to visit a box without running a great risk of discovery of his neglect of duty.

NEW TEACHERS ENGAGED

Nine New Faces to Be Seen Among North Plainfield's Corps.

MOSTLY IN THE HIGH SCHOOL.

Forty-one to Compose Public School Faculty—"Who's Who" Among the New Teachers.

There will be nine changes among the teachers of the Somerset School for the coming year, and two additions caused by the increase in the enrollment, according to H. C. Krebs, supervising principal of the North Plainfield schools.

In the High School the new teacher of mathematics is F. Eugene Seymour, a graduate of Syracuse University, and teacher of mathematics during the past four years in the High School at Poughkeepsie, New York.

Miss Edna M. Wilkes, a graduate of Barnard College, who has taught two years at Wilkes-Barre Institute, Pa., will have charge of the science department.

Richard F. Kieffer, who for two years has had charge of both mathematics and science, resigned to begin the study of medicine at Johns Hopkins University.

Miss Eva Terry, a graduate of Wellesley, who has taught with much success at Somerville and at Long Branch, succeeds Miss Anna C. Clander as teacher of history, Miss Clander having accepted a similar position in the new Girls' High School in Philadelphia.

Miss Claire Stahlberger, a graduate of Syracuse University, succeeds her sister as teacher of modern languages. She substituted for her sister in this school for two weeks last January, and showed such marked capability that her engagement to a regular position resulted.

Miss Myrtle M. Montague returns to the school as head of the commercial department, after a year's leave of absence to improve her health.

It will interest the students to learn that Miss Terry and Miss Stahlberger are both interested and proficient in basketball, tennis, and in dramatics. With these women and Miss Trenbath to look after the girls and Mr. Phelps and Mr. Webster to assist in football and basketball for the boys, the athletics promise to show up well.

In the grammar department Miss Martha T. Baxter, of Garrison, N. Y., a graduate of the Woman's College of Baltimore, has been engaged as departmental teacher in the seventh and eighth grades, taking up the work of Miss Trenbath. The latter has not yet regained her strength from the operation of last June, but is steadily improving. On her return she will act as general substitute for the remainder of the year.

In the sixth grade Miss Emilie O. Dowd, of Johnstown, N. Y., a graduate of the Potsdam Normal School and a teacher of five years' experience in the public schools of New York State, and Miss Jane Van Arsdale, of Pernville, N. Y., a Cortland graduate, have been employed.

Miss Margaret Falkinburg, who was in the school as a substitute last year, will have charge of a special ungraded class in the grammar department.

There are only two changes in the primary department. Miss Bowen, who has taught four years in this school, resigned in order to recuperate, and her place will be taken by Miss Katherine Dittmar, of Freehold, N. J., a graduate of the Trenton Normal School, who has had nine years' experience in the public schools of this State. In the third grade Miss Daisy T. Freeland, of Garfield, N. J., has been employed to fill the vacancy caused by Miss Simonson's resignation to accept a position in the schools of New York city.

The only change in the Watchung school is the appointment of Miss Edith F. Randolph, of Plainfield, as assistant kindergartner, to succeed Miss Myra Cheesman.

Miss Ingersoll, who was married this summer, will be succeeded in the Domestic science department by Miss Elsie R. Horne, of North Plainfield, a graduate of the Teachers' College of Columbia University.

The total number of teachers in the corps is forty-one. Thirty of these have been in the school during past years. It is significant of the care with which teachers have been selected the past few years that not one has been dropped because of inefficiency. Changes have always been due to promotion, change of occupation, or retirement because of ill-health.

TROLLEY CRASHES INTO AUTO 'BUS AT GARAGE

A southbound Somerset street trolley car, in charge of Motorman Lawrence Lawritzen, crashed into the big auxilliary 'bus of the Plainfield Auto 'Bus Company in front of Barfuss' garage at shortly after 8 o'clock, last night, bruising the three occupants of the auto and Mr. Barfuss, who was in front of the 'bus, repairing the carburetor. A suit for damages to the automobile, it is said, will be a result of the collision. F. A. Duttenhofer, a stockholder, Chauffeur Edward Farley and Charles Terry, of Dunellen, who were in the 'bus, sustained bruises and cuts from broken glass, and the garage man was thrown down and bruised about the face and body.

In speaking about the accident this morning, Mr. Barfuss said that the automobile was standing in front of the garage when the car struck it. The body of the 'bus at the rear of the right side was split and a rear window broken. It is said that the damage will amount to $100. The trolley was also damaged and a platform gate put out of commission.

Lawritzen, who is considered by Superintendent Luhr of the P. S. C., to be one of the most careful motormen on the local lines, was with Conductor John Matthews on the car. He says that he was running slowly. Aside from Mr. Barfuss, Mr. Duttenhofer, who was sitting in the rear of the 'bus, is the most severely injured, and his hurts are not sufficiently serious to prevent him from being about. The 'bus was about to start out on a regular run, to take the place of one of the regular automobiles, which had broken down near South Plainfield. The service was considerably delayed by the accident.

ALLEGED BIKE THIEF HELD FOR GRAND JURY

Cleverly parrying efforts to obtain from him incriminating statements by giving detailed explanations which City Judge Runyon did not consider would "hold water," Joseph Schwartzman, whose home is on West End avenue, at court today, denied that he took a Columbia bicycle belonging to Richard Harris, colored, of Grant avenue, and when accused of having stolen a watch from B. L. Wilson, a carpenter. He also entered a plea of "not guilty" on this charge, and added elaborate explanations. He was held by City Judge Runyon under $100 bail to await the action of the grand jury.

Schwartzman assured the court that he had been a victim of circumstances all the way through. He acknowledged that he had ridden the stolen bicycle, but said that a man, whose name he would not reveal, had taken the bike from a West End hotel "by mistake" and had asked him to return it. He was riding it back to Harris' house, he says, when the colored man met him and took it from him.

Harris says that when the wheel was returned to him it was shy the lantern and the bell. He says he can bring witnesses to prove that Schwartzman rode the bike around town on his job as carpenter. Wilson testified that he had seen this. Schwartzman explained to the court that the wheel he rode was another, but very similar. He said it belonged to "the Swede."

When the charge of watch stealing was brought, Schwartzman said that the timepiece he had belonged to his sister and had been recently given him. Wilson, who is a carpenter, missed the watch, which he identified as his property, from the toolhouse on an East End building job last week. The police have learned from Schwartzman's sister that she has not seen him in several months, but the prisoner told the court that this must have been a case of "lapsus mensis" on her part, as he had called on her less than a week ago.

Much of Schwartzman's parrying was amusing, and his explanations were in great detail. The impression he sought to convey—that he was a victim of cruel circumstances—failed utterly, but he showed no surprise at the ruling of the court. Bail had not been supplied up to noon.

LICENSES FOR HUNTERS

Residents of the State Must Pay $1.15 for the Privilege of Gunning.

NON-RESIDENTS PAY $10.50.

Permits Can Be Obtained at the Office of City Clerk James T. MacMurray.

According to the new game laws, all hunters in the State are required to take out a license, which amounts to $1.15 which includes the fee for issuing the license. In Plainfield these licenses are issued at the office of City Clerk James T. MacMurray. The law provides that both resident and non-resident hunters shall secure a license, which has not been the case heretofore.

There is no prohibition against granting a license to a minor; nor is there any prohibition against his hunting in a lawful manner. A resident or non-resident license is not transferable, and gives no right to trespass, and is good for the entire State. An alien is compelled to show his naturalization papers or produce other proofs to show that he is entitled to a resident hunting license.

Unnaturalized, foreign-born residents are not permitted to hunt without a license. To obtain such license the applicant should fill out a blank application to be furnished by the Board of Fish and Game Commissioners of the State on the application of any clerk of any county, city, town or township, or other municipality. The cost for such license is $10, together with a fee of fifty cents to the clerk.

Non-residents are not permitted to hunt without a license. The fact that an applicant owns property in this State, or that he has a summer residence in the State, does not entitle him to take out a resident hunting license, if he has not lived in the State one year preceding the application for a license. Only county clerks are authorized to issue licenses to non-residents, the cost of which is $10.50.

When a hunting license has been lost a duplicate or certificate cannot be issued. A new license must be obtained at the original cost. When a resident hunting license has accidentally been spoiled at the time of making it out, in order to obtain credit for the same it must be attached to the report of the month of issue, and forwarded with the regular returns through the county clerk to the State treasurer. No explanation can be accepted unaccompanied by the damaged license. Licenses represent cash. For each license issued the clerk must return either the license itself at the proper time or its face value. A license which has once been issued to a hunter cannot be returned as a spoiled license, neither can a spoiled license be returned at a later date than the first Tuesday of each month following the month of issuance.

No citizen of this State shall at any time hunt, pursue or kill with a gun, or any firearm, any game birds, which are protected during any part of the year, without first securing a license, except that the owner or occupant of any farm shall be permitted to hunt game on said farm. This does not include any employe or tenant of said occupant. All licenses are void after December 31 next succeeding the issuance of the same. Any citizen who shall alter or change in manner, or loan or transfer to another any license issued as aforesaid, or give false information, under a penalty of $20, and if a person is convicted of a violation of any of the games laws said license shall be revoked and no new license shall be issued during the year for which it was originally granted.

In the case of non-resident hunters they may remove from the State in any one day birds to the numbers not exceeding fifteen and rabbits to a number not exceeding ten; provided, however, that no removal shall be made except the birds or rabbits exposed to view. For violations of this a fine of $20 may be imposed.

The New Jersey Board of Fish and Game Commissioners are President B. C. Kuser, Trenton; Treasurer W. A. Logue, of Bridgeton; Percival Chrystie, of High Bridge; Simeon H. Rollinson, of West Orange. Walter H. Fell, of Trenton, is secretary.

FIGHT FOR EXTRADITION

Alleged Horse Thieves' Lawyer Wants Governor to Hear His Argument.

BAIL GIVEN FOR PRISONERS.

Michael Riccardi and son Benjamin, Released in $1,500 Bail Each by Recorder Dolliver.

Robert Newton Crane, attorney, who has been retained by Michael Riccardi and his son, Benj. Riccardi, who are charged with horse stealing and now out on $1,500 bail each, today took steps to prevent the extradition of the accused to Pennsylvania, where, it is said, they stole horses belonging to Jacob Lampert, of Norristown, of that State. Mr. Crane communicated today with Governor J. Franklin Fort, making a request that His Excellency allow him to be heard before granting the extradition papers for the transfer of the Riccardis.

In his letter to Governor Fort, Mr. Crane said that he believed that no indictments were found against his clients, said charges being a complaint only; also that he believes he can present sufficient facts to warrant the refusal of the extradition papers. The Riccardis were arrested here Wednesday night as fugitives from justice. When arraigned before Recorder C. M. Dolliver, yesterday, they were released in $1,500 bail each, the security being furnished by Vincego Salvadore and Louis Barbiar, of North Plainfield borough and township.

The arrest of the men was caused by Detective Charles H. Martin and Jacob Lampert, of Norristown, Pa., who claim to have traced two horses owned by the latter to Stonwall Jackson's livery stables. Mr. Lampert is said to have positively identified his horses. The accused men declare that they purchased the animals at Pittston, Pa., and say they are willing to go back there and prove their contention.

Mr. Crane today sent Augustus Nash to Pittstown, Wilkes-Barre and Norristown, Pa., to get the required evidence that the horses were purchased by the Riccardis and not stolen. In speaking of the matter today, Mr. Crane said that he had learned that there is now a note in the Wilkes-Barre Trust Company, given by the Riccardis for the purchase of one horse, and he feels sure that he can secure the accquital of his clients without much trouble.

Detective Martin and Mr. Lampert are now engaged in securing extradition papers and they hope to take the Riccardis back to Pennsylvania within a short time.

NEGRO'S DRUNK COSTS HIM EIGHTEEN DOLLARS

Because he lost his balance while trying to talk to a man in the office of Michael Armstrong, a plumber, Alexander Robert, of Plainfield avenue, who had a big cargo of drink aboard, fell over on a "sample" radiator yesterday afternoon, knocked over the coil of steam pipes and it smashed a porcelain lavatory. When Robert got up out of the wreckage he was a prisoner.

"I'm awfully sorry it happened," said the colored man at his hearing before City Judge Runyon at court today. Armstrong said the lavatory cost him $18, and sentence was suspended on condition that the man pay for this damage. The radiator was unhurt.

Robert is employed as a farm hand by David H. Wilson, of Cranbury, and came to town yesterday to buy coal. He told the judge that his boss would stand for the damage, and his assurance on this point led to some question as to who was really boss, employer or employee. "Call Mr. Wilson up on the 'phone," said the prisoner, "and tell him I'm here. He'll tell you about me and I'll pay Mr. Armstrong about $2 a week until that thing's paid for." Robert was remanded to his cell until tomorrow and the police will follow his suggestion about talking over the matter with his employer.

Sentence Suspended.

City Judge Runyon today suspended sentence on John Donahue, the Dunellenite who acted in a disorderly manner on West Front street yesterday afternoon, while in an intoxicated condition. The arrest was made by Patrolman Myers

RELEASE OSGOODBY IN FIVE HUNDRED BAIL

O. H. Osgoodby, of Somerville, a real estate man, who figured in a wild "joy ride" from Somerville to this city last Friday, and was arrested in his automobile by Patrolman O'Keefe at the Hotel Iroquois, waived a hearing before City Judge Runyon at the session of court today, and was held under $500 bail to await the action of the grand jury. He was his own bondsman. John A. Freck, of Somerville, is Osgoodby's counsel. The police charge that Osgoodby was driving the automobile while in an intoxicated condition and he is held for this violation of the State automobile law.

The real estate man, with John D. Hall, of Somerville, and Andrew Phief, of Brooklyn, were together in the machine, and it is said that the party stopped at hotels in Somerville, Bound Brook and Dunellen for drinks. At the Park avenue hotel, they were arrested after trying to secure lodging for Hall, who, it is said, was in a practically helpless condition from drink. The policeman claims that Osgoodby was in no condition to run the automobile, and seized the machine taking it to a local garage.

At police headquarters after the arrest Friday night, Hall was locked up and Osgodby was released on his own recognizance to appear before City Judge Runyon the following morning. He did not put in an appearance. Sentence was suspended by the magistrate on Hall, who seemed to have been a victim of circumstances. Phief came out from Brooklyn Friday morning to look at property offered for sale by Osgoodby. He has not been held.

HE'S A FRIEND OF COOK

Winfield S. Angleman Talks Interestingly of the Great Explorer.

"IS MOST MODEST OF MEN."

United States Minister on Steamer to Greet American Who Reached the North Pole.

Among the many who are particularly proud of the achievement of Dr. Frederick A. Cook, the American explorer, who has planted the Stars and Stripes on the North pole is Winfield Scott Angleman, the prominent lawyer and chairman of the Republican City Committee. Mr. Angleman is an intimate friend of the first white man to reach that goal and today he talked interestingly of Dr. Cook.

"Like everyone who knows him at all, I've always had great faith in Cook," said Mr. Angleman today. "He is the most unassuming fellow in the world, the kind that never seeks public notice. If he says that he has found the pole, you can depend upon it that he has. You can depend upon it that when he gets to Copenhagen, he will furnish proof of his dispatches and will set the doubting ones at rest.

"Cook, you know," continued Mr. Angleman, "was surgeon in the Peary expedition years ago. I met Peary in 1893 and about the same time formed an acquaintance with Cook. Both are splendid men. Somehow or other, I formed the opinion that some day Cook would be successful in his life's ambition which was to get to the pole. He has won."

Dr. Frederick A. Cook's credit stands so high with Danish polar experts that the first message announcing his success in reaching the North Pole, meagre as it was, was accepted as conclusive at Copenhagen.

Commodore Hovgaard said yesterday: "I believe the message is true, because Dr. Cook is most trustworthy and incapable of making exaggerated statements."

C. A. Nielsen, an official of the Greenland Administration Department, who is well acquainted with Dr. Cook and was associated with him in Greenland, said: "When Dr. Cook says that he reached the North Pole there can be no doubt about it. His scientific discoveries will prove that."

A committee under the presidency of the Minister of Commerce has been formed to arrange a fitting reception to the explorer on his arrival at Copenhagen. Dr. Maurice F. Egan, the American Minister, will be aboard a special steamer which was sent out by the Royal Geographical Society yesterday to meet Dr. Cook, who is on his way to Copenhagen on the steamer Hans Egede.

Maurice F. Egan, the United States Minister at Copenhagen, has telegraphed the State Department that Dr. Cook's reported discovery of the North Pole has been corroborated by Dergaard Jensen, the Danish inspector of North Greenland.

WESTFIELD.

Garwood Borough is without a meeting place, the building now used as a borough hall having been sold. The citizens last year voted favorably on a borough hall, but the council has not started building operations.

Rev. Sidney Cross, rector of St. Paul's Episcopal church, has returned from his vacation. As the repairs to his church are not completed, services will be held in Arcanium Hall, next Sunday.

An effort is being made by several people interested in the old Presbyterian church graveyard to raise a fund to keep the yard in repair. R. P. Greaves has the matter in hand.

The summer fresh air camps at Westfield will be closed this week. The children's country home at Mountainside will be kept open two or three weeks later.

GIRL HIDES IN GARRET; BALKS SEARCH SIX DAYS.

Rutherford, Sept. 2.—After six days' absence, during which her parents and friends, after a futile search enlisted the aid of the local police Tuesday night, fifteen-year-old Helen Schroetter, daughter of Mr. and Mrs. Carl Schroetter, was found yesterday asleep in a corner of the garret, behind and old trunk.

The discovery was made by Mrs. Schroetter, who chanced to go to the garret in search of something stored there. The tip of her daughter's shoe peeping from behind the trunk attracted her attention and she approached to find her child slumbering with her head on a blanket.

Mrs. Schroetter aroused the long missing girl and took her downstairs. Helen finally admitted that she had hidden away in the garret all the time she was supposed to have been lost, and said that at night she went downstairs and got enough to eat to keep from starving. Then she returned to her hiding place. What prompted her to such an act she has not yet revealed.

The last her parents saw her until today was last Thursday, when she left home, it was supposed, without any shoes, to go to a peach social at Union church. The police last night were furnished with a full description of her appearance.

About two years ago the girl disappeared after she had failed to pass the public school examinations. At that time C. W. Mergler, who was president of the Board of Education, closed the schools and formed the scholars into a posse. The girl, after a two days' hunt, was found wandering in the woods of Teaneck.

Miss Scribner, who has been employed by Mrs. L. J. Denton, of Park avenue for some time, has resigned, and her place has been taken by Miss Daley, of the borough.

LOLLAPOLUZA, NEW FISH.

This Is What Fishermen Call Bat Shaped Specimen.

A bat shaped fish, said to have its origin in Spanish waters, was landed at Galilee, near Long Branch, yesterday by Captain Daniel Gaskin and crew. Oldtime fishermen declare it the first species of its kind ever caught in these waters.

The fish has a sqpare mouth sixteen inches long. It measured nine feet across and is between eleven and twelve feet in length. It weighs between 700 and 800 pounds. Captain Stewart Cook, owner of the nets where the big fish was caught, has fished in Jersey waters, for fifty years. He said yesterday afternoon that the bat shape fish, which he calls a "lollopoluza" until its right name is learned, was undoubtedly a native of Spanish waters. It will be on exhibition at the Monmouth county fair.

Captain Gaskin, who landed the monster, long since got an elephant shark.

The Brooklyns are holding their customary position in the National League. With such a staff of pitchers, the Trolley Dodgers deserve better.

Report says that Kling will manage an Eastern club next season. His absence has been felt by the Calcagos this season, yet Chance has been able to hold his own in the big league race.

There will be but one game at Crescent Oval, Labor Day. The Plainfield Baseball club will cross bats with the Scotch Plains team in the afternoon. There was some talk of a contest between the Plainfields and Y. M. C. A. in the morning, but this has been cancelled.

The 'Plains team will make a determined effort to defeat the Plainfield Baseball club at Crescent Oval, Monday afternoon, something they have not accomplished this year.

"Warry" MacLaughlin will pitch for the 'Plains and Johnson Brewer for Plainfield, and that should result in a pitcher's battle.

With all the prestige and financial backing necessary at its command, the New York Baseball club has failed to materially strengthen its pitching department and is now as bad off as a year ago.

Many fans have been calling the Yankees the "in and out" club this season, but it now seems as though the Giants are about in the same class. McGraw has collected a great lot of players, but when it comes to a show down they are not in the class with Chicago and Pittsburg.

Considering the amount of money that fans pour into the treasury of the New York Baseball club, they are entitled to see the best brand of ball. McGraw may be a clever manager, but he fails to get the results obtained by Chance and Fred Clarke.

Philadelphia fans are finding fault with the showing of the National club in that city, although they are pleased over the showing by the Athletics. Can't always have two winning clubs in one city.

Fred Burchell, who is in the Eastern League this season, is pitching in hard luck. Lately he has been losing all his games by one or two runs.

GOLF.

There is a tax argument on it Great Britain so hot that the talk in Washington over tariff revision was an iceberg in comparison. From time immemorial golf, cricket, football and other recreation grounds have been exempted from taxation as undeveloped land. As a new way of raising the wind an amendment to the finance bill by the Chancellor of the Exechequer is proposed, on the assertion that so "many such grounds are carried on with a view to the payment of a dividend or profit" that they should be subject to an "increment value duty" of 20 per cent. This will be levied on the landowner, who naturally will pass the charge along to the tenants who are having their fun on the land.

If they won't stand for an increased rental his course will be to put them out and to keep the grounds in fact undeveloped. The outcry against the tax resembles what would happen here if an additional mandatory tax were made on the land used for golf, baseball or running and trotting races.

The Marylebone Cricket Club is at the head of a protest to the Chancellor of the Exechuquer against the tax. It has received the support from clubs, mostly in two English counties, representing 100,000 members, with thirty more counties to be heard from, and the athletic grounds and golf clubs in Scotland and Ireland have asked to be allowed to throw in their aid. It is declared that recreation grounds are a necessity for those who live in towns, and as many who use them as tenants can only afford their bus or train fare to put on the tax will cause the grounds to be abandoned or turned over to the builder.

The Marylebone club tactfully ignoring any reference to a 60,000 "gate" at a big football match at a shilling a head, maintains that recreation grounds are carried on for charitable and public purposes and upheld in a great measure by those who recognize such demands and who contribute to the expenses without looking to any personal return.

THE DAILY PRESS.

Plainfield, N. J., September 3, 1909.

Either at Washington or Trenton, they'll yet devise some way to tax us for breathing.

Small wonder that Dr. Cook wanted to get to the ends of the earth. He lived in Brooklyn.

Japan presents 30,000 cherry trees to the United States. Haven't they heard that George is dead?

The Wright brothers will please go behind the wings while the spot light plays on one Mr. Cook.

Dispatch from Africa says that Roosevelt is shooting geese. He left lots of dead ducks at Washington.

"Oklahoma Russ" is shooting up the street and "Elizabeth Charlie" had better take to the storm cellar.

Hard luck for the Lusitania that she made that record just as the news came that Cook discovered the pole.

Canada has already set up her claim to the North pole. This is from a news dispatch, not from London Judge.

Chicago bishop says that we will be able soon to talk with the departed. Where are those mother-in-law paragraphers?

This season, residents of the State must pay $1.15 before they are allowed to go hunting for game. This would not be so bad if the hunters were allowed to bag some of the men who passed that act.

To use an expression of the provrebial Democratic platform "we point with pride" to the fact that Major William B. Martin has won the American championship as the best military rifle shot. This is a great day for the "Bills."

"Dr. Wilson to talk politics!" Of course. Why not? University presidents are supposed nowadays to talk about everything but education.—York Evening Sun.

Since when did political economy cease to be a part of one's education?

BOYS' PRANKS SERIOUS FOR A VILLAGE YOUTH

Andrew McDonough, of South Plainfield, is in Muhlenberg Hospital, under treatment for an injury to his eye, which nearly cost him the sight of the optic. Recently he, in company with several companions, was walking along a street at South Plainfield, when some other boys were met. They were throwing burdock burrs. Young McDonough turned around just in time to be struck in the eye with one of the sharp-pointed things. He suffered intense pain and it was found necessary to seek quickly the services of a physician.

Fearful that the lad might lose the sight of the eye, he was taken to New York and examined by Dr. Reese, a specialist. He said that with careful treatment, he believed the sight could be saved. McDonough is now in Muhlenberg Hospital, where it is said he is improving slowly. The boys who were throwing the burrs were much frightened over the affair. They did not realize what their "play" meant and it is said they had no intention whatever of causing such an injury.

At Proctor's.

A capacity audience enjoyed the fine bill of vaudeville and films d'art at Proctor's theatre, last night. Gordon & Keys, the colored comedy pair, are the hit of the show, in their clever dances and songs. The Rupert Trio, spectacular jugglers, are good, and Althea Morrison as an acrobatic dancer, receives much applause. Ellery & Rainford, in a sketch, "The Love Making Machine," are real funny.

Old Jersey Landmark Burns.

One of the oldest landmarks in New Jersey was destroyed by fire yesterday afternoon, and thereby the Society of Friends lost their county meeting house at Upper Springfield. The building was erected in 1727, and had been jointly used by the two wings of the Friends' society in this section.

NEW IDEA LEADER FOR HARMONY IN THIS PARTY

Formal beginning of a strenuous speech-making campaign of the New Idea branch of the Republican party in Newark, was made last night at a meeting in Roever's Hall. The speakers were former Senator Everett Colby, Col. Austen Colgate, who is an Assemblyman and military aide to Gov. Fort; Walter H. Simpson, candidate for nomination as Surrogate of Essex county, and Curtis R. Burnet, candidate for nomination as Board of Works Commissioner of Newark.

Mr. Colby reiterated the platform of the New Idea Republican and Col. Colgate, who is the New Idea candidate for chairman of the Essex County Republican Committee, made a strong appeal for party harmony as a means to certain victory in the coming election.

"There are no great differences between the regulars and the New Idea men in the Republican party," he said. "The latter merely urge progressiveness and the making of the Republican party a party of Taft and of Hughes and men of their calibre. We are good Republicans; I have never scratched a name from a ticket in my life."

NEGROES BEAT VILLAGE EAST MILLSTONE PEOPLE.

William C. Smock, formerly of New Brunswick, his wife and their guests, Mr. and Mrs. Orin Dixon, of Middlebush, were held up at the point of a revolver and robbed by two colored burglars in their hotel at East Millstone Wednesday night. Mr. Smock, who is a brother of Hobart Smock, the comic opera tenor, was formerly a salesman, but gave it up to run a country hotel.

There was a harvest home at an East Millstone colored church Wednesday night, and Allie and Clifford Duvall, 19 and 22 years old respectively, went with a party of colored folks from New Brunswick. The two men went into the Smock Hotel and became engaged in an argument. James Dunn, the bar clerk, asked them to desist. The men assaulted Dunn, and dragging the unconscious man to the railroad near by, locked him in an empty box car, then returned to the hotel.

Mr. and Mrs. Smock, aroused by the disturbance, with their guests came to the barroom. The negroes drew revolvers and drove them to the kitchen and locked them up. By this time the neighborhood was aroused and men came to their aid. The negroes came to Somerville and were later arrested by Detective Totten. They were arraigned on the charge of highway robbery and grand larceny, and held for the Grand Jury.

Neighbors released the imprisoned family. Mr. Smock was badly beaten by the men last night, but his injuries are not serious.

WOMAN'S NECK NEARLY BROKEN AT FUNERAL.

Elizabeth, Sept. 3.—At the funeral yesterday morning from 550 Livingston street, here, of James J. Carey, Jr., who was stabbed to death on Monday, a stout young woman, in going from the house to a coach, tripped and plunged headforemost down a steep flight of steps to the sidewalk. She was stunned by the fall, and after being picked up and carried to the coach she fainted away when placed inside and restoratives had to be procured for her. She had a narrow escape from breaking her neck.

The funeral services were held at St. Patrick's church. Dean Gessner was the celebrant of the requiem mass and interment was in Mt. Olivet cemetery.

WISE OLD FIRE HORSE.

Could Draw His Own Oats and Turn on Water.

In spite of judicious exercise and restricted diet, Axel, one of the three horses that draw Montclair's chemical engine, waxed round and fat.

James Banks, the driver of the horses, finally concluded that some of the firemen at headquarters were surreptitiously supplying Axel with extras that accounted for the animal's rotundity, and he sat up last night to watch.

Banks was surprised at midnight to see Axel get down on his knees and haunches and crawl out of his stall under the chain that ought to have barred his exit. Then Axel walked to the feed box, raised the spring lever with his teeth, and let down nearly a peck of oats. Next he went to the water trough, turned on the faucet with his teeth, took a satisfying drink, and returned to his stall.

Banks says the horse looked positively chagrined when he went into his stall and rebuked it for its serious breach of discipline.

Miss Hooley in Coming Horse Show.

Miss Mabel Hooley, daughter of Mr. and Mrs. Edwin S. Hooley, of Rockview avenue, who have spent the summer at "Seven Gables" Narragansett Pier, will drive her own horses in this year's horse show at Newport, R. I.

The Sunday school of the Crescent Avenue Presbyterian church will resume its sessions Sunday morning at 9:30 o'clock.

Cottrell Sues Town Official and a Contractor for Dropping Him in a Pond.

Herbert Cottrell, of New Brunswick, has brought damage suits for $20,000 each against Asbury Fountain, Director of the Board of Freeholders, and Jacob Gaub, a contractor, both of that place, alleging that they ducked him in a water-filled ditch on his own property last Spring. The ditch was one being dug by Gaub's men, under authority of the township of Browntown, and was intended for a drain. Cottrell protested when the diggers reached property which he alleged to be his.

The wormen did not desist at Mt. Cottrell's command, and he jumped into the ditch to prevent further digging. Back of where he stood was a considerable pool of water, occasioned by a heavy downfall of rain, which tree stumps and the dirt taken from the ditch had dammed up into a pond. According to Mr. Cottrell, both Mr. Fountain and Mr. Gaub threatened to duck him in this if he persisted in trying to stop the digging, and when he did so persist were as good as their words.

Mr. Cottrell's suit will be heard by Supreme Court Justice Lloyd in the September term of the Circuit Court at New Brunswick.

OVERSTUDY CAUSES SUICHE.

Elizabeth, Sept. 3.—Richard Schlenker, aged seventeen, who had been only a few years in this country, committed suicide Wednesday afternoon at his home, 905 Flora street, here, by shooting himself in the stomach with a revolver.

His mother, who was upstairs in the house, heard the report of the pistol, and, running down, found her son lying on the kitchen floor. An ambulance was summoned, and the victim was removed to the General Hospital, where he expired an hour later. It is believed his mind became affected by overstudy, and that this brought on a fit of despondency. No other reason can be assigned for his act.

The body was removed to Jensen's morgue, where, last evening, it was viewed by County Physician Westcott, who gave a permit for burial.

Mrs. W. M. Brison Pays Visit to Mother After Absence of Thirty Years.

Away from home for thirty years and for a large part of that time believed by her family to be dead, Mrs. W. M. Brison of Flatbush, L. She paid a visit to her mother yesterday and will remain there for a short time.

LOCAL AMUSEMENTS.

George M. Cohan's best work is contained in "The Honeymooners," the sensational summer success at the New Amsterdam theatre, New York, which will be seen here tonight at the Plainfield theatre with full metropolitan production. In "The Honeymooners," Cohan aimed to see how much entertainment could be crammed into three hours and he succeeded in presenting twenty rattling song numbers, a powerful and logical plot, crisp laughable dialogue, a cast of twenty principals, forty chorus girls, and the smartest costumes yet put into a musical production. "The Honeymooners" is packed with entertainment of the typical Cohan kind and that is why New York packed the New Amsterdam last summer to see it. There is mirth, action and melody every second. It is Cohan better than his previous best.

Tomorrow night we will have "Buster Brown" at the Plainfield theatre with Master Rice in the title part. This is one of the best of the many musical comedies that are now bidding for favor. It is fairly rampant with fun while this season all of the costumes are entirely new and most elaborate, every stick and stitch of the scenery is new, while new music and songs will also be heard. The chorus we are promised is said to be large and most comely of face and form. This attraction should offer us an enjoyable evening at the playhouse.

Mr. Ober is the only actor who ever played "Rip" in Rip's own home, having given that celebrated Catskill production of the play in Palenville, N. Y., on August 9, 1907. On this occasion the play was given in a pine grove, at the foot of Kaaterskill Clove, up which Rip is reputed to have fled, after being driven

George Ober in "Rip Van Winkle" at Plainfield Theatre, Labor Day, September 6.

from home by his shrewdish wife, Gretchen. Palenville prides itself on being the original village of "Falling Waters," and the "Overlook," on South Mountain is pointed out as the place where Rip reviewed the village after his twenty year nap in the mountains, and remarks: "How is has growed since yesterday!" The whole country round is rife with apochryphal addenda to the original legend, which is truly real to the inhabitants, and therefore Mr. Ober faced a critical audience of over 5,000 people, including all of the townsfolk who claimed Rip as "one of them," and the fact that he succeeded in delighting all of them, is praise from headquarters.—New York Tribune. The show is booked for presentation here on Labor Day.

Lovers of an evening of real pleasure in the theatre are promised a treat far out of the ordinary in the announcement that the record-breaking success, "Polly of the Circus," has been secured as the attraction at the Plainfield theatre on Wednesday night. No play of the last twenty years as elicited such unanimous approval from all classes as has this

refreshingly told story of the romance of a pretty little circu rider and a village clergyman in the middle West, and the fact that "Polly of the Circus" is to be presented here on exactly the same scale of lavish magnitude that made memorable its season long run at the Liberty theatre, New York, would seem to insure for it the largest attendance of this season. Already plans are being made for a number of large theatre parties.

One of the most important attractions in either the dramatic or musical line that will be seen here this season will be Joseph M. Weber's brilliant New York success "The Climax" by Edward Locke, incidental music by Joseph Carl Bheil, which is announced for Friday night, Sept. 10. "The Climax" is said to be the most artistic, the most interesting, and the most delightful in points of construction, dialogue and development of character. The play proved to be the real dramatic surprise of

the season, scoring an unprecedented success at Weber's theatre where it is now attracting large and enthusiastic audiences. Acton Davies, the dramatic critic of "The New York Sun," had the following to say of the play. "From the rise to the fall of the curtain "The Climax" is a complete work of art, quite different in its way from any other play which has gone before it, and it certainly adds a new halo of distinction to Mr. Joseph M. Weber's career as a producing manager.

GETS THIEF BY THUMB RULE.

Victim Measures Indentations of the Ladder and Finds One That Fits.

Burglars will probably use a monoplane or some other dirigible arrangement that doesn't leave the tracks the next time they plan to rob the home of Charles H. Parker, of Burlington.

Some one entered Mr. Parker's house Tuesday night in Burlington through a second-story window and carried off valuables. The only clue that the victims had to the robbery were two indentations left in his lawn by a ladder used by the marauders. He measured the distance between these marks and forthwith set about to measure all the ladders in his ward. He found one that tallied with his measurements in a neighbor's yard and learned that somebody had borrowed it the night before.

The rest was easy. Parker now has his stolen goods back. He refuses to divulge the name of the culprit, who, he says, comes of a good family. The thief's passionate promises to reform saved him from arrest.

CHRISTIAN ENDEAVOR.

Prayer Meeting Topic For the Week Beginning Sept. 5, 1909.

By REV. S. H. DOYLE.

Topic.—Life lessons for me from the book of Romans.—Rom. xii, 1-21. (Consecration meeting.)

The epistle of Paul to the Romans is the superior of anything to be found in epistolary literature. Paul was a master in letter writing, and his letters written to some of the churches which he had organized and some of which he had visited afterward form a most important part in New Testament writings. Paul was to Christ what Plato was to Socrates. The gospel writers assume the attitude toward Christ that Xenophon did to Socrates. Xenophon was the historian of Socrates. The evangelists in the gospel tell the history of Christ. But Plato and Paul occupy the higher positions. Plato was the interpreter of Socrates' philosophy; Paul was the interpreter of the doctrines of Christ. Interpreters occupy a much higher ground than mere historians. So that Paul as the interpreter of Christ's doctrines occupied the supreme attitude toward Him. By him the life and teachings of Christ were formulated into the great doctrines which are the main foundations of the beliefs of the various Christian denominations. Indeed, Paul and his writings have been so thoroughly preached that some have claimed that Christ has been overshadowed by His great apostle. But not so. To preach Paul is to preach Christ, for no disciple was ever more devoted to his Master than Paul to Christ. He preached not himself, but "Christ and Him crucified." His glory was in the cross. "God forbid that I should glory save in the cross of Christ" was his guiding star.

Great as all the epistles of Paul are, the greatest is the book of Romans, in which he sets forth so forcibly the doctrine of justification by faith, which doctrine, seized on later by Martin Luther, revolutionized the formality and deadness of the Catholic church and led to the reformation and the institution of Protestantism. Romans had had a tremendous influence. By studying it Luther learned that Christianity was by faith and not such works as the since called Roman Catholic church demands. The result was the Protestant church. Luther's commentary on Romans led to the conversion of John Wesley, who in his struggles against similar conditions in the Church of England to those in the time of Luther in the Catholic church founded the Methodist Episcopal church, which has been and is still a great evangelical force in the world. The Presbyterian and all the reformed churches base their doctrines upon Paul's interpretations of the life and teachings of Christ. Protestantism almost entirely still stands firmly upon them, and under the blessings of God they have been wonderfully progressive and successful in their work.

No one was better qualified to write this epistle than Paul. It is no local letter, but one for the world. Jews and gentiles alike are shown in it how to be saved, and there is no difference in the method. Jews and gentiles, as the apostle proves, must be saved, if at all, through faith in Christ and His death. Only Paul was really adapted to write such a book for such a purpose. His father was a Jew who had been made a citizen of Rome. His mother was a Greek, which bound him to the gentiles. He was thus related to the three great empires of his day—Judea, Greece and Rome. Related to all, he could naturally appeal to all. He was raised a strict Jew and educated in the highest Jewish schools. Yet, his mother being a gentile, he would understand the gentiles better than Jews alone. What better equipment for a worldwide influence? He belongs to all nations and has led members of all nations into his Master's kingdom. He was a great thinker, a master of philosophy and of logic, and the logic of the doctrinal system has never been successfully refuted or denied.

The book of Romans is readily divided. It consists of two parts, the doctrinal and practical. The doctrinal part is found in chapters i, 16, to xi, 36; The practical part includes chapter xii, 16. In Rom. i, 18, is the text of the doctrinal part. In chapter xii, 1, the text for the practical part is found. Every Endeavorer should commit to memory these two verses.

Life lessons for me:

1. A living and not a dead consecration to God (xii, 1).
2. Nonconformation to the world, but transformation by the spirit of God (xii, 2).
3. My duties toward other disciples of Christ (xii, 9-16).
4. My duties toward enemies (xii, 17-21).

BIBLE READINGS.

Rom. i, 1-7; xiv, 21; iii, 19-31; iv, 1-12; v, 17-21; viii, 1-5; xxviii, 39; x, 1-4; xi, 33-36; xiv, 1-12.

Frances E. Willard's Tribute.

The Christian Endeavor societies have come just in time to lift the churches out of formality and inaction, to warm them with the young life blood without which they would ere long become torpid and to correlate them with the blessed everyday activities of this humanitarian age, nor will it prove a small part of the good work which I believe these young people are to accomplish that they illustrate to their elders that not only has God set the earth in families, but the church also, and that in the household of faith man and woman are to stand side by side as priest and priestess, equal in power and equally commissioned to preach the glad tidings of the gospel of peace.—Frances E. Willard.

The Lure of the Mask

By HAROLD MAC GRATH

Copyright, 1908, by the Bobbs-Merrill Co.

The letter fluttered into her lap. She leaned on her elbows. It was not a bad letter, and she rather liked the boyish tone of it. Nothing vulgar peered out from between the lines. Did he really love music? He must, for it was not every young man who could pick out the melody of an old, forgotten opera. Rather than tempt fate she decided not to answer this letter. It would be neither wise nor useful.

Romance! The word came back to her. With an unmusical laugh she stood up, shaking the letter to the floor. Romance! She was no longer a girl. She was a woman of five and twenty, and what should a woman know of romance? Ah, there had been a time when all the world was romance—romance; when the night breeze had whispered it under her casement window, when the lattice climbing roses had breathed it, when the moon and the stars had spelled it. Romance! She hated the word not less than she hated the Italian language, the Italian people, the country itself. She spurned the letter with her foot and fed the newspaper to the fire.

"Haven't noticed. What do you think of Kitty?"

"Charming."

"And the photo isn't a marker."

"Possibly not."

"Lord, if I could only hibernate for three months like a bear! My capital might then readjust itself if left alone that length of time."

"See you at the club tonight," laughed Hillard.

They nodded pleasantly and took their separate ways. Merrihew stood very high in Hillard's regard. He was a lovable fellow, and there was something kindred in his soul and Hillard's, possibly the spirit of romance. What drew them together perhaps more than anything else was their mutual love of outdoor pleasures. Take two men and put them on good horses, send them forth into the wilds to face all inconveniences, and if they are not fast friends at the end of the journey they never will be.

For all his aversion to cards there was a bit of the gamester in Hillard, as once in his office he decided on the fall of a coin not to withdraw his personal from the paper. He was quite positive that he would never hear that voice again; but, having thrown his dice, he would let them lie.

Now, at 11 o'clock that same morning two distinguished Italians sat down to breakfast in one of the fashionable hotels. The one nor the other had ever heard of Hillard. They did not even know that such a person existed, and yet serenely unconscious one was casting his life line, as the palmist would say, across Hillard's. The knots and tangles were to come later.

"The coffee in this country is abominable!" growled one.

The waiter smiled covertly behind his hand. These Italians and these Germans! Why, there is only one place in the world where both the aroma and the flavor of coffee are preserved, and it is not, decidedly not, in Italy or Germany. And if his tip exceeded 10 cents he would be vastly surprised. The Italian never wastes on necessities a penny which can be applied to the gaming tables. And these two were talking about Monte Carlo and Ostend.

The younger of the two was a very handsome man, tall, slender and nervous, the Venetian type, his black eyes, keen and roving, suggesting a hasty temper. The mouth, partly hidden under a graceful military mustache, was thin lipped, the mouth of a man who was always master of his vices. From his right cheek bone to the corner of his mouth ran a scar, very well healed. And the American imagination might readily have pictured villas, maids in durance vile and sword thrusts under the moonlight. But the waiter, who had served his time in a foreign army, knew no foil or rapier could have made such a scar; more probably the saber.

His companion was equally picturesque. With white head and iron gray beard, he wore in his buttonhole a tiny bow of ribbon, the badge of foreign service.

"I'm afraid, Enrico, that you have brought me to America on a useless adventure," said the diplomat.

"She is here in New York, and I shall find her. I must have money—must! I owe you the incredible amount of 100,000 lire. There are millions under my hand, and I cannot touch a penny."

"Do not let your debt to me worry you."

"You are so very good, Giuseppe!"

"Have we not grown up together? Sometimes I think I am partly to blame for your extravagance. But a friend is a friend or he is not."

"But he who borrows from his friend loses him. Observe how I am placed. It is maddening. I have had a dozen opportunities to marry riches. This millstone is eternally round my neck. I have gone through my part of the fortune which was left us independently. She has all of hers, and that is why she is so strong. I am absolutely helpless."

"Poor friend! These American women! They all believe that a man must have no peccadillos once he has signed the marriage contract. Body of Bacchus! The sacrament does not make a man less human than he was before. But this one is clever. She might be Italian born."

"Her mother was Italian. It is the schooling in this country that has made her so clever. The only thing Italian about her is her hatred. She is my countrywoman there. Without her consent I can touch nothing, and if I divorce her—pouff!—all goes to the state. Sometimes I long to get my two hands round her white throat. One mistake, one little mistake! I am willing to swear that she loved me in the beginning. And I was a fool not to profit by this sentiment. Give me patience, patience. If I say to her, 'So much and you may have your freedom, there is always that cursed will. The crown of Italy will never withdraw its hand. No. With his wife's family on his hands, especially her brother, the king will never waive his rights.'"

"And, remember, we have but ten days."

"We shall not find time heavy. I know a few rich butchers and grocers who call themselves the aristocracy. And some of them play bridge and ecarte."

The diplomat smiled in anticipation.

"I have followed her step by step to the boat at Naples. She is here. She will not be hard to find. She has wealthy friends."

"You say she is beautiful?"

"Yes, and a beautiful woman cannot hide. Think of it! Chateaux and villas and splendid rents, all waiting to be germanized by the state! Let us get out into the air before I become excited and forget where I am."

The waiter stepped forward with the coats and hats.

CUNARDER LUSITANIA BREAKS THE RECORD.

The Cunard liner Lusitania landed her passengers at 7:50 o'clock last evening. She arrived off the Ambrose Channel Lightship at 4:42 p. m., breaking all previous records over the short course. She is the first westward-bound Atlantic steamship to land her passengers in five days after leaving her sailing port.

The new record time from Daunt's Rock to the lightship is 4 days 11 hours 42 minutes, and the Lusitania's average speed on this trip was 25.85 knots an hour. The best previous record was made by her sister ship, the Mauretania, on Aug. 20. It was 4 days 14 hours 38 minutes, and the average speed was 25.84 knots an hour. From this the Lusitania has clipped 2 hours 56 minutes. Her best day's run was made from Monday noon to Tuesday noon, when she covered 652 miles, against the 673 miles made in one day by the Mauretania on her last westward voyage. In this last respect, therefore, the Maureetania still holds the record.

FIVE HUNDRED BABIES GREET QUEEN TITANIA

Clear skies and a refreshing sea breeze greeted the five hundred babies and children who paraded before their ruler, Queen Titania, yesterday afternoon in Asbury Park's nineteenth annual baby parade, the closing event of the carnival festivities. The parade was in eight divisions, one being devoted to twins. There were eleven sets in the twin division, representing Manhattan, Brooklyn, Jersey City, Newark, Philadelphia and Arlington.

Queen Titania occupied her throne in the royal gallery. She wore a handsome white lace robe. Her maids were similarly attired. From time to time the paraders saluted her, which brought from her a sweet smile of royal favor.

Acting Governor Joseph S. Frelinghuysen was one of the spectators in the Amphitheatre, which was filled with eight thousand onlookers. Ocean avenue was filled with a crowd which numbered fifty thousand. At the conclusion of the parade the prize winners formed in line and countermarched through the Amphitheatre. The grand prize, a massive silver loving cup, was awarded to Charles H. Barrows, Jr., of Newark. He represented Uncle Sam, on a float designated "The United States of America."

John S. Yeo, of Philadelphia, captured first prize in the baby coach division. He impersonated Dr. Cook, the Arctic explorer, and on top of his snow-covered coach was a miniature North Pole, from which the American flag floated.

In the doll coach division first honors went to Vivian R. Hunt, of Red Bank. He was the motive power for a handsomely decorated coach, in which reclined three life-sized dolls.

Robert A. Nichols, of Baltimore, won first prize in the fancy dress division. He was attired as a deep sea fisherman, in oilers, and drew a wagonload of real fish.

"Cinderella's Fairies" was the designation of the express wagon in which Mary D. Winans, of Newark, reclined. She received the blue ribbon, and deserved it. The wagon represented a floral bower, beneath which Cinderella reclined. Two pretty tots, gowned in yellow, drew the wagon.

A representative of the Normal College, of New York, Helen R. Gallenski, was the winner of the first prize in the division devoted to college colors. Irene V. Jube, of Brooklyn, representing Amherst, received the red ribbon, while a Princeton boy, John R. White, 4d, captured third prize.

A New York girl, Helen Frschem, four years old, representing Mrs. Newlywed, won first prize in the burlesque division, and another Manhattan girl, Dorothy May Trible, received the second. The last named impersonated a suffragette. Last year Miss Trible, wearing a sheath gown, won the grand prize. Mildred Holmes Bedle, of Kerrport, as a summer girl, received first honors in the float division. She rode in a canoe trimmed with pond lillies and cattails. Two pretty girls, with costumes similarly trimmed, drew the float. Second honors in this division went to Ruth B. Blumauer, of Asbury Park. She rested inside a massive seashell, surrounded by a make-believe ocean. The shell was drawn by dolphins. "Washed Ashore at Asbury Park" was the title of the float. "Mollie Pitcher at the Battle of Monmouth" richly deserved the third prize it received in this division. The Revolutionary heroine was represented by Minnie N. Kilburn, of Orange.

"My Wife's Gone to the Country" was another float which received a prize cup. The forlorn husband was Cornelius V. Lovett, of Little Silver, whose antics at the washtub and cook stove convulsed the spectators. Miss Gladys M. Parkinson, of Jersey City, impersonated "Polly of the Circus" in the pony division, and captured the blue ribbon. Horace D. Williams, of Philadelphia, as "Prince Charming," received the red ribbon, and Eda Coombs, of Asbury Park, a cute little jockey, carried away the yellow ribbon.

FREEHOLDERS FEED COUNTY'S PRISONERS

The jail committee of the Union county Board of Freeholders reported at the meeting of the board yesterday that the new system of feeding prisoners was both successful and economical. The Freeholders now buy and pay for the meals instead of the Sheriff.

Seventy-eight prisoners were received during the last month. There were sixty incarcerated on August 1. Seventy-five were discharged. The daily cost of food was 34.31 cents and the total cost of maintaining the jail for the month was $611.82.

In accordance with recommendations made by the monument committee of the Board of Freeholders and General J. Madison Drake, supervisor of monuments, the Board of Freeholders will erect headstones over the graves of the following soldiers: Captain William H. Meeker, Harry F. Doyle, Chauncey Martin, Edwin R. Brown, Henry Wood and Thomas H. Seymour.

M'CARTER SEES MORGAN REGARDING BOND ISSUE.

Thomas N. McCarter, president of the Public Service Corporation of New Jersey, was in New York Wednesday in consultation with the firm of J. P. Morgan & Company and other financiers in connection with the coming $50,000,000 bond issue of the New Jersey corporation.

Definite information as to the nature of Mr. McCarter's talk with the New York financiers was not obtainable, but it was said that he was able to show them that within a comparatively short time there will be one gas and one electric light and power system, like the trolley system, all three holding companies to be under the central management, which will cover the public utilities companies of those kinds in practically the entire State of New Jersey.

Delay in the actual issuing of the bonds is said to have been for the purpose of bringing about the merger of the gas companies in the same manner that the trolley companies were merged two years ago.

It was in relation to this matter, it is said, that ex-Governor Stokes went to Europe this month. While abroad, it is said, he obtained the signature of Henry C. Kelsey and other holders of gas securities, agreeing to the proposed merger of various gas companies under one management.

PLAINFIELD ASSO. OPENS SOCCER SEASON TOMORROW.

The soccer football season will be ushered in by the Plainfield Association F. C. tomorrow afternoon when they will meet the Newark F. C., on the Clinton avenue grounds, which have been put in first class condition and laid out anew for the season. The local boys have been considerably strengthened by the signing of several new players and a hard game is expected as the Newarkers are a fast bunch. They played in the American League last season.

Manager A. Cowley, who handles the Plainfield club, has been busy for several weeks getting things in good shape and announces that the team this year will surpass all previous years. All those who like a good game should attend the one tomorrow. This promises to be a successful season for the Plainfield A. F. C., as they have already booked some good fixtures for the coming season in a series of home games. Tomorrow's contest will be called at 3:30 o'clock.

"TIME NOT READY FOR THE NEGRO IN OFFICE."

The Rev. I. W. L. Roundtree, a leader of the negro race at Trenton and known as a State leader of them in the Republican party, is of the opinion that an equal opportunity is now offered to the negro in the direct primary, but says he believes the time is not yet ripe for the negro to seek office.

Referring to the case of Churchman in Essex county, the Rev. Roundtree said: "While the primary law now opens the door even to my race for office, it puts before the negro an opportunity which he should be slow to take advantage of. "If he seeks nomination, it will only lead to confusion and dissension in a party, and his repulse at the hands of the voters, if he is repulsed, will be charged up to the Republican party, when that party may not be to blame. The negro should only seek that which will be of permanent benefit to his race."

Mr. and Mrs. Harry McGee, of Rockview avenue, left today for Washington, Conn., where they will be the guests of Mr. and Mrs. Robert H. McCutcheon at their bungalow.

HE PEDDLED VEGETABLES WITHOUT ANY LICENSE.

Donato Vereno, of Lake street, was arraigned before City Judge Runyon today for peddling vegetables in the East End of town yesterday without a license. He was arrested by Patrolman Saffron on South avenue yesterday afternoon.

The Italian insisted that he was not violating a city ordinance. He said that he was delivering orders. The patrolman testified that his wagon was heaped up with 'garden sass" but Vereno tried to explain by saying that he had a single order for fifteen baskets of tomatoes, which he was on his way to deliver when arrested. He wouldn't tell who gave him the order, and the explanation didn't have the desired effect. City Judge Runyon suspended sentence, but explained the ordinance and warned the Italian that he would be watched and that if there was a "next time," he would have to pay a heavy fine.

GEORGE J. S. MURPHY EXPIRES IN RESTAURANT.

George J. S. Murphy, secretary of the Board of Fire Commissioners of Elizabeth, died suddenly last night in New York.

Mr. Murphy attended with some of the commissioners, Chief August Gerstung and others, an inspection of horses in the metropolis. The officials went later to Smith & McNeil's restaurant on Washington street, where they had dinner. Suddenly Mr. Murphy grew pale, and Commissioner Frederick H. Kurtz asked him if anything was the matter. He received no answer and the party became alarmed. A physician was summoned, but he pronounced Mr. Murphy dead when he arrived.

BOROUGH FATHERS' WORK

Minor Matters Only Take Up Time of North Plainfield's Council.

RESOLUTIONS AND PETITIONS.

Month's Expenses Are $2,234.00, Ordered Paid—Tax Collector Brown Makes Report.

There was little business of importance considered at the September meeting of the Borough Council, last night. There was just a quorum, Mayor Townsend and Councilmen W. L. Smalley, Jr., B. R. Waldron and Julius J. Stahl. Most of the time was taken up with the reception of the monthly reports.

Councilman Stahl reported concerning applications for two permits for buildings, one being from C. W. McCutchen for a small building, 12x8 feet on the north side of Rockview avenue, to be used as a garage. Mr. Stahl said that he gave instructions that the work could be proceeded with, and the other members agreed that it would be all right.

The other request for a permit came from DeLopresti, a wholesale junk dealer from Newark. He wants to build a shed 20x100 on Maple avenue, but as it requires five votes to pass on the permit, the matter will be held up until the next meeting. The Mayor thought it should be investigated still further, and ascertain to what use the man wants to put the building. He said that he might want to use it for a tenement. Mr. Stahl gave as his opinion that it is to be used for the storage of junk. As the borough ordinance restricts building from a fire standpoint, it is doubtful whether this permit can be denied. Besides it is such a distance outside the borough proper, it is considered that there would be little or no danger.

Regarding a recent resolution adopted, providing for sidewalks on Greenbrook road, the Mayor said that he had learned that this territory is outside that covered by the ordinance, and at his request the resolution was re-considered and then tabled. Mr. Townsend said that the borough is pursuing an expensive system in the matter of establishing sidewalk grades. The old system had been followed, that of ascertaining grades from the middle of the street, whereas the modern and only safe way is to determine it from the curb which does not change. He said that he had asked the borough engineers to give an estimate on new grade maps.

A petition was received and favorably acted upon, urging that sidewalks be laid on Mountain avenue, between Westervelt and Watchung avenues. Eleven walks were requested and later Mr. Waldron offered a resolution, which was adopted, authorizing the clerk to notify the property-owners to comply with the ordinance in this respect.

The report from the committee on police and lights was presented by Mr. Stahl, showing expenses for the past month to be $365.57 for police and $481.79 for lights. He also presented the report for the committee on fire and water, the month's expenses being $219.56. Recorder Charles M. Dolliver's monthly report showed that there were nineteen arrests and $45 received in fines.

Councilman W. L. Smalley, Jr., offered a resolution, which was adopted, authorizing the payment of the claims for the month, amounting to $2,234.25, and another resolution by the same member providing for the borrowing of $1,000 to cover notes, etc., was also adopted.

George F. John Serviss Bitten by a Dog.

John Serviss, aged four years, of 81 Somerset street, while visiting in the mountains yesterday with his mother, was bitten in the thigh by a small dog with which he was playing. The canine, which belonged to a farmer, happened to be in the vicinity and the lad began playing with it. Suddenly the dog snapped at the boy, its teeth just grazing the skin on the thigh. The injury was not serious enough to require the services of a physician.

NEIGHBORS' QUARREL COSTS THEM $5. APIECE

"Mrs. Orlach sprinkles bread crumbs out for my chickens, and when they come to eat, she slaps them with a board." This statement by Mrs. Bertha Richter, of East Second street, was offered in testimony before City Judge Runyon at court this morning to show the neighborly spirit of Mrs. Susan Orlach, whose home is on Midway avenue. As the result of a back yard fight on Wednesday, when fence pickets were the weapons, each of the women was a plaintiff and a defendant in turn. The court fined each five dollars and ordered that they keep at least out of picket range of each other in the future.

Mrs. Orlach, on the stand, told the court that Mrs. Richter rules the neighborhood with an iron hand and perpetually vents spite on her because she refuses to fall in line to the rule. The Midway avenue resident was represented in court by Robert Newton Crane, while S. S. Swackhamer was Mrs. Richter's lawyer.

Wednesday's fight caused the appearance in court, but there have been many previous encounters, neighbors say. Mrs. Richter, papering a room in her house that afternoon, got brooding about how mean Mrs. Orlach is, and went out into the yard to talk about it. Mrs. Orlach, she says was there with a board, and when she spoke of the cruelty to chickens, the Midway avenue woman struck her in the face with the board. She struck back, "in self-defense," and the fight only stopped when neighbors and police interfered. Mrs. Orlach said that the Richter woman struck first.

After the woman had heard the ruling and left the court-room, Mrs. Orlach came back with Paul Richter, her neighbor's son, and told Judge Runyon that he had called her a vile name as she passed out. Richter denied the charge, and as none of the bystanders had heard the alleged epithet, the Judge dismissed the young man with a reprimand.

LAST MEETING AT THE NETHERWOOD HOME

The last meeting of a most successful season will be held tomorrow afternoon at the Netherwood Fresh Air Home and the interest will be largely increased owing to the fact that the children who have been benefitted by the home will take part in the exercises.

Three minute talks will be given by the officers of the Home and many others who have contributed to the maintenance of this, one of the greatest charities of this part of the country. Miss Curry, to whom is due the great success of the work, will also speak. Miss Curry has devoted her life to the work of rescuing and upbuilding the characters of the children of the slums and by taking them from their unsanitary, and oftentimes discouraging, environment, created in them and their parents a feeling of responsibility for their own souls.

J. D. Loiseaux, Doctor Curry and other interested workers will address the meeting and Mrs. Robert Humpston will sing. Other music has been provided and the afternoon will be profitably spent by anyone who attends the meeting. All are invited to attend and will receive a cordial welcome.

TRYING TO OUST CONROY FROM SOMERSET NURSERIES.

Charles Berg, the East Orange hatter, has entered an ejectment suit against Edward J. Conroy to recover possession of the nursery property on Somerset street. Robert Newton Crane represents Mr. Conroy and Riker and Riker, of Newark, represent Berg.

Berg's lawyers made a motion before Vice-Chancellor Emory for a writ of assistance, but were unsuccussful. It was made in order to assist Berg in putting Conroy out of the premises in question. The case will finally come before Judge Vail in the Somerset county Circuit Court.

Twenty-three Names Left.

Delinquent taxpayers in the borough have been settling with the tax collector promptly and it was learned today that there are now but twenty-three names left on the delinquent list.

CADMUS TRACT BOUGHT

William L. Smalley, Jr. Purchases Seventy-five Acres of Valuable Land.

FOR BUILDING LOT PURPOSES.

Fine Dwellings to Be Erected Early in the Spring Says the Purchaser of Property.

An important realty deal has just been closed whereby Councilman William L. Smalley, Jr., becomes the owner of the valuable tract of land, seventy-five acres, belonging to Rutgers V. Cadmus. This property on Greenbrook road and West End avenue, has been in the Cadmus family since 1835, and it was then one tract comprising 688 acres.

It extended from Rock avenue to Front stret, through Front street to Giraud avenue, up Giraud avenue to the top of the Watchung mountains and along the mountains to Rock avenue. It is all high land, lying to the west of Washington Park, the borough, and it is the intention of Mr. Smalley to cut the tract up into building lots, with restrictions.

Since his removal into the western part of the borough, Mr. Smalley has developed a considerable tract of land. He originally occupied the Stein property on Greenbrook road, which was afterward sold to Mr. Harrington, a New York wholesale butcher. Mr. Smalley then built for his occupancy a handsome modern residence at Greenbrook road and West End avenue, where he is now living.

According to present plans Mr. Smalley's recently acquired property will be divided into building lots at once and early in the spring several fine dwellings will be erected thereon, all of a high grade and in keeping with the attractive section of the borough.

BUILDING PERMITS GRANTED IN AUGUST

During the month of August, the construction of eleven new buildings was commenced in this city, and of these seven are dwellings. The most expensive of these buildings is the home being constructed by George Beaton, of West Seventh street, at Watchung and Hillside avenue, the site of the old Opdike residence. The permit for this building was granted early in the month and the carpenter work, in charge of Alexander Milne, is now well under way. The building will measure 100 by 75 feet and will be three stories in height.

For business purposes. two buildings are now in course of construction. These are a brick power house being erected on West Fourth street, near Madison avenue, by the Spicer Universal Joint Manufacturing Company and a garage, to be built by J. Fred MacDonald, on Watchung avenue near Front street. The building will be of brick and concrete and will measure 45 by 130 feet.

Frame dwellings, five in number, are in course of construction in the new residential sections of town. These are owned by William H. Titus, on Lyman place, near Astor place; by Emile Beys, at Laramie road at Cameron avenue; by Enoch Berry, (two) at Leland and Midway avenues; and by H. M. Canoune, on Denmark road, near Osborne avenue. These buildings are all well under way in course of construction.

Rimmer, Apgar and Cuzen have been making excellent progress in the construction of the tuberculosis pavilion being erected by the Plainfield Society for the Relief and Prevention of Tuberculosis on Moffett avenue, opposite Marion avenue. The plans were prepared by Architect A. L. C. Marsh.

C. H. Frazer, of Richmond street, has secured a permit for the erection of a barn, and Mrs. Clara N. Naylor, of East Second street, has planned to build a tool house. H. Goldstein, of West Front street, Miss Carrie M. Snyder, of West Front street, George P. Mellick, of East Seventh street, I. D. Tallamy, of West Front street, C. W. Holland, of West Seventh street and W. T. Merrill, of Carlton avenue, have all been granted permits for small additions to their residences.

Pastor Broek Will Preach.

Rev. John Broek, pastor of Trinity Reformed church, will occupy his pulpit tomorrow morning and night, having returned from his vacation spent in Grand Rapids, Michigan. The church has been thoroughly cleaned and renovated. The regular quartet choir will also be in its place at both services tomorrow.

HORSE STEALING CASE

Complicated by Removal of Animals from Jackson's Stables.

WHO OWNS THE HORSES?

Counsellor Robert Newton Crane Has Procured Evidence in Norristown, Pennsylvania.

The case of the two alleged horse thieves, who are out under $1,500 bail each was somewhat complicated this morning when it was discovered that the two horses in question had been shipped from the stables of Stonewall Jackson and were on their way to Norristown, Pa.

According to all precedents in law the horses could not have been released except under the regular replevin proceedings and some one is responsible to the Riccardis, father and son, who claim ownership by right of purchase should they prove title.

The mere fact that Jacob Lampert, the reputed owner of the two animals in question, identified the horses as his property did not, according to the best legal light shed on the subject, entitle him to any such high-handed proceedings. Hence the complications. When seen this morning Counsellor Rober. Newton Crane, who is looking after the interests of the two accused men, said that the method of acquiring possession of the horses was, to say the least, irregular.

Recorder Dolliver, who gave the two men their liberty under bonds furnished by Vincio Salordo, and Louis Barber, said this morning that he had not heard of the removal of the animals until told of it by a Daily Press reporter and was of the opinion that Lampert had no right to take the horses out of the State without the regular proceedure. In the meantime the horses are probably in the possession of their proper owner and the case will have to be fought out in the courts after the decision is rendered as to the extradition of the Riccardis.

Until the merits of the case have been decided, or until the requisition papers of Governor Stuart, of Pennsylvania, have been honored by Governor J. Fraklin Fort, the property is the same as any other evidence in any other criminal case and is not the property of the claimant until the case is determined by the courts.

Robert Newton Crane, the attorney for the Riccardis has received telegraphic notice from Augustus Nash, whom he sent to Wilkesbarre, that he is getting the evidence he was sent to procure.

Announcement was made this morning of the wedding in Jersey City last Sunday, August 29, of Miss Susan R. Ackerman, daughter of Mr. and Mrs. John J. Ackerman, of 303 Clinton avenue, to F. Willard Downes, of West Front street, an employe of J. G. Williams & Co., the West Front street grocers.

The ceremony was performed by Rev. J. J. Mapes, pastor of the Church of the Disciples of Christ, of Jersey City, in the presence of witnesses and friends of the couple. Mr. and Mrs. Downes have gone to housekeeping.

Firstbrook, of this city, on Wednesday, September 15, was given a linen "shower" last night at the home of Mrs. Joseph C. McDonough, on Wallace street, Newark. There were about fifty guests, including a number from this city. The affair was arranged by Miss Helen Johnson, of this city. Miss Kelly received a large collection of handsome gifts in linen. Supper was served during the evening.

TO PAY FOR DAMAGES ON INSTALMENT PLAN

David H. Wilson, the South Jersey farmer whom Robert Alexander, colored, was sure would pay for the damage he did while intoxocated, Thursday afternoon in the office of Michael Armstrong, the plumber, yesterday refused to help Alexander out of his troubles. The negro had broken a lavatory in the office. Wilson did tell Alexander that the latter could no longer work for him, delivering the message by telephone from Plainville.

"Don't lock me up, Judge," said Alexander. "Let me get to work and I'll pay Mr. Armstrong $2 a week until I square myself for the damage." The plumber, who was in court, didn't seem to think that he would be sure of getting his money under this arrangement.

City Judge Runyon finally sentenced the colored man to a sixty day term in the county jail, and suspended sentence on condition that he would pay the plumber at the rate of $2 a week for nine weeks. The suspended sentence is to keep his memory green as far as the weekly two-spot is concerned, and the local police "have his number" so that if he gets in arrears they can round him up for the jail term. Alexander left for Plainville, where he says he can get a job, and Michael Armstrong has started to watch the mails for two dollar bills.

DEATH OF MRS. GERTRUDE SCOTT VAN PELT.

Mrs. Gertrude Scott Van Pelt, widow of the late Rev. Daniel Van Pelt and daughter of the late Rev. Dr. Charles Scott, died yesterday at her late home, 315 West Sixth street. The funeral will be held Tuesday afternoon and will be private. Rev. John Y. Broek, pastor of Trinity Reformed church, will conduct the services.

Mrs. Van Pelt was born in Ulster county, N. Y., and came to Plainfield eight years ago. Her father was president of Hope College, Michigan, a Dutch Reformed institution.

Disposes of Business Interests.

John Rothberg has sold his interest in the Plainfield Bargain store at 306 West Front street to David Robinson, of Morristown. Mr. Rothberg is not ready to announce his plans for the future.

THIMBLE CLUB'S VISIT TO LAKE HOPATCONG

The Thimble Club, of this city, of which Mrs. Floyd T. Woodhull, is a member, was yesterday the guest of the latter at her delightful summer home, "Barwood," Lake Hopatcong. This has been an annual event and all of the members look forward with the greatest pleasure to the trip to the lake and the hospitality of Mr. and Mrs. Woodhull.

Mr. Woodhull, commanding the large power boat, "Kate B," gave all a delightful sail on the lake during the day and one of the features of the entertainment was the luncheon served on the spacious veranda at "Barwood." During the afternoon there was a pleasing program of vocal and instrumental music and it was with sincere regret when the time arrived for the departure for home. The party expressed their hearty thanks to Mr. and Mrs. Woodhull for their delightful entertainment. A more perfect day could not have been chosen for the outing.

The members of the Thimble Club present were: Mrs. R. A. Meeker, Mrs. L. M. Leek, Mrs. A. L. Force, Miss Lillian A. Force, Mrs. W. S. Schomp, Miss Etta S. Raybert, Mrs. F. T. Dickerson, Mrs. Frank Storr, Mrs. W. B. Marchant, Mrs. Noble Briggs and Mrs. J. E. Dunn.

HE ACCIDENTLY SHOT HIMSELF IN THE HAND.

Michael Barbariska, an Italian laborer, employed in the yards of the Lehigh Valley Railroad Company at South Plainfield, narrowly escaped serious injury yesterday afternoon. He carried a pistol in his coat pocket, and as he sat down on a pile of ties to eat his lunch, the pistol went off and the bullet pierced the man's hand.

Barbariska was greatly frightened over the injury and hurried to a local physician, who extracted the bullet, which was found imbedded in the fleshy part of the hand, and dressed the wound. The physician does not believe that any serious results will follow.

Emery Gets a Tryout.

Jimmy Emery, the shortstop of the Plainfield Baseball club, is having a tryout with the Worcester club of the New England League today. The scouts who work through the rural districts for new timber for their teams have had their eyes on Jimmy for some time and his recent batting has had much to do with the chance given to the Plainfielder to make his bow to the minor league fans. It is said that Barnes, too, is playing a game which will eventually land him among the timber toppers.

TO MOVE AGAINST LOW-CLASS SALOONS.

Officials of the New Jersey State Liquor Dealers' Association, in this city, are in accord with the action of the New York association, which Wednesday passed resolutions at its convention in the Lexington Opera House, New York City, advocating the closing of all disorderly saloons, pledging themselves to refuse to furnish such dealers with supplies. A similar step has already been taken by the New Jersey association, which, like the New York association, denies membership to anyone who conducts a disorderly place.

"The New Jersey association has long been opposed to the low class saloonkeeper," said one of its officials this morning. "We won't allow them membership, and if it is proved that anyone connected with the association conducts a questionable saloon he will be expelled."

The New York dealers hold the low class liquor men responsible for the agitation against the liquor business, and charge that deficiencies in the law are responsible for their existence.

The New York men want laws passed providing for a more liberal Sunday, and also providing for the restriction of licenses to one for every 750 persons, instead of one for every 400, as at present.

Newark Driver Badly Hurt.

BIG STORE'S BIRTHDAY.

Hahne & Co. Celebrate the Fifty-first Anniversary of the Great State Store.

Most of our readers will remember the great celebration a year ago when the Hahne & Co. store, "Newark's Store Beautiful," arrived at the fiftieth year of its existence. The Hahne & Co. jubilee was celebrated on a grand scale. There were elaborate decorations, grand music, a big street parade and a wonderful sale of merchandise on that occasion which thousands enjoyed. It was one of the most notable trade events Newark or New Jersey has ever known.

This year the golden jubilee celebration will be equaled and in many ways outdone. There will be many features or surpassing interest to all Jerseymen—features that should attract people from towns for many miles round about Newark.

There will be a gigantic sale of merchandise at unprecedentedly low prices. There will be a great street parade, probably a mile in length, with several bands of music, on Tuesday morning at 10 o'clock. There will be a festival om music continuing throughout the two weeks of the celebration, concerts every day, free to all. There will be many free souvenirs for the patrons of this store, including a beautiful set of postcards, showing the building as it was decorated on the occasion of the last anniversary. There will be a monster birthday cake, with fifty-one candles in it—a sight to see. There will be a grand showing of new fall apparel and other merchandise, in itself sufficient to attract thousands. Everybody should go to Newark on Tuesday, September 7, and join in this celebration of the State's greatest store.

SAVES DROWNING GIRL.

Atlantic City, Sept. 4.—In sight of a thousand excited spectators on the Steel Pier, R. P. Schwab, of Philadelphia, saved the life of Miss Mabel Ackley, of Atlantic City, after she had been carried to sea by an offshore current Wednesday afternoon.

Miss Ackley is an expert swimmer, but was unable to breast the undertow and was sinking when Schwab reached her. Life Guard Luker held both on a life buoy until the arrival of a lifeboat, which brought all three ashore. Miss Ackley fainted, but was revived later.

Patrolman John Payne, of the local police department, started on his annual vacation today.

Mr. and Mrs. Zenas Apgar, of High Bridge, have been entertaining Mr. and Mrs. S. Seals and child and Mrs. John Seals, of this city.

Mr. Ericsons Old House.

Go see it, it's a beauty. It stands out among all its neighbors, because the coloring is so bright and clear. Mr. Ericson painted with L. & M. Paint and says it costs 1-3 less than ever before. He bought only 12 gallons of L. & M. Paint and 9 gallons of Linseed Oil to mix with it. This made 2- gallons of pure paint, and cost only $1.20 per gallon. It's as handsome as the finest in town. The L. & M. is sold by Woolston & Buckle, Plainfield; H. C. Meyer, Scotch Plains; Edw. Pennock, Dunellen.

N. Y. AMUSEMENTS.

Over at the Hippodrome everything is bustle and excitement in preparation for the opening of the big playhouse on this evening when Messrs. Shubert and Anderson will inaugaurate the season with a brand new series of spectacles, which they present under the triple title: "A Trip to Japan, "Tro' the Centre of the Earth" and "The Ballet of Jewels." This promises to be the most dazzling of all the splendid Hippodrome productions. The first of the three pageants, "A Trip to Japan" has been woven about a dramatic story, having to do with the attempt of an adventurer to smuggle into Japan the plans for an American submarine. A complete circus is introduced during this part of the entertainment and this will include twelve absolutely new arenic acts, which will be seen for the first time in America. Miss Nannette Flack, the Hippodrome's prima donna, will sing the leading role and Marceline will, of course, be one of the lively features of the play as well as of the circus. The second part of the programme which is called "Thro' the Centre of the Earth" will take in the Antipodes and will present some of the strange races on the other side of the globe in realistic scenes from their home life and pursuits.

Klaw & Erlanger have obtained for McIntyre and Heath a very amusing and entertaining production in "McIntyre & Heath in Hayti." John J. McNally wrote the book and lyrics and Jerome & Schwartz, the music. Mr. McNally takes his characters from French Lick to Hayti, where they become the central figures in a lively revolution. In the cast are Julian Rose, Mabel Sealby, Toby Lyons, Marion Stanley, Jane Burby, Adela Rowland, Alfred Fisher, John H. Pratt, Carl McCullough and Fletcher Norton. McIntyre and Heath will be surrounded by a large and effective chorus of singers and dancers. Scenic settings and costumes will be elaborate and tasteful. The first performance will be given August 23, in the Euclid Avenue Opera House. This is the first time Klaw & Erlanger have ever opened a show in Cleveland, although it is the home town of Mr. A. L. Erlanger.

Charles Frohman has fixed upon Monday at the Knickerbocker theatre, New York, for the first metropolitan performance of the far-famed Continental success, the musical play, "The Dollar Princess." With a noteworthy cast headed by Donald Brian, Will West, E. J. Connolly, Valli Valli, Adrienne Auguarde and Louie Pounds, this newest importation, which Berlin and Vienna unanimously proclaimed a worthy successor to "The Merry Widow," skilfully blends an American and English story. Its music is rich in languerous waltzes, delightful lyrics of love, gayety and wit. Charles Froham has spared neither expense nor pains to bring to "The Dollar Princess" the most tastefully gorgeous staging of any musical piece that has ever borne the Froham imprint. Mr. Frohman has fine-tooth-combed the musical comedy field of England and America for a group of favorites who are as certain to sweep "The Dollar Princess" as gaily forward to epic making success as they have every other musical vehicle with which their names have been associated. The cast of "The Dollar Princess" will be headed by Donald Brian, who is remembered from one end of the country to the other for his superbly graceful and melodious Prince Danilo in "The Merry Widow."

LITERARY

In the Atlantic Monthly for Septem, J. O. Fagan attacks the difficult problem which confronts the Pennsylvania Railroad on account of its refusal to meet the demands of the railroad brotherhoods for an increased share in the management of the road. The Pennsylvania is the last of the personally managed roads, and this struggle gives M. Fagan a concrete instance of immerse importance to demonstrate what he believes to be the necessity of authority in railroad management.

Having rounded out its first five hundred months of existence with the August number, Lippincott's Magazine starts out with September as though it could see a far longer vista of months and years of life ahead of it. And there is no reason why it shouldn't, so long as its present high quality is sustained.

A story by Henry M. Hyde that is most timely, concerned as it is with a love adventure of a young American in Morrocco is the leading fictional feature of The Red Book Magazine for September.

Beginning with the cover design, a setter pup in full colors, Recreation for September, now for sale by all newsdealers, is page for page the most interesting and most sumptuously illustrated number this magazine has ever published. The leadfeature of the September issue is an article on hunting the white-tailed, or Virginia, deer, by T. S. Van Dyke, author of "The Still-Hunter," who has long been a favorite writer among the million hunters of America.

"Hill against Harriman—The Story of the Ten Years' Struggle for the Railroad Supremacy of the West" is the leading feature of the

NO TRADING STAMPS, BUT MORE FOR YOUR MONEY.

September American Magazine. It's author, George H. Cushing, says: "Hill has worked in the tomorrow of things. Harriman today. Hill has won by projecting an idea ahead of him and working up to it. Harriman thinks in present profit and crashes through opposition with the weight of his financial support. Hill's is the success of brain; Harriman's of money and organization."

The September number of "Success Magazine" begins with an article by H. Addington Bruce entitled "Marvelous Master Sidis," which treats of the wonderful educational heights reached by a boy of eleven. In "Double-Crossing the Ear" Harris Dickson shows how prohibition is a paying proposition in the South. Eugene Wood tells us why and how we laugh in an article called "Why is the Laugh?" The editorial for the month is "The Passion for Achievement," by Orison Swett Marden.

Under the present "system," which, during by incumbency in office I made persistent efforts to break down, police officials are supposed to pay fo rtheir positions by daily political service, writes eneral al Theodore-A. Bingham, in an account of "The New York Police in Politics," in the September Century. When no election is imminent, the district leaders are sheeming for the next campaign. If a police captain or insepctor honestly enforces the law, this hurts the ward heelers, the saloon and dive keepers, the gamblers, the pawnbrokers, and all others who live by breaking the law; so this police officer must be suppressed or be transferred. To accomplish this a visit to the Commissioner, or even a letter from some one identified with the party, should be sufficient.

ARREST BROUGHT ABOUT BY A SENSE OF SMELL.

Newton, Sept. 4.—Fish and Game Warden J. B. Hendershott, of this place, caught Michael Coscia, the hot frankfurter man of Cranberry Lake, cooking a rabbit Wednesday in his shanty. He took the man before Justice of the Peace Israel L. Hallock, who imposed a fine of $20, with costs of $2.25. The man protested his innocence, and said he was going back to the lake and shoot himself. He averred that another fellow shot the rabbit.

Mr. Hendershott's capture was due to his keen sense of smell. While going through the grounds he thought he detected an odor of game cooking and investigated. The rabbit boiling in a pot, was nearly ready to be served.

I suffered from a dull pain across my back which clung to me incessantly. Hard work increased my misery and at times I also had headaches and dizzy spells. I tried plasters and remedies of various kinds but without relief. Doan's Kidney Pills, which I finally procured at Randolph's Pharmacy, relieved me and for that reason I heartily recommend them."

Jack Martin, who has been playing with the Worcester, Mass., team during the past few weeks, will return to Plainfield and take part in the Plainfield game with Elizabeth on September 11. He will play his old position at short for the rest of the season.

It is to be regretted that there will be no big game here today. Both the Plainfield Baseball club and the Y. M. C. A. play out of town, a condition that was not anticipated.

Manager Dorflinger regrets exceedingly that Bound Brook will not play the third and deciding game either in Bound Brook or this city. It is not the spirit of a true sport to refuse a third contest under such conditions.

Rahway has acted queerly this season, too, by refusing to play the Plainfield Baseball club in this city. There is no apparent reason why they should decline to come here. Manager Dorflinger should have refused to schedule games with Rahway, unless they were willing to come to Plainfield.

The New York Evening Sun, speaking editorially on Thursday, said that it appears to be a serious question as to whether or not McGraw has out lived his usefulness as a manager for the Giants. It says that with about twenty per cent. of the season's games yet to be played, all interest in the National League race is gone, as is evidence by the fact that on Wednesday about 850 people witnessed the game between the Giants and St. Louis, just at a time when interest should be at its height.

As stated in The Daily Press a few days ago, the New York fans pay too much money for baseball to be flim-flammed and they are entitled to the best in baseball. McGraw has not been a contender for championship honors this year, not in the sense that has characterized his work before. The Evening Sun refers to the management as of the "boneheaded variety" and results show this to be true in more senses than one. There is such a thing as a man being retained too long as manager.

If the game of baseball depended on one man for its success, that would be another story. The New York Baseball club has abundant means to purchase the best players and there is no excuse for having such a patched up aggregation as now represents the metropolis. According to a recent statement the club cleared all season's expenses several weeks ago and the receipts now are all velvet. Perhaps, the fans are wise to this fact.

GOLF.

Golf, tennis and social activities will be resumed at the Plainfield Country Club, today, and will be continued until snow flies. Most of the members have returned from their summer outings and are ready to resume playing on the course and courts. Tonight there will be the weekly dinner dance and a similar social affair will be held Monday night.

The Park Golf Club will hold an "At Home" at the club Monday afternoon, when the members will invite their friends to be their guests for the day. As an extra attraction there will be an approaching and putting contest at 5 o'clock. Refreshments will be served at the clubhouse and the women members will receive.

Today at the Plainfield Country Club the weekly competition for the fall handicap cups, Classes A and B will begin and continue until October 23, inclusive.

Considerable interest is being shown in the big golf tournaments now in progress in the west. It will be a severe test as to the relatives merits of the best players in the country.

Robert Abbott, of the Plainfield Country club, is among the prominent golfers missed these days in the big tournaments. He was always considered a formidable factor.

The members of the Plainfield Country Club who have been away this summer, have in most cases kept in practice by playing on other courses. They will be right in condition to make low scores upon the resumption of play at home.

The completion of the improvements at the Plainfield Country Club makes it one of the best equipped clubhouses in the metropolitan section, and an ideal place for dinners and social affairs.

"Marty" O'Loughlin, the professional at the Plainfield Country club, has done little or nothing this season in big tournaments. Perhaps he will get busy this fall.

The Park Golf club is constantly growing in popularity and new members are being elected all the time. The club's course is one of the sportiest in this section of the State.

Mrs. Mary Dunham, of this city, has been visiting Mrs. A. W. Suydam, of Somerville.

Caught under a falling bank in a gravel pit at Thirty-first street and Hayes avenue, East Camden, five-year-old Frank Anderson, of Twenty-eighth street and Hayes avenue, lost his life. A number of companions of the little victim barely missed a like fate and they were so frightened that they did not summon assistance until it was too late.

H." which was found last night under the door of the residence of H. C. Alexander, 217 Penn street. The writer set forth that he is out of employment and that everybody but his mother and sister are against him. None of the Alexander family know who "W. M. H." is.

Fire, supposed to have been started by a demented colored man, destroyed a large barn, wagon house and pigeon pen on the Charles Eldridge farm, near Cohansey. The contents of the buildings, including three horses, 200 bushels of wheat, fifteen tons of hay, potatoes, farming implements and harness, were totally destroped. When the pigeon pen caught fire many pigeons could be seen through the air with their feathers in flames, flying wildly about until overcome. The loss is $2,000.

Declaring that a baby whose body was found in a box at the mouth of Newton Creek, near Camden, had been born alive, Coroner Litchfield solocited the aid of the county authorities in solving the mystery. The body was found by William Anters, a boy. It was tightly wrapped in a Wilmington, Del., newspaper of Aug. 23, which fact leads the county detectives to the belief that the body was thrown overboard from a Wilmington boat. There are no marks of violence on the body, which is at the Camden morgue.

A caveat was filed yesterday against the will of Silas A. Hall, who died at his farm on the Pompton turnpike, near Paterson, on August 19 last, by his children, Harry, George Luther and Mrs. Margaret Meyers. TWO SUICIDES IN BAYONNE.

Bayonne, Sept. 4.—Two suicides occurred, here Wednesday night. Stephen Burns, thirty-two years old, of Old Bergen road, Jersey City, shot himself in the right temple because of ill health. The body was found near the Central Railroad.

Conrad Pelts, of 138 Broadway, was found dead on the lawn of Michael White, on North street. He had taken carbolic acid, and the empty bottle was beside him. From cards in his pocket he was identified by Mrs. George Anderson.

SUSPECTS RELEASED.

Trenton, Sept. 4.—Prosecutor Crossley decided Wednesday that Thomas Walters, who was found dead in the road here Tuesday, had committeed suicide. Mrs. Elizabeth Keeler and her children and a boarder, arrested on suspicion, were released.

It is now believed Walters killed himself in a fit of remorse, thinking he had killed Mrs. Keeler, at whom he had shot following a false accusation of theft.

LOCAL AMUSEMENTS.

Mr. Ober is the only actor who ever played "Rip" in Rip's own home, having given that celebrated Catskill production of the play in Palenville, N. Y., on August 9, 1907. On this occasion the play was given in a pine grove, at the foot of Kaaterskill Clove, up which Rip is reputed to have fled, after being driven from home by his shrewdish wife, Gretchen. Palenville prides itself on being the original village of "Falling Waters," and the "Overlook," on South Mountain is pointed out as the place where Rip reviwed the village after his twenty year nap in the mountains, and remarks: "How it has growed since yesterday!" The whole country round is rife with apochryphal addenda to the original legend, which is truly real to the inhabitants, and therefore Mr. Ober faced a critical audience of over 5,000 people, including all of the townsfolk who claimed Rip as "one of them," and the fact that he succeeded in delighting all of them, is praise from headquarters.—N. Y. Tribune. The play will be presented Labor Day afternoon and evening at the Plainfield theatre.

The tenderly beautiful romance of a pretty little circus equestrienne and a village clergyman in the Middle West is the unusual love theme about which Margaret Mayo framed her tremendously appealing American play, "Polly of the Circus," which will be presented at the Plainfield theatre, Wednesday, September 8. "Polly of the Circus" carries the largest amount of scenery and accessories ever brought here, as well as one of the finest acting companies organized in recent years, and local theatregores are afforded an opportunity to witness this unrivalled attraction in exactly the same form in which it was presented for one entire season at the Liberty theatre, New York city.

Woman's Body in Reservoir .

The body of a woman apparently about thirty years old was found in the Clifton avenue reservoir in Branch Brook Park, Newark, yesterday morning. The only mark of identification was a ring with the inscription "F. Justin to F. Schulz." The woman's hair was loosened, but no marks of violence could be found on the body to indicate foul play.

LOCAL AMUSEMENTS

When time writes the history of successful plays produced in the twentieth century it will single out Joseph M. Weber's superb novelty success "The Climax," by Edward Locke, for special mention as one of the most charming and one of the most spontaneous comedies of a decade. The play received its first New York hearing at Weber's theatre, where a special matinee performance was given as a "tryout" and before the performance was half over the audience began to awake to the fact that a wholly charming and original play was being offered for their consideration and that an author of whom they had heard little had become a factor in the theatrical world. The leading magazine writers and the reviewers of the New York daily papers were unanimously one in proclaiming "The Climax" the greatest play of the century. The brilliant success achieved by "The Climax" has created such a demand for the play that Mr. Weber will have five different companies en tour this season. The story concerns a young girl with a voice who is struggling under the tutelage of a veteran and impoverished Italian vocal instructor to win renown. But John Raymond, a young doctor, who loves her, and who thinks the stage is full

of pitfalls, crushes the ambition of the heorine by giving her a voice-imparing fluid in her anatomizer, so the heroine has a pathetic scene when she tries to sing and cannot. The author has hit upon a new and plausible climax. He works up to it with sound dialogue which has a human quality. The scenes have the natural terseness which suggests Ibsen, and one feels that he is watching proceedings taking place within four walls of a room rather than within three sides of scenery and a proscenium arch. There is incidental music by Joseph Carl Broll that runs all through the piece and which contributes very much to its effectiveness. The presenting cast is said to be a capable one. This play will be seen at the Plainfield theatre, Friday, September 10.

Hitch a gatling gun to a kaleidoscope, turn on a search light and strike up Victor Herbert's, Sousa's and Maurice Levi's bands, and you get a notion of Geo. M. Cohan's latest, "The American Idea," which comes to the Plainfield theatre for one night only, Monday, September 13. The audiences are kept busy trying to pace Mr. Cohan's mile a minute proceedings. The management promises to hook cyclometers to the dancing girls just to approximate the mileage of the organization, which strikes a gait that any and all racers might envy. In "A Yankee Prince" Mr. Cohan wrapped decadent England in the American flag. In "The American Idea" he flaunts the national colors in the face of dissipated "Paree." You may wager your green hat that Cohan never forgets to applaud Uncle Sam. In fact he wrote his latest libretto with red, white and blue pencils. The chorus does its best work clad in those hues, and between the acts the stars and stripes are flashed on the curtain. There is enough dash, vim, ginger, life and enterprise in "The American Idea," to wake up half a dozen moribund productions at other theatres. In fact, Mr. Cohan absolutely declines to have his concoction referred to as anything else than a "musical frivolty." Nevertheless, with its speed, color and melody it drives dull care away without striking a vulgar note on the one hand, or attempting to elevate the drama on the other. The story implicates two Brooklyn millionaires (drawn from life) each with a son and a daughter. The fathers are enemies, but the four offspring become engaged to be married. A bogus French count—played with a tidal wave of energy by Arthur Lipson—is hurried forwar das a lure, and a frisky grass widow (Trixie Friganza) and her occasionally devoted divorced husband, supply the counter plot. "The Mysterious Stranger," a combination of "Evangeline," "The Lone Fisherman" and "Foxy Quiller," walks through the three acts, talking continually in the third person and describing, as a rank outsider, the various episodes, and with the equally "mysterious Girl," who follows him, adds a wholesome amount of fun. This innovation, with the two brothers and two sisters, who always talk in pairs, are fresh indications that Mr. Cohan's brain keeps a-travelling. The scenery is showy and shimmering and the big chorus works with the indefatigability exhibited by the Japs at Port Arthur. "The American Idea" has the speed of a horse race, the excitement of a baseball game and the goodfellowship of a college reunion. Some night, when you want to get away from yourself, catch it.

Rev. Dr. J. A. Chamboliss having returned from his vacation, will occupy his pulpit at the First Baptist church, tomorrow morning and night.

"The North Star Family" will give its first annual chicken supper at the Mt. Zion A. M. E. church, on West Fourth street, Wednesday night, September 8, from 6 to 11 o'clock. The proceeds will be for the benefit of the church. Miss Fannie Olden is chairman of the committee of arrangements.

The Lure of the Mask

CHAPTER III.

MME. ANGOT.

THREE nights later, as Hillard and Merrihew were dining together at the club, the steward came into the grill room and swept his placid eye over the groups of diners. Singling out Hillard, he came solemnly down to the corner table and laid a blue letter at the side of Hillard's plate.

"I did not see you when you came in, sir," said the steward, his voice as solemn as his step. "The letter arrived yesterday."

"Thank you, Thomas." With no small difficulty Hillard composed his face and repressed the eagerness in his eyes. She had seen; she had written; the letter lay under his hand! Who said that romance had taken flight? True, the reading of the letter might disillusion him, but always would there be that vision and the voice coming out of the fog. Nonchalantly he

He sat there staring.

turned the letter face downward and went on with the meal.

"I did not know that your mail came to the club," said Merrihew.

"It doesn't. Only rarely a letter drifts this way."

"Well, go on and read it. Don't let me keep you from it. Some charmer, I'll wager. Here I pour all my adventures into your ear, and I on my side never so much as get a hint of yours. Go on, read it."

"Adventures, fiddlesticks! The letter can wait. It is probably a bill."

"A bill in a fashionable envelope like that?"

Hillard only smiled, tipped the cradle and refilled Merrihew's glass with some excellent Romanee Conti. "When does Kitty sail?" he asked after awhile of silence.

"A week from this Saturday, Feb. 2. What the deuce did you bring up that for? I've been trying to forget it."

"Where do they land?"

"Naples. They open in Rome the first week in March. All the arrangements are complete." After coffee Merrihew pushed back his chair. "I'll reserve a table in the billiard room while you read your letter."

"I'll be with you shortly," gratefully.

So with the inevitable black cigar between his teeth Merrihew sauntered off toward the billiard room, while Hillard picked up his letter and studied it. His fingers trembled slightly as he tore open the envelope. The handwriting, the paper, the modest size, all these pointed to a woman of culture and refinement. But a subtle spirit of irony pervaded it all. She would never have answered his printed inquiry had she not laughed over it, for pinned to the top of the letter was the clipping, the stupid, banal clipping: "Will the lady who sang from 'Mme. Angot' communicate with gentleman who leaned out of the window? J. H., Burgomaster club." There was neither a formal beginning nor a formal ending, only four crisp lines. But these implied one thing and distinctly—the writer had no desire for further communication "with gentleman who leaned out of the window." He read and reread slowly:

I am sorry to learn that my singing disturbed you. There was a reason. At that particular moment I was happy.

That was all. It was enough. She had laughed. She was a lady humorously inclined, not to say mischievous. A comic opera star would have sent her press agent round to see what advertising could be got out of the incident; a prima donna would have appealed to her primo tenor for the same purpose. A gentlewoman surely; moreover, she lived within the radius, the official radius, of the Madison square branch of the postoffice, for such was the postmark. Common sense urged him to dismiss the whole affair and laugh over it as "the lady in the fog" had done. But common sense often goes about with a pedant's strut and is something to avoid on occasions. Here was a harmless pastime to pursue, common sense notwithstanding. The vein of romance in him was strong, and all the commercial blood of his father could not subdue it. He rang for paper and a messenger and wrote: "Mme. Angot—There is a letter for you in the mail department of this office." This time his initials were not necessary. Once the message was on its way he sought Merrihew, whom he found knocking the balls about in a spiritless manner.

"A hundred to seventy-five, Dan."

"For what?"

"For the mere fun of the game, of course."

"Make it cigars, just to add interest."

"Cigars, then."

But they both played a very indifferent game. At 10:30 Merrihew's eyes began to haunt the clock, and Hillard grew merciful for various reasons.

"What time does the performance end?" he asked.

"At 10:50, but it takes about twenty minutes to scrape off the makeup."

Merrihew put his cue in the rack. He made off for the coat room.

Hillard laughed and went up to the writing room to fulfill a part of his destiny. He took the letter out and read it again. He replaced the letter in its blue covering, and then for the first time his eye met the superscription. Like a man entranced he sat there staring. The steward had brought the letter to him, and in his first excitement this had made no impression upon his mind. He had seen nothing peculiar nor strange. And here it was, not his initials, but his name in full.

She knew who he was!

In a fashionable quarter of the city there stood a brownstone house, with grotesque turrets, winding steps and glaring polished red tiles. There was a touch of the gothic, of the renaissance, of the old English manor; just a touch, however, a kind of blind man's buff of a house. A very rich man lived here, but for ten months in the year he and his family fluttered about the social centers of the world. And, with a house like this on his hands, one could scarce blame him. Twice a week during this absence a caretaker came in, flourished a feather duster and went away again. Society reporters always referred to this house as "the palatial residence."

This morning a woman stood in the alcove window and looked down into the glistening street. The venetian red of her hair trapped the reflected sunlight from the opposite windows, and two little points of silver danced in her blue eyes. Ah, but her eyes were blue—blue as spring water in the morning, blue as the summer sky seen through a cleft in the mountains, blue as lapis lazuli, with the same fibers of gold. And every feature and contour of the face harmonized with the marvelous hair and the wonderful eyes; a beautiful face, warm, dreamy, engaging, mobile. It was not the face of a worldly woman; neither was it the face of a girl. It was too emotional for the second, and there was not enough control for the first.

But the prophecy of laughter did not come to pass. The little wrinkles faded, the mouth grew sad, and the silver points no longer danced in her eyes. The pain in her heart was always shadowing. She had seen her fairest dream beaten and crumpled upon the reef of disillusion.

Yet again the smile renewed itself. She was a creature of varying moods. She twisted and untwisted the newspaper. Should she? Ought she? Had she not always regretted these singular impulses? And yet what harm to read this letter and return it to the sender? She was so lonely here. It was like being among a strange people, so long ago was it that her foot had touched this soil. Was it possible that she was twenty-five? Was there not some miscount, and was it not fifteen instead? Would not this war of wisdom and folly be decided ere long?

She opened the paper and smoothed out the folds. "Mme. Angot—There is a letter for you in the mail department of this office." It was so droll. It was unlike anything she had ever heard of—a personal inquiry column, where Cupids and Psyches billed and cooed. The merest chance had thrown the original inquiry under her notice. Her answer was an impulse to which she had given no second thought till too late. She ought to have ignored it. But she was lonely; the people she knew were out of town, and the jest might amuse her.

This man was in all probability a gentleman, since he was a member of a gentlemen's club. But second thought convinced her that this proved nothing. Men are often called gentlemen out of compliment to their ancestors. Still, if this man only saw the affair from her angle of vision, the grotesque humor of it and not the common vulgar intrigue! She hesitated, as well she might. Supposing that eventually he found out who she was? That would never, never do. No one must know that she was in America, about to step into the wildest of wild adventures. No; she must not be found out. The king, who had been kind to her, and the court must never know. From their viewpoint they would have declared that she was about to tarnish a distinguished name, to outrage the oldest aristocracy in Europe, the court of Italy. But she had her own opinion; what she proposed to do was in itself harmless and innocent. But this gentleman who leaned out of the window? She had seen the match flare in the young man's face. Was it the face she had seen in that flash of light that interested her sufficiently to risk the note? Against the dark of the night it had appeared for an instant, clean, crisp, ruddy as a cameo. The face warranted confidence.

FORM OF BALLOT

FIRST AMENDMENT.

FOR THIS AMENDMENT.

AGAINST

1. Strike out paragraph ten of Section VII of Article IV, and change the numbers of the following paragraphs to correspond.

SECOND AMENDMENT.

FOR THIS AMENDMENT.

AGAINST

Change paragraph ten of Article V to read as follows:

10. The Governor or person administering the government, and four citizens of the State appointed by the Governor, by and with the advice and consent of the Senate, shall constitute the Board of Pardons. The members of said Board, or any three of them, of whom the Governor or person administering the government shall be one, may remit fines and forfeitures, and grant reprieves, commutations, pardons and paroles, after conviction in all cases except impeachment. The four members specially appointed shall hold office for five years, and receive for their services a compensation which shall not be diminished during the term of their appointment.

THIRD AMENDMENT.

FOR THIS AMENDMENT.

AGAINST

(The different paragraphs of this amendment being necessarily interdependent, are considered as one amendment.)

Change Section I of Article VI so as to read as follows:

SECTION I.

The judicial power shall be vested in a court for the trial of impeachments, a Supreme Court, County Courts, and such other courts, inferior to the Supreme Court, as may be established by law, which inferior courts the Legislature may alter or abolish as the public good shall require.

Strike out all of Sections II, IV, V, VI and VII of Article VI, change the number of Section III of Article VI to Section II, and insert the following sections in Article VI:

SECTION III.

Any judge of any of the courts of the State may be removed for disability continuing for one year, or for refusal to perform the duties of his office, by a vote of two-thirds of all of the members of the Senate and of two-thirds of all the members of the House of Assembly voting separately, after a hearing before both Houses in joint session.

SECTION IV.

1. The Supreme Court shall be organized in three divisions, namely, the Appeals Division, the Law Division and the Chancery Division. It shall consist of a Presiding Justice of the Appeals Division who shall be styled the Chief Justice, a Presiding Justice of the Law Division, who shall be styled the President Justice, and a Presiding Justice of the Chancery Division, who shall be styled the Chancellor, and eighteen Associate Justices, which number may be increased by law.

2. The Appeals Division shall consist of the Chief Justice, and six other Justices of the Supreme Court to be assigned by the Governor. A Justice of the Supreme Court assigned by the Governor to the Appeals Division shall serve in said division until the end of his term.

The remaining justices shall be assigned by the Supreme Court to the Law or Chancery Division, as the business of the Court may require.

3. Whenever the number of causes before the Appeals Division shall be so great that the Division cannot promptly hear and determine them, the Governor shall, when authorized by statute, temporarily assign five of the justices of the other divisions to sit in the Appeals Division, which shall thereupon sit in two divisions for the hearing and decision of causes pending at the time of such assignment.

4. Four justices shall be necessary to constitute a quorum on the final hearing of any cause in the Appeals Division, but the Supreme Court may provide by rule for the making of interlocutory orders by a lesser number of justices or by one justice; such orders to be subject to revision by the Appeals Division.

On the hearing of a cause in the Appeals Division, no justice who has given a judicial opinion in the cause in favor of or against the judgment, order or decree under review shall sit at the hearing to review such judgment, order or decree, unless reasons for such opinion shall be assigned to the Court in writing.

5. A majority of all the members of the Supreme Court, to be presided over by the Chief Justice, shall constitute a quorum for the assignment of justices, and for the appointment of officers, and the enactment of rules.

6. The Supreme Court shall appoint one or more reporters, not exceeding three, to report the decisions of the Court, and shall by rule define his or their duties and powers. The reporters shall hold office for five years, subject, however, to removal at the discretion of the Court.

SECTION V.

1. The Appeals Division shall have and exercise the appellate jurisdiction heretofore possessed by the Court of Errors and Appeals, the jurisdiction heretofore possessed by the Supreme Court on writ of error, and the jurisdiction heretofore possessed by the Prerogative Court on appeal, and by the Ordinary on appeal, and such further appellate jurisdiction as may be conferred upon it by law, together with such original jurisdiction as may be incident to the complete determination of any cause on review, saving, however, the right of trial by jury.

2. The jurisdiction heretofore possessed by the Supreme Court and the Justices thereof not hereby conferred on the Appeals Division, and the jurisdiction heretofore possessed by the Circuit Courts and the judges thereof, and such further original jurisdiction not of an equitable nature, and such further appellate jurisdiction from inferior courts as may be conferred by statute, shall be exercised by the Law Division of the Supreme Court and by the several justices thereof, in accordance with rules of practice and procedure prescribed by statute, or in the absence of statute by the Supreme Court.

3. The jurisdiction heretofore possessed by the Prerogative Court and the Ordinary, not hereby conferred on the Appeals Division, and the jurisdiction heretofore possessed by the Court of Chancery and the Chancellor, and such further original equity jurisdiction as may be conferred by statute, and such further orignal jurisdiction as is now conferable on the Prerogative Court shall be exercised by the Chancery Division and by the Chancellor and the several justices of said division in accordance with rules and practice and procedure prescribed by statute, or, in the absence of statute, by the Supreme Court, but the justices of that division shall be under such control and supervision by the Chancellor as shall be provided by the Supreme Court.

4. Terms of the Supreme Court presided over by a single Justice of the Law Division for the trial of issues joined in or brought to the Law Division of the Supreme Court shall be held in the several counties at times fixed by the Supreme Court. Until so fixed, such trial terms shall be held at the places and times now fixed by law for the holding of the Courts of Common Pleas in the several counties.

5. The Supreme Court may provide by rule for the transfer of any cause or issue from the Law Division to the Chancery Division, or from the Chancery Division to the Law Division of the Supreme Court, and from the County Court to the Law Division or the Chancery Division of the Supreme Court, and for the giving of complete legal and equitable relief in any cause in the court or division where it may be pending.

6. Nothing herein contained shall prevent the alteration, by law, of any statutory power or jurisdiction conferred upon any court or judge since the adoption of the Constitution in the year one thousand eight hundred and forty-four, and nothing herein contained shall prevent the Legislature from conferring upon any inferior court which may hereafter be established such power or jurisdiction as was exercised by or which may now be conferred upon the inferior courts mentioned in section 1 of Article VI of the Constitution of 1844.

SECTION VI.

The County Courts shall have and exercise, in all cases within the county such original common law jurisdiction concurrent with the Supreme Court, and such other jurisdiction heretofore exercised by courts inferior to the Supreme Court and the Prerogative Court as may be provided by law. The final judgments of the County Courts may be brought for review before the Supreme Court in the Appeals Division. Until otherwise provided, the jurisdiction heretofore exercised by the Courts of Common Pleas, Orphans' Courts, Courts of Oyer and Terminer, Courts of Quarter Sessions, or by the judges thereof, shall be exercised by the County Courts pursuant to rules prescribed by the Supreme Court. The justices of the Law Division of the Supreme Court shall be ex-officio judges of the County Courts. All other jurisdiction or authority now vested in any court, judge or magistrate with jurisdiction inferior to the courts in this section mentioned, and not superseded by this article, shall continue to be exercised by such court, judge or magistrate until the Legislature shall otherwise provide.

SECTION VII.

This amendment to the Constitution shall not cause the abatement of any suit or proceeding pending when it takes effect. The Supreme Court shall make such general and special rules and orders as may be necessary for the tranfer of all suits and proceedings to the appropriate division or court created by this amendment. Matters pending when this amendment takes effect shall be decided by the judge or judges to whom they were submitted, and the order, judgment or decree made or advised by said judge shall be entered as that of the division or court to which the suit or proceeding shall have been transferred.

BY DIRECTION OF COURT FATHER WHIPS HIS BOY.

From the windows of the Asbury Park courtroom yesterday morning issued sounds that puzzled passers-by. "Beating carpets," said one pedestrian; "see the dust." "Sounds like a loose belt in the police machinery," vouchsafed another, facetiously.

Those within the courtroom, however, did not have to guess at what was going on, for they beheld nine-year-old Abraham Morris, one of the town's bad boys, lying in an inviting position over a bench, while above him hovered a perfectly good leather strap, which ever and anon got to the seat of the trouble with a resounding whack.

It was by order of City Magistrate Borden of that place that the whipping occurred in court, and Abraham's father was appointed administrator of the court's will. He proved no weakling, but went to his task with a will and a light in his eyes which proved he had the welfare of his son and heir in mind.

Abraham had been accused of pilfering peaches from a fruit stand, and was arrested Thursday by Patrolman Rowland. Judge Borden told the lad when he appeared in court Thursday that it was the fruit of knowledge and not the peach tree which he needed, and promised him that he should be innoculated with wisdom through the medium of a leather strap. The court was true to its promise, and bright and early the principles in the little drama arrived with the necessary properties. Fearing that Abraham might costume himself to escape the full penalty of the law, Judge Borden had the boy remove his coat and then the warm wave set in for Abie.

FAMILY OF 3,000 SMITHS ASSEMBLED AT SEATTLE.

Three thousand Smiths slept late yesterday recovering from the effects of the big family reunion at the Seattle Exposition grounds at Seattle, Wash., on Thursday. There were red, white and yellow Smiths in evidence—Americans, Esquimax and Indians—and every one of the 3,000 wore a big badge emblazoned "I'm Smith. Are You?"

Representative Smiths from every State and Territory in the Union were on hand and all gathered in the big auditorium in the fair grounds to listen to an address by the Rev. Edward Lincoln Smith, pastor of the Pilgrim church, Seattle.

TO INVITE WESTERNERS TO INSPECT OUR ROADS

State Road Commissioner Frederick Gilkyson has been invited to make a trip of inspection of the roads of New York State along with a party consisting of the presidents of the Farmers' Unions of Oklahoma, Texas, Arkansas and Louisiana. These States have very few good roads and it is with the idea of learning the methods of road construction in other States that the trip is made. Mr. Gilkyson received the invitation to join the party from B. F. Yoakum, chairman of the executive committee of the Rock Island and 'Frisco Railroad lines. The trip will be made during the latter part of September.

Commissioner Gilkyson announced yesterday that at the conclusion of the New York State trip, he would invite the entire party to inspect the roads of New Jersey, which are considered the best in the United States.

WOULD DIVORCE WIFE WHO HAD DEFAULTED.

An aftermath of the disappearance of Mrs. Louis Goetz, who left West New York after spending the money she had in her possession as treasurer of the Sunday-school of her church, came to light yesterday, when Sheriff Kelly, at Jersey City was served with citations in the suit of Andrew Goetz against the woman for divorce. The suit is started through Ziegener & Lane. Mr. Goetz claims that he has not seen his wife since her disappearance. He does not know where she is, but believes that she can be located in Philadelphia.

Goetz now lives at 69 Seventh street, Guttenberg. His wife after her disappearance claimed that her husband had spent some of the money. He was arrested, waived examination and the grand jury failed to find an indictment.

The disappearance of Mrs. Goetz was a nine days' wonder in West New York. She and her husband lived at 583 Seventh street, of that town, and both were members of St. John's German Evangelical Lutheran church of West New York. Mrs. Goetz was chairman of the Sunday-school of the church and disappeared on August 16, 1907. She left behind a letter saying that the Sunday-school money had been spent. Her books showed that she was accountable for $770.83.

MAYOR WON'T RUN AGAIN.

Charles B. Holmes, of Rahway, to Quit.

Mayor Charles B. Holmes, of Rahway, announces in an open letter that, under no circumstances, will he consent to become the nominee for Mayor again this year, alleging poor health as the main reason, his eyesight having been failing rapidly within the past six months. Mayor Holmes has held the office several times during the past fifteen years, and had been a member of the Common Council. He feels that he can not afford to sacrifice more of his time for what brings no remuneration, only hard work and some enemies. As a Republican, the Mayor was considered by his party as the best man in sight for renomination, and would have indorsed him at the primaries. It had been expected to start his campaign at the Republican dinner next Thursday night. There, the Mayor says, he will make from the platform virtually the same announcement contained in his letter.

MRS. COOK A JERSEY WOMAN.

Wife of the Explorer a Native of Camden.

Mrs. Frederick A. Cook, wife of the North Pole discoverer, is a native of Camden. From 1896 to 1900 Mrs. Cook, who was Miss Marie Fidell, was employed as a stenographer by E. G. C. Bleakley, city counsel in Camden. She married in 1900 Dr. Willis H. Hunt, of Camden, by whom she had a daughter. Dr. Hunt died shortly afterward. After the death of her husband, Mrs. Hunt removed to Brooklyn. Her marriage to Dr. Cook savors somewhat of a romance, as about a year after settling in Brooklyn Dr. Cook was called in one night to attend her daughter for some slight illness. He fell in love with Mrs. Hunt and married her in 1902.

Mrs. Cook before her marriage to Dr. Hunt was a member of the North Baptist church in Camden, and took an active interest in church work of all kinds. Mrs. Henry Harvey, a sister of Mrs. Cook, who resides at Pensauken, about six miles from Camden, was overjoyed when she learned of her brother-in-law's feat.

NEW JERSEY SHOOTERS WIN TWO CONTESTS

While it was largely a New Jersey day yesterday for the opening of the big rifle tournament, under the auspices of the New York, New Jersey, and Pennsylvania State Rifle Associations, honors in several of the matches were well divided. The premier event of the day, the Columbia Trophy match, was not finished, and the 900-yard stage will be shot today, in addition to the other matches on the programme. Conditions were excellent all day, and some excellent scores were made.

HOTEL RIOTERS IN JAIL.

The colored prisoners arrested in New Brunswick Thursday, charged with locking William E. Smock and his wife in a room in their hotel at East Millstone and then robbing the cash drawer of $35, were taken to New Brunswick jail yesterday. They were Ollie and Charles Duval. Each is charged with assault and battery and robbery.

The men attended a harvest home, and during the night went to the hotel, where they played pool. A quarrel arose, and when Bartender Dunn tried to interfere the couple beat him. The proprietor investigated and was locked in a room at the point of a revolver, while Oram Dixon, of Middlebush, was badly beaten.

MISS CURRY EULOGIZED

Many Tributes Paid to the Matron of Netherwood Fresh Air Home.

A FINE MUSICAL PROGRAM.

James F. Parker, J. D. Loizeaux, George A. Chapman and Miss Curry Speak to Large Audience.

The pavilion at the Netherwood Fresh Air Home was filled to its utmost capacity Sunday afternoon when the last service of the season took place. The platform was handsomely decorated with flags and flowers and presented a pretty picture. The services were in charge of J. D. Loizeaux, president of the association, and several speakers made short addresses. Music was furnished by a quartet from the Park Avenue Baptist church composed of Mrs. R. E. Humpston, Mrs. Hadley, Mr. Hadley and D M. Runyon, assisted by Martin A. Korff with the violin. Mr. Humpston presided at the organ. It was a meeting eulogizing Miss Sara Curry, the matron.

After the singing of a hymn by the entire audience, the children of the camp sang their favorite "God Will Take Care of You." This was followed by a quartet selection entitled, "Nearer, Still Nearer." The scripture was read by Mr. Loizeaux and prayer offered by L. W. Randolph. Mrs. Humpston then sang with much expression "When the Mists Have Cleared Away."

James F. Parker was the first speaker of the afternoon and he gave an eloquent short address on "The Lost Sheep," making the lesson plain to the youngest of his audience. In explaining the meaning of "lost" Mr. Parker made use of the illustration of the finding of the North Pole, which never has been lost, although it has recently been discovered. Everyone knew that the pole was there, but it is not so with the lost sheep, they stray from place to place and without a leader are lost, and hence the scriptural synonym for the lost souls of men. Mr. Parker eulogized Miss Curry and spoke of her work as being the most self-sacrificing and beautiful in character that he had ever known.

Mr. Loizeaux gave a short address in which he said that this marked the closing of a most successful season and on the part of the children he thanked those who had in any way contributed to the maintenance of the work. Ethel and Lena Steinton, two of the young girls from the city sang a duet, impressive in its simplicity. It is safe to say that the "City Four Square" never had a more sincere rendering.

George A. Chapman spoke briefly of his acquaintance with Miss Curry and said that he regarded it as one of the greatest privileges he had ever enjoyed to have known her. He said that no one could be with her very long without becoming better. "Her work and its influence extends far beyond the confines of Netherwood," he said, "and she is litterally following Christ. Her faith in the power of prayer and the power of God, as shown in the life of Christ is beautiful."

Mr. Korff played the "Flower Song" and followed that up by giving a very clear illustration of the meaning of faith, using a peanut and one of the little boys of the camp. This was much appreciated. Dr. Baisley, of New York city, addressed the audience and told of his long and profitable association with Miss Curry. He said that Miss Curry exhibited an interest in her charges which was a most uncommon thing, even among those whose financial condition enabled them to have every comfort that money can buy. He, like Mr. Chapman, believed that Miss Curry's faith and prayer sustained her with a strength which is beyond human comprehension.

Miss Curry was persuaded to say a word and her remarks were very brief and in part as follows: "God bless you all. We have had a wonderful summer. We started in fear and trembling, but we have been mightily blessed by the Giver of all good things. It has been a summer we will all of us remember. All you who are here and have helped in this work, as well as those who are not here, but has helped, will never know how much and what you have done until we meet up yonder. God bless you all."

The children accompanied by most of the mothers and helpers at the home left the camp this morning for New York city, where the children will soon take up their studies in the public schools.

A farewell meeting at which goodbys will be tendered to Miss Curry is expected to be held Saturday evening next in the auditorium of the camp, when reports of the year's work will be read. A notice of this meeting will be given out during this week.

TO FORM A CHAPTER OF P. E. BROTHERHOOD

John Locke, of East Orange, and Franklin Spencer, of Elizabeth, the latter district secretary of the Brotherhood of St. Andrew, will visit the Church of the Holy Cross tomorrow night in the interest of the society and steps will be taken to form a chapter. The meeting will be for men only and those of the four Episcopal parishes, Grace, St. Stephen's, Heavenly Rest and Holy Cross have been invited to be present. Mr. Locke and Mr. Spencer will outline the principles and aims of the Brotherhood.

A short service will precede the meeting and the choir will lead in singing St. Andrew's hymn. The rector, Rev. George A. Warner, will be in charge of the service. The national convention of the Brotherhood will be held at Providence, R. I., October 10-16, and several delegates from this city are expected to attend.

SALVATION ARMY GAVE A BIG PICNIC

The Salvation Army gave a free outing yesterday at Watchung Crest to two hundred poor people of the city and borough, automobiles being used to convey them to the mountains. Officers from the Newark corps, accompanied by a brass band, joined in the procession and the stirring music added to the enthusiasm of the crowd. The ideal weather and beautiful surroundings combined to make the affair one of great pleasure. All sorts of outdoor games were enjoyed and swings and hammocks were provided for the children.

There was a bountiful supply of good things to eat from sandwiches to ice cream and cake. During the afternoon a Salvation Army meeting was held, conducted by Adjutant Downey and the band. At the close Captain Hewitt introduced Dr. Groszmann, who made a few remarks. The party returned home about 6 o'clock Last night a meeting was held in the Salvation Army tent, conducted by Adjutant Downey and the brass band. Captain and Mrs. Straw will conduct a special meeting at the tent Thursday night.

BOY FRUIT STEALERS HELD FOR PROBATION COURT

The police rounded up eight school boy fruit stealers and garden wreckers yesterday, and E. D. Young, of West Front street, and John O. The boys arrested are Edward Hamilton, of Bergen street, Peter Phalen, of Ann street, Patrick Finnerty, of Rushmore avenue, Matthew Ward, of Halsey street, Jules Vergo, of Elk street, Henry Overland, of McDowell street, and George Boland, of Clinton avenue. CAPT. PHILLIPS' FUNERAL

Skipper, Whose Ship Was Captured by the Alabama, is Dead.

BURIAL AT CAMBRIDGE, MASS.

Services at His Late Home Today Conducted by Rev. George A. Warner.

Captain George M. Phillips, an old resident of this city, who resided at 1122 West Front street, died Saturday noon of heart failure after an illness of four weeks. During the last week of his illness Captain Phillips was unconscious. He had celebrated his seventy-ninth birthday in August and, while ailing managed to keep around until the fatal attack seized him.

Captain Phillips had been a sailor from the time he was sixteen years old, retiring a few years ago with a competence. He commanded several of the old clipper ships plying between San Francisco and Hong Kong, China, as well as ships whose home port was Liverpool. It was on one of these, the Dictator, he was skipper when she was seized and burned by the rebel cruiser Alabama during the Civil War, while on the way from Liverpool to San Francisco.

The rebel captain relieved Captain Phillips of everything he possessed including his uniform and cap afterwards landing him at a point on the English coast from which he made his way to Liverpool. He was a life member of the New York Maritime Society and was a well known man in shipping circles all over the globe. He is survived by a widow and an adopted daughter.

Funeral services, conducted by Rev. George Warner, rector of Holy Cross church, were held this afternoon at 4:30 o'clock at his late residence and were attended by a delegation from the Maritime Society and Exchange from New York. The interment will be at Cambridge, Mass., at the convenience of the family.

VOTE ON AMENDMENT VIOLATES CONSTITUTION

James E. Martine, the farmer-orator, is indignant today because it has been published broadcast that he opposes the feature of the proposed constitutional amendments dividing the counties into assembly districts. He said today that he opposes all the suggested changes except this, but that "by trickery this district feature has been mixed with other important changes proposed in the same amendment."

"Article ninth of our constitution" said the farmer orator, "distinctly states that if more than one amendment be submitted they shall be submitted in such a manner and form that the people may vote for or against each amendment separately and distinctly. Now in this fifth amendment, there is not only provision for dividing the county into districts but what else? Why, to lengthen the terms of governor, county clerk, sheriff, surogate, and members of the Legislature. That's a dirty trick on the people and I know that the election so far as this is concerned will be unconstitutional. Why? Because you have to vote for an obnoxious feature, the lengthening of the terms, when you vote for the county division scheme."

Fitzgerald—Turner.

Miss Lena Yates Fitzgerald, of Schnectady, N. Y., and John Edwin Turner, of Montclair, were married at 10 o'clock yesterday morning by Rev. John Y. Broek, pastor of Trinity Reformed church, at his home on Watchung avenue. The bride is a member of the First Reformed church, of Schnectady. The couple was unattended. The bride and groom are each about twenty-five years of age. The groom is an electrician and he and his wife expect to make their home at Montclair.

Capacity Audience at Proctor's.

Capacity audiences were the rule at Proctor's theatre, all day yesterday, the popular playhouse being thronged. The vaudeville bill was an excellent one and amused everyone. It comprises comedy juggling, singing and dancing, Leonard and Ward in a clever Hebrew sketch, and the Musical Reeves. The pictures were exceptionally good.

DEBATE ON TONIGHT; MARTINE VS SEUFERT

There will be a great time tonight in Coward's hall, when James E. Martine, of this city, and Judge William Seuffert, corporation attorney for Hackensack and Englewood, meet to debate the question of the Constitutional amendments on which the people of this State are asked to vote on September 14. Mr. Martine needs no introduction to the people of this city and Judge Seuffert is equally well known for his ability as a lawyer and jurist in other parts of the State.

President Leroy J. Ellis, president of the Democratic club, under whose auspices the debate will be held is anxious to have a good representation of the voters of the city present to hear the debate and has secured Coward's hall for the purpose of seating a large number. The debate will begin promptly at 8 o'clock and as many as can make it convenient to attend are cordially invited.

JOE ALBERTS INJURED IN GAME AT RAHWAY

Joe Alberts, who has been playing with Rahway for several weeks, was injured by being hit in the stomach with a batted ball, while covering third base in the game at Rahway, yesterday afternoon. Dr. F. W. Westcott was called to attend the player, who was unconscious for some time. It was feared that he was injured internally.

Alberts has been playing baseball for a number of teams in this section and is popular with the fans. Several years ago he was hit in the head with a pitched ball and was unable to play for a long time. At the time it was thought his skull was fractured, but he came around all right.

TRINITY'S FLOCK HEARS TWO HELPFUL SERMONS

Rev. John Y. Broek, who has returned from a vacation spent at his old home in Michigan, preached morning and evening in Trinity Reformed church on Sunday before large congregations. The church quartet also rendered appropriate music at both services. His sermon of the morning was on "The Influence of a Life," the text being taken from Luke 1:3. It was a powerful presentation of the life of Christ exemplified by those who have allowed the influences of the Master to dominate their lives.

The sermon in the evening was taken from the text Jeremiah, 8:20. "Harvest is past, the summer is ended and we are not saved." Mr. Broek said in part: "Each season of nature has a tremendous lesson for us to learn. Spring comes with its verdure, the birds with their songs the grass springs up and flowers bloom, but these things all pass away as summer follows into the autumn and winter; then we have spring again, and so on through each succeeding year. What a lesson there is for us in these changing seasons. Let us mark the fact that for us there is but one Springtime in life and but one Harvest. Now is the time for us to be saved in the springtime of our lives.

"There are soul reasons when it is time for us to seek God and His salavation. Carelessness, indifference and neglect of the soul opportunities means failure, material and spiritual. Peter and Paul took advantage of their soul seasons and when your season comes if you take hold of God you will find your salvation and your way to eternal life.

"The harvest is sure to come in the spiritual life, while in nature there may be a sowing without the expected harvest. And we should remember that we shall reap what we sow in the spiritual life This is sure. These seasons in our lives should teach us the lesson that nature is trying to teach us

HELD 'OPEN HOUSE' AT PARK GOLF CLUB

The Park Golf Club held an "at home" at the club, yesterday, when the members invited their friends to enjoy the hospitality to be offered at the clubhouse and on the course. It was a gala day for the popular borough organization. There was a record breaking attendance and an unusual number of automobile parties. The course was crowded all day, while many enjoyed themselves playing tennis.

At the clubhouse there were many social features. During the afternoon the women members reecived and tea was served. In the evening a number remained for dinner. The day marked the resumption of fall activities and it was an auspicious occasion.

The chief event on the course was a 36-hole medal play handicap for a cup. There was a large field. The leading scores:

R. V. Carpenter, 207, 46-161; J. H. Howell, 205, 40-165; Samuel Townsend, 204, 36-168; R. B. Titsworth, 200, 32-168; Charles B. Morse, 194, 24-170; W. R. Faber, 201, 26-175; W. E. Lough, 211, 32-179.

At 5 o'clock in the afternoon there was an approaching and putting competition open to all. This was won by Dr. and Mrs. William Rankins, of New York, with a score of 9, after being tied with two other couples with the same score. Miss Bessie TenEyck and J. W. Hegeman and Miss Rocap and R. V. Carpenter tied with the winning couple, but on the play-off, Dr. and Mrs. Rankins won out.

There was an unusually large field out at the Park Golf club, Saturday, when the weekly competition for the President's and golf club cups was the event of interest. The leading scores returned for the day were as follows:

R. V. Carpenter, 106, 23-83; J. H. Howell, 104, 20-84; Samuel Townsend, 102, 18-84; W. R. Faber, 97, 13-84; Dr. H. K. Carroll, 95, 7-88; W. V. Byard, 102, 14-88; Frank Sill, 117, 30-87.

CHARGES NOT VERIFIED

Gallagher Has Not Responded to Mayor's Demand for Facts.

DUNELLEN MARSHAL ACCUSED.

Swackhamer Will Have Action Taken By Council If Complainant Comes to the Front.

In response to the complaint lodged with the Mayor and Common Council of Dunellen by Michael Gallagher in which charges of intoxication were made against Marshal William Sliney, Mayor Harry J. Swackhamer, on August 28 wrote the appended letter to Gallagher which up to Saturday had remained unanswered.

As the Council meets tomorrow evening unless Gallagher gets in his reply the matter is liable to pass unnoticed by the members of the Council and Mayor Swackhamer. A rumor was circulated last Saturday to the effect that a petition asking for the removal of the marshal was being circulated and had many signatures. This could not be verified at the time.

Following is Mayor Swackhamer's letter to Gallagher:

"Referring to your communication of the 25th inst., in which you prefer charges against Marshal William Sliney, I would ask that you kindly place in my hands supplemental charges setting forth the dates and the time of the day upon which the disorderly conduct in question occurred, so that the charges can be drawn up in proper manner by the Borough Counsel and also that the marshal will be given due notice of what charges he will be called upon to defend himself against. I wish to also inquire as to whether or not you are willing to sign said charges when they are properly and duly drawn?

"I would request that you let me hear from you in writing at as early a date as possible, and oblige."

Gallagher was served with a personal notice on Saturday morning that the Council would meet on Wednesday night and opportunity would be given him to prove the charges he has brought against Marshal Sliney.

SERVICES AT PARK AVENUE BAPTIST CHURCH SUNDAY.

Rev. A. E. Finn preached morning and evening at the Park Avenue Baptist church on Sunday to a large congregation considering the number of people who are out of town.

AMONG OUR NEIGHBORS

'PLAINS AND FANWOOD.

Miller is coming up fast. This is his first year and the first hard game he has been called on to do the box work, but he held the heavy hitters of the Plainfield team to one hit up to the sixth and only eight hits all told were secured off his delivery, and also fanned six men. With proper coaching the boy will be able to deliver the goods in another year or two, as he has everything and has a great arm to back him up.

A surprise party was given Freddie Clark at his home on Westfield avenue Saturday night, by a number of his little friends. Games were played and several pleasant hours were enjoyed by the little host and his guests in this manner, after which refreshments were served.

Guy Dushauick, of Fanwood, has resigned his position with the Central Railroad in the New York office, to accept a position with a Brooklyn firm on Broad street, New York.

Rev. Franklin K. Mathiews has returned from his summer outing and occupied his pulpit again at the Baptist church on Sunday.

The St. Mary's team of Stony Hill, defeated the 'Plains team yesterday morning on the home grounds by the score of 11 to 5.

A number from here enjoyed Labor Day picnicking at Chimney Rock. The trip was made by stage.

SOUTH PLAINFIELD.

The local ball team has so far won eight of eleven games played. The attendance at the games has been very good, averaging about 200 per game.

The Shadow of the Autumn Leaf Has Fallen Upon Silks and Dress Goods

It's delicate tracery can be seen in these shimmering, rustling silks. the beautiful cloths and other dress fabrics which are beginning to peer forth in this store. The new colorings are here filled with the somberness of Fall and reflecting the darkened tones of the forest verdure, after the first chill wind has come

In a word this stock is a picture of Dame Fashion's choice in the New Silks and Dress Goods. It tells in a masterful manner what the women in the great fashion centres will be wearing this season.

Our stocks is the result of month's of labor. We have studied the style trend in the big cities, marking well the weaves and the colorings which were most in demand. The result of this study is shown in the completeness of our stocks, and *their magnificence.*

The thought of the new Fall gown is uppermost now. Come and study the style effects in silks and dress goods at this store.

LENTZ CHALLENGES COLGATE TO DEBATE.

Major Carl Lentz, a former chairman of the Essex County Republican Committee, who is aspiring to that position again and who has announced himself as a candidate at the coming primaries, Friday sent an open letter to Colonel Austen Colgate, of East Orange, the candidate of the New Idea wing of the party, challing him to a debate on the question of how the Republican County Committee should be managed.

Major Lentz in his letter leaves the time and place for such debate to be named by Colonel Colgate, excepting one night, September 10, when he has an engagement in Newark. In a postscript to his letter the Mayor states that he noted with pleasure the statement made by Colonel Colgate that he had never scratched a Republican ticket, but called attention to the fact that the Colonel did not state, however, how often he did not vote.

In conclusion the postscript says: "I recollect it is quite a distance from your home to the polling place."

The Major also sent an open letter to a former Board of Works Commissioner, Frank Bock, denying a statement alleged to have been made by Mr. Bock that he (the Major) was in the place to help Colgate, his reward to be his reappointment by Governor Fort to the State Tax Board. He called on Mr. Beck to prove his assertion.

CHANGES AT RUTGERS.

The 144th year of Rutgers College will begin September 22. It promises to be one of the best in the history of the college. The entering class this fall will be larger than last year's class.

President Demarest, who returned Wednesday from a trip to the far West, where he attended the meeting of the Association of Presidents of State Colleges, at Portland, Ore., authorizes the announcement that plans for the new Chemistry building are being drawn by the architects. The proposed building is to be constructed of brick and will be located on Bleecker place, just north of the Engineering building, which was completed last year. It is expected that the work of construction may be commenced this fall and that the Chemistry building will be completed and ready for occupancy by the opening of college in 1910.

The following changes in the faculty are announced: Professor Richard Morris, formerly associate professor of mathematics and graphics, becomes professor of mathematics and graphics; Frank Randall Pratt, formerly instructor in mathematics and graphics, has been transferred to the department of physics, as instructor in physics.

No appointment has yet been made to the chair of philosophy, which was made vacant by the resignation of Professor William I. Chamberlain last June. The work in the department of philosophy will be carried on for this year by a visiting professor from one of the large Eastern universities.

The following new appointments to the force of instructors have been made: W. Bertram Twiss, A. M., graduate of Harvard University, has been appointed instructor in English, and Erik S. Palmer, B. S., a graduate of Sheffield Scientific School at Yale, has been appointed instructor in mathematics and graphics.

TURNS TURTLE AT 70 MILES.

Only One of Three Occupants Injured and Machine Not Damaged.

Moses Feltenstein, a lawyer, of No. 309 Broadway, New York, with his wife and chauffeur, while on the way to Atlantic City met with an automobile accident Friday at Lakewood. The rear wheel broke while the car was going seventy miles an hour, causing the machine to turn turtle. Mrs. Feltenstein struck on her head and was knocked unconscious.

Mr. Feltenstein was also thrown out, striking on his head in some bushes, but escaped with a severe shaking up. The chauffeur was not hurt. The three were taken to the Bartlett Hotel. It required nine stitches to close the gash in Mrs. Feltenstein's head.

The most peculiar part of the accident was the fact that the machine was not broken in any way, with the exception of the rear wheel.

Until the choir returns from its summer vacation, William Holmes, baritone soloist, has been acting as precentor at the First Baptist church.

J. Harry Manning, former secretary of the Y. M. C. A., conducted the Gospel service at the Mary E. Wilson Memorial chapel, Sunday night.

Mr. and Mrs. L. W. Randolph, of Myrtle avenue, have returned from their summer outing in Maine.

NARROW ESCAPE OF PLAINFIELD AUTOMOBILISTS.

Owing to the fact that the machine was going only about five miles an hour a party of Plainfielders are not nursing broken bones and perhaps worse injuries today. Edward Steurwald, Mrs. Steurwald, her sister, Miss Minnie Imbieorwick, of Long Island City, Thomas Timbo and John Powers while enjoying an automobile trip over the big triangle coming home by way of Bound Brook and on the outskirts of that city, ran into a tree in turning an abrupt curve on a thirty foot embankment.

All the occupants of the car were thrown out and although more or less bruised none were seriously injured. The party was brought back to town in automobiles of fellow auotists and the injured attended by Dr. N. H. Probasco. The two women were the greatest sufferers being severely bruised. No bones were broken and they will be well in a few days. The damage to the machine was about ten dollars.

OUTDOOR SPORTS AT MT. BETHEL YESTERDAY.

The annual Labor Day picnic and athletic games held at Mt. Bethel, yesterday, were a great success, being largely attended by people from all parts of the metropolitan district as well as New Jersey. There was a baseball game between Mt. Bethel and a club made of New Yorkers. The home team won by a score of 10 to 6.

The two mile bicycle race was won by Thomas Smith, of Warrenville, in 4:40, the prize being a silver fruit dish. Dan. Hoffmann, of New York, won the 150-yard dash in 18 seconds, the prize being a silver cup. J. Gunther won the mile foot race in six minutes and twenty-one seconds, the prize being a watch. Charles V. Wicht, of the Clarkhurst Farms, acted as referee for the games.

ONE DAY'S RECORD IN BOROUGH POLICE COURT.

In the borough police court this morning, Frank Muncton and John Jeroldman were fined $5 each for intoxication. Catharine McCarthy, together with her friends Charles M. Chaffin, Andrew Boyle and George Moore, were also fined $5 each for disorderly conduct.

John M. Lane, of Warren street, was arraigned before Recorder Dolliver on the complaint of his father-in-law, Charles Vanderwater, who claims that he was making a nuisance of himself around his house. As Vanderwater did not wish to press the complaint the Recorder suspended sentence.

JOHNNY CAMPBELL'S BOWLING ALLEYS OPEN

Notwithstanding their long vacation, local pin knights were in a high scoring mood at the opening of Johnny Campbell's alleys on Saturday night.

The first two hundred score was made by Frank Willett, who in his second game rolled 225. Charlie Eller came in from Scotch Plains and after rolling a few games made a new record for the season, reaching 247.

Members of Watchung Council, K. of C., will roll the first match game of the season on Thursday night, when teams captained by Arthur Canon and Dave Doyle will battle for supremacy.

The alleys have been thoroughly renovated and are now in excellent shape.

TOWNSHIP SCHOOL BOARD RESOLUTION REVOKED.

A short while ago an attempt was made to incorporate a resolution in the rules of the Board of Education of New Providence township to prohibit unofficial visitors of the school from addressing the pupils. It was quite clear to his friends that the resolution was directed at Mr. Jeffery, who was practically the only unofficial visitor that addressed the pupils last year. He stated at a meeting of the board held recently that he never addressed the children except by permission of the teachers in charge; that the resolution was offensive and unnecessary, that he had written to twenty boards of education in the vicinity of the township with the result that not one of them employes such a rule.

A letter was read from Dr. Savitz, of Westfield, the county superintendent that he thinks such a resolution proper and that the time had gone when visitors to the schools addressed the children.

Notwithstanding this, the majority of the board favored Mr. Jeffery's attitude and voted to rescind and strike off the books the proposed resolution. Those who thus voted were: Louis A. Burgmiller, Robert G. Rogers, Thomas P. Rogers, William F. Lutz, Jr., and Angelo Deiduco. Those who wanted the resolution and who voted for it were: Willis Fletcher Johnson, W. C. Johnson and Henry S. Fullerton.

A NEW SUPPER PARTY.

Hostesses are now serving a fruit omelet made by the following formula:

Chop raisins, currants, candied peels, citron, oranges and lemons, figs and French prunes or any similar fruits until you have a scant half-cupful when mixed. They can be put through the meat cutter, using a coarse knife and having about equal parts of the different fruits.

When the fruits are mixed add just a dash of powdered cinnamon. Put the mixture in a double boiler with the juice of an orange and allow it to cook for thirty minutes.

To make the omelet itself break four eggs into a dish and beat them lightly and quickly, but merely enough to mix the yolks and whites together. Add a tablespoonful of powdered sugar and a teaspoonful of butter. Melt a second teaspoonful of butter in the chafing dish. Get it hot, but without allowing it to brown; then turn in the eggs. Shake the pan so that they will not set. Let them brown until the egg is well cooked, lifting the set part as this is formed to allow the raw to run upon the hot pan.

The moment the omelet is well set pour in the hot fruit, folding over quickly and turn on a plate. Sprinkle it with powdered sugar and serve immediately.

POLLY OF THE CIRUCUS ON TOMORROW NIGHT.

"Polly of the Circus," Margaret Mayo's famous American play, that brought fame and fortune to Frederic Thompson, and genuine delight to hundreds of thousands of theatregoers, who have witnessed it, will be given its first presentation in this city at the Plainfield theatre tomorrow night.

In the construction of this remarkably successful drama, Miss Mayo went far off the beaten path of playwrights, and achieved a story as refreshing as it is original, the part of Polly showing with admirable fidelity the life of a pretty little circus rider and the doings in the mystic land behind the scenes in the big tent, as well as remarkable pictures of the daily events of a small village in the middle west.

Polly, from whom the play derives is title, is the head of the circus, and,

Polly and Her Pony in "Polly of the Circus," at Plainfield Theatre, Tomorrow Night.

having been severely injured by a fall from her horse, is carried to the parsonage adjoining the circus lot. Her recovery of health under the supervision of the village preacher forms the basis for one of the prettiest love stories given to the stage in many a day. From first curtain to last, the interest is surprisingly well sustained, while the six scenes required for the development of the plot, give opportunity for one of the most lavishly elaborate scenic productions ever seen in this city, and which is identical even to the smallest detail with that used at the Liberty theatre in New York city, where "Polly of the Circus" created a new record for attendance during a run of one entire season.

The company engaged in its presentation is unusually competent, and in every way the production is the most expensive to maintain, of any attraction that has been seen in this city for several years.

HOUSEHOLD JOTTINGS.

Never put thin glassware into hot water bottom first, as it is apt to crack from sudden expansion. Slip it in edgewise.

Have you ever tried adding a teaspoonful of paraffine to every gallon of water when boiling white clothes. It is said to be excellent for removing stains.

Remember, good tools make rapid work. If you do not own a good knife charpener, which you can use to improve your steel blades, not ruin them, as is the usual amateur sharpener's method, make arrangements for your knives to be sharpened by a professional every two weeks.

Do not wash colored clothes in the same water with all white ones. This especially holds good if one happens to have table linen with colored borders.

Dish cloths cannot be kept clean without daily boiling. They should not only be washed out thoroughly after each meal and hung in sun to dry, but once a day, or without fail every other day, should be boiled in water to which has been added washing soda or a tablespoon of kerosene.

Poor Man.

She—I'm never going to speak to your wife again!

He—What's the matter?

"She promised to write to me two weeks ago and I haven't heard from her since."

"Oh, well," (feeling in his pocket) "here's the letter. She gave it to me a fortnight ago!"—Yonkers Statesman.

A Good Alarm Clock.

Husband—Why don't you have Bridget shut the kitchen door? One can smell the breakfast cooking all over the house.

Wife—We leave it open on purpose. The smell is all that gets the family up.—Judge.

GOOD BARGAINS IN ANTIQUE FURNITURE.

This particular season of the year is ideal for a woman with little money who wants to buy old furniture, for auction shops and antique dealers sell at lower prices than in winter, when business is brighter and many a bargain is secured now.

When searching for old chairs, bedsteads, etc., one ust remember that a marked characteristic of real antiques is their softness. Just as embroideries tone and mellow with timee, so does mahogany, and nothing has yet been found to imitate this effect of years. Much so-called mahogany which is sold to the unsuspecting is cherry, a wood much used at one time, and some beautiful pieces, in the same designs as mahogany tables, etc., were turned out in this red wood. It, too, mellows and becomes richer with age, and in its best condition there is little choice between the two, but it denotes a woeful lack of knowledge when cherry is put forth by a purchaser as mahogany.

In some of the older bureaus, or those made at a certain period, the two woods are combined. When new no attempt was made to disguise the fact, but a different method is now sometimes pursued, and because a drawer may be mahogany it by no means follows that the rest of the piece is of the same wood, but if the furniture is hauled into a bright light there will be no difficulty in detecting the difference between the two colors. Cherry is valuable, but less expensive from the collector's point of view, than the brown wood, unless the former has carving or special work to give it particular value.

The difference between veneer and solid mahogany is that only in the veneer can the exquisite pattern of the grain be made to match perfectly. As it is a thin coating of wood, pressed to a solid foundation, it is naturally less durable than the solid, and so is liable to chip. Nevertheless, it can be repaired always at small cost, and many persons prefer it because of its greater beauty.

Drawers, tables or buffet tops, or such plain surfaces, are most apt to be veneered. The work is sometimes done on solid mahogany, and the other parts of the piece are finished on the natural surface. Such are valuable, but like cherry, should be bought understandingly.

Modern reproductions can be told, as a rule, because the two shadse used in the finish are almost distinctly brown and red, instead of the two blending into one. Yet the better the finish the less separate are the two colors, and I know of no way in which an amateur may be certain that she is getting what she wishes. One who knows the difference sees them as plainly as the average individual would the difference between sateen and velvet, for the same reason—one has depth and softness while the other is shiny.

THINKING IT OUT.

Keep your thoughts on your work! You will never make yourself over into a successful dressmaker, although you may be the neatest of seamstresses, if you cannot put some mind into your garment.

This thoughtful attitude of mind may not be one of your gifts, but it may be cultivated by the persistent worker who is willing to master the real secret of putting this and that together. "This" may be a deep skirt yoke or a jersey or fitted cuirass, and "that" may be a pleated lower section depending from it.

Now let us suppose, for the time being, that the lower skirt, which you have pleated mechanically, according to the notches, proves too large to fit into the hip piece—just what do you intend to do? Nine-tenths of the thoughtless, who make their clothes without once sharpening their wits upon them as they sew, will cut off the extra pleat or two, and thus fit in the pleating successfully. But one woman out of a given ten will keep the skirt exactly the width the pattern allowed and will use her mind to evolve the theory that a certain width is required for walking purposes, and that therefore the springing in og the top of each pleat will produce the desired shortening of the whole without a sacrifice of the lower width.

This is but a single instance of the necessity for staying wide awake to the task. Each season's models vary to such an extent that there can be no ropal road to dress manufacture. Certain basic principles alone can be taught, just as it is possible to teach only the main points of pattern cutting.

Peculiar styles bring, each one, its own curious lines, which the expert will readily follow, but which the novice will grasp more slowly and by applying herself to the task, by going back mentally to the a b c of cutting and by thinking in advance of her work. Those who blunder along will de more ripping than sewing. They will, moreover, sew the last part first, which is death to a beautiful result. The gown "with a soul" has never been evolved by a mindless woman.

Walters—"Why, I don't know."

A HEALTHY PERSONS NEEDS A GOOD BREAKFAST.

Dr. Woods Hutchinson, iconoclastinordinary to the medical profession, as usual upsets our previous ideas of bodily health in an article in Woman's Home Companion. Doctor Hutchinson has a faculty for restoring to us our self-respect, and assuring us that, left alone, we are not such idiots, after all. In this particular article, for instance, he points out that the idea of seating little in the summer time is a failcy. Of breakfast, for instance, he says:

"It is customary to make the first meal of the day slightly and lightest and distinctly the plainest and simplest of the three. If there be any deficiency of the appetite, breakfast is the meal at which this is most likely to show itself. But this lack of appetite is in nine cases out of ten clearly traceable to sleeping in an unventilated room or to late hours in foul air the night before or to insufficient exercise the preceding day, and is no indication that the body really requires less food at this time. Perfectly healthy men who sleep with their windows open and go to bed at a reasonable hour will tell you that they enjoy their breakfast as well as any other meal of the day, and many even call it their best meal.

"Another popular delusion in regard to the lightness and unimportance of the breakfast is that widespread subterfuge, the 'continental breakfast,' consisting of a cup of coffee and some fruit or a single roll. This is a very pretty breakfast, as far as it goes, but it doesn't go far; and the sole basis for its adoption on the continent is that it is only intended as a temporary tide-over, until the real breakfast, of meat, eggs, fish, with beer or wine, which is taken at about 10 or 11 o'clock, like a very early luncheon. If you haven't got a good appetite for breakfast, make it your business to go and get one, instead of allowing yourself to be blinded by this morbid state of affairs and deciding that all you really need is a cup of coffee and a roll or an orange or a puff of breaffast bran."

THE WRONG MAN.

Brown is going around with a variegated eye. This is the story that he is telling his friends:

"It was such a pretty thing that the more I thought of it the madder I got.

"The milkman leaves my milk before the sun is up. It is somewhat later when I feel called upon to leave my bed, and during the time that the milk remains on the back porch someone has been making a practise to steal it. It is more than provoking to find when breakfast is ready that you have no milk for your coffee.

"I set all manner of traps to catch the thief, without success. Then I hired one of the neighbor's boys to sit up and keep watch. But the next morning I found the milk gone and the boy asleep.

"The other morning I chanced to be awake just before sunrise, and I heard someone fumbling with the milk can on the back porch. Hastily throwing on my dressing gown, I stepped softly to the door and threw it open suddenly.

"In the dim light I could see a man bending over the can, and without stopping to see if he was a bigger man than I, I sprang at him with blood in my eye. The shock threw him off the porch, and we rolled down the steps together, fighting like a couple of wildcats.

"We must have made an awful racket, for I heard the windows going up all around me, and someone was blowing a police whistle, while my wife was wringing her hands upon the porch.

"I got my man down at last and sat upon him. We were both a sight, being covered with milk from head to foot.

"It had grown a little lighter by this time, and my wife, taking in the situation, gasped:

"'John, that's the milkman that you are sitting on!'

"It was, for a fact, and explanations were in order.

"I understand that the milkman is going around exhibiting his wounds and saying that I made a brutal and cowardly attack upon a defenseless man and increasing the amount of damages he is going to sue me for at every telling.

"Meanwhile someone is stealing my milk."

IF YOU RESIGN, WHO CARES?

Whoever you are who may read these words, this question is one that you should ask yourself most seriously:

If I were to resign, would I be re-elected.

This is the kind of question which it does you good to ask and answer with unsparing frankness. It is one of the questioas which make you search your heart, look into all the secrets of your life, and bring you face to face with what is real—perhaps most brutally real.

Whatever talent you may have, whatever gifts you may possess—these have not been the only factors in your advancement. They have helped you much or little, as the case may be; yet what you are and what you have, you owe very largely to the good will and the good opinion of others. They have accepted you, smoothed your path.

But if you were to resign, would they do the same thing over again?

Would your wife choose you again?

Examine yourself closely and see whether you are still the lover, striving to please, thinking of all the little things that go to make up a woman's happiness. If you have made your wife dread and fear you, so that she shudders at your very touch, would she again select you if once the legal bond between you could be severed?

Put, then, this question sharply to yourself in all the relations of your life. It is a grim task, but nothing is better for you as a man than to ask yourself this question, and answer it with perfect frankness:

If I resigned, would I be re-elected?—Munsey's Magazine.

QUAKER MEDITATIONS.

Many a family tree is of abnormally rapid growth.

Some people are so tireless that they positively become tiresome.

Never put off till tomorrow what you can have done for you today.

To cultivate some acquaintances it is necessary to irrigate constantly.

It's the things we don't get that we should sometimes be most thankful for.

What a man regards as firmness in himself he is apt to consider obstinacy in others.

If we had our lives to live over again most of us would want to skip at least half.

If it's lucky to have a rabbit's foot the rabbit should be extremely lucky, for he has four.

About the only man who doesn't mind being called a liar is the enthusiastic fisherman.

"Sir, I am a man of few words," boasted the pompous individual. "So is a parrot,' remarked the other, with more regard for repartee than animal distinction.

Wigg—What do you consider the most remarkable thing about Scribler's new novel?

Wagg—There is an English butler in it whose name isn't James.

"Can't I sell you a talking machine?" asked the agent, persuasively.

"Not on your life," answered the good deacon. "My wife's sewing circle meets here three evenings a week."—Philadelphia Record.

HINTS FOR THE COOK.

Meat for roasting should not be washed, but wiped with a dry cloth.

Bacon rinds should me scalded and used for flavoring stocks and stews.

Sausages should heat gradually when cooking to prevent the skins bursting.

To keep milk sweet add a teaspoonful of fine salt to every quart of milk.

Acid fruits are decidedly better in color and flavor when ccoked in earthenware pots.

Do not salt stock till it has been thoroughly skimmed, as the salt prevents the scum from rising.

Mix pastry several hours before it is required, and much labor is saved. Always stand it in a cool place.

If fat catches fire throw salt on it at once to prevent a disagreeable smell.

Before broiling a steak dust it with salt and pepper and rub it with salad oil. This will greatly improve it.

A SENSIBLE BREAKFAST.

The staple, or what the French call the piece de resistance, of a breakfast should consist of some form of meat, fish, egg or milk, or its equivalent in a starch or sugar, like bread, toast or cakes, says Dr. Woods Hutchinson in Woman's Home Companion for August. These may be supplemented by hot breads, gems or biscuits, with the proper modicum of fat in the shape of two or three pats of butter, sugar and the alkaline salts in the shape of some fruit or preserves or syrup upon cakes, and an accessory or appetizer in the form of tea, coffee or cocoa.

The so-called cereals and breakfast foods ought not to be made the mainstay of the breakfast. As accessories before or after they are admissible and useful, but they lack seriously in steaming pawer, in proportion to their weight, bulk and power of satisfying the appetite.

The Husband—Well, say what you will, my dear, you'll find worse men than me in the world.

The Wife—Oh, Tom, how can you be so bitter.—Sketch.

RAILROADS IN CHILE INCREASING WAGES.

Consul Alfred A. Winslow writes from Valparaiso that the railroad development of Chile has been very marked during the past four years. During 1908 there were 648 miles of new railway constructed for the Chilean government at a total cost of $10,254,284 United States gold, of which 166 miles were built under contract and the remainder by governmental forces. Of this 174 miles were added to the main line or "longitudinal," as it is known here, since it follows the foothills lengthwise of the country, and the remainder covered branch lines leading to the coast or up into the Cordilleras.

The prospects for 1909 seem even brighter for railway construction in Chile than those of 1908. The indications are, therefore, that there will be a demand for quite an amount of railway material and supplies during the year. The Chilean government will continue to do a large amount of consrtuction work. For this interested parties should address the Director-General de Industria y Obras Publicas, Santiago, Chile, while for business for the Arica to La Paz railway communications should be addressed to the Socledad Sir John Jackson limit(ed), Santiago, Chile. This contract calls for an outlay of very nearly $15,000,000 United States gold, and covers about 350 miles of main track.—Consular Reports.

BELTINGS THAT ARE DIFFERENT.

For milady's waist the belting makers have been turning out all sorts of pretty and dainty things this season. And a fresh belt, or one that harmonizes with her costume, adds not a little to the completeness and finish of madame's appearance.

White moire with jet dots is a summer novelty—the gleaming black jet against the snowy moire is a decidedly effective combination. The jet dots are not large, either—possibly half the size of a dime.

Dainty pink rosebuds or blue forget-me-nots trailing over a white moire surface is another very pretty style, and one that is particularly suited for August frocks.

Beltings by the yard have several advantages—milady is sure of getting just her right waist length; then, too, she may wear buckles and pins that hit her fancy and change them as often as she pleases.

SYRIAN EMBROIDERY.

A type of embroidery that is specially adapted to conventional designs is the Syrian work, that gives an effect of overlapping scales. The designs which are stamped for this embroidery are divided into sections by lines running at regular intervals acrosss the scrolls and other figures.

The method of working is both simple and rapid. The sections are filled in with a filling cotton and then worked in satin stitch following the growth of scroll. Three sides of section are then outlined so that the design when finished looks as if one scale sprung out of the other.

This is particularly effective for borders on table covers or sofa pillows or the centre-pieces made of homespun linen used on tables between meals.

As the embroidery is done in Turkish floss or other heavy, glossy silk suitable for large designs, it works up quickly, yet has a handsome solid surface. There is room for infinite variety of shadings, but it is well to keep the designs, if possible, in several tones of the same color. Thus a line of reds makes an attractive coloring, or old blue, Chinese greens and yellow verging to orange.

LACE ON CENTREPIECE.

Lace that is used on centrepieces is not fulled, but is just held in enough to lie flat. The best way to get this flatness is to draw the thread of the lace, fasten one end to the linen, leaving enough to make a neat seam and then adjust fulness so that it lies even. When right side up one cannot see that any fullness exists.

Do not make mistake of spanning lace, as it will be ugly when laundered and the centrepiece will never lie flat.

One young woman when sewing lace to a centrepiece that has a scalloped edge bastes the lace so that its edge comes just inside the outer line of scallop. The scallop is then worked through both linen and lace, and there is no rough seam on the underside of centrepiece where lace is sewed.

SLIPPERS OF NET.

A shoemaker, in his search of something new, has invented an evening slipper of Russian net over colored satin linings. The heels are colored to match. There is a jeweled buckle at the toe in any appropriate stones.

Cloth of gold slippers are in fashion for all gowns trimmed with gold lace, and some bronzed slippers embrodiered with beads cost as much as a gown.

There is also a fashion to have the top of boots made of bengaline and cravenette to match the gown.

The shoe absurdities will soon become as famous as the millinery ones.

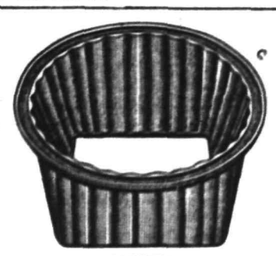
A REVOLUTION IN COFFEE MAKING

How Modern Methods Have Improved the Quality of Coffee Many Fold.

Housekeepers now realize how impossible it was to buy really satisfactory coffee in the old days when all coffee was sold in bulk. They have come to appreciate that a large part of the strength and flavor of coffee is lost by exposure to the air. They know now that the reason one coffee is more delicate in flavor than another is due to the difference in roasting, that brings out the full flavor of the bean—to skill in blending—and to excluding the air from the time the coffee is roasted till it is used.

Among the connoisseurs the opinion is practically unanimous that no other coffee on the market fulfills all the conditions of what an ideal coffee should be as does the Hotel Astor Coffee, which was perfected for use in that famous hotel and has since been put on the general market. Sold in one and three pound tins, it comes in the bean, ground or pulverized, and is guaranteed to be exactly the same coffee as used by the Hotel Astor. Each can contains the famous Hotel Astor recipe for coffee making and assures you of perfect results.

You will find this coffee takes but about two-thirds the quantity required of inferior grades. Hotel Astor Coffee is sold by good grocers generally and doubtless by yours. But if he does not keep it, write the importers, B. Fischer & Co., 190 Franklin street, New York City, giving your dealer's name and address, and they will tell you where you can get it.



This is the Square Pot of the

BOYNTON FURNACE

that saves fuel and dollars and will heat the whole of a house. In every great engine and under every big boiler you'll find a square fire box. Ever noticed it? Well—we have adapted that principle to our furnaces. A square pot gives a clean, hot, clinkerless fire without waste of fuel. It requires the least attention and responds instantly. BOYNTON furnaces *only* have square fire-pots. It is our patent. There are other improvements. A square ash pit that improves the draft and makes removal of ashes easier. A pure air supply—for health's sake. A dust flue that saves the rooms above.

Look up the BOYNTON dealer in your town and talk it over.

There are BOYNTON heating plants of all kinds. Ask about our Round or Sectional Boilers for Steam or Hot Water. Also Ranges.

PARTED SIXTEEN YEARS, SISTERS MEET AGAIN.

For the first time in sixteen years two sisters met at Nutley. They are Mrs. Thomas P. Day, of Chestnut street, that place, and Mrs. John Tay, of Wakefield, Mass. The latter is now visiting the Day home, where she expects to stay several weeks.

The last place the sisters saw each other was at Wakefield, where the old family homestead is. That was just after Mrs. Tay and her husband had returned from Montevidio, South America, where they had lived for some time. Mr. Tay was engaged in the leather business and was also associated with Bishop Taylor, of the Methodist church, in missionary work there. Since they parted the sisters had kept in communication with each other, although they did not visit.

CAMDEN YARD MAY GET ANOTHER BATTLESHIP.

It has been practically decided that the two new battleships, bids for which were opened at the Navy Department last week, will be constructed by William Cramp & Sons, of Philadelphia, and the New York Shipbuilding Company, of Camden, each company getting one battleship. The board on construction of the Navy Department had a meeting a few days ago, but no conclusion was reached and no award will be made this week. The Cramps submitted a bid of $4,450,000 for one battleship, and the New York Shipbuilding Company's bids ranger from $4,675,000 to $4,875,000.

NO INDICTMENT FOUND AGAINST SENATOR PRICE

It is understood that after the witnesses had retired the jurors agreed to drop the matter without even taking a vote.

POWDER MILL BLOWS UP.

One Dead and Three Injured in Pompton Explosion.

One man was killed, another badly burned, and two were slightly injured in an explosion at the Laflin & Rand powder works at Wayne Friday. A six-months-old baby, sleeping in a carriage, narrowly escaped death when a part of a large iron wheel, blown from the explosion barely missed striking it.

The dead man is George Moore, twenty-five years old, of Wayne, who was employed as foreman in the wet mixing mill. The man most injured is Samuel Benson, thirty-five years old, who worked in the same mill as a laborer. Joseph Sommers and Frank Augustus, both of Wayne, received slight injuries.

"In wards that have no Democratic clubs it is all right for the Mayor's friends to organize, but the clubs ought not to be named after any particular candidate."

Machine Disperses Fog.

A French scientist, says the August Popular Mechanics, has been experimenting for some time with two systems of dispersing fog. One embodies the discharge of Hertzian waves into the fog. The other system is the projection of warm air into the fog, and so far both have attained about the same results. A special hot-air machine is used in the latter system. Popular Mechanics contains a picture of the machine.

South Plainfield Wins.

The Gesang Turn Verein Baseball club was defeated by South Plainfield team, in the "rubber" contest of a series of three. The game was marked by numerous errors. Kiely pitched a fine game for the home club, allowing but three hits and fanning nine batsmen. Luthman and Montross twirled for the visitors. Willie Mullin at third base, played the best game for the home nine.

FORFEITED THE GAME

'Plains Team Refuses to Play After Disputed Decision by Umpire Waters.

WRANGLED FOR 50 MINUTES.

A Fine Game Marred by Unpleasant Ending—Will Play Again Next Week.

Deciding that umpire Waters had no right to reverse a decision he had made fifty minutes before, the Scotch Plains baseball team left the field yesterday afternoon, forfeiting the game to Plainfield by a score of 9 to 0. Up to the time that the dispute arose as to whether Boyd was out, the game was an exciting one and twelve hundred spectators were rooting for their respective favorites with all their might. It was an unfortunate ending to an otherwise good game.

The dispute arose in this way: Barnes had slipped over a neat two-bagger and was resting on third when Dodge sent a sizzling single to left. Barnes scored on the hit and Boyd, who was on second tried to get home by cutting third. Umpire Waters called Boyd out for not touching third and immediately there was a howl. According to the rules Boyd should have been "played" out at third and as he ran back to the base before that play was made he was safe.

Manager Frentz, of the 'Plains team could not see that umpire Waters had any right to change his decision as to Boyd's being out and after wrangling for nearly an hour he refused to proceed with the game.

Perhaps the fact that Plainfield had begun to find Miller the 'Plains pitcher had something to do with Manager Frentz's action. The fact that up to this inning—the eighth—Miller had been an enigma to the locals seemed to warrant this belief for the four men who faced Miller up to the game was stopped hit the ball hard.

As for the rest of the game it was all 'Plains until the eighth owing to Miller's good pitching. Plainfield put up a fine fielding game which kept the score down. In the first inning 'Plains got a couple of runs across on some free hitting and an error, but after that Brewer held them safe at all stages. Some remarkably clever playing by Crosby, a Rahway man, who covered short for Plainfield, was the feature and it was Crosby's knowledge of the rules that made it possible for Boyd to get back to third at the time of the dispute.

It was announced yesterday that Plainfield will play 'Plains a game in their home bailiwick next Sunday. If this game comes off there will surely be something doing. Manager Dorflinger regrets the manner in which the game terminated but abided by the final decision of the umpire.

GARWOOD TAKEN INTO CAMP AT THE PLAINS

The Scotch Plains team defeated the Garwoods at the 'Plains Sunday by a score of 12 to 4, in a rather uninteresting contest. Manager Watts seemed determined to down the 'Plains and picked what looked like a strong aggregation. When it came to a show down the visitors were not in it. Montross was in the box for Garwood against his old team-mates. Jimmy got a warm reception, being touched for fifteen hits. MacLaughlin allowed but six hits, but was inclined to wildness, walking six men. The score by innings:

RAHWAY SUCCUMBS AT LAST TO PLAINFIELD

The Plainfield Baseball club at last got revenge when on Saturday, it defeated the Rahway team on its home grounds by a score of 13 to 8. It was the first victory for the Plainfielders over the Rahwegians this season, and it was accomplished by a lot of satisfaction. The home team, while admitting that it was outplayed for the most part, explains that the Plainfielders were materially assisted in their victory by two decisions of the umpire in calling a hit in each of two inning fair, which many believed was foul.

There was no question, however, in the minds of a majority of the crowd, but that Plainfield won the game fairly. Brewer held his opponents safe throughout, allowing but nine hits, while fourteen bingles were gathered off the delivery of the hitherto mysterious Clarke. Rahway transgressed to the extent of recording eight misplays, quite unusual, but Plainfield had them going and decided to make it a signal victory while in the humor. Brit. Martin's stick work was a feature of the contest, while the entire Plainfield aggregation put up its usual snappy game. The score by innings:

Plainfield	3	0	2	0	0	0	5	3—	13	14
Rahway	3	0	1	0	2	0	0	0	2— 8	9 8

WESTFIELD'S RACES ATTRACTS A CROWD

About 2,500 spectators enjoyed the Labor Day meet of the Westfield Driving and Riding Club, held at the Fair Acres half-mile circle at Westfield yesterday afternoon. There were enough starters in each event to make the program interesting. The track was in excellent condition and the day ideal. Horses from Rahway, Irvington, Jersey City, Far Hills, Trenton, Plainfield, High Bridge, Fanwood, Westfield and Morrisville, Pa., were entered.

Aaron B., a chestnut gelding owned by Adam C. Blair, of this city, won the 2:14 trot and 2:17 pace in straight heats. J. A. Hartman, jr's chestnut gelding Foot Prince won the 2:21 trot and 2:25 pace in like manner. Barona, a brown mare owned by B. E. Carpenter, of Rahway, won the 2:30 trot and pace by taking the three last heats. The sulkies of Ithyn, bay gelding, owned by C. B. Smith, of Westfield, and of Queen, a black mare, owned by R. W. French, of Westfield, broke down in the third heat of the 2:35 trot. They got together, however, and came to the line in time for the final heat, which was won by Ithyn.

NEW BRUNSWICK DEFEATS SCOTCH PLAINS' TEAM

"Dave" Driscoll's New Brunswick team defeated Scotch Plains at New Brunswick, Saturday afternoon, by a score of 9 to 4. Costly errors and MacLaughlin's wildness lost the contest for the 'Plains, the Plainfield twirler walking nine men, three in one inning. He was touched for seven hits, while he fanned seven batsmen. The 'Plains found Smith for seven bingles, while nine of them struck out. The score by innings:

New Brunswick	0	3	4	2	0	0	0	0	x—9
Scotch Plains	1	1	0	0	1	0	0	1	0—4

PLAINFIELD DEFEAT NEWARK F. C. AT SOCCER.

The Association football season was ushered in Saturday when the Plainfield Club met the Newark team. E. C. Westcott kicked the first ball. The game started at 4:15 and in three minutes Newark had scored their first and last goal. In the second half the Plainfield boys settled down to hard play and a neat pass from Sutton was caught by Hosie and sent through like a shot, but it could not get by McNeice, who was making splendid saves all the time.

After some more strenuous play the game ended in a win for Plainfield by 2 goals to 1. Great credit is due the local boys for their splendid showing as they were up against a strong pack.

The Lure of the Mask

By HAROLD MAC GRATH

Copyright, 1908, by the Bobbs-Merrill Co.

She had sung because she had been happy, happy with that transient happiness which at times was her portion. Could she ever judge another man by his looks? She believed not. How she had run! The man, bareheaded, giving chase and the burly policeman across the street!

She stepped down from the alcove, wound the gray veil round the riding crop and tossed them into a corner. Somehow in the daylight the magic was gone from his face, for she had recognized him that first day in the park. He rode well. She touched a bell. A maid appeared.

"Bettina, you will go to the office of this newspaper and inquire for a letter half the time. I can't get away from the glamour of the footlights. I'm no Johnny. You know that. No hanging around stage entrances and buying wine and diamonds. I might be reckless enough to buy a bunch of roses when I'm not broke. But I like 'em—the bright ones. They keep a fellow amused. Most of 'em speak good English and come from better families than you would suppose. Just good fellowship, you know. Maybe a rabbit and a bottle of beer after the performance or a little quarter limit at the apartment, singing and good stories. What you've in mind is the chorus lady. Not for mine!"

Hillard laughed, recalling his conversation with the policeman.

"Go on," he said. "Get it all out of your system now that you're started."

"And then it tickles a fellow's vanity to be seen with them at the restaurants. That's the way it begins, you know. I'll be perfectly frank with you. If it wasn't for what the other fellows say most of the chorus ladies would go hungry. And the girls that you and I know think I'm a devil of a fellow—wicked, but interesting, and all that."

Hillard's laughter broke forth again, and he leaned back. Merrihew would always be twenty-six; he would always be youthful.

"And this Kitty Killigrew? I believe I've seen posters of her in the windows now that you speak of it."

"Well, Jack, I've got it bad this trip. I offered to marry her last night and was refused."

"It seems to me that your Kitty is not half bad. What would you have done had she accepted you?"

"Married her within twenty-four hours."

"Come, Dan; be sensible. You are not such an ass as all that."

"Yes, I am," moodily. "I told you that I was a jackass half the time. This is the half."

"But she won't have you?"

"Not for love or money."

"Are you sure about the money?" asked Hillard shrewdly.

"Seven hundred or seven thousand, it wouldn't matter to Kitty if she made up her mind to marry a fellow. What's the matter with me anyhow? I'm not so badly set up. I can whip any man in the club at my weight. I can tell a story well, and I'm not afraid of anything."

"Not even of the future!" added Hillard.

"Do you really think it's my money?" pathetically.

"Well, seven thousand doesn't go far, and that's all you have. If it were seventy, now, I'm sure Kitty wouldn't reconsider. What's she like?" asked Hillard, with more sympathy than curiosity.

Merrihew drew out his watch and opened the case. It was a pretty face. More than that, it was a refined prettiness. The eyes were merry; the brow was intelligent; the nose and chin were good. Altogether it was the face of a merry, kindly little soul, one such as would be most likely to trap the wandering fancy of a young man like Merrihew.

"And she won't have you?" Hillard repeated, this time with more curiosity than sympathy.

"Oh, she's no fool, I suppose. And now she's going to Europe! Some manager has the idea in his head that there is money to be made in Italy and Germany during the spring and summer. American comic opera in those countries—can you imagine it? He has an angel, and I suppose money is no object."

"This angel, then, has cut out a fine time for his bank account, and he'll never get back to heaven once he gets tangled up in foreign red tape. Every large city in Italy and Germany has practically its own opera troupe. Poor angel! Tell your Kitty to strike for a return ticket to America before she leaves."

"You think it's as bad as that?"

"Look on me as a prophet of evil, if you like, but truthful."

"I'll see that Kitty gets her ticket." Merrihew snapped the case of his watch and drew his legs from under the table. "I lost a hundred last night too."

"After that I suppose nothing worse can happen," said Hillard cheerily. "You will play, for all my advice."

"It's better to give than receive—that," replied Merrihew philosophically. "I've a good mind to follow the company. I've always had a hankering to beat it up at Monte Carlo. A last throw, eh? Win or lose and quit. I might win."

"And then again you mightn't. But

"I long to get my hands around her throat!"

the next time I go to Italy I want you to go with me. You're good company, and for the pleasure of listening to your jokes I'll gladly foot the bills, and you may gamble your letter of credit to your heart's content. I must be off. Who is riding the Sandfords' black?"

"There will be thousands of lonesome Americans over there. Out of patriotism, if for nothing else, they ought to come to see us."

"They certainly ought to. But I'm an old kill-joy."

"No, no; go on and tell me all your doubts. You have been over there so many times."

"Well, supposing your tourists are tired after having walked all day through the churches and galleries, they may want to go to bed early. But you never can tell till you try. You may become the rage on the continent. Yet you go into the enemy's country. It isn't the same as going to London, among tolerant cousins. In

She was prettier than her photograph.

Italy and in Germany there is always so much red tape—blundering, confusing red tape, custom duties, excessive charges. But your manager must know what he is doing."

"He has everything, in black and white, I believe. But your advice is sensible."

"Do you know anything about Italy or Germany?"

"Only what I learned in my geographies," laughing—"Rome, Florence, Genoa, Venice, Nice, Milan, Strassburg, Cologne and on to Berlin. It is like a fairy story come true."

"Who is your prima donna?" he asked.

"Ah!" Kitty's face became eager with excitement. "Now you have put your finger on the mystery that is bothering us all. Not one of us has seen her or knows her name. She has not rehearsed with us and will not till we reach Naples, where we rest a week. When we speak of her the manager smiles and says nothing, and as none of us has seen the backer Mr. Worth thinks that she herself is the prima donna and backer in one. We think that she is some rich young woman who wishes to exploit her voice. There's a lot of them in the world. I wish I knew her. Little has been said about the venture in the papers, and I'm glad. We may prove a perfect fizzle, and the less said the better. As we can't walk back, I must learn to swim. Lunch is ready, every one!"

The mummers and the outsiders flocked into the small dining room. There was plenty to eat; beer, soda, whisky and two magnums of champagne, Merrihew's contribution to the feast. Hillard listened with increasing amusement to the shop talk. It was after 1 when they returned to the sitting room, where the piano stood. The wine was now opened, and toasts were drunk. O'Mally told inimitable stories. There was something exceedingly droll in that expressive Irish face of his.

Worth did not drink, but Hillard did not like his handsome face any the more for this virtue. He sang remarkably well, however, and with a willingness Hillard had not believed he possessed. He wondered vaguely why he disliked the man. Otherwise Hillard enjoyed himself vastly.

"Mr. Merrihew has been telling me all about you," said Kitty.

"You mean, of course, my good qualities," replied Hillard.

"To hear him talk one would think that you possessed nothing else. But I am sure that you have glaring faults such as a man might pass over and a woman go round."

"I believed that Merrihew had a serious fault till tonight," he said.

She looked at him quickly and colored.

"Has the foolish boy been telling you that I refused to marry him? I like him very much," she added gravely, "but I shall never marry any man till I have ceased to love the stage. I am not a whit less extravagant than he is. How could the two of us live on an income which he himself admits that he cannot live within? A month after I am gone he will forget all about me."

"Merrihew is the most loyal man I know," Hillard declared.

"Of course he is loyal! And he is always in earnest—for the moment."

And then they both laughed.

It was outrageously late, nearly 4, when the revelers took leave. Merrihew was happy with that evanescent happiness which goes hand in glove with late suppers and magnums.

"Isn't she a little wonder, Jack?"

"Yes, she is, Dan. It might be a good thing for you to marry a sensible little woman like that. But she won't have you."

"No, she won't." Merrihew reached for his watch. "Four a. m."

"Say, what do you think of that man Worth?"

"Very good voice, but he's too handsome."

"Oh, go on! You're as fine a looking chap as there is in New York. But this man Worth has the looks of a lady killer. He's been eying Kitty, but it doesn't go. Hang it, I can't see why she won't marry me now."

"You must have patience."

"Or more money. Can't O'Mally tell a good story, though?"

"Yes, but I should hate to turn him loose in my wine cellars. I imagine he will praise anything good to drink but water."

Merrihew roared.

"Well, here's your station, Dan. Shall I see you tomorrow?"

"Eight-thirty in the park. Nothing like a horse for a headache."

Hillard arrived home tired and sleepy, but as he saw a letter on the stand in the hall his drowsiness passed quickly. There was no other blue envelope like it. She now had his house address; she was interested enough to look it up. She did not follow his lead and write in Italian; she wrote in English—crisp English too. Again there was neither beginning nor ending. But this was a letter. There was something here of the woman, something to read and read again:

I had told the maid to burn your letter, but she left it on the floor where I had thrown it, and I came across it this morning. It looked rather pathetic. So I am writing you against my better judgment. Yes, I know your name. I find that I am well acquainted with people you know. I am a woman who often surrenders to the impulse of the moment. I may or may not answer any future letter from you. You write very good Italian, but it will surprise you to learn that I detest all things that are Italian. Once I loved them well. Why should you wish to know me? Our ways are as divergent as the two poles. Happy because I sing? There are some things over which we can sing or laugh, but of which we cannot speak without crying. Happy or unhappy, what can this matter to you? To you I shall always remain the lady in the fog. Are you rich, young, talented? I care not in the least. Perhaps it amuses me to add to your confusion. Find me? I think not. Misguided energy!

Hillard put the letter away, extinguished the lights and passed up to his room. This was a direct challenge. He would accept it. This time he would use no personal to tell her that a letter awaited her. She should make the inquiries herself. And from the mail clerk he would obtain a description of the elusive Mme. Angot. Next morning he rode in the park with Merrihew. Again he saw the veiled lady on the Sandford black. Out of normal curiosity he telephoned the stables and made inquiries. The reply was short. No one at the stables knew the lady, but she rode the horse on proper authority.

That night he wrote:

I shall keep on writing till you cease to reply. Let me be frank with you. I am bored. So are you. The pleasure you derive in keeping up this mystery engages you. You bid me to find you. I accept the challenge. You must understand at once that it is the mystery that interests me. It is the unknown that attracts me. I am mentally painting you in all sorts of radiant colors. You defy me to find you. There is nothing so reliable as the unexpected, nothing so desperately uncertain as a thing assured. I warn you that I shall lay all manner of traps, waylay your messengers, bribe them. I shall find out where you live. The rest will be simple.

She replied:

I have no desire to alleviate your confessed boredom. Your persistence would be praiseworthy if well directed. Waters wear away stone, the wind crumbles the marble, but a woman is not moved till she wishes to be. I never thought that I should dabble in an intrigue of this sort, and I am surprised at the amusement it affords me. I really owe you some gratitude. The few I have met who know you tell me that you are a "nice young man."

Every man has some portion of self love. So his next effort was a passionate denial that he was "nice." When should he meet her? The postman brought him a letter which contained one word—Nimmer! He sent her four pages, a frank and witty description of himself and his friends.

On the day she received this letter a cablegram came to her from the far Mediterranean. Whatever it contained had the effect to cause all restraint to disappear from the tone of her letters. They became charming, and more and more Hillard found himself loving a voice. All his watching, all his traps, came to no successful end. She was too clever for him. He sought the mail department of the great newspaper; the clerk couldn't remember, there were so many calling for mail. Letters passed to and fro daily now, but always she declared that it was impossible for them to meet. No, it was out of the question to dine with him in a restaurant. It was equally out of the question to cook a dinner where she lived, as she and her maid dined at a small restaurant near by. Finally he proposed to bring the dinner all cooked from the club. Two days went by without a sign; then the blue letter came.

I surrender. The most fatal thing in life is curiosity. It has the power to lead us into all manner of trouble. And I have my share of curiosity. Remember, you never would have found me. I may dwell in a garret; I may be hideous; perhaps nothing remains to me but my voice. And now the terms. And if you do not follow them confidently and blindly your dinner will grow cold in the carriage. Dinner will be at 8, Feb. 1. At 7 a carriage will call for you. The messenger will blindfold you. He will then proceed to the club and take the dinner and bring you here. Be warned! If you so much as lift the corner of the bandage, the romance will end then and there. I realize that I am doing something very foolish and unwise; but, as you say, I am a woman who has seen much of the world. Thus I have my worldly side. I shall use it as a buffer.

"Blindfolded!" Hillard scrubbed his chin. All these precautions! Who was she? What was she? Since there was no escape, blindfolded he would go.

At half after 6 on the night of the 1st of February, then, he began to dress. It was some time since he had taken such particular care.

"The signor seems in high spirits tonight," observed Giovanni as he laid out the linen.

"Man, I'm happy and greatly excited. Do you recollect the lady who sang under my window? I am going to meet her tonight. The mystery will be a mystery no longer."

"Ah!" Giovanni stroked his lips doubtfully. "It is not like the signor to plunge blindly into adventures like this."

"The very word, blindly. I go blindfolded, amico. What do you think of that?"

"Blindfolded?" Giovanni was horrified. "It is a trap!" he cried. "They will assassinate you! No; you shall not go! In Rome, at the carnivals, it is an old game. They will rob you."

"Take the number of the cab as I get in. If anything should happen, give the number to the police."

Giovanni, with a sharp movement of the hands, expressed his resignation to the worst. He knew the futility of arguing with his master. But he followed him down to the hall and tied on the bandage himself. He was honest about it, too, for Hillard could see nothing. Then the messenger boy took him by the hand and led him to the carriage. As the two were climbing in Giovanni spoke rapidly in his native tongue.

"There is no number on the carriage!"

"Too late to bother now."

The carriage rolled off toward the club, where the dinner, hot and smoking, was taken on.

CHAPTER V.

THE MASK.

"JOININ' th' Elks?" asked the boy when Hillard was well under way once more.

"No; it's a seance. They are going to call up my fate round a table."

"Ugh! Aw, go-wan! Dey don't call up no ghosts wit' French cider and hot boids." The boy relapsed into silence.

By and by the carriage stopped.

"Dis is where we alights, me loid!" the boy jeered. "An' no lookin', mind."

Hillard found the carriage steps and landed safely. He stood for a moment, listening. They were in a quiet part of the city; no elevated or surface cars were near. He was assured that the location was exclusive. Garrets are not to be found in quiet places.

"Look out fer th' steps," said the boy, again taking Hillard by the hand.

"And you be careful of that basket."

"I ain't lettin' it drop any."

Winding steps, thought the blindfolded man. He could recollect none. It seemed to him that they stood there five minutes before the door opened. When it did, the boy passed in the basket and resolutely pushed Hillard into the hall. The door closed gently, and the adventure was begun. Whither would it lead him?

"Take off the bandage the signor may now," said a voice in broken English.

"Thanks!" He tore the handkerchief from his eyes and blinked. The hall was so dimly lighted that he could see nothing distinctly.

"The signor's coat and hat."

He passed over these articles, shook the wrinkles from his trousers, smoothed his chin and stood at attention. The maid eyed him with abundant approv-

al, then knocked timidly on the door leading to the drawing room.

"Avanti!" called a soft voice.

Plainfield in . . . . The Olden Days.

Re-printed from The Weekly Constitutionalist

January 19, 1871.

Those who have not supplied themselves with winter dress goods, underclothing and woolen goods generally will do well to call at the store of Isaac Lederer, corner Somerset and Emily streets, North Plainfield.

We learn that the Central Railroad intend commencing work soon at the proposed straightening of their road from this city to a point near the residence of James Ritchie, Esq., Westfield. This will enhance the value of property throughout that section.

Our worthy friend John Wilson is engaged in removing the row of handsome maple trees, which line the sidewalk on Third street, opposite that grand and massive structure the "Depot," and transplanting them to the line of the new street opened by the Railroad Company. It is quite an undertaking but "Johnny" is equal to the emergency.

A correspondent of the Rahway Democrat says—"Plainfield has a plentiful stock of old fogies, who persist in walking in the same old ruts that their grandfathers trod in."

John W. Laing, Esq., lost his valuable mare "Dinah" Monday morning last, death being occasioned by an injury to one of her feet a short time since, baffling the efforts of doctors to discover the cause. "Dinah" has been a faithful servitor to Mr. Laing for some seven years.

Rome—Thursday evening next, at the 2nd Presbyterian church, the Rev. S. D. Burchard will deliver a lecture entitled "Ancient and Modern Rome," which is based upon the personal observations of the Dr. during his travels in Europe.

We hear general complaint all over our city of the scarcity of water in the wells. Some wells that have never known to fail before are now giving out. The heavy rain Sunday night last may be the means of supplying the springs and filling the wells. The brooks were considerably swelled by the rains.

A "GAY" FUNERAL.

A few weeks ago there died in Paris a man named Chauchard, who had gained an enormous fortune from the famous Louvre store. When his will was read it was found that he had left comparatively little to charity and to his thousands of employes, while the bulk of his fortune, amounting to about eight million dollars, was bequeathed to a woman who had been his friend for many years. M. Chauchard had planned his funeral on a luxurious, even royal, scale. The most celebrate voices in France sang in the chorus, the hearse was drawn by six black horses, caparisoned in the trappings of mourning and a squadron of cuirassiers, several battalions of infantry, and three thousand employes followed the body to the grave.

It was what the French call a "gay" funeral and half a million Parisians stopped in their work to see the "parade." But instead of regarding it reverently, as the French usually do, the crowd hissed, and laughted, and cracked coarse jests, and a mob of hooligans jostled the official mourners, robbed the bier of its flowers, and tossed them about. Even the serious-minded felt that the funeral was a foolish bit of ostentation, and would have liked it better had the late M. Chauchard been more modest in his leaving of the world.

A few years ago, Madame Boucicault, the owner of a rival store, bequeathed her fortune of $20,000,000 to her faithful employes and to religious and chiritable institutions. She did not have a "gay" funeral. She did not need one.—Success Magazine.

Wealthy Men's Suspicions.

Wealthy men, if not guilty of trickery, are often abnormally suspicious of tricks. The celebrated author, the late Charles Reade, was one of this kind. He always imagined he was being robbed, and set traps to catch the thieves. When he became lessee of the old Queen's theatre he suspected that his ticket office cheated him by letting in the public for anything they could get and keeping the money. So Reade turned up the collar of his overcoat, pulled his hat down over his eyes, and shuffling up to the box office as the people were going in, he shoved a half crown into the box office keeper's hand, and whispered:

"It's all right—that's for you—I don't want a ticket. Just pass me through."

The clerk ran out, seized Reade by his coat collar, and was passing him roughly into the street, when he recognized his "chief."—From the "Light Side of Finance" in the Strand.

Duell—Yes, long before he died.—Pick-Me-Up.

JOURNALISTIC OPINIONS

Home Newspaper a Necessity.

A prominent writer inquires: "If a member of your family died would you print the resolutions on a billboard? If your wife entertained, would you send an account of it to the theatre program man? If you were going to enlarge your business would you advertise it in a hotel register? If you were going to have a wedding in your family, would you get out a handbill? You would send such items to a newspaper, would you not? Then why don't you put your advertisements in a newspaper? Every man who uses a billboard is adding to nature faking. The newspaper builds your town. Why not help build up the newspaper? There is no better advertisement in the world for a town than a good newspaper. A newspaper is the barometer of the town's industry. Show us a good newspaper full of advertising and we will show you a good town full of live merchants. Billboards are an eyesore; handbills are a nuisance, theatre programs are worthless; hotel registers, from an advertising standpoint, are ridiculous. Newspapers are town builders, town advertisers, fortune makers, news disseminators, sermon deliverers, prosperity forcasters. They are a necessity, not a luxury. They must be maintained. Without them we would retrograde to the medieval days. Don't patronize them from a charitable standpoint. Patronize them because they deliver the goods, that is, if they are the right kind. Cut out the foolishness and work for the up-building of your town and State by up-building your newspapers."—Bound Brook State-Centre Record.

Help the Editor.

Don't think because the editor sees you getting on or off the train that he ought to know who you are and where you are going; or if he sees you greet some friends that he knows who they are and where they are from. We aim to get the news, but you may be the one we don't happen to know. We try to become familiar with names and faces if possible, but during the years past we have been to church and failed to see you there. We have hung around the postoffice, but some of you weren't there. We have loafed on the streets. We've even risked our reputation on back streets on a dark night, but you weren't all there. And we'll be hanged if we know where to find you all. So if you are going or coming, know anybody cutting up queer capers, let us know and we will do the rest.—The Fort Covington Sun.

PATIENCE.

How smooth the sea beach pebbles are!
But—do you know
The ocean worked a hundred years
To make them so?

And I once saw a little girl
Sit down and cry
Because she could not cure a fault
With one small "try."
—Woman's Journal.

Strong Buttonholes.

When making buttonholes in the back of a lace dress or yoke it is hard to get them strong enough. Even when they do not fray they pull and stretch in an ugly way.

The next time you have them to make try sewing fine net or chiffon as wide as the facing inside the hem where buttonholes are to be worked. This makes three thicknesses to be worked through and is carefully inserted the inner lining will not show.

Another way is to cut a double strip of fine lawn the size of lace, hem and baste it firmly in place. Cut the buttonholes through it, work closely and later cut away close to the work. There is no possibility of showing with this latter method.

The Famous Kumiss.

Kumiss is a valuable beverege for use in the sickroom. Heat one quart of milk to 75 degrees Fahrenheit, add one and one-half tablespoonfuls of sugar, and one-fourth of a yeast-cake dissolved in one tablespoonful of lukewarm water. Fill sterilized bottles to within one and one-half inchs of the top. Cork, and shake. Place the bottles inverted, where they may remain at a temperature of 70 degrees Fahrenheit for ten hours; then put in the icebox or a cold place, and let stand forty-eight hours, shaking occasionally, to prevent the cream from clogging mouth of the bottle. It is refreshing and nourishing.—Woman's Home Companion.

Creamed Chicken.

Melt half a cup of butter, in it cook half a cup of flour, half a teaspoonful of paprika and a teaspoonful of salt; add one quart of rich milk (preferably part cream), and stir continually until the sauce is smooth and boiling, then add five cups of cooked chicken cut in half-inch cubes. A plump four-pound chicken will furnish the required quantity. The decipe will serve eight or ten individuals. Chicken Bechamel is considered better than creamed chicken. In this use chicken broth as half or three-fourths of the liquid and cream as the rest.

Things of Spain.

Rebellions may come, rebellions may go,
But this I have found to remain—
There always are plenty of folks on the job
To pull down your castles in Spain.

AMERICA'S NATIONAL PARKS.

The nation that leads the world in feverish business activity requires playgrounds as well as workshops. If we aspire to maintain industrial supremacy we must perforce think of conserving not only minerals but men. Arguments for scenic preservation need not be limited to aesthetic or sentimental postulates; the playgrounds of the nation are essential to its very life. Nor can the materialist turn aside from this demand of the times, for no greater value can be won from mountain slopes and rushing rivers than through the utilization of natural scenery in the development of citizens.

John Muir has justly termed the mountain parks fountains of life. Here can be had the recreation that makes for increased and maintained efficiency. The appreciation of the beautiful in nature should become more and more an American characteristic, and in these days of national stock-taking we do well to inventory the nation's wealth in wild scenery.

The national policy of preserving the best of America for present and future enjoyment is well fixed. Since 1872 twelve national parks have been established, including public domain within as many different States, with an aggregate area of 3,500,000 acres. In addition to these reservations there have been created since June, 1906, eighteen national monuments in nine States, with a total area of over 1,500,000 acres. The Grand Canyon and the Petrified Forest, in Arizona, and the Natural Bridges in Utah are the most notable of the national monuments; of the national parks the Yellowstone, the Yosemite and the Mount Rainier are the best knows. The Secretary of the Interior is the federal officer charged with the administration of these national reservations and Congress makes annual apropriations for their maintenance, those for the current year amounting to $175,000. The present policy is to make the utilization of these resources for recreation available to the greatest number of people by building roads and trails, issuing maps and safe-guarding the health and comfort of visitors through sanitary improvements and supervision of the transportation and hotel concessions.

The Northwest is rich in the possession of a large share of these playgrounds of the nation, so that the visitors to the exposition at Seattle this year have an abundance from which to choose. Many will tarry within the Yellowstone Park; others may prefer to retire to a quiet camp on the slopes of Mount Rainier, and then may return southward through Oregon and California, turning aside to visit Crater Lake or the Yosemite Valley and later taking another side trip to the Grand Canyon in Arizona. If a northern route is thought preferable our sister country, Canada, has no less inviting retreats, and the traveler whose ticket reads via the Canadian Pacific should stop off in midsummer at Banff or Glacier, where the grandeur of ice-clad mountains both refreshes and inspires.—American Review of Reviews.

CLEAN EMBROIDERY HOOPS.

If one uses hoops in embroidering at least be particular to keep them clean. Women presumably neat are often seen using hoops of a blackness that is disgraceful. This must be from laziness, as the expense of recovering them is little or nothing.

Any thin muslin cut in narrow strips can be used to cover the wooden rings, but a much better covering is a thin tape about an inch wide, wrapped so that the edge just barely laps over the other. The ends should be sewed firmly, as otherwise the wrapping loosens and slips out of place.

There are various kinds of hoops—bone, wooden, silver and even gold. The last two are luxuries in every sense of the term; unwrapped they require constant care not to tarnish the material, and wrapped might uch better be wooden ones at a cost of 5 or 10 cents.

There is a new oblong embroidery hoop that is very practical, particularly when working a scallop or anything that has a long outline. It is in two parts, one fitting over the other, as are the better known round ones.

The fitting of hoops is also important. They should push on rather stiffly. If the material sags it will draw when finished much more than if worked over the fingers.

CHIEF KIELY'S REPORT

Dept. Head Informs City Fathers of Police Convention Proceedings.

READ A PAPER AT MEETING.

Local Chief in Speaking Before Convention Deplored Outside Interference.

Chief of Police P. S. Kiely, who attended the annual convention of police chiefs at Buffalo, June 15-19, for which the Common Council appropriated $100, presented a detailed report of that convention; also an itemized statement of his expenses at the September meeting of the Common Council last night. It will be remembered that the appropriation was made for Chief Kiely's trip with the understanding that he should make this report.

The itemized bill of expenses follow: Railroad ticket to and from Buffalo, $16; expenses on train, $10; hotel expenses, $50; dues, $5; assessment, $5; tips, $4; miscellaneous expenses, $15; total, $105.

The report of the police convention was very minute as to details. It described each of the five days' session, telling of the automobile trips, those by boat, a visit to Niagaga Falls, and then told of the detailed work of the convention, including the presentation of various papers on police topics presented by the heads of departments throughout the country.

The chief told of the suggestion offered that a world congress be held to discuss ways and means for handling the "Black Hand" organizations. It was the general sense of the convention that the best policeman is one who handles his prisoner with the least show of authority.

Chief Kiely presented a paper at the convention, a copy of which accompanied his report. In the absence of an assigned topic, he selected one, "whether it is advantageous to send a chief to police conventions." In this paper Chief Kiely argued that it does. He stated that the convention endorsed Former Police Commissioner Theodore A. Bingham regarding the taking of pictures of prisoners. It was decided to hold the next convention in Chicago.

Chief Kiely said that he first attended a police convention nine years ago and had not missed one since that time. He added that he has been connected with the local department twenty years and for ten years has been its head. In his paper before the recent convention he deplored outside interference with police affairs, explaining that this always proved a serious handicap to efficient work.

The chief's report and bill of expenses were filed.

PATROLMEN RESTORED TO THEIR FORMER RANK.

Patrolmen John Payne and Nicholas Myers, who sometime ago were reduced in rank from Class A to C for certain infractions of police rules, were re-instated to Class A at the regular meeting of the Common Council, last night, upon the recommendation of Mayor C. J. Fisk.

The two patrolmen were found guilty of violations of rules and upon the recommendation of the police board were reduced from the highest to the lowest class, with the result that their salary was reduced in proportion. For good behavior and meritorious service, Mayor Fisk recommended that the two men be restored to their former standing, which has been done.

TRAIN CREW PROUD OF THIS RECORD RUN.

Engineer J. J. Costello, of Elizabethport, Fireman William H. Angar, of this city, and Conductor C. F. Berkheimer, of Jersey City, are justly proud of their feat of last Thursday night, when they ran freight engine 176 from Bound Brook Junction to Jersey City, a distance of 32 miles in 45 minutes and 30 seconds. The train was composed of 42 cars, the run being made under ordinary conditions, the train being no lighter nor had they any special right of way.

As the ordinary time for this run is about 1 hour and 20 minutes, the accomplishment is something to be remembered.

GEROME PACK IS DEAD

Widely Known Resident Succumbs to Heart Failure in Ninetieth Year.

HAD FORTUNE AND FRIENDS.

Oldest Member of First Baptist Church—In Business for Forty-four Years.

Gerome Pack, one of the oldest citizens of this city and one of the most widely known and respected, died yesterday afternoon of heart failure. The end was not unexpected. Mr. Pack had not been well for some time. His death was due to a general breaking down owing to his advanced age.

He was born at Scotch Plains eighty-nine years ago and came to Plainfield when but four years old. When about eighteen years old he learned the hatters' trade with John Simpson at the corner of Second and Washington streets. This occupation he followed for twelve years afterwards, opening a livery stable on Park avenue, near Front street.

This livery he conducted for a number of years, or until he opened an oyster house on the opposite side of the street where there is now a cigar store.

In 1856 Mr. Pack opened a restaurant in the old Central Railroad station, which became known far and wide as one of the best eating places along the line. It was patronized by many famous men whose frequent trips to and from Philadelphia made acquaintance with the lunch man, an honor looked forward to by them, and his fame spread accordingly. When the restaurant was discontinued Mr. Pack opened a confectionary store on the site of his late residence and here again he became famous for the quality of the "taffy" he made. There are many Plainfielders living today who as boys spent their pennies for the square lumps of sweetness dispensed at Mr. Pack's sweetmeat emporium. This store he conducted for forty-four years, amassing a fortune and making countless friends. In all the various ventures of his busy life he was successful.

Mr. Pack was the oldest member of the First Baptist church and had occupied the same pew and was a faithful attendant at the services ever since the present edifice was erected. He was also a charter member of Plainfield Lodge, I. O. O. F., and was in good standing when he died. He is survived by one son, Edmund W. Pack, a clerk in R. W. Barnes' grocery, and a grandson, John H. Van Winkle, a lawyer of Duer street, North Plainfield. His wife died twenty years ago as did his daughter, who was Miss Adelia Pack, afterward the wife of John H. Van Winkle. The funeral services will be held Friday afternoon at 2 o'clock at his late residence, 217 Park avenue, and will be conducted by Rev. John A. Chambliss, pastor of the First Baptist church.

ASK WILSON FOR OPINION

Republican City Committee Wants to Know How to Elect Its Members.

UP TO THE ATTORNEY-GENERAL.

The Act of 1909 is Capable of Two Interpretations the Committeemen Find.

Disagreeing on the interpretation of the law, the members of the Republican City Committee last night resolved to ask Attorney General Wilson for an opinion on the Act of 1909, Chapter 106, which provides for the manner of choosing members of the city and county committees. According to City Chairman Angleman, the opinion will be of State wide interest for he says that many other political committees find themselves in the difficulty encountered here.

The act in question provides that members of city and county committees to be voted for at the respective party primaries "shall be elected by election districts at such primary in the manner provided in this act for the selection of party candidates to be voted for by the voters of a single ward, etc." Howard Tracy, chairman of the New Idea Central Committee, and a lawyer, took the position that the meaning of the act was that the candidates should be residents of the district. City Chairman Angleman, a lawyer, argued that they need only be residents of the ward and not necessarily of the given district, provided they be voted for in each district of the ward, because the latter part of the same act provides that the number to be elected shall be as provided by the constitution or the committee. The representation on the city committee in given wards here by the constitution of the committees themselves are not divisable so that they could be distinct representation equitably from all districts in a given ward.

The constitution of the city committee provides, for instance, that "this committee shall consist of three members each from the First, Second and Third and four from the Fourth ward, who shall be elected at the regular annual primaries held for the purpose of electing delegates to the city and county conventions and in compliance with the general election law." As there are two districts in the First ward, for example, and three members to be elected, the law, if interpreted according to Mr. Tracy's idea, would compel the selection of two of these from one district and these would have to be residents of the given district. Mr. Angleman's theory is that the three members can be residents of any part of the ward or all from one part, but that the names of the same three must be voted for in each district.

The committee decided to meet on Thursday night, Sept. 16 when it is expected to have Attorney General Wilson's opinion.

HARRY COHN'S THREAT COST HIM THREE DOLLARS.

It cost Harry Cohn, of 532 West Third street, just $3 for threatening to throw Samuel Taub, of Somerset street, off the roof of the latter's home. Cohn claimed in court that Taub had engaged him to repair his roof and had refused to pay him the sum agreed upon after he had completed the work.

Taub told Recorder Dolliver that he had engaged Cohn to fix his roof, but that Cohn had done it in such a way that he was forced to call in another tinsmith to finish the job. Cohn, he says, then came for his money and when he refused to pay him the entire amount he had threatened to throw him off the roof.

TAYLOR IS FOUND GUILTY

Big Negro Sentenced to Two Years in State's Prison for Theft.

SCOTT GOES TO REFORMATORY.

One Forger and One Embezzler Given Light Sentences by Judge Atwater.

In the county court this morning in Elizabeth, Lucius Taylor, colored, the bicycle thief, was sentenced to serve two years in State's prison on the charge of stealing bicycles. Taylor's criminal record was against him and he received the limit.

Nathaniel Scott, the young colored man, who knifed Joseph Pritchard in a poolroom scrap on the night of August 16, was sentenced to the reform school this morning by Judge Atwater.

Celia Winston, the servant girl who forged the name of her employer, Rev. J. S. Zelie, was found guilty this morning and as Mr. Zelie pleaded for leniency in her case Judge Atwater made the sentence a light one—three months in the county jail.

Theodore Lagerkrantz, of Bound Brook, who pleaded guilty to the embezzlement of $88 from Isaac Van Zanter was given sixty days in jail for his offense. Mr. Van Zanter did want to press the charge against his old employee hence the light sentence.

Taylor will be remembered as the giant negro who tried to escape from the local police headquarters by jumping through the window of the judge's room and was caught by Sergeant Flynn near the corner of Arlington avenue and Fifth street. Scott, the young man who will be taught better manners at the State school was the aggressor in a fight brought on by a dispute over the payment of a bet on the game of pool played in a Madison avenue poolroom. Pritchard was severely cut with a penknife in the hands of Scott. The Winston woman pleaded not guilty to the charge of forgery when arraigned before Judge Runyon in the city court and was remanded to await the action of the grand jury.

MRS. P. A. FAULK BRIDE OF EDWARD RICHARDSON

Mrs. A. P. Foulk, daughter of Mr. and Mrs. Harry S. Sanderson, and Edward Richardson, both of Cranford, were quietly married last night at the home of the bride. Rev. The newly-wedded couple after a honeymoon will make their home in Durango, Mexico, where Mr. Richardson has extensive mining interests. Both the bride and groom are known here, where they have been frequent visitors.

PENSIONS FOR POLICEMEN

Patrolmen Request Common Council to Consent to a Referendum.

CITY FATHERS FAVOR PLAN.

Expected that Voters Will Be Asked to Decide Question in November.

In response to a petition received from the Patrolmen's Benefit Association, of this city, and signed by all the members, Councilman Frank DeWitt Randolph, chairman of the police board, introduced the question of police pensions at the September meeting of the Common Council, last night. The provisions of an act which the patrolmen would like to have the city take advantage of, was read for information and copies were ordered for each member of the Council. The question must be put to a vote of the people at a general election, and the patrolmen are anxious to have it submitted at the November election.

The act provides for pensioning police officers who have attained the age of fifty-five and sixty years of age and who have honorably performed service for twenty or twenty-five years. They can be retired if afflicted with disease or injury as a result of service and be given half-pay during temporary disability.

Under the act the city has the authority to borrow a sufficient sum of money to cover necessary expenses, and it further provides that one per cent of the salary of the police officers shall be deducted and the city shall contribute four per cent of the police appropriation to be devoted to a pension fund. The act further provides that the money in this fund be invested in interest bearing bonds.

The Common Council may by resolution submit the question to a vote of the people at a general election and in case of non-acceptance, it may against be submitted for a vote three years later.

The majority of the Common Council are inclined to favor the proposition of submitting the question to a vote of the people and many have expressed themselves favorable to the act.

The Council will doubtless arrange to submit the question at the next general election in November.

CHESTER H. BRIGGS WEDS

REV. DR. GREENE OFFICIATES.

Miss Elizabeth Moore Maid of Honor —William Briggs Best Man— A Reception Follows.

Miss Ethel May Moore, daughter of Mr. and Mrs. James G. Moore, of Central avenue, Cranford, and Chester Harris Briggs, eldest son of Mr. and Mrs. Noble H. Briggs, of Albert street, this city, were married last night at the home of the bride's parents in the presence of about one hundred friends from this city, Cranford and Westfield. The ceremony was performed by Rev. Dr. G. F. Greene, pastor of the Cranford Presbyterian church.

The bride was attended by her sister, Miss Elizabeth Moore, as maid-of-honor, and the Misses Hazel and Gladys Marien, of Cranford, nieces, as ribbon-bearers. The best man was William Briggs, brother of the groom. The bride was gowned in white messaline with pearl trimmings. She wore a veil and carried a large shower bouquet of bride roses.

The house was lavishly decorated for the affair, the chief colors being yellow and white. The ceremony was performed beneath a large bower of golden rod, hydarangeas and palms. The wedding march was played on the piano by Miss Shetford, of Cranford. A reception followed, during which supper was served.

The bride was formerly soprano soloist in the quartet choir at Trinity Reformed church, and she also took a leading part in several amateur operatic productions given both here and at Cranford. The groom is also well known here. He has just completed the building of a handsome new house on Berkeley place, Cranford.

The couple will spend their honeymoon in the Thousand Islands.

DEBATE ON AMENDMENTS

Judge Seufert and "Farmer Orator" Martine Discuss Issues.

BEFORE DEMOCRATIC CLUB.

City Chairman Angleman and Former Assemblyman Swackhamer Also Join in Talk.

The question as to the desirability of amending certain sections of the constitution was discussed last night very thoroughly at the meeting of the Democratic club in Coward's hall before an audience composed of nearly equal numbers of Republicans and Democrats. Seventy-five is a liberal estimate of the number present. Leroy J. Ellis, president of the club, introduced the speakers of the evening and presented Judge William M. Suefert, of Englewood, as the first speaker. JJudge Seufert was appointed yesterday by Fovernor Fort, judge of the First District court of Bergen county to succeed Prosecutor Wendell J. Wright. Judge Seuffert is a Democrat and great wonder has been expressed at his appointment by a Republican Governor. But coming fresh from a happy knowledge of his appointment to the pudgeship he was imbued with a spirit of power which resulted in prolonged applause at the conclusion of his speech.

Mr. Martine, who took the negative side of the debate appealed strongly to the patriotism of his hearers and urged them to vote against the proposed amendments.

Judge Seufert said in part: "This question of amendments is of vital interest to every man in this State. It must be thoroughly understood before it is voted upon and if you think it is to the best interests of the State to favor the amendments after you have heard the two sides of the question, do so. I do not come here to scrap with my friend Martine but to discuss the question with him.

"Usually very little interest is taken in subjects of this kind, but I tell you plainly that we are trying to amend the very fundamental bulwarks of our constitution and make an improvement on what has been practically useless since 1844. If I can show you that the amendments will make an improvement, vote for them; if otherwise, vote against them. The constitution was drawn from Magna Charta and the constitution of every State is an embodiment of the unwritten constitution of England. It is the great basic law and guarantees the life and liberty of us all.

"In the proposed amendments only one affects the judiciary, but that one I consider of the most vital importance. Why has it been found necessary to remodel the constitution? Because, the adoption of changes in 1844 will not answer today's conditions. Cases are tied up in the court of chancery for years awaiting decision. There is too much delay in the administration of the law because of overcrowding of the calendars. Many Supreme Court cases are delegated to the circuit court justices and even to the police court judges, because of lack of time to try them in the higher courts. In fact there is scarcely time to carry on the work of the court of errors and appeals.

"This is a business age and we want to put our laws on a business basis. We must keep abreast of the times. We have a reputation for Jersey justice in criminal cases but not in plain litigation. The amendments would confine business to the limits of each justice's department and the result will be better justice, better law administration and better men in the justices' chairs. You cannot get the best men to assume the duties of the courts now. We claim the amendments will give us an up-to-date administration of justice and we want a judiciary system of 1909, not of 1844."

Judge Seufert touched rather lightly on the questions of raising the salaries of assemblymen although he favored that move as well as all the others under discussion and gave his reasons as being from the viewpoint of "home rule," and said it was a question for intelligent men to decide in their own way.

Mr. Martine then took the floor and gave a dignified and eloquent view of his opinions on the subject. He said: "I cannot discuss this question as a lawyer, but according to what I have just heard the courts are even worse than I thought they were. If we must change the constitution why ought we not change the Bible also in order to bring it up-to-date. There would be just as much sense in that. Who asked for these changes, anyway? Why, the legal fraternity, of course. And why? Do we want our sacred constitution tinkered by the lawyers and then presented to the people for their acceptance? I guess not.

"Is there a widespread demand for

AMONG OUR NEIGHBORS

BOUND BROOK AND VICINITY.

The three large icehouses at Crystal Lake, near South Bound Brook, and owned by William Carr, was totally destroyed by fire early Monday morning. The building was leased to William Scudder, of South Bound Brook. Mr. Scudder had about twenty tons of hay stored in one of the buildings, and Mr. Clark, of Clarkhurst Dairy Farm, near here, had a large quantity of ice stored in another building. It is thought the building was set on fire by tramps.

WESTFIELD.

An automobile belonging to William Narr, of Summit, ran into an automobile in which were Dr. William Lloyd, of Westfield, and Miss Bessie Schoonover, of Mountainside, at Broad street and Mountain avenue, Monday noon. The machines were going in opposite directions, and each was trying to turn the corner. The machine Dr. Lloyd was running was struck fairly on the side and he and Miss Schoonover were thrown out. They were taken into the office of Dr. T. R. Harvey, where they were attended by Drs. Wright and Kinch. No bones were broken, but both received severe scratches and bruises.

Edwin Shields sustained severe injuries Monday afternoon, as he was riding a motorcycle on Lennox avenue. He was going at a good pace when a dog ran in front of him and got under his front wheel, throwing him. He was picked up unconscious and taken to his home. So far no serious injury has developed, though his head and side are seriously cut.

Because one of their number was discharged Monday morning by the foreman, all of the Italian workmen employed on the excavation for the Pierson building, on Elm street, struck and left the job. They stated that they would not return to work unless their comrade was reinstated.

The Shadow of the Autumn Leaf Has Fallen Upon Silks and Dress Goods

It's delicate tracery can be seen in these shimmering, rustling silks, the beautiful cloths and other dress fabrics which are beginning to peer forth in this store. The new colorings are here filled with the somberness of Fall and reflecting the darkened tones of the forest verdure, after the first chill wind has come

In a word this stock is a picture of Dame Fashion's choice in the New Silks and Dress Goods. It tells in a masterful manner what the women in the great fashion centres will be wearing this season.

Our stocks is the result of month's of labor. We have studied the style trend in the big cities, marking well the weaves and the colorings which were most in demand. The result of this study is shown in the completeness of our stocks, and their magnificence.

The thought of the new Fall gown is uppermost now. Come and study the style effects in silks and dress goods at this store.

REWARD THE ESKIMOS, SAYS GREELY VETERAN.

Jersey City, Sept. 8.—"If Mr. Peary has succeeded in reaching the North Pole I hope the conditions he found there will confirm Dr. Cook's story of the discovery of the Pole," said Henry Biederbick, one of the six survivors of the Greely expedition in 1881-84, at his home, 132 Ogden avenue, here, Monday night.

"Both Cook and Peary are Americans, and both are good men," continued Mr. Biederbick, "and, as Admiral Schley said after the battle of Santiago, "there is honor enough to go around for all of us."

"Peary has been working hard since 1886 and he has done a great deal toward exploring the North Pole. He mapped out the northernmost part of Greenland, proving that it was an island and not a continent, as had been contended for years by geographers.

"If the Pole has been discovered a great deal of credit belongs to the Eskimos, and the citizens of this country should do something toward civilizing them. They call themselves 'Inuit,' which means men, and they ought to be made worthy of the name by teaching them cleanliness.

"There are only 250 Eskimos and they should be taken care of by the people of this country. A ship should be sent up there with workmen and machinery and houses of concrete built for them. Houses built of wood will not do, as the Eskimos are improvident and would use the wood for fires. If the houses are made of concrete the Eskimos would always have shelter. Those poor, unsophisticated men of nature should be rewarded for their share of the work of discovering the North Pole."

GEN. GRUBB'S "CHICKENS" ATTEND ANNUAL RALLY.

Jersey City, Sept. 8.—General E. Burd Grubb entertained sixty of the 150 survivors of the Thirty-seventh N. J. Volunteers—"Grubb's Game Chickens"—in Van Houten Post's hall Monday. Addresses were made by General Grubb, Dr. Leslie D. Ward, of Newark; Mgr. Joseph N. Flynn, of Morristown, and others. General Grubb extended an invitation to the "chickens" to meet at his home at Edgewater Park next year.

The following officers were re-elected: President, General E. Burd Grubb; vice-president, Dr. Leslie D. Ward, of Newark; secretary and treasurer, William G. Campbell, of Newark; executive committee, Chauncey Holt and Silas D. Gould, of Jersey City; Charles E. Stratton, of Philadelphia; Theodore E. C. Blanchard, of Newark, and John R. Naylor, of Plainfield. W. W. Wilson, of Philadelphia, was elected a member of the committee, vice Israel L. Fish, of Camden, deceased.

Among those in atendance at the rally were: Mrs. William G. Campbell, of Newark; Mrs. John R. Naylor, of Plainfield; Mrs. John Gallagher, of Orange, and Mrs. S. S. Seaman, of Elizabeth.

PRIEST ASSERTS HIS LIFE WAS THREATENED.

Perth Amboy, Sept. 8.—Dissension between Rev. Joseph Szuchy, pastor of Holy Trinity Catholic church, a Slav congregation, and members of his flock caused the arrest Monday of John Basista, a leader of the malcontents. It was charged by the priest that the man had threatened his life. Basista is held under $300 bond to keep the peace. He will be given a hearing tonight.

Father Szuchy has been in charge of the parish about two months. He claims that the trouble which culminated in the arrest of Basista had its beginning in Hungary, where the priest and John Matyasovsky, the church organist, belonged to rival political societies. When Matyasovsky found that his old foe was to become priest of Holy Trinity the latter asserts that trouble began at once.

Those who oppose Father Szuchy, on the other hand, say that his record has been that of a trouble-maker for the entire time that he has been in America. Father Szuchy came here from Wilkes-Barre, Pa. His counsel in the present trouble admits that he had occasion there to cause the arrest of five members of his congregation upon charges of criminal libel. They are now awaiting trial.

—Miss Hazel Rose, of Belmont avenue, a graduate of N. P. H. S., '09, has taken a position as stenographer and typewriter at Dr. Grossmann's school.

—Pasquale Ferrant, of New York, was the leader of the Italian band which furnished music for the parade and concerts in connection with the local Italian celebration held in this city several weeks ago

STOLE BEER AND FOOD FOR LABOR DAY FEAST.

Washington, N. J., Sept. 8.—A Labor Day celebration that was kept quiet for obvious reasons was probably held within a few miles of Washington Monday. W. B. Vanderbilt and Cyrus Baker would be willing to pay to obtain the list of guests.

The committee in charge of the "celebration" visited Vanderbilt's beer storage house Saturday night and stole four quarter barrels of beer. Then they stopped at the St. Cloud Hotel and abstracted two dressed chickens, a fifteen-pound roast beef and four loaves from a refrigerator on the rear porch.

THIS STRANGE BIRD PUZZLES DUNELLEN

Believing that they have captured the advance guard of either the Peary or Cook expedition direct from its conquering march to the North Pole, the residents of Dunellen are carefully watching a strange bird captured some days ago by Jack Randolph at Greenbrook.

The ornithologists of the neighborhood had been watching the bird for hours at a time without being able to ascertain just what it was. It was generally agreed that it was some kind of an owl, but what species and where it came from nobody was able to tell until yesterday, when some of the inquisitive ones, after a lengthy research, announced that they believed it to be of the variety scientifically known as the myitea scandiana, sometimes termed the snowy owl. This specie of an owl is found only near the poles.

The bird is mottled white and light brown, with a head somewhat similar to a monkey. As a mystified woman said, it looked almost human.

Four of the same kind were captured but three of them escaped before a cage could be built for them. The size of the bird is startling although it is young, probably about two months' old, it is much larger than the ordinary owls found in this vicinity.

Randolph, the captor of the bird, is naturally very proud of it. He says that he believes one of the expeditions which have so recently captured the North Pole sent the birds down to Dunellen so as to convince skeptics of the truth of their claims.

TROLLEY CAR ROWDIES' CASE IN CITY COURT

Lewis Cahill, who lives in the West End, was arrested at about midnight Saturday by Patrolman Messler at Clinton avenue and Front street, on the complaint of the conductor of an east bound main line trolley car, on which he was a passenger. At police headquarters yesterday morning, City Judge Runyon released Cahill on his own recognizance for a future hearing.

Central Division Superintendent GGeorge Luhr, of the P. S. C., was in court this morning with the crew of the car, both of whom live in Elizabeth. The conductor told about the disturbance on the car, which left Bound Brook at midnight. He said that Cahill and a companion, whose name the prisoner would not reveal, started a disturbance shortly after the car left Bound Brook. One of the men had a flask of whiskey, the conductor said, and before the car had gone far they were standing up, jostling each other, cursing and swearing. Finally Cahill shoved the other through a window. The passengers complained to the conductor and the arrest was made when the car reached Plainfield.

Mr. Luhr told the court of the disorder which frequently marks this last east-bound trip. He said that rowdies frequently raise a big disturbance on the car, because they apparently realize that no police protection can be secured until the car reaches this city. City Judge Runyon assured him that the court will co-operate with him in an effort to prevent this rowdyism, and Cahill will be arraigned for a hearing tomorrow.

WEST END ASKS RELIEF

Request for a Road Extension and That it Be Called Myrtle Ave.

COMMON COUNCIL'S PETITIONS.

All Manner of Requests Made to City Fathers at Their Regular Meeting Last Night.

Residents of the West End of the city growing tired of the delay in extending Dunellen avenue into the borough to connect with Myrtle avenue, and of the practice of dumping ashes, etc., on that avenue, sent two petitions to the Common Council at its September meeting, last night, urging that the extension be made as soon as possible, that the dumping be stopped and that the name of Dunellen avenue in the city be changed to Myrtle avenue. They were referred to the street committee, with the recommendation from Mr. Buxton that the matters be taken up at an early date.

The estate of Mary M. Cruikshank through its attorneys, Reed & Codington, petitioned to be re-imbursed for an assessment paid in error on property on Belvidere avenue. The amount claimed is about $100.

Mrs. Carrie Hart, of Westfield, who owns a property on the southeast corner of East Second street and Jackson avenue, has been assessed on both streets for sanitary sewer and she petitioned the Council to relieve her of one assessment. She claimed that she did not get word of the assessment in time to enter a protest at the time opportunity was given to protest. The matter was referred.

J. C. Smith, of Newark, who owns a tract of land at Spooner avenue and West Fourth street, adjoining that upon which the new public school stands, and who has opened up a thoroughfare there called "Wallace place," petitioned the Council to defray half the expense of acquiring the remaining strip from Wallace place to Darrow avenue. He owns the strip, which he values at $1,000 and he wants the city to pay $500, become part owner and open the same for a continuous thoroughfare. The matter was referred.

The Dunellen Concrete Block Company, which lost considerable money in trying to carry out a contract of installing a pumping station on Randolph road for the sanitary sewer system, and who failed to be re-imbursed, sent a communication to the Council offering to sell the pump well to the city for $500, the same to be used for storage or other purposes. The company believes that if it can get $500, it will partially make up the loss sustained. The matter was referred.

Petitions for two electic lights on Denmark road, were referred and the P. S. C. notified the Council that lights had been located as ordered at a previous meeting.

C. J. Christianson and others asked to have West Third street opened up and laid out from Evona avenue to the city line and a fire hydrant located in that section of the city. The matter was referred to the proper committees.

Alice M. Rutledge, who has received two sewer assessments on her property on Johnson avenue, petitioned for an adjustment of the same and the matter was referred to the finance committee.

Overseer of the Poor A. D. Ayers reported outside expenses for the past month as $245.24 and those at the poor house $312.22. Horace G. Adams, clerk of the District court, reported receipts of $94.54 and a balance of $53.55 was turned over to the city treasurer. Through a resolution offered by Councilman Buxton, which was adopted, $100 was appropriated to employ extra help for Tax Collector W. B. Townsend in getting out tax bills.

Councilman Gloak offered resolutions, which were adopted, providing for the laying and re-laying of flagging in certain sections of the city, the same to be charged up to the property owners.

Several petitions referring to sidewalks were reported back by Councilman Gloak, with the explanation that they will be attended to. A petition was received from residents in the East End asking that East Seventh street be opened up from Leland avenue to Terrill road. Later Mr. Gloak offered an ordinance calling for this improvement, which was read for information. It is the intention to act on the same later.

In accordance with a motion offered by Mr. Buxton, Council adjourned to meet on Monday night, September 20.

Fire Chief T. O. Doane left yesterday to attend the annual convention of the Firemen's Relief Association, to be held at Atlantic City tomorrow.

Freeholder and Mrs. S. P. T. Wilbur, of Westervelt avenue, who have been spending the summer in their cottage at Lake Hopatcong, have returned home.

Dr. Henry M. Maxson, superintendent of schools, who, with his family, has been spending the summer at Long Lake, N. Y., has returned home and is now preparing for the re-opening of the schools in Tuesday, September 14.

MISS FRIGANZA LIKES STAGE DOOR JOHNNIES

Miss Trixie Friganza of "The American Idea" company, which comes to the Plainfield Theatre for one night, Monday, September 13, doesn't like actors off the stage, but she has a kindly feeling for stage door Johnnies. She says: "What would we do without the Johnnie boy? Where would be our amusement, our bunches of posies, our after-theatre suppers? Our jewels and gifts, without this wonderful and delightful creature? What on earth would the sly paragraphers do and where would the society journal be and the gossipy columns, and how about the feature man who gets up articles for the Sunday newspapers? We cannot eliminate Johnnie. We all need him. We must not be too severe with him either. There is a great attraction about matters theatrical—the bright lights, the pretty girls, and music and songs. Our young men of today, with money to jingle and burn or to throw at the birds is not nearly as harmful as he is regarded by many who never come in contact with him. In fact, he is a real nice little creature who contributes freely and liberally and without a ghost of a chance of claiming any debt or obligation or any reason for consideration. He knows that he can be pushed aside according to mood or inclination."

In the full flush of its New York success Joseph M. Weber's great play "The Climax," by Edward Locke, musical theme by Joseph Carl Breil, will visit this city Friday night. "The Climax" is said to be one of the really great plays of the period and a piece that has received the united endorsement of the New York critics. This refreshing new note in dramatic literature is the reigning success of Broadway, for it is said to contain all the elements of a really great play and is recognized as one of the best products of American dramatic genius. It is declared that the play appeals to the most complex emotions, it is a delightful comedy taken as such alone, it is interesting as a speculative philosophy, though its treatment relieves it of being in any sense a problem play, and as a whole it forms one of the most charming dramas of the stage today. There are only four characters in "The Climax," but they are all living, moving human beings of red blood, not "Stage characters" but the people you meet in every day walks of life.

"Paid in Full," with a specially selected cast that has won New York favor in this notable play will be at the Plainfield theatre on Wednesday, September 15, and the occasion will be looked forward to with unusual expectancy. And so it ought. Every an and woman should see "Paid in Full." It is the greatest play of the age, the best product of the American stage since the beginning, the highest achievement in dramatic writing in this country.

THOMAS COFFEY DIES IN THIRTY-THIRD YEAR.

Stricken with typhoid fever about three weeks ago, Thomas Coffey, formerly a resident of this city, died at Snug Harbor, Staten Island, on Monday. He was thirty-two years of age and a widower. His only child, eleven-year-old John Coffey, is in Ireland.

Mr. Coffey, who is a native of County Galway, Ireland, came to this city about thirteen years ago, and made his home with his sister, Mrs. Michatel Gleason, of Madison avenue. His wife died about six years ago. Surviving Mr. Coffey are three sisters, Mrs. Gleason, Miss Delia Caulfield, of West Front street, and Mrs. Arthur Wintlan, of Westfield. The dead man was a machinist, and went to Staten Island to live about five years ago. He was a member of the Knights of Columbus and Red Men, and during his residence in this city he belonged to the Holy Name Society of St. Mary's church.

The body was brought to this city yesterday and the funeral will be from his sister's home, 229 Madison avenue, tomorrow morning at 8:30 o'clock. High mass of requiem will be offered for the repose of his soul at St. Mary's church at 9 o'clock. The interment will be in St. Mary's cemetery.

PLAYGROUND COMMISSION AUTHORIZED BY COUNCIL

The question of establishing public playgrounds in the city, as recommended by Mayor Charles J. Fisk, was considered at the regular meeting of the Common Council, last night. The matter was presented by Councilman F. L. Holt, head of the committee which has been conferring with Mr. Fisk as to the improvement.

Mr. Holt moved that it is the sense of the Common Council that Mayor Fisk appoint a playground commission of three, and the motion was adopted. He explained that this action means that Mr. Fisk can, under the law, appoint such a commission to investigate the subject, but no authority is given to spend money or establish such playgrounds without further action by the Council. The appointment of commissioners is merely for investigation purposes.

It was further explained that inasmuch as it was thought advisable to look into the subject further and ascertain what can be done toward providing the city with playgrounds for the children, the appointment of a commission would be a good thing.

SAY, JUST HOW OLD IS YOUR FAVORITE ACTOR?

There is always an interest on the part of the public in the age of popular favorites of the theatres, and the nationality of the players is scarcely less interesting. This is especially true nowadays when there is a constant exchange of artists between one country and another, and when, as at present, many of the favorites ordinarily regarded as Americans are in reality of foreign origin. FAIR EXCHANGE.

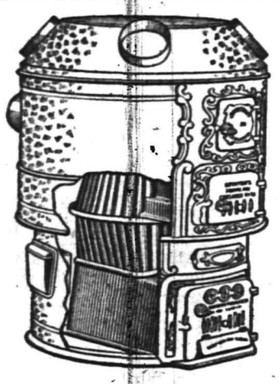
A New Back for an Old One—How It Is Done in Plainfield.

The back aches at times with a dull, indescribable feeling, making you weary and restless; piercing pains shoot across the region of the kidneys, and again the lions are so lame to stoop is agony. No use to rub or apply a plaster to the back in this condition. You cannot reach the cause. Exchange the bad back for a new and stronger one. Follow the example of this Plainfield citizen.

Albert Naylor, 519 East Second street, Plainfield, N. J., says: "Several years ago I was afflicted with a dull ache in the small of my back and sharp pains darted through me when I stooped or lifted. I was told that Doan's Kidney Pills were a sure cure for such troubles and procuring a supply at Randolph's Pharmacy, I began their use. Two boxes of this remedy fixed me up in good shape and I have often recommended it since to other persons suffering as I did."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.



Don't Wrestle With Furnace Clinkers

Clinkers just naturally pass right through the grate of the Boynton.

If they hesitate, the cutting bar smashes them. There is no chance of clogging. The intense and uniform heat of the

BOYNTON Square Fire-Pot FURNACE

reduces nearly everything to the finest ash. That's because a square pot develops more heat per unit of fuel than any other kind. That's economy.

The Boynton has some other exceptional features too—the fresh air supply—the dust flue—the square ash pit. Any BOYNTON dealer will be glad to explain how these points reduce the care and cost of up-keep.

There are BOYNTON heating plants of all kinds. Ask about our Round or Sectional Boilers for Steam or Hot Water. Also Ranges.

NEGRO WITH A RECORD DIES IN COUNTY JAIL.

Freehold, Sept. 8.—Farmer Johnson, alias John Farmer, the negro who was arrested at Asbury Park, July 29, after he had made several successful daylight hauls from Asbury Park houses, including that of Mayor T. Frank Appleby, died at the county jail at 1:30 o'clock yesterday morning. The negro, who is believed to have a long criminal record, suffered from consumption, and had been confined to his bed the past two weeks. Coroner Robt. M. Purdy issued a burial permit, and Johnson will be buried at the county's expense. He told Jail Warden Edward Cashion shortly before his death that he had a brother in Chicago and a sister in Washington, but he did not know their address.

FLAG FOR NEW AMBOY SCHOOL.

Perth Amboy, Sept. 8.—By working day and night the contractors erecting the new Central Grammar School in this city made it possible for the Board of Education to open the school yesterday morning. Nearly all of its eighteen classrooms were filled with pupils. There are three rooms in the building in addition to the classrooms and a separate building in the rear of the main structure is provided for the use of the manual training department.

A large American flag was presented to the school yesterday by Middlesex Council, No. 63, Jr. O. U. A. M., of this city. Recorder H. E. Pickersgill made the presentation speech and the flag was accepted by President John C. Arner on behalf of the Board of Education. As it was run to the top of the pole, 100 feet high, the strong breeze released 1,000 small flags, for which scores of children scrambled.

Many Kinds of Cuffs.

The choice of a cuff is as broad as the choice of a collar. The cheaper variety of shirtwaists have the straight stiffened cuff, cut like the one on a man's shirt, and held together with link buttons.

It is far better, however, to avoid this sign of a cheap waist and put on narrow turnover cuffs, or wrinkle the sleeves over the wrist and finish with a tiny edge of lace; then fasten with lace buttons.

The Lure of the Mask

By HAROLD MAC GRATH

Copyright, 1908, by the Bobbs-Merrill Co.

Hillard gathered in his courage, opened the door and stepped inside. On a divan near a lamp sat a woman in black. Only a patch of white throat could be seen, for her shoulders were not bare and her arms only to the elbows. Her back was turned squarely. But what a head! He caught his breath. It glowed like a copper beech in the sunshine.

"Madam?" he faltered. He spoke English and not very firmly.

The woman turned. Hillard took a step backward and blundered against a pedestal.

She was masked!

Masked! Only her mouth and chin were visible, and several little pieces of court plaster effectually disguised these. There was a mystery. He to come blindfolded and she to wear a mask—extraordinary!

"And this," she said ironically, "is the gentleman who leaned out of the window."

He brought all his faculties together, for he knew he would need them in this encounter. "Supposing I had fallen out of it—well, it could not have mattered. I should not have been more at your feet than I am now." This was very good, considering how dry his tongue was.

Hillard reached a chair successfully enough, but he never could recollect how. He sat down as a bashful man sits down in a crowded ballroom, with his knees drawn in tightly and his feet at sympathetic angles.

Presently she laughed with malice.

"You are not comfortable in that chair."

"That is true, and yet it is soft and roomy. I am uneasy. Perhaps you recall to my subconsciousness a period in my former existence on earth, or, if you will, one of my ancestors."

"I fail to understand."

"Well, a Hillard 200 years ago had his head cut off by an ax. His executioner wore a mask."

"A mistake. Your ancestor should have been hanged."

"And I along with him, you would imply?"

"Are you not Irish? I have known Irishmen of the name of Hillard."

"They were in disguise. But I have a generous strain of Irish blood in me; otherwise I shouldn't have had the courage to follow up an adventure like this."

"Thanks. The compliment is rather ambiguous."

"My compliments cannot possibly be more ambiguous than your appearance. Surely there will be an hour for unmasking."

"It has already begun, Mr. Hillard."

"So *I am the one who is to be unmasked?* Well, I have only the mask nature gave to me. I wish she had been more liberal. But I shall see what can be done with it."

He took note of her teeth and felt a sudden tinge of regret. One may disguise the face and hair, but the teeth are always the same. Two lower teeth on the right side appeared to be gone; the others were firm and glistening white. It was a pity, for a woman's teeth are as much her glory as her hair.

Silence. The ruddy light on her hair fascinated him.

"What is it?" she demanded.

"Your hair," with a simplicity which silenced her. "You have the most beautiful hair I have ever seen."

"Thank you. And yet, for all you know, it may be a fine wig."

"If it is I shall never be sure of anything again. Am I in prosaic New York? Have you not by some carpet magic transported me to old Europe? If a dozen conspirators came in in cowls to render me the oath I should not be at all surprised."

"There is no magic, only a mask."

"And there is no way of seeing behind that?"

"None—*absolutely none. I am told* that you are a gentleman, so I am confident that you will not stoop to use force."

"Only the force of eloquence, if ever I may lay claim to that again."

"You are beginning well, for I tell you, Mr. Hillard, I shall expect but the most brilliant wit from you tonight. As for me, I shall only interpolate occasionally. Now, begin."

"I am not used to dancing without the pole."

"You must learn. Dance!"

"Upon what—nothing? And how shall I know that my dancing pleases you?"

"I agree to tell you. I wear this mask tonight because I am taking a surreptitious leaf out of my book of cares."

"You are, then, seeking a diversion?"

"Nothing more or less. Do not flatter yourself that there is anything personal or romantic on my side. I am bored."

"I am wholly in your hands," he said, "and they are very beautiful hands."

"Is there anything more beautiful than a cat's paw when the claws are hidden? Never judge a woman by her hands." Nevertheless she buried her hands in the depths of a down pillow. She had forgotten her rings. She slipped them off and managed to hide them.

"I promise to remember. Your letters"—he began diffidently. Where the deuce was his tongue? Was he to be tongued tied all the evening before this Columbine, who, with the aid of her mask, was covertly laughing at his awkwardness?

"My letters? A woman often writes what she will not say and says what she will not write. Did you not ask me to disillusion you?"

"Yes, but softly, softly. I begin to believe one thing—you brought me here to teach me a lesson. Gentlemen should never use the personal column."

"Nor should ladies read it. I am not saving any mercy for myself!" with laughter.

"Shall I begin with my past?"

"Something less horrifying, if you please!"

"I object to the word nice," he said. "I should have preferred milksop! Hadn't you better try some new kind of torture?"

This time her laughter was relaxed and joyful. And somehow Hillard felt more at ease. He was growing accustomed to the mask. He stretched his legs and fingered his nether lip.

"Have you not somewhere an invisible cloak?"

"I had one that night, which nature lent me," she answered readily. "I was so invisible to you that I heard the policeman call out your name. I thank you for insisting that I was not a chorus lady."

Here was a revelation which accounted for many things. "I haven't been very fortunate so far in this adventure."

"That is rank ingratitude. I am of the opinion that fortune has highly favored you."

"But the mask—the mask! If you heard the policeman call my name you must have heard him speak of one Leddy Lightfinger."

"I did, indeed. And is it not possible that I am that very person?"

Hillard dropped his hand toward his watch. "Why do you hate Italy?"

She sat straight, and what little he could see of her mouth had hardened.

"There will be no retrospection this evening, if you please," her voice rather metallic.

The mystery lifted its head again. One does not hate a country without a strong and vital reason. Was Giovanni partly right, after all? Was this a kind of trap—a play to gain his interest? Was her singing under his window purely accidental?

"Will you not sing?" he asked. This was an inspiration. Music might assist in melting her new reserve.

"You recollect, then, that I possess a voice?"

"It is all I have to recollect. Tell me, whither is all this to lead?"

"To the door and into the fog again."

"On my word, I'm half inclined to believe you to be an anarchist or a red or something on that order."

"Put yourself at ease. I am neither Leddy Lightfinger nor a Socialist. There are no dynamite bombs in this house."

Her severity, her irony and her apparent lack of warmth were mere matters of calculation. Her plan was to inspire him with trepidation, to keep him always at arm's length, for his own safety as well as hers. She knew something of men. She was secretly

"The song you sang under my window."

pleased with his strong face and shapely head. The chin was square, but not heavy; the mouth humorous, kindly and firm; the nose bridged, and the brown eyes, sleepy, yet with latent fires, were really handsome. She was not afraid to be alone with him, nor was it really necessary to wear a mask. But the romance in her heart that she believed to be dead was not dead, only waiting to be rekindled.

"I will sing!"

"That is more than I dared to hope."

"What shall it be?" she asked.

"The song you sang under my window."

"But that is for the male voice!"

"You sang it very well nevertheless. I have a good memory too." He leaned forward, his arms crossed on his knees. Was there ever in all the world such an Arabian night?

She sang, but without that buoyant note of the first night. One after another he called out the popular airs of the old light operas. She had them all on her tongue's end.

Where had he seen that copy of Botticelli before? If only there was a little more light!

"Pardon me," he said. "You asked"—

She repeated her question, wondering what had drawn his attention.

"I like my grand opera after dinner. After dinner I shall want Verdi, Berlioz, Gounod."

"But after dinner I may not care to sing." She spoke in German.

A TRAVELER'S POCKET.

Perhaps the most necessary possession of the woman who travels is a stout pocket atached to her corset or worn on a belt beneath her skirt.

The prettiest of white linen envelopes, daintly ebroidered and worn suspended from the neck by a wash ribbon, may be recommended for a short journey in weather that is not unbearably hot, but when even a neck ribbon cannot be endured the envelope may be sewn to the corset.

There was once a woman (this is a true story) who pined her jewel case to her gauze undervest, and, meaning to arrive on the other side of the ocean with only clean clothes and whole ones, she cast into the ocean all those half-worn garments in which she had started on her journey. Perhaps you will be nearly as glad as she was to learn that she almost, but not quite, cast the linen pocket into the briny deep. In reality she remembered to unpin it and then momentarily forgot her caution. It is far safer, where notes, jewels and valuable papers are to be carried, to make the bag of suede leather or heavy drill, pocketed and with flaps that button down, and to wear it around the waist, ssupended from a belt fastened with an actual buckle. There is no more useful present for the traveler-to-be. A home-made bag, firmly made on the sewing machine, will prove the best. If this is too far removed from the beautiful to appeal to you as a presentable gift, why not give with it the embroidered linen envelope? For your traveling friend will, I feel sure, have use for both.

Virginia Beets.

Carefully peel boiled beets and with a sharp knife cut them into very thin and even slices, laying them as sliced into a heated vegetable dish; when a layer has been made over the bottom, dot it well with butter, season lightly with salt and sprinkle with one tablespoonful of granulated sugar; then arrange another layer of beets with butter, salt and sugar and rpoceed in this way until the dish is filled. The work should be done near the fire in order that the beets may not cool, as the dish should be served very hot. If, however, the beets have cooled in preparation, set them in a hot oven for a few minutes and turn them with a spoon in the dish before serving in order that they may be juicy.

DEBATE ON AMENDMENTS

(Continued from page 1.)

these changes? Almost ninety per cent of the legal fraternity, mostly corporation attorneys, are demanding the amendments to the constitution; not the people. The 'bosses' may control this State, but I am my own boss, and I cannot be made to swallow this pill of insolent usurpation of the power of the people."

Mr. Martine quoted from some newspaper clippings in which vice-Chancellor Pitney was quoted as favoring the proposed amendments, and turned to the audience and asked them if they would stand for the fastening of the English system of jurisprudence on the free people of the State of New Jersey. To abolish the court of chancery would be a disaster.

Mr. Martine called by name all the great judges of the court of chancery for several decades back and referred to their records as a proof that the abolishment of the court would be a catastrophe. He quoted a judge, whose name is withheld, who said: "I can clean my calendar and am against the amendments, but in my position I cannot openly oppose them." With the lawyers interested in the amendments, he said: "their love of pelf is greater than that of country. The reason some men have refused judgships was because the salary was not commensurate with the labor involved."

Mr. Martine objected to increasing the salaries of assemblymen because their work does not warrant it and as for increasing their term of service some of them have been there too long, when they have spent one year in the service of their constituents. "If a man is a good legislator he will be sent back with bells on," he said, "but if he is no good one year would be too much for him to serve. Do you want a handfull of men to do your thinking for you?

"I believe the fifth amendment to be unconstitutional because it involves the voting on two questions which is specifically provided against by law. What do we want direct primaries for? Why, to get close to the people. These amendments are of no use to the common people, but are made purely in the interests of corporation lawyers. You ought to vote against everyone of these amendments. If we need another constitution let it be made in convention not by the legal fraternity or the bosses." Mr. Martine ended his peroration with a poem.

President Ellis invited others to speak and Samuel S. Swackhamer was persuaded to say a few words in which he remarked that he did not think a man should discuss a subject unless he as thoroughly familiar with it and as that was his case he decided it would be both unbecoming and unwise to express an opinion on the subject.

Winfield S. Angleman was not troubled that way and spoke freely against the amendments. Mr. Angleman said that too much hocus-pocus had been published in the newspapers on the subject and that the constitution should be revised by the Constitutional Committee. He said that not a newspaper nor a speaker has yet shown where the proposed amendments will expedite the administration of justice. "There is not a State in the country whose courts are looked up to as are the courts of the State of New Jersey," he said, "and there is not a fault in our judiciary system which cannot be corrected by a rule of court. The calendars sometimes become congested because the courts do not meet often enough—only thrice a year. There are ways in which the cases can be handled without overmuch delay."

The meeting was over at 10 o'clock and adjourned to meet in the club rooms next Wednesday evening, September 15, at the regular hour.

ANOTHER LANDMARK HAS DISAPPEARED

Built forty-five years ago by David Hand, the old brick silo situated opposite the Netherwood Fresh Air Home, is being demolished. The land has been purchased by a real estate firm, and is being cleared preparatory to opening it up a a residential section.

The old building, the last to be cleared away from the property, is eighty-two feet in height, and massively constructed of brick. In place of girders, telegraph poles are set four feet apart all around the outside walls, and the brick wall is built in around these. Alexander Kane, "the house wrecker," who has the contract for removing the building, says that it was wonderfully well built. About 600,000 bricks were used in the walls. The silo has not been used for five years.

MICHAEL RUPES DIES VICTIM OF ACCIDENT.

Michael Rupes, of Somerset street, who in company with Peter Alexander and Peter Foufas, all Greeks, attended the races at the Fair Acres track, Westfield, on Monday, as a result of an accident near there, died this morning. The party was returning from the races in a rig, which collided with a sulky in charge of Charles Drake, who was driving a half-broken mustang. The three men were thrown out.

Rupes was caught on the shaft of the sulky and pinned beneath the carriage. The end of the shaft struck him in the left side, just over the heart. When he reached home Dr. Albert Pittis was called. It was learned that the former had suffered internal injuries. Last night the man suddenly grew worse and he died this morning. County Physician F. W. Westcott has been notified and he will view the body this afternoon.

Only the relatives and a few intimate friends were present.

PHYSICIANS TO REPORT ALL BIRTHS AND DEATHS

Information regarding the new vital statistics registration law has been received at the local Board of Health office. The statute provides for the more prompt report of births to the State Board of Health. By Chapter 109, laws of 1909, it is the duty of the physician present at the birth of any child to report it within five days. A fine of $50 is the penalty for failure to comply with this law. Similar reports must be made of all deaths, and the penalty for violation is the same. All the local physicians have been notified that the statute will go into effect in this city October 1.

Blanks and printed matter relating to the new law have been supplied the local Board of Health. The printed matter will be distributed to physicians.

CHURCHMEN INTERESTED

Instructive Talks Heard at Holy Cross on Brotherhood of St. Andrew.

MEETING LARGELY ATTENDED.

Both Franklin Spencer and John M. Locke Tell of the Association and Its Aims.

At a largely attended meeting at the Church of the Holy Cross, last night, men of the parish were interested in a movement to form a chapter there of the Brotherhood of St. Andrew. Rev. George A. Warner, rector, was in charge, and the speakers of the evening were John M. Locke, of East Orange, a member of the National Council of the Brotherhood of St. Andrew, and Franklin Spencer, of Elizabeth, acting president of the Central New Jersey Local Assembly of the order.

The meeting was chiefly one of instruction, setting forth the objects and principles of the Brotherhood of St. Andrew, and the question of forming a chapter will be determined later, when Mr. Warner will call a meeting for the purpose.

Following a short service, in which the boy choir took part, singing the Hymn of St. Andrew, Mr. Warner gave a brief talk regarding the importance of interesting the men of the parish in church work. He said that they should be expected to do more than just pay the bills.

"The tendency of the age," said Mr. Warner, "is toward activity in church work. Are you content to stand by and see others do all the work. Are you keeping your baptismal vows by being a faithful soldier for Christ.

"The Brotherhood of St. Andrew is made up entirely of men. I would like to have an organization of this kind in the parish, where the men will be bound together fighting for a Christian truth. A boy between the ages of 13 and 19 years, needs someone to whom he can go and talk things over.

"If Christianity does not make a man more of a man, it is worthless. It is not fair to the rector to expect him to do it all. He should have the co-operation of every man, as well of the women in his parish."

The rector then introduced Mr. Locke, who in an interesting manner told of the objects and principles of the Brotherhood of St. Andrew, of which he has been a member for twenty-five years. He is a member of the Episcopal church at East Orange of which Mr. Warner was formerly rector. In his reference to the latter Mr. Locke said that the rector had learned the principle of applying business methods to church work.

"There never was a time," continued Mr. Locke, "when there has been such a 'feeling out for Christ' as at present. All religious meetings and gatherings are largely attended, but there was also never a time when there was such a scarcity of men in our churches. The problem must be solved. Recently, while on my way to church one Sunday, I noticed men in great numbers on the street, in trolley cars, automobiles, all going off for pleasure. When I reached church there was a mere handful of men there. It is a most important that we get hold of the boys. John Wanamaker once said, 'Get hold of a boy you get hold of the multiplication table, while if you get hold of a man you get hold of only one.'

"It has been the rule of the church to say to the boy, you sit back there in the last pew. When you get gray hairs and whiskers then we will let you do something. In the meantime the devil gets the boy and he is lost to the church. The church must spread to reach the men and boys. Happily your rector is a man who has the faculty of getting close to boys and men.

"The Brotherhood is organized along definite practical lines, the basic principle of which is the rule of prayer and service. It is an organization exclusively for men and boys, to do the will of God and to know Christ."

Mr. Locke then explained that the Brotherhood of St. Andrew was organized out of a Bible class in a Chicago church, and ever since had been copied by every church in the country.

Franklin Spencer spoke briefly of the benefits of the Brotherhood and how successful it had been in holding the men and boys together and directing their footsteps in the right direction. He said that one of the principle objects of the organization is to get men and boys into the Sunday-school and the church and to pray for them.

Later in the evening, Rev. Milton Craft, formerly of this city, but now of Trenton, dropped into the meeting, but he took no part.

COPS INVADE PATERSON

Knights of the Billy, 2,000 Strong, are Holding Their Convention Today.

LOCAL FORCE REPRESENTED.

Delegation from Here Sees Mayor McBride Turn Over Keys of City—Governor Fort Speaks.

One of the greatest gatherings of peace protectors that ever took place is in session at Paterson today, fully two thousand policemen from all over the State being present at the ninth annual convention of the Patrolmens' Benevolent Association. Chief Kiely, of this city, in company with Councilmen Gloak and Randolph and Sergeant Overbaugh, Patrolmen Messler, Payne, Flynn, Saffron and Dobson are attending the convention and Patrolmen Payne and Dobson will read papers before the assembled guardians of the public welfare.

Great preparations had been made for this event, in fact as Paterson expects this to be the greatest and most notable gathering in its history, nothing was left undone that would conduce to the comfort of the New Jersey bluecoats. Seventy-eight delegates, representing the twenty-seven locals went into executive session at 1 o'clock after Mayor Andrew F. McBride delivered the keys of the city to the knights of the stick, accompanied by a speech. Paterson organization delivered the address of welcome immediately after the delegates are seated in St. Boniface's hall. After the executive session the police were taken in special trolley cars to Baum's Lincoln Park, where a monster dinner was served. There were representatives present from Jersey City, Hoboken, the Oranges, Elizabeth, North Bergen, Bayonne, and Newark.

Governor John Franklin Fort, Senator Hinchcliffe, Congressman Hughes and Mayor McBride, of Paterson, made addresses to the men and their speeches were laudatory of the work being done by the departments in every part of the State. Governor Fort praised the fine appearance of the men and congratulated them upon their plendid protective organization, of which he said, they ought to feel proud. The Governor was particular to point out the good results of co-operation in everything, but especially in the organizations which have for their object the welfare of fellow men.

I. P. RUNYON PRESIDES IN THE DISTRICT COURT

The District court was not overcrowded with business this morning, only twenty-two cases being on the calendar. Judge Isaac Runyon presided at the session in the absence of Judge Newcorn.

In two suits brought by the N. Y. & N. J. Telephone Co., one against F. C. Kreidler for $5.88 and another against E. A. Trent for $7.85, judgment was entered for the company, which was represented by H. D. uBckley, collection attorney. In the suit brought by Otis B. Whitford against Harry G. and Alice M. Matton, for rent on the premises, 520 Park avenue, judgment was entered for the plaintiff for $116.15 which includes interest from July 10 to date. Harry W. Runyon appeared for Mr. Whitford and J. Henry Crane for Mr. and Mrs. Matton.

Twelve cases went over to September 16 and five to September 23.

Happy Family Reunion.

Mr. and Mrs. George Wiegand and son, George Wiegand, Jr., of West Fifth street; Mr. and Mrs. Julius Williams, of West Front street, and Mr. and Mrs. James Foster, of Chatham street, attended the reunion of the Happie family held on the farm of Frank Winn at Warrenville, Labor Day. There were about seventy-five guests. William Happie, of Illinois, came east especially for the reunion.

Rev. Dr. Herring Will Preach.

Sunday will mark the beginning of fall activities at the First Presbyterian church. Rev. Dr. C. E. Herring, the pastor, having returned from abroad, will occupy the pulpit at both the morning and evening services and the choir will present a special musical program.

—Neuman Brothers have received a shipment of Bartlett pears and plums, finest quality, all choice fruit, which they are selling at reasonable prices.

MARSHAL FOR ASSEMBLY

Union County Democratic Committee Endorses Him for Nomination.

ALSO SELECT TWO OTHERS.

Democrats Decide to Make No Fight for Either Register or County Clerk.

The Union County Democratic committee at its regular meeting in Elizabeth, last night, endorsed a ticket for the Assembly and coroner nominations for the coming election. Those endorsed for the Assembly are Harry W. Marshall, of this city; Frank Halliday, of Rahway, and Abe Morris, of Union. Dr. J. H. Warnke, of Elizabeth, was endorsed for the nomination for coroner.

The committee decided not to endorse anyone for the office of county clerk or register of deeds, it being conceded that both James C. Calvert and Frank H. Smith, Republicans, who are candidates to succeed themselves, will have the support of the majority of the voters of the county.

The meeting was an enthusiastic one and every member was especially optimistic over the prospects of electing the Assembly ticket, as well as the candidates for coroner. They seemed to feel that conditions are just right this year to regain lost ground and with a strong ticket could see no reason why the party should not be successful.

Mr. Marshall, one of the candidates endorsed for the Assembly, has been active and prominent in civic and lodge affairs here for sometime. He is now president of the Board of Trade and was formerly potentate of Salaam Temple, Ancient Arabic Order Nobles Mystic Shrine, of Newark. He is also active as a member of the local Masonic bodies. During Mayor James F. Buckle's term, he was appointed one of the three police commissioners, who were afterward legislated out of office. Mr. Marshall is the proprietor of the American Steam Laundry, at Watchung avenue and Fourth street, where he recently erected a large and handsome structure, with full modern equipment.

WARREN TOWNSHIP MEN FORM AN ORGANIZATION

William Jeffery, of Berkeley Heights, addressed a large and enthusiastic gathering of citizens of Warren township, at Bintz's Hotel, Mount Bethel, last night, when an organization called "Circles on the Square for Warren Township," was organized. William Henry Rogers was elected president and Guy D. Peck secretary and treasurer.

A committee comprising William Henry Rogers, Guy D. Peck, Robert Zerkaball, Fred Wiggins and Rev. Mr. Houser, was appointed and they will meet tomorrow night to draft a constitution and bylaws. Another meeting of the Circles will be held Tuesday night at Mount Bethel. Forty members were elected last night and more than one hundred are ready to join.

Those who identified themselves with the organization last night adopted a resolution to the effect that it should be known as "Circles on the Square, Warren Township," and that there shall be as many circles as the committee of five which was appointed may deem necessary.

Mr. Jeffery in addressing the gathering said that Warren township is located most advantageously, the beauty of its topography being second to none in the State, but that the citizens of the township are not utilizing the splendid natural advantages. He referred to the undulating fertile land, and the hospitable people to be found in the township.

The speaker said that if there were any troubles in the township it was due to the indifference of the people and he predicted that in the future they would remedy past mistakes. During the evening Mr. Jeffery sang several songs which have been used at the meetings at Berkeley Heights, and he was given a cordial reception.

AGED MAN DIED ALONE

Neighbors Find Elias Wilson, a Recluse, Aged 85 Years, Dead in His Bed.

WAS ONCE A WEALTHY MAN.

Misfortune Visited Him and He Lost All but the House He Lived In for Sixty Years.

Elias Wilson, a recluse, 85 years old, was found dead in his bed in his home on Valley road yesterday afternoon by neighbors who had become suspicious that all was not right with the old man as he had not been seen around his place for two days.

Wilson had lived alone ever since the death twelve years ago of his wife and had as his only visitor his sister-in-law, Mrs. Anne Hedden, of Duer street. He was last seen alive by his friends on Tuesday afternoon.

Wilson was at one time a wealthy man, being the owner of a large tract of land on the Watchung mountains. Most of this land had passed out of his possession and all that was left of a once large estate is represented by the house in which he died and the ground surrounding it. His wife was a Miss Esther Stewart.

It is believed that a sudden attack of rheumatism from which Wilson was a great sufferer, reached his heart. Coroner's physician W. H. Long, of Somerville, will view the body today.

TO TRY MARSHAL SLINEY

Dunellen Council to Hear Charges Against Borough Police Chief.

ON FRIDAY NIGHT, SEPT. 24.

Accused of Drunkenness and Disorderly Conduct, William Sliney Seems Not Disturbed.

The charges preferred recently by Michael Gallagher, Martin Brennan and an anonymous resident, against Chief Marshal Wm. Sliney, of Dunellen, were presented to the Council of that borough at last night's meeting. Sliney is accused of drunkenness and abuse of power. When charges were first made to Mayor Swackhamer in the latter part of August by Gallagher the mayor requested additonal data on the subject. This letter of the mayor's Gallagher did not answer, so that in order that the affair might be properly thrashed out. The mayor, however, again wrote to Gallagher and asking him to be present at the Council meeting. When Gallagher appeared last night he presented the written charges, but when read before the Council it was noticed that they were not signed, but were subsequently at the mayor's request.

After considerable discussion the matter was laid over until Friday, September 24, to give both sides an opportunity to produce witnesses.

Marshal Sliney does not seem to be much worried about the matter. When seen last night, he said that it was only "the lower element" in the town that was against him. He said he had many enemies naturally, he added, because he enforced the law.

Got a Six Months' Vacation.

John Manly, of 321 Park avenue, who has been enjoying a vacation of six months has been spending this week at Ocean Grove and Asbury Park and says he has been having the time of his life. The company has given him this vacation as a reward for a long and faithful service.

Censorious man, one stroke of your pen, and you put the soubrettes out of biz;
And then what on earth can the poor ladies do, for jewels, and dinners and fizz?
But surely, dear Fred, on these bright little lambs, you wouldn't put such blight!
For never, no never, in all of your life, have you done anything that's not white.

BURGLARS GET IN A DUNELLEN EDIFICE

Burglars broke into the Dunellen Presbyterian church on Tuesday night but failed to get away with much booty. They got into the edifice through a rear door and rifled the closet which holds the communion service. Luckily the gold plate communion cups had been taken into the parish house rectory for the night. They took what they could get, but that was only a couple of linen tablecloths. They also got away with a pulpit cover and three valuable portieres, which had been donated by Mrs. Casselberry, wife of a former pastor. In one corner of the church the Sunday-school money is kept in a small closet fitting in close to the wall. The burglars did not notice this.

Rev. W. A. Knox, the pastor, says that he does not believe that it was any member of the community who committed the deed.

The date has not been settled. The names of the speakers and other details will be announced as soon as completed.

VICTIM OF HIGHWAYMEN

Philip Weisbecker Beaten and Robbed by Three Men in Dunellen.

LEFT ON ROAD UNCONSCIOUS.

His Assailants Two Italians and a Negro—Victim Found by John Curry, Junior.

A daring highway robbery occurred this morning in Dunellen just back of the town near the brick yard, of which Philip Weisbecker, an agent for the Prudential Insurance Company was the victim. Weisbecker was robbed of a sum of money said to be between thirty and forty dollars and was left lying unconscious in the road. His assailants are said to be two Italians and a negro, but he can give no very good description of the trio.

According to Weisbecker's story he was on a collecting trip and when approaching the brick yard he was passed by the three men who turned suddenly and struck him on the head with some blunt instrument felling him to the ground and rendering him unconscious. That is all the man can say as to what happened to him.

John Curry, Jr., a sixteen-year-old youth found Weisbecker lying in the street with his head bleeding and summoned assistance. The injured man was conveyed to his home and Dr. Platt summoned. Dr. Platt found the man suffering from severe scalp lacerations, but no fracture. When Weisbecker recovered consciousness he told what had happened to him. His description of the highwaymen is so meagre that it is note likely that they will be apprehended.

The police of all the nearby towns have been notified and are keeping a strict watch on all trolley cars for possible suspicious characters. The hold up occurred at about 8 o'clock this morning.

GAVE AN ACCOUNT OF POCONO PINES CONFERENCE.

Walter J. Firstbrook, who was a delegate to the Young People's Conference held in August at Pocono Pines, Pa., from the Christian Endeavor Society of Hope chapel, led the prayer-meeting at the chapel, last night, and gave an account of the recent gathering. The report was a complete and interesting one and showed that the delegate had striven to make it helpful and inspiring to the members present last night.

Mr. Firstbrook will meet with the heads of the various committee and give them some helpful and interesting suggestions, regarding the work to be accomplished during the coming season. A vote of thanks was extended to him last night by those present.

SYNOD OPENS SESSIONS AT NEW BRUNSWICK.

The German Reformed church Synod of the East opened its sessions last night at the German Reformed church in New Brunswick, with the Rev. Dr. Benjamin S. Stern, the president, presiding. Mayor W. Edwin Florance welcomed the delegates to the city and the sermon was preached by Dr. Stern. The Rev. A. E. Dahlmann, of Buffalo, the secretary, made his report.

The sessions will continue until Monday. One of the important elections to take place is that of professor of systematic theology at Franklin College, at Franklin, Wis. A discussion of home mission work will occupy much time of the synod. About 100 ministers are in attendance.

Sanderson Had a Fit.

Albert Sanderson made his fourteenth appearance since December, 1904, in the city court this morning on the usual charge of drunkenness, but City Judge Runyon suspended sentence. Sanderson claimed that he was not drunk but had a fit. Judge Runyon suggested that it would be a good thing to swear off either drinking or smoking cigarettes as it appears that either one or both of these habits are responsible for the peculiar illness from which Sanderson is a periodical sufferer. Patrolman Dunlap arrested Sanderson at Park avenue and Second street yesterday afternoon.

The Shadow of the Autumn Leaf Has Fallen Upon Silks and Dress Goods

It's delicate tracery can be seen in these shimmering, rustling silks, the beautiful cloths and other dress fabrics which are beginning to peer forth in this store. The new colorings are here filled with the somberness of Fall and reflecting the darkened tones of the forest verdure, after the first chill wind has come

In a word this stock is a picture of Dame Fashion's choice in the New Silks and Dress Goods. It tells in a masterful manner what the women in the great fashion centres will be wearing this season.

Our stocks is the result of month's of labor. We have studied the style trend in the big cities, marking well the weaves and the colorings which were most in demand. The result of this study is shown in the completeness of our stocks, and their magnificence.

The thought of the new Fall gown is uppermost now. Come and study the style effects in silks and dress goods at this store.

Plainfield, N. J., September 9, 1909.

The North Pole dispute has got to the "Who Struck Billy Patterson" stage.

The domestic troubles of the Goulds and the legal battles of Thaw now take their place among the left-over galleys.

It would be practically impossible to make the proposed constitutional amendments a party issue for those who would strive to do so would place themselves in a ridiculous position. The judiciary amendments are framed in the sole interest of litgants and not for the lawyers as some have falsely represented, while the others are in the interest of the people generally.

CHURCHMEN INTERESTED

(Continued from page 1.)

Reference was made to the National convention of the Brotherhood of St. Andrew to be held in Providence, R. I., October 13 to 17, and as many as possible were urged to attend. One of the objects of last night's meeting was to form chapters throughout the central division, which comprises the territory between Elizabeth and Trenton, taking in Somerville, Lakewood, Ocean Grove, Red Bank and the intervening towns and cities. On Wednesday night, September 15, in Trinity Parish House, Elizabeth, a formal organization of the Central New Jersey Local Assembly of the diocese of New Jersey will be held and officers will be elected. There will be representatives from the local churches.

FINDS $125 IN JAIL, RESTORES IT

Now John Luddy, Prisoner in Caldwell, May Have Term Shortened.

John Luddy, a prisoner in the Caldwell Penitentiary, restored a wallet containing $125, dropped yesterday by William Neary, an instructor in the prison. His act will be weighed when appeal is made to shorten Luddy's term. Luddy is serving a year for larceny, and his time will not be up until December.

Some of the keepers believe that if Luddy had had a place to conceal the wallet he would have done so. Warden Martin, however, is inclined to give the prisoner the benefit of the doubt, as some time ago Luddy told him, with much sincereity, that he intended to lead an honest life.

Bids Exceed Appropriations.

Both of Cranford's proposed new public buildings have been held up owing to the fact that the bids received exceeded the appropriations. Last week the bids for the new $5,000 fire department house were opened and the lowest bid was $3,600, which was $1,300 higher than the appropriation voted for by the taxpayers. Tuesday night, the bids for the new $10,000 Carnegie Library were received and the lowest bidder was $11,800. Both propositions have been turned over to the township attorney for a decision.

SOME STATE NEWS BRIEFS

Falling down stairs Edward Moore, thirty-two years old, of 252 Spruce street, Camden, sustained a lacerated scalp. He was taken to the Homeopathic Hospital.

About to eat dinner, Stella Thomas, of 513 Borton street, Camden, had her left wrist dislocated by a falling coffee pot, and was cared for at the Homeopathic Hospital.

The Democratic leaders of Burlington county are said to have slated Hilyard Stokes, of Beverly, as their candidate for State Senator, and Josiah W. Ewan, of Mt. Holly, for county clerk.

Joseph B. Ridge, of Philadelphia, has leased Hawk Island, at the mouth of Rancocas Creek, at Delanco, for a game preserve, and to keep off trespassers employs a special officer night and day.

When a hatchet slipped, William Brown, twenty-seven years old, of 1833 South Eighth street, Camden, badly cut several fingers of his right hand. He was cutting a limb from a cherry tree.

Through the efforts of the Millville Aerie of Eagles and friends, funds have been raised to defray the expense of an operation upon Howard Palmer, the poor crippled boy in a Philadelphia Hospital.

By the bursting of a carboy of acid at the R. H. Carney plant, in Camden, John Casey, forty years old, of 507 Trenton avenue, had his feet badly burned and was cared for at Cooper Hospital.

Louis Moirassol, who was injured severely in a dynamite explosion three weeks ago and considered to be almost beyond recovery at the General Hospital, Paterson, is now thought to be on the mend. On Sunday his death seemed a matter of but a few hours.

State Architect George S. Poole and Inspector Hines visited Paterson to look over the Fifth Regiment Armory and ascertain just what is necessary in improvements and repairs. The last Legislature appropriated $25,000 to cover the expense of putting the edifice in shape.

Word was sent to the Camden police department that thieves carried away $1,000 worth of jewelry from the "Half Way House," on the Gloucester and Westville turnpike, belonging to Mrs. Edward Gilmore, wife of the proprietor. The jewelry had been hidden in an armchair.

Miss Frestina Smith, a Philadelphia girl, was boating with companions on Union Lake, near Millville, Tuesday evening, when the boat struck a log and the girl was thrown into the water. Walter DeHart sprang over after her and managed to keep her head above the surface until the other members of the party could render assistance. The rescue was performed with great difficulty.

"We must all keep on the alert; the water snake is only napping," declared William D. Vanaman, an active member, in addressing the meeting of the Business Improvement Association in Camden Tuesday afternoon. He urged the members to keep their eyes and ears open, or they might arise one of these mornings and find that the Council or committee had decided to act favorably on one of the schemes.

The twentieth annual session of the Afro-American Baptist State convention, which convened yesterday at Newark in the Second church, brought the pastors and delegates from all over the State as well as visiting clergymen from Pennsylvania, New York, Delaware and the District of Columbia. The convention, which will be in session until Monday next, was presided over by Rev. Dr. George E. Morris, of Morristown.

William Sweeten, of Woodbury, has been lying in an unconscious condition since 10 o'clock Monday night, when he was run over by a wagon and cut about the head and breast. Sweeten, who drives one of Rambo's coaches, had just taken some suitcases into his house when the horse ran away. He ran through an open lot and headed the animal off and was in the act of jumping into the wagon when the step struck him and knocked him under the wheels.

Lee Cook, well known yachtsman, and two friends, of Riverton, who were sailing the former's yacht, the Sea Gull, to Beverly, nearly lost their lives in the Delaware Monday night. The boat seemed to have struck an obstuction and capsized, throwing the three men away from each other into the water. It was by luck, more than anything else, that they managed to find the upturned boat. For over an hour the men clung to the boat until rescued.

WILLIAMS FOR SURROGATE.

Likely That He Will Oppose George T. Parrot.

Sidney Williams, president of the Downtown Republican Club, of Elizabeth, is being boomed for surrogate. The present incumbent, George T. Parrot, has held the office for years, but there will be a pretty fight between the two men this year for the plum.

Mr. Williams is a member of the Board of Health, of Elizabeth, and was given that office as a recognition of efficient service in the ranks of the part last year.

FORT'S RULING MAY DISQUALIFY BALLOT

The political world of Newark was thrown into a little flurry of mild excitement yesterday when the sample ballots for the constitutional election of September 14 appeared bearing the endorsement of Secretary of State Samuel D. Dickinson without his title affixed thereto.

Since it has been the custom of the secretary of state in all previous constitutional elections to affix a facsimile of his signature with his title of office, the knowing immediately noticed the lack of such a phrase fixing the position of the endorser of the ballot.

Assistant Secretary of State J. B. R. Smith willingly explained the situation to a reporter, who called upon him yesterday. He said that in conjunction with the attorney general's office an official ballot had been prepared bearing this endorsement:

"Special election September 14, 1909, official ballot. S. D. Dickinson, Secretary of State." A copy of the proposed ballot was submitted to the Governor, who, after examining it, returned it to the Secretary of State's office with the following letter bearing the date July 20:

"Yours of the 16th, inclosing proposed official ballot for constitutional amendments, received. I have gone over the ballot very carefully. The first suggestion I have to make, which is in reply to your letter, is that in the endorsement on the ballot you have two things which I think should be changed. The seventeenth section of the law passed last winter, page 398 of the statute, says that upon the back of the ballot these words shall be printed: 'Special election, September fourteenth, nineteen hundred and nine.'

"You have on the back of the ballot the word 'fourteen' in figures and 'nineteen hundred and nine' in figures, also. I do not believe this complies with the statute. The endorsement should be in the exact language contained in the statute, because the statute says these words shall be printed. In addition to that, the statute says these words shall be followed by a fac-simile of the signature of the Secretary of State. I think that is all you are entitled to put on it. I do not think the words 'Secretary of State' should be printed thereon. Nothing should be there but the signature.'

This letter was signed by Governor Fort and the ballot was revised in accordance with his suggestions.

The possibility that Governor Fort, who is known to be enthusiastically in favor of the proposed amendments, may have himself misinterpreted the language of the statute and by dictating changes in the official ballot have embarrassed his own program, is being discussed.

At Proctor's.

There will be an entire change of bill at Proctor's theatre, today, when the management will offer high-class vaudeville, including the DeVoi Trio, novelty gymnasts; Kelly & Catlin, "The Chinaman and the Coon;" Winnie Crawford, "The Girl in Trousers," and a comedy sketch, by Courtwright & Aldrich, "Alls Fair in Love." The latest films d'art will also be shown.

To Discuss Amendments.

The proposed constitutional amendments will be the subject of an address by James C. Connolly, president of the Union County Bar Association, at the first fall meeting of the Board of Trade of Elizabeth tonight.

ELECTION OFFICER IS BITTEN BY UGLY DOG.

Newton, Sept. 9.—While making a house-to-house canvass of the voters in the Second district Tuesday afternoon Joseph Kithcart, a member of the Board of Registry, had the calves of his legs torn by a ferocious dog. The animal belonged to Foster Pierson, of Lawnwood avenue. Dr. H. J. McCloughlan cauterized the wounds.

The election officer saw the dog lying in the front yard, and when he stepped off the sidewalk to enter, the animal came up behind and bit him twice.

PLAINS AND PANWOOD.

School reopens Tuesday morning of next week, at 9 o'clock. The new addition which is being built to the building will not be ready until the latter part of November, for this reason it will be necessary to divide the assembly room of the building into three rooms so as to accommodate the enrollment of pupils.

Miss Elizabeth Moffett, of Mountain avenue, who has been enjoying a month's vacation, which has been spent at Asbury Park and other nearby places has returned to her position in Newark.

The Misses Emma and Elizabeth Bixley, who have been visiting their uncle, Jacob Shackleton, of Park avenue, have returned to their home at Oxford Furnace.

Little if any interest is being manifested in the special election to be held Tuesday of next week, and it is hardly likely that one hundred votes will be polled.

The pulpit of the Methodist church will be occupied by a supply preacher from Drew Seminary on Sunday.

The Misses Goodwins, of Stanbury avenue, are entertaining friends from out of town.

Mrs. Fred Clawson has returned from a visit with relatives at Stelton.

Miss Bella Hyans, is visiting relatives in New York for a time.

THE FORUM.

PERMISSION ONLY NECESSARY.

Editor, The Daily Press:

The item in The Daily Press of Tuesday concerning the revocation by the New Providence Township Board of Education of a resolution against the making of addresses to the schools by unauthorized persons, failed in a few important particulars to make the case quite clear. The resolution in question was not merely "proposed," but had been unanimously adopted by the Board of Education. It did not prohibit unofficial visitors from addressing the schools, but merely required that they should have permission from someone in authority. And that resolution was adopted because the Principal of the chief school of the township had complained to the Board that school work had been seriously interfered with by the making of unauthorized speeches, which were of a nature not profitable to the schools, but were mere personal advertisements of the speaker. As these circumstances need to be known for a proper understanding of the case I shall be obliged to you if you will make them public in your columns.

President of Board of Education.

LAME LAW HALTS CASE.

Perth Amboy, Sept. 9.—In proceedings brought by Joseph E. Stricker to require John Bisista to give sureties to keep the peace, on behalf of Rev. Joseph Szupy, former City Attorney James S. Wight Tuesday night raised the point that the revised act relating to criminal procedure, passed in 1898, failed to give authority for such an action, and Recorder H. E. Pickersgill decided the point well taken and refused to hold the prisoner. It was the first time that attention had been called locally to the apparent omission of the Legislature to provide in 1908 for proceedings to compel offenders to give sureties to keep the peace. Mr. Stricked admitted that it was new to him, and Mr. Wight said that it was only when he set out to find the law under which Mr. Stricker had filed the complaint that he found no statute covering such a grievance as that suffered by Father Szupy. The recorder continued the case, releasing the accused man without bonds, to allow Mr. Stricker to search for a judicial decision upon the law of 1898. Father Szupy is in charge of Holy Trinity Slavic parish, and his presence here is opposed by a number of the members of the congregation.

Mr. and Mrs. Hiram A. Woodruff and family, of Westervelt avenue, have returned from their summer outing.

THOMPSON OUT FOR ASSEMBLY NOMINATION

The first officeseeker to file in the office of County Clerk James C. Calvert a petition announcing his candidacy is Lloyd Thompson, of Westfield, Republican aspirant for nomination at the coming primaries as candidate for election to the General Assembly. Mr. Thompson's petition was filed yesterday.

It was signed with the names of about 120 voters, the majority of them being residents of this city, with a number from the various towns throughout the county.

While Mr. Thompson's petition was the first to be filed, it cannot be far in advance of others of a similar nature, for under the law the announcements must be filed fifteen days before the primary election. Next Monday is the last day that the petitions can be filed.

Harold Depue, of Linden announced today his candidacy for the Assembly. Mr. Depue is in the same imaginary Assembly district as the present incumbent, A. W. Schwartz, who is running for the nomination. Mr. Schwartz is the candidate of the organization, selected on the Republican outing, to run for nomination with Lloyd Thompson and Carlton B. Pierce in the county.

FIERCE BATTLE OVER THREE TOMATOES.

As a result of a fight which started over three tomatoes, Charles Lemoni is in jail at Cranford, with both ears bitten off, and his opponent in the scuffle, Charles Falconi, is in the Elizabeth Hospital, badly cut about the arm, neck and face, and also bitten.

Falconi accused Lemoni of relieving his garden of three tomatoes. Lemoni resented the accusation, and, drawing a knife, prepared to show his resentment other than verbally. Falconi succeeded in snatching the knife from his assailant's hand, but the attack was renewed in a moment with a sickle.

Policemen arrived on the scene in the nick of time, and barely prevented a murder. Dr. McConnell cared for the belligerents at the jail and hospital.

LOCAL AMUSEMENTS

After many weeks of pronounced success at Weber's theatre, New York, Joseph M. Weber's splendid offering, "The Climax," a powerful

Scene from "The Climax," at Plainfield Theatre, Friday, Sept. 10.

story in three acts by Edward Locke, will make its first bow to the local theatre-goers tomorrow night at the Plainfield theatre. The audience is said to be captivated by the irresistible charm of this delightful play which maintains the highest standard of purity, possessing that much-sought but seldom-acquired quality, which is plainly noticeable in "The Music Master" and other great plays that have lived long in the memory. "The Climax" is a play well worth seeing more than once, for besides its humorous situations, and its quaint comedy charm, it contains much food for thought in its study of the question of mental suggestion. "A comedy of imagination" is the description given to the play by the author, Edward Locke. And it is said he dipped his pen deep into the ink of originality, for "The Climax" is a most amusing and interesting story, one that diverts, charms and fascinates and appeals to that belief which lies deep in the nature of most men and women, the feeling that at times our imagination is stronger than our will power. It is a fact worth mentioning that practically the best plays which have been seen on Broadway have been produced at matinees, and "The Climax" proved no exception to the rule, for it scored a most brilliant triumph at its initial performance. It was the only play of the season on which the New York critics were practically unanimous in their praise, and it has since become the biggest success of the year. It is a play that is likely to live for years to come as it is a story which may be witnessed with gratitude for its simple beauty and power. A pleasant feature of the performance is the pretty incidental music written for the play by Joseph Carl Breil. The theme running through the play being peculiarly attractive and rivals the famous "Lady Babbie" music of "The Little Minister." A cast of exceptional merit will interpret the play.

Miss Trixie Friganza, who is organizing the women of the stage in support of the campaign for their voting rights, won national fame a few weeks ago in New York when she led a delegation of militant suffragettes to the city hall and demanded an interview with Mayor McClellan, after which she haranged a mob of fifty thousand from the steps of the building. Miss Friganza is

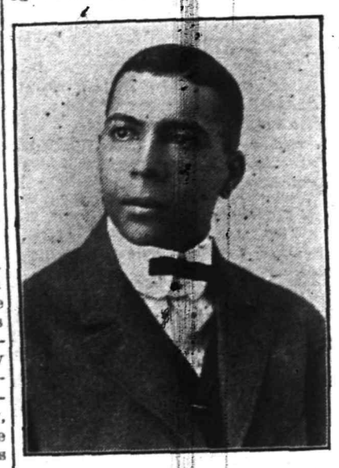
leading woman of "The American Idea," which is to be the attraction at the Plainfield theatre Monday evening only, September 13. She comes here direct from Chicago, where she studied suffragette work and learned, as she admits, a great deal about efficient campaign methods. Says Miss Friganza: "I became a suffragette in New York last summer and I contributed liberally and worked hard for the cause; I must say, however, that I found the methods of the New York suffragettes a little too sensational. Every effort seemed to be directed toward getting the names of certain leaders into the newspapers. Personally, I welcome publicity, for being an actress, it is the breath of my nostrils. But misdirected publicity is not always valuable in advancing such a serious movement as that demanding votes for women. In Chicago, I found splendid business methods ruling the committee for the extension of municipal suffrage to women. It represents 110 Chicago clubs, with that noble woman, Miss Jane Adams as honorary chairman and Mr. Henrotin, a scholarly gentleman as acting general secretary. I do not think Mr. Hitchcock had any better organization for the Republican campaign than have the suffragettes of Chicago in their fight to win over the members of the charter convention who can give or withhold the ballot.

A new three-act musical comedy, "His Honor the Barber," presented by the "Smart Set," one of the most popular and withal expensive colored shows on the circuit, is under-



S. H. Dudley with "The Smart Set," at Plainfield Theatre Saturday Matinee and Night.

lined as the attraction at the Plainfield theatre on Saturday matinee and night. At the head of the production is S. H. Dudley, a comedian of recognized scope and ability. Mr. Dudley will be seen as Raspberry Snow, a soldier of fortune who aspires to shave the President of the United States. The action is carried through seven scenes with the locale in the South. The first scene shows the Wellington White Race Horse Farm, Alexandria, Va., the next the turnpike road, and the third the White House, Washington, D. C. The second act represents the Bayou of Mississippi and in the final act there is an excellent reproduction of the interior of the club house and the Pimlico race track. In point of novelties, features and original song hits, electrical and mechanical effects the offering can compare favorably with any Broadway production.

""Paid in Full," the Eugene Walter play that will be seen at the Plainfield theatre on Wednesday, September 15, when the Wagenhal & Kemper Company offers it with a New York cast, owes its fame as the greatest American drama of the age to qualities that make it entertaining to persons of every taste. Because of this general appeal it possesses greater popularity than any play ever known to the American stage. "Paid in Full" is too expensive and sweeping to narrow its interest to any one class or set of persons. Its reach is universal. It pictures in bold colors the real existence of many men and women in every American city. If the lives of the persons in "Paid in Full" be not our own, they certainly are those of many we know, with whose struggles and purposes we have intimate understanding. The play strikes home; it grips our sympathies. No one can see "Paid in Full" and not feel its intense humanity. While the characters are real they are not commonplace. The persons are those of the kind who do things, whose actions go far in shaping many destinies. Mr. Walter has presented these persons with a vigor and distinctness that produce startling realism.

HOPES FOR NEW METHOD OF TIMEKEEPING.

"Time and Its Measurment," the first part of an article appearing in the August number of Popular Mechanics, is written by a man who has a collection of 1,500 timepieces, gathered from all parts of the globe. The article traces the evolution of the modern idea of time from the ancient days before man included the night in his timekeeping. Japanese, Chinese, Indian, Pompeiian and Grecian methods are mentioned, also sun dials. Mr. Arthur says:

"The following table may be used to give an elementary hint of the three great steps in time measuring:

"Shadow time, 2000 to 1000 B. C.

"Dials and water clocks, 1000 B. C. to 1000 A. D.

"Clocks and watches, 1000 to 2000 A. D.

"I have pushed the gear wheel clocks and watches forward to 2000 A. D., as they may last to that time, but I have no doubt we will supersede them. At the present time science is just about ready to say that a time measurer consisting of wheels and pinions—a driving power and a regulator in the form of a pendulum or balance, is a clumsy contrivance and that we ought to do better very soon."

BOARD OF HEALTH GETS MONTH'S REPORT

But sixteen cases of communicable diseases have developed in this city during the month of August, according to the report of Assistant Health Inspector John O'Brien, presented at the September meeting of the Board of Health Tuesday. Of these cases, eight are tuberculosis, three scarlet fever, three diphtheria, one measles and one typhoid fever. At the present time there are but two cases under quarantine, one on account of scarlet fever and the other on account of measles.

Thirty-nine births are recorded for the month of August, when there were but twenty-five deaths. An even dozen marriages are recorded and one still birth.

Regular inspection and analyses conducted during the month show that fifty-nine samples of milk have been collected and analyzed; also five samples of cream and twenty-four samples of ice cream. The results, on the whole, were more favorable than those of the previous month's analyses. Two of the eighty-four diaries and milk bottling places inspected during August have been shut off because the owners showed no inclination to improve conditions in compliance with the city ordinance.

As a further check to possible spread of contagious disease, the water from wells on dairy premises is being analyzed and during the past month water from twelve of these wells has been taken and the samples sent to the State laboratory of hygiene for analysis. A sample of the city water was also taken, as usual, and the analysis showed it to be of the usual good quality.

Assistant Health Officer O'Brien has prepared new rules and regulations in regard to the production and transportation of milk, and these rules are to be printed on cloth and posted in every dairy from which milk is supplied to this city. The rules deal with the care of the stables, the cows, the milk house and the utensils. There are also regulations regarding the water used in the dairies and the dairy employees.

Joseph Zgrzyback has been granted a permit to collect garbage, and the renewal bond of William Zepp, a Bound Brook plumber, has been received and filed, allowing him to do work in this city.

KNIGHTS TEMPLAR FIELD DAY SEPT. 17

Sir Knights Jacob W. Gulick, Dayton W. Jones and William H. Barnet, the committee, which will pilot Damascus Commandery, Uniform Rank, Knights Templar, on the annual field day pilgrimage of the New Jersey Knights Templar to Atlantic City, on September 17, have completed arrangements for the event.

The committee has arranged the schedule so that those who desire, may remain over until Sunday afternoon and thus enjoy the three-day feature that has been planned by the State body. The headquarters of the local, Damascus Commandery, will be the Hotel Chalfonte.

Officers of the commandery who are assisting the committee and striving to make the affair a success, are John H. Wilkins, eminent commander; Lewis J. Burgesser, generalissimo; William H. Barnet, captain general; Edward W. Pierson, senior warden; Oliver B. Burdett, junior warden; Andrew N. McKinnon, prelate; Frank Tanner, recorder; Lewis Maier, standard bearer; John Wafferling, sword bearer, and A. J. P. Pieonnie warden. Past Eminent Commanders Wilson C. Ely, treasurer and City Auditor George Forman will be among those to attend.

BUTCHERS HAVE NOT RAISED THEIR PRICES

Housewives in many parts of the State were yesterday bewailing the increase in the price of smoked ham. Plainfield, however, has as yet escaped the boost in rates, although the retail dealers here, as elsewhere, are compelled to pay more than they have in many years.

A prominent Plainfield butcher said yesterday that the wholesale price of pork is higher now than it has been for thirty years. First class beef is also scarce. There is plenty of the poorer grades of beef on the market, he said, but for the real corn fed beef the retailer must look hard and pay high. He accounts for the situation by the large export trade which the packers of this country have acquired in the last few years. This trade, he said, was increasing constantly, so that the cattlemen are unable to supply the large demand.

It takes about five years, he explained, to increase the herds of cattle as younger cattle make poor beef. So that by the time the herds are increased to any size it becomes necessary to make a further enlargement on the ranches to accommodate the demand.

The Lure of the Mask

By HAROLD MAC GRATH

Copyright, 1908, by the Bobbs-Merrill Co.

He was not expecting this tongue. Besides, his German had never been a finished product. For all that, he made a passable reply.

"You speak as many languages as a Swiss hotel concierge."

"I wish I did. My mother had one idea in regard to my youth—I should speak four languages and eventually become a great diplomat. My mother had one of the loveliest voices. It was a joy to hear her speak, now Italian, now German, now French. We were great comrades. It was rare fun to go with her on an antique hunting expedition. They never fooled her nor got the better of her in a bargain."

She liked the way he spoke of his mother.

"But you," he said—"you are not Italian?"

She smiled.

Her fingers stirred over the keys again, and Grieg's "Papillon" fluttered softly from flower to flower.

CHAPTER VI.

INTO THE FOG AGAIN.

PRESENTLY she spoke, still playing softly.

"My father was an American, my mother Italian. But I have lived in Europe nearly all my life. There! You have more of my history than I intended telling you." The music went dreamily.

"I knew it! Who but an American woman would have the courage to do what you are doing tonight? Who but one of mine own countrywomen would trust me so wholly and accept me so frankly for what I am—an American gentleman?"

"Softly!" she warned. "You will dig a pit for your vanity."

"No. I am an American gentleman, and I am proud of it, though this statement in your ears may have a schoolboy ring."

"A nobility in this country? Impossible!"

"Not the kind you find in the Almanach de Gotha. I speak of the nobility of the heart and the mind." He was very much in earnest now.

"Indeed!" The music stopped, and she turned. She regarded his earnestness with favor. He continued:

"I have traveled much. I have found noblemen everywhere, in all climes, and also I have found beasts. Oh, I confess that my country is not wholly free from the beast! But the beast here is a beast—shunned, discredited, outcast. On the other side, if he be mentioned in the Almanach, they give him sashes and decorations. And they credit us with being money mad! It is not true."

"But, if you are not money mad, why these great fortunes?" dubiously.

"At a certain age a fortune in this country doubles itself without any effort on the part of the owner. Few of us marry for money, and when we do we at least have the manhood to keep the letter of our bargain."

"And when you marry?" she queried.

"Well, it is generally the woman we love. Dowries are not considered. There is no social law which forbids a dowerless girl to marry a dowerless man," laughing. "But over there it is always and eternally a business contract simply. You know that."

"Yes, a business contract," listlessly. "But they talk of nobility on the other side. That is it; they talk, talk—Italy, France, Germany! Why, I had rather be the son of an English farmer than a prince on the continent. And I had rather be what I am than the greatest nobleman in England."

"Go on, go on! I like it. What do you call it—jingo?" she laughed.

"Call it what you will. Look at the men we produce. Three or four hundred years ago Europe gave us great poets, great artists, great soldiers, great churchmen and great rascals. I admire a great rascal when he is a Napoleon, a Talleyrand, a Machiavelli. But a petty one! We have no art, no music, no antiquity, but we have a race of gentlemen. The old country is not breeding them nowadays."

"Signora, dinner is served," the maid announced.

"Signora!" thought Hillard.

"After you, Mr. Hillard," she said.

He bowed and passed on before her, but not till he had passed did he understand the maneuver. To follow her would have been nothing less than the temptation to pluck at the strings of her mask. Would he have touched it? He could not say.

That dinner! Was he in New York? Was it not Bagdad, the bottle and the genii? Had he ever, even in his most romantic dreams, expected to turn a page so charming, so enchanting or so dangerous to his peace of mind, a game of magical hide and seek?

And she? A whim, a fantastic, unaccountable whim—the whim of a woman seeking forgetfulness, not counting the cost nor caring, simply a whim.

On the little table was a Tuscany brass lamp of three wicks, fed by olive oil. It was sufficient to light the table, but the rest of the room was sunk in darkness. He half understood that there was a definite purpose in this semi-illumination. She had no wish that he should by chance recognize anything familiar in this house.

"May I ask you one question?" he asked.

"No," promptly. There was something in his eyes that made her grow wary of a sudden.

"Then I shan't ask it. I shall not ask you if you are married."

"And I shall not say one way or the other."

She smiled, and he laughed quietly.

A running conversation; a fencing match with words and phrases; time after time she touched him, but with all his skill he could not break through her guard.

"And that interesting dissertation on the American gentleman?" she said lelly.

"That's the trouble with posing as a moralist. One must live up to the precepts. Would you believe me if I told you that at the age of three and thirty I am still heart whole?"

She deliberately drew a line across the center of the table.

She parried, "I trust you will not spoil that excellent record by making love to me." She reached for the matches, touched off one, watched it burn for a moment, extinguished it and then deliberately drew a line across the center of the tablecloth.

"Now, what might that represent?" he asked curiously.

"A line, Mr. Hillard. The moment you cross that line that moment you leave this house. On guard!"

"Come, that is not brave. You can retreat till your shoulders touch the mat, but I must stand this side of the line, unable to reach you. And you have the advantage of the mask besides. You are not a fair fencer."

"The odds should be in my favor. I am a woman. My wrist is not so strong as yours."

"Physically, of course, I may pass the line, to reach the salt, for instance. Will that be against the rules? You have put temptation in my path."

"Bid Satan get behind thee."

"I wish I knew the color of your eyes. Behind those holes I see nothing but points of fire, no color."

"They are blue. But supposing I wear this mask because my face is dreadfully scarred?"

"Vanity, yes; but scars, never. At least never so deep as you yourself can make. You wear that mask but out of mercy to me."

Once she rose and approached the window, slyly raising the mask and breathing deeply of the cold air which rushed in through the crevices. When she turned she found that he, too, had risen. He was looking at the steins, one of which he held in his hand. Moreover, he returned and set the stein down beside his plate.

"Tell me, why do you do that?" There was an anxious note in her voice.

"I have an idea. But let us proceed with the dinner. This salad"—

"I am more interested in the idea." She pushed aside the salad and took a sip of the ruby burgundy. Had he discovered something?

"May I smoke?" he asked.

"By all means."

He lighted a cigarette and put the case near the line.

"Do you enjoy a cigarette?"

"Sometimes," she answered. "But the idea"—

"Will you not have one?" He moved the case still nearer to the line.

She reached out a firm round white arm.

"One moment," he said. "Let us understand each other thoroughly."

"What do you mean?" her arm poised in midair.

"To touch a cigarette you must cross the line to this side."

She withdrew her arm slowly.

"I shall not smoke. If I crossed the line I should establish a dangerous precedent. And I must have that idea."

"The mirror over the piano confused me. I have seen it somewhere before. Then there is that old copy of Botticelli. The frame is familiar, but I could not place it. This stein, however!" He laughed. The laughter was boyish, even triumphant.

"Well, that stein?" She was now leaning across the table, her fingers tense on the cloth.

"I bought that stein two seasons ago. This is the Sandfords' place, and you are the veiled lady who has been riding Mrs. Sandford's favorite hunter in the park."

They stood up simultaneously. In a matter of this sort he was by far the quicker. In an instant he had caught her by the wrist, at the same time drawing her irresistibly round the table toward him...

WILSON CONSENTS TO ACCEPT RENOMINATION

Friends have persuaded William W. Wilson, councilman-at-large from the Fourth ward, to change his decision not to be a candidate for renomination and election this fall. The popular city councilman had announced that owing to the increasing tax upon his time for private business interests, he would not accept renomination. His friends argued that it was a duty he owed the city to give up part of his time to its interests and he has reluctantly acquiesced.

All the other councilmen, whose terms expire, with the exception of Herbert Buxton and Frederick E. Mygatt, have arranged for the filing of the necessary petitions with the city clerk. It is said that Mygatt and Buxton will attend to the matter in the course of a few days.

CHRISTIAN FIELD.

Grace church Sunday school will not re-open Sunday, September 12. The date for re-opening will be announced at the services Sunday.

The Christian and Missionary Alliance meeting will be held in the W. C. T. U. rooms, 100 Madison avenue, tomorrow afternoon at 3:30 o'clock, and Thomas R. Francis, of Jersey City, will speak. He is also a fine singer. He will conduct the Rescue Mission meeting in the evening at the same place.

The preparatory service will be held in the chapel of the First Presbyterian church tomorrow night. The pastor, Rev. Dr. C. E. Herring, who with Mrs. Herring, has been abroad, is expected to be at this service and welcome any who may wish to unite with the church. The Sacrament of the Lord's Supper will be celebrated Sunday morning.

GIRL SEVERELY BURNED.

Mishap Disfigures Rosalin Carey's Face.

Miss Rosalin Carey, the fourteen-year-old daughter of Mr. and Mrs. James F. Carey, of Cameron avenue, is a patient at the hospital, being treated for burns about the face, the result of an accident Tuesday night. She was doing some pyrography work, when a lamp exploded setting fire to her clothing. The girl's mother, who was nearby, quickly extinguished the blaze, but not until her face was severely burned. Miss Carey was removed to the hospital at once and Dr. Albert Pittis summoned. The burns are not as serious as at first supposed and Miss Carey will not lose her eyesight as reported.

GIVES LIFE TO SAVE 12.

James Murtha Killed, but His Passengers Are Saved.

Twelve persons staying at Asbury Park owe their lives to the heroism and self sacrifice of James Murtha, a 19-year-old boy, who voluntarily faced death when a stage he was driving halted within a few feet of the railroad tracks at the Monmouth avenue crossing, in that city, leaving the horse right in the path of a mile-a-minute flyer.

The boy could have saved his own life by jumping, but he saw that if he let go of the reins the horse drawing the stage would pull it in front of the locomotive and that all of his passengers would be killed. Accordingly, he stuck to his post, and when the horse was hit his tight grip on the reins flung him to destruction beneath the wheels of the engine.

Franklin Council, No. 41, Jr. O. U. A. M., will hold a regular meeting tonight.

TRENTON OBSERVES GOVERNOR'S DAY

The first Governor's Day at which Governor Fort has been present since the hot weather sent the State administration to Sea Girt, filled the State House corridors Tuesday at Trenton with a big gathering of State leaders. All day long the men who look after the State's government or who figure largely in its affairs greeted each other as they met after vacations.

Winton C. Garrison, chief of the Bureau of Labor and Statistics, held an informal reception whenever he showed himself, while State House Custodian John Wesean and many others shared with Governor Fort the cordial welcome back from vacation.

Politics were not tabooed by any means. Most of the members of the last Legislature and most of those who aspire to Republican nomination for the next were there. All of them talked matters over with Governor Fort. Assemblyman Isaac Nichols, of Cumberland, was on hand to discuss affairs with the governor. He said that he expected to be renominated and to have as his associate former Assemblyman Lou Miller. Assemblyman Buck is not running this year.

"We are opposed by Albert R. McAllister, of Bridgeton, and Joseph H Doweler, of Vineland. Former Governor Stokes is behind them," said Mr. Nichols. "He was out yesterday campaigning for them. Miller and I have been holding meetings all over the county and have issued a statement of our principles. We stand for progressive government and the policies which Governor Fort has advocated."

COUNTY SUNDAY SCHOOL CONVENTION IN SOMERSET

The Somerset County Sunday-school Association began its annual convention in the Second Reformed church at Somerville yesterday, and at the same time celebrated the seventy-fifth anniversary of its organization. The meeting was called to order by W. W. Smalley, of Bound Brook, the county president. A prayer service was conducted by Rev. A. J. Bliss, of the Methodist church, and then followed the roll call of the townships by the recording secretary, Rev. C. J. Culp, of Bound Brook.

Rev. E. Morris Fergusson, State secretary, made an address on "The Progressive Sunday-school," and Rev. W. E. Foote spoke on "Teacher Training." During the noon recess there were conferences on "Elementary Teachers," by Miss Alice B. Hamlin; "Teachers of Boys," by Rev. A. A. Pfanstiehl; "Home Department Work," by Mr. Fergusson; "Teacher Training; Senior and Adult Class Workers," by Rev. W. E. Foote.

The interesting feature of this afternoon's session was the semi-centennial exercises, which were in charge of Rev. Dr. Le Feure, of Somerville, who was for thirty-six years secretary of the county organization. Among those who made brief addresses were Calvin D. Smith, of Bernardsville, for many years a Sunday-school worker and superintendent; William D. Amerman, one of the active workers of Hillsborough Township; Ransom Lamb, of Bound Brook, and James L. Griggs, of Somerville.

Other addresses on Sunday-school work were by Miss Alice B. Hamlin, the new State superintendent of elementary work, on "The School of Character," and by Rev. Dr. G. H. Payson, of Rutgers College.

Rev. Dr. William H. Morgan, of Newark, made an address last night.

ASKS $4,000 FOR THE HUDSON-FULTON DISPLAY.

Trenton, Sept. 9.—A general appeal to the public to contribute $4,000 for the purpose of illuminating the shores of New Jersey, along the Hudson River during the Hudson-Fulton celebration week is to be sent out by the New Jersey Commission. The last Legislature failed to appropriate $10,000 for this purpose, as requested, and at a meeting of the commission at the State house, yesterday, at which former Governor Stokes presided, the public appeal was decided upon.

The commission decided that Fort Lee, Stevens Point, Point Alpine and Cetysville should be illuminated. These are the most prominent points on the Jersey shore of the Hudson River, and the proximity of electric wires admit of a display being made cheaply.

The commission arranged for the Portsmouth to carry the naval reserve and to be used as a stake boat for the parade on water, while special boats will be used for Governor Fort and staff.

Lost Fingers in Circular Saw.

Charles L. Holstein, a cabinet maker of East Second street, whose home is at 96 Summit avenue, North Plainfield, had two fingers of his left hand cut off by a circular saw at his work shop early this morning. The little finger was taken off close to the first joint and the second finger at the second joint. The middle finger was also badly lacerated but it is thought it can be saved.

BIG PLANS MADE FOR INTERSTATE FAIR

Plans are now about completed for making this year's Interestate Fair at Trenton, the banner one in its history. There has been expended $15,000 for the newest and most sanitary sheds for housing the exhibits. The sheds are made of concrete, well lighted and ventilated.

The famous track has been made over and is now one of the fastest tracks in the East for light-harness racing. Under the auspices of the Interstate Fair Kennel Club, one of the most noteworthy dog shows of the season will be conducted on Wednesday and Thursday, Sept. 29 and 30, with Jas. Watson, of Hackensack, as the manager. In former years an extra admission was charged for the dog show; this year, however, the directors have decided to make it free. It is expected that over 800 entries will be received.

The musical program of the Interstate Fair will be of the highest class. Winkler's famous band of the Second Regiment has been engaged. This band is considered by musical critics all over the country to be the finest, from a musical standpoint, in Jersey. The band will give a concert every day of the fair.

CLOSED PORTALS.

Somerset Council, No. 41, Jr. O. U. A. M., will meet tomorrow night and consider several applications.

Plainfield Lodge, No. 885, B. P. O. E., at its meeting last night received seven applications for membership. A social session followed.

LIBRARY BIDS TOO HIGH.

Cranford Trustees in Quandary—May Cut Offer.

Six bids have been received by the trustees of the Cranford Free Public Library for the erection of a library building on Miln street. The trustees have a $10,000 donation from Andrew Carnegie for the building.

The lowest bid was $11,800. The highest bid was over $14,000. The trustees decided to consult with the attorney of the town to see if the bids could be cut down.

The trustees find themselves in the same predicament as the township committee, which desires to build a fire-house with an appropriation of $5,000 and the lowest bid received for the building was $6,300.

Mr. and Mrs. Charles Smith, of 51 Craig place, announce the engagement of their daughter, Miss Pauline A. Smith, to Arthur R. Loizeaux, of 1215 Putnam avenue, Brooklyn.

PATROLMEN CHEER FORT

Governor's Speech Feature of Ninth Annual Convention of Benevolent Association.

SAFFRON AND DOBSON SPEAK.

Chief Kiely and Councilmen Gloak and Randolph Guests of Bluecoats at Feast.

At least 2,500 patrolman from all over the State attended the ninth annual convention of the Patrolmen's Benevolent Association at Paterson yesterday, among whom were Patrolmen Messler, Flynn, Saffron and Dobson, of this city, who had as company Chief Kiely, Sergeant Overbaugh and Councilmen Gloak and Randolph as invited guests.

The features of the convention were the election of officers for the ensuing year for which there were several contests, a speech by Governor J. Franklin Fort, and a banquet at which nearly 3,000 men were seated. It was conceded to have been the most notable gathering ever held by the association and the most successful. Patrolmen Dobson and Saffron made speeches and Saffron received an ovation at the conclusion of his address.

The banquet took place at Lincoln Park and was a huge success from every viewpoint. At its conclusion Governor Fort made the address which was received with cheers by the assembled bluecoats and their guests. Governor Fort was introduced by State Insurance and Banking Commissioner Vivian M. Lewis and said in part:

"The police of the State are the best exponents of law and order. I always have an assurance of safety wherever there are police present. The State and cities should protect their police and uphold them in every way possible."

The Governor then spoke on the constitutional amendmen'ts, emphasizing especially the judiciary features.

"The best friend the policeman should have," he said, "should be the judge. I can truly say today that in Essex county I defended more policemen brought before me on charges while sitting on the bench and saved more officers from removal than any lawyer."

After defending the judiciary amendments and explaining the various provisions, Governor Fort concluded:

"Under this new system there will be but one trial judge. Cases will be immediately taken up for trial and a decision rendered. There is no appeal, with a delay of two or more years. I hope every man of you will be a missionary for that amendment."

The most imposing feature of the convention was the parade of the patrolmen. Twenty-six cities and towns were represented in the line of march which tok in the principal streets of Paterson. The convention was marked by some stirring addresses among them; those made by Patrolmen Andrew Saffron and George Dobson, of this city.

Patrolman Saffron's speech follows: "Brother members, as a representative of the Plainfield local, I urge that the same care and watchfulnes be exercised in the future as has been the case in the past for bills which may be presented to the legislature and which may prove a detriment to our respective departments.

"I must call to mind the 'Tenure of Office' act and the good results that have come of it. The class of men employed in this State since its adoption are second to none and too much credit cannot be given to the father of the act, Chief of Police Monahan, of Jersey City, until recently State President of this association. Again, the law which requires the five years' service before promotion is a law that can only work for good in the department and besides all these things meet with the approval of not only the men of the department but of the public at large.

"The police bills on our statute books of today or since this association was formed, are based on practical ideas and drawn up as referenda so that the people have a direct voice and the laws themselves are so simple that anyone can understand them. For instance, the salary or pension bills, the people alone shall have the say as to how much the men shall be paid and how their money shall be spent. Such bills as these are a credit to this association as well as to the State. There seems to be a feeling of animosity on the part of the superior officers against this association. This should not and must not be.

"I need only call to your attention bill number 54, which was drawn to dispose of the Chief of Police of Asbury Park by a political faction. You, as representatives to the Legislature will remember the

TROLLEYMEN'S CLAMBAKE

Knights of Controller and Bell-Cord Have Big Time at Bergen Point.

FITZSIMMONS THEIR GUEST.

Supervisor George Luhr Acts As Toastmaster—Special Trolley For Trip.

The clambake held at Meiser's Casino, Bergen Point, last night, under the auspices of the motormen and conductors of the P. S. R., of the central division, was a great success. There were sixty knights of the controller and bell-cord, together with several guests, in the party, including "Bob" Fitzsimmons, who was the special guest of Supervisor George Luhr, who planned the affair.

The motormen and conductors left here on a special trolley car for Elizabeth, where they boarded a New Jersey Central train for Bergen Point. Upon their arrival there was a special trolley in waiting to convey the party to Meiser's Casino.

The "bake" was one of the best and was prepared and served in Meiser's finest style. There was an abundance of good things to eat and the way the men put away the clams was a caution. It is said that they exhausted the supply completely.

Supervisor George Luhr was the toastmaster, and both he and Division Superintendent J. J. Gettings made speeches. "Bob" Fitzsimmons also favored the gathering with some of his latest stories, in which he related some of his experiences while abroad. It was about 12 o'clock when the men reached Plainfield on the return trip.

The committee in charge of the outing comprised Supervisor George Luhr, W. J. Davenport, M. J. Walsh, Hugh Higgins, Dan. Carroll, while M. J. Nevius was the treasurer and Patrick Marron the assistant treasurer.

HOLTON WILL CONTEST WAS RESUMED TODAY

The hearing in the Miss Mary E. Holton will contest is being continued before Judge Schenck in the Somerset County Orphans' court at Somerville today. At the first hearing on Tuesday, August 25, there was a large number of interested persons present in court, including the relatives who are trying to have the will probated and those who are endeavoring to prevent this action.

Mrs. Nellie Barnes, the nurse, who attended Miss Holton during her last illness, was called as a witness this morning and she was still on the stand at 2:30 o'clock this afternoon. It is the opinion that she is the only person who will be examined today.

Mrs. Barnes was one of the signers to the last will and in her testimony she described minutely the happenings during Miss Holton's last days and hours and at the time of the signing of the will. She declared that Miss Holton was a very sick woman when the will was signed, but she would not admit that she did not know what she was doing, a fact implied by those who seek to prevent the will being admitted to probate. Thus far she has made an excellent witness for those who want the will probated.

William A. Coddington, of the firm of Reed & Coddington, represent the executors, who want the will probated. Col. Nelson Y. Dungan and A. M. Beekman, of Somerville; A. Streitwolf, Jr., of New Brunswick, and Winfield S. Angleman, of this city, represent relatives who seek to prevent the admission of the will, while Hugh K. Gaston is counsel for former Sheriff Edward E. Cooper, the administrator of the estate.

William Waldron.

William Waldron, of 27 Summit avenue, died at his home, last night, from a complication of diseases, aged about sixty-five years. He was a native of Springdale, Somerset county, and for many years was engaged in business as a mason. He had been a resident of the borough for a number of years. He is survived by a wife and several children. The funeral will be held from the late home, Sunday afternoon and the burial will be at Springdale.

DOLLAR DINNER OF G.O.P.

Booms Launched at Gathering of Rahway Republican Club.

COUNTY OFFICEHOLDERS THERE

Commissioner of Banking Lewis and Others Address the Three Hundred Diners.

The dollar dinner held in the Auditorium, Rahway, last night, under the auspices of the Rahway Republican club, was a great success and was attended by many persons prominent in political affairs throughout the county. Those from this city were County Register F. H. Smith, Councilman Herbert Buxton, Andrew McCardell, Overseer of the Poor A. D. Ayers and John H. Cose. The large hall was taxed to its utmost to accommodate the crowd, for which 300 covers were laid.

Mayor Charles B. Holmes, who was chosen for toastmaster, was equal to the occasion. Having positively refused a re-nomination for office, he had a free hand and he did not mince words in introducing the speakers of the evening. Of the announced list of speakers, only one failed to appear. That was Senator Thomas J. Hillery, who was called to Buffalo on business.

The speakers were Vivian M. Lewis, commissioner of banking and insurance, whose boom for Governor has been launched; the Rev. William Torrence Stuchel, pastor of the Second Presbyterian church, Rahway; Dr. William H. Madison; County Register F. H. Smith and County Clerk James C. Calvert.

The dinner was noted for several things. Harry Simmons, a prominent and influential citizen, was boomed for Mayor, and he will doubtless receive the nomination. Dr. Holmes, who has refused to become a candidate again for the Mayoralty, was boomed for coroner, and there seems to be no doubt but that he will get the nomination. This will be in the nature of a remembrance for taking away the assembly nominee and giving it to Westfield, Lloyd Thompson, of that place, being slated for the nomination.

Booms were also launched for former Freeholder Adolph H. Gruener and Health Commissioner W. H. Randolph for freeholders. In addition to the speechmaking part of the program, T. Arthur Baker, of New York, entertained with monologues and musical numbers.

Among other county notables present were Assemblymen Carlton B. Pierce, Augustus Schwartz, Albert F. Kirstein and Sheriff Robert J. Kirkland.

WOULD CUT HIS HEAD OFF; JUDGE THOUGHT DIFFERENT.

Ralph Dilitoro, an Italian, who works for A. C. Marsh, of Hillside avenue, was a complainant in the city court this morning against Foskino Savano and Joseph Romano, whom he accused of threatening to cut his head off. When sifted out the trouble was found to be that Dilitoro failed to keep a promise to pay back to Romano seventy-five cents he had borrowed from him after engaging him to do a day's work at a house on Hillside avenue.

City Judge Runyon through an interpreter got at the true state of affairs and concluded that Savano and Romano had no murderous intentions against Dilitoro and suspended sentence. Dilitoro squared up with Romano before the trio left the court room. Detective Sergeant Flynn arrested the two accused Italians.

Nearly Lost His Hand.

Frank Richeimer, of Greenpoint, L. I., who with his mother is visiting at the home of his uncle, James Colvin, of West End avenue, is recovering from a severe case of blood poisoning in the hand. It started from a bruise the result of exercising on a horizontal bar. A few days ago it was found necessary to seek the service of a physician and Dr. P. J. Cregar was called. He was obliged to perform an operation, which probably saved the boy's hand. He is now improving rapidly.

SENATOR ACKERMAN HOME FROM EUROPE

State Senator Ackerman returned on the Deutschland yesterday after an eight weeks' trip through Europe. While there he saw former State Senator Charles A. Reed, who with his family, has been making a trip around the world.

Not having been in touch with the situation while abroad, Senator Ackerman asked to be excused today from discussing State politics. He said that the rest had done him much good. The Senator was accompanied by his wife, it being their annual custom to spend the summer in Europe.

FUNERAL SERVICES OF GEROME PACK

The funeral of Gerome Pack was held from the late home on Park avenue at 2 o'clock this afternoon, and was largely attended, especially by many of the older residents. Rev. Dr. J. A. Chambliss, pastor of the First Baptist church, officiated.

Mr. Pack was the oldest member of the First Baptist church and of Plainfield Lodge, No. 44, I. O. O F. Members of the lodge attended, although they had no part in the service. There were a number of beautiful floral tributes. The interment was in Evergreen cemetery on Plainfield avenue.

Mr. Pack, who was eighty-nine years old, was born in Scotch Plains, but resided in this city practically all his life. In the early fifties he conducted a restaurant in the old New Jersey Central station and later engaged in business as a confectioner. During his business career he accumulated a considerable sum. He is survived by one son, Edmund W. Pack.

HARRIMAN FUNERAL SUNDAY AT ARDEN

Turner, N. Y., Sept. 10.—With a simple ritual service in the presence of the family and intimate friends only at Tower Hill, Arden, the body of E. H. Harriman, who died yesterday afternoon, will be laid to rest on Sunday afternoon.

This announcement was made officially by Robert Livingston Gerry, Mr. Harriman's son-in-law, this morning.

The service at Arden House will be conducted by the Rev. Dr. J. Holmes McGuinness, rector of St. John's church, Arden. Following the service the funeral procession will make its way down the mountain to Arden cemetery where the interment will be made in a grave adjoining the grave of Mr. Harriman's eldest son, Edward H. Harriman, Jr. The grave will be blasted out of solid rock.

Democratic Candidates.

The Democrats of Union county have changed their minds regarding the naming of candidates for the offices of county clerk and county registrar, and today it was announced that J. Logan Fay would probably be nominated for county clerk and George Schotterer for county registrar. Both reside in Elizabeth.

Miss Marguerite Burnet, of Madison avenue, has returned from the Berkshires.

In childhood's happy hours we learned that Peter holds the keys,

FIGHT OVER HETFIELD'S WILL AT ELIZABETH

The fight over the will of the late Orrin Hetfield was continued in the Orphans' court, before Judge Atwater today, in Elizabeth and witnesses for Gallagher, the beneficiary under the will, were being examined. The amount of the estate is said to be about $8,000, and the entire property of the old man was given to Gallagher who was formerly proprietor of the Dog Tavern at Fanwood and who now runs a hotel at Roselle.

It was claimed by witnesses examined yesterday that Gallagher exercised an undue influence over Hetfield owing to the latter's love for liquor. William Hetfield, of Fanwood, is trying to break the will of his brother on these grounds. A neighbor of Gallagher testified yesterday that while Hetfield lived at his place he was dressed in rags often going barefoot even in winter and did menial tasks about the Gallagher establishment.

Judge William Newcorn and Walter Hetfield, Jr., represent the brothers of the dead man, while Charles A. Trimble, of Elizabeth, is looking after the interests of Gallagher.

ANNOUNCE SPEAKERS FOR G.O.P. SI. DINNER

United States Senator John Kean will act as toastmaster and two possible candidates for the Gubernatorial nomination will speak at the annual dollar dinner to be held at Turn Hall, Elizabeth, on Wednesday night, Sept. 22. They are State Senator Joseph Sherman Frelinghuysen, of Somerset, and Commissioner of Banking Vivian M Lewis, of Passaic. Judge William N. Runyon, of this city, and State Senator Ernest R. Ackerman, of Union, will also respond to formal toasts. The subjects have not been announced.

The dinner will be attended by at least 300 of the more prominent Republican workers in the county without regard to present or past factional affiliations.

Looked Suspicious to City Judge.

AGREE ON N. B. SMALLEY

Borough's Former Executive Consents to Accept Nomination for Mayoralty.

CONFERENCE AT PARK CLUB.

Councilman Van Arsdale to Be Renominated—Mr. Hudson May Succeed Councilman Waldron.

Representative taxpayers of the borough gathered last night at the Park Club to discuss the political situation in North Plainfield and incidently to decide on a man to succeed Samuel Townsend as mayor. Before they had proceeded far it was found that the consensus of opinion was centered on one man. In fact he was the unanimous choice. His name is Newton B. Smalley.

Former Mayor Benjamin A. Hegeman called the meeting to order and was selected as presiding officer. After he had outlined the purpose of the gathering, he called on those present for remarks. Each one had something to say, but the speeches were purely informal in character. They were plain-spoken utterances and the gist of the talk was that there was only one man who would fill the bill. Mr. Hegeman sent for the man and when he appeared he was taken by surprise. "Newt, we want you for mayor again" was the salutation with which he was greeted.

Mr. Smalley thanked the conferees for their compliment after he had listened to what Chairman Hegeman had to say. The former mayor shook his head in the negative as he pleaded that he had served the borough long in that capacity and did not think it right or fair to be called upon again. Arguments were brought to bear on him in a jiffy. He was told that he was the unanimous choice of the gathering and that while they did not pretend to speak for the Republican party or for the voters in general, they knew that they had but reflected the sentiment of the great majority in deciding upon him. Finally, Mr. Smalley reluctantly consented—and a cheer went up.

Without losing any time, Chairman Hegeman had a formal petition prepared and those present affixed their signatures. It was then sent to Tax Collector George Brown's office where all Republicans may sign it.

The talk drifted to Councilmanic nominations. The terms of two members, Morris C. VanArsdale and Brazilia R. Waldron, expire and there was some discussion as to their successors. Mr. VanArsdale was persuaded to accept renomination. There is talk of nominating William Hudson in place of Mr. Waldron.

Among those at last night's conference were Recorder Charles M. Dolliver, former Councilmar. Charles A. Lee, District Court Judge Isaac P. Runyon, former Councilman Jas. K. Arnold, Daniel Hulick, Charles Debele, former Mayor B. A. Hegeman, Edmund Rushmore, Councilman M. C. VanArsdale, former Councilman John P. Emmons, Alexander Milne, Councilman William L. Smalley and W. F. Williams.

When seen today, Mayor Smalley said that he did not desire to serve again because his private business interests demanded his time but that if the people wanted him he felt it his duty to do so. "It's like that saying of Grover Cleveland's," said Mr. Smalley. "'The office should seek the man and not the man the office.' I've been mayor so much that I think some other fellow should get in harness. It means a whole lot of work and hard work, too. It is not an easy job to please the people, but if you are 'on the square' and do what you think is for their best interest you won't have much trouble. Yes, I'll run for the office again, but I wish some other man had been selected."

Mr. Smalley was first elected mayor of the borough in 1899. He served for five consecutive terms, retiring January 1, 1908. His regime was the longest in the history of the borough. A year ago Mr. Smalley was appointed by the Governor as a member of the Somerset County Board for the Equalization of Taxes.

Successful Furnace Fires

PATENTED

The BOYNTON Square Fire Pot

makes tending the furnace easy, but best of all it makes a joyous fire. Round fire pots burn strongly through the center with a rim of half dead clinkers at the edge and when you shake the fire the middle drops out. You've noticed it. Fires built in BOYNTON Square Pots are all live coals. A shake down is an even shake. The whole fire settles. There is no waste. The fuel being equal, a square pot will develop almost twice the heat, or the same heat for about half. The square pot is our patent and can be had only in the BOYNTON furnaces. We have a dealer in your town. He will be glad to show you.

There are BOYNTON heating plants of all kinds. Ask about our Round or Sectional Boilers for Steam or Hot Water. Also Ranges.

DIVORCE FRAUD LAID TO ELIZABETH WOMAN.

New York, Sept. 9.—For the first time since the law was passed requiring a period of three months to elapse between the finding and the final signing of a divorce decree, a defeated litigant has asked the Supreme Court to vacate the decree, upon the ground of fraud, to prevent which the law was enacted.

August V. Vanderpool, counsel for F. K. Lowrie, asked Justice Giegerich yesterday to grant an order compelling Mrs. Marian G. Lowrie to show cause why the divorce decree becoming operative on September 11 should not be set aside, upon the ground of fraud. Lowrie charged that his wife testified that she had not condoned her husband's misconduct, and that the suit was not one of connivance, where as there had been an agreement between them about the divorce. Justice Giegerich granted the order.

F. K. Lowrie is said to have been a secretary of Charles G. Gates, while Mrs. Lowrie is a daughter of Judge F. H. Gillhooly, of Elizabeth.

ATTACK PRIMARY LAW IN THE SUPREME COURT.

Argument was heard yesterday by Justices Swayze, Minturn and Trenchard, of the Supreme Court, at Trenton, in the case of Heath and Milligan, two Hudson county men who have been attacking the right of Republican Leader John Rotherham, of Hudson county, to say what committeemen are to be elected to the Hudson county committee at the coming primaries.

The "New Idea" wing of the Republican party wants a writ of mandamus compelling the election of an entire new committee instead of electing those members whose terms Mr. Rotherham says run out.

The new law for the electing of county committeemen is involved in this controversy, the Rotherham people saying that it is unconstitutional on technical grounds, and especially because the Hudson county Republican county committee has $15,000 worth of property owned by the members, whose rights cannot be upset by legislative enactment. No decision was given.

The Shadow of the Autumn Leaf Has Fallen Upon Silks and Dress Goods

It's delicate tracery can be seen in these shimmering, rustling silks, the beautiful cloths and other dress fabrics which are beginning to peer forth in this store. The new colorings are here filled with the somberness of Fall and reflecting the darkened tones of the forest verdure, after the first chill wind has come.

In a word this stock is a picture of Dame Fashion's choice in the New Silks and Dress Goods. It tells in a masterful manner what the women in the great fashion centres will be wearing this season.

Our stocks is the result of month's of labor. We have studied the style trend in the big cities, marking well the weaves and the colorings which were most in demand. The result of this study is shown in the completeness of our stocks, and their magnificence.

The thought of the new Fall gown is uppermost now. Come and study the style effects in silks and dress goods at this store.

Doscher, the former Brooklyn National League club twirler, is now playing with "Dave" Driscoll's New Brunswick team and has made a hit.

Elizabeth A. A. vs. Plainfield Baseball club at Crescent Oval, tomorrow, should be a strong attraction. Ortleib and Brewer will do the pitching and both men will be supported by a strong combination.

The New Brunswick Times remarks: "'Warry' MacLaughlin still has his old fault, a superfluity of the milk of human kindness. By this we mean that his generosity is such that it reacts upon him, and his team mates. We rather prefer a stingy pitcher."

New Brunswick is baseball crazy and "Dave" Driscoll's aggregation has got the fans into the notion that there is no other team quite so good.

It is not likely that Scotch Plains and Plainfield will meet again this season. It would be useless, considering the present conditions. The teams whenever they have played have aroused intense rivalry and as long as some players refuse to abide by the decision of the umpire there is scarcely any need of playing.

New Brunswick and Bound Brook will meet again tomorrow and the wise ones say that "there will be something doing." Driscoll is just aching for a chance to get even.

The game of Sunday baseball which was introduced for the "poor workingman" afforded an excellent illustration last Sunday in the vicinity of Westfield Junction, where a bunch of "rooters" was returning home from a contest near Rahway. About half of the number was in an intoxicated condition, and judging from appearance were never known to work. When they boarded a main line trolley car they made it mighty uncomfortable for the other passengers.

The Plainfield A. C. and Climax A. C. will meet on St. Mary's Oval, better known as Hope Common, tomorrow afternoon. The teams are very evenly matched and a good contest should result. The Climax A. C. will present a novelty for the first time, when nine Terrys, all brothers, will be in the lineup. This will be the first time since the days of the famous Woodbridge Browns, that so many brothers have appeared on one team. Manager Pope says that one Slocum is a match for nine Terrys.

The local amateur teams have furnished plenty of good baseball this season, while the Plainfield Baseball club has made every effort to bring the best teams possible to this city.

GOLF.

The attraction at the Plainfield Country Club tomorrow will be the weekly competition for the Fall Handicap cups, Classes A and B, which was started last week. As most of the members have returned, a large field is looked for and the competition will doubtless be keen.

In addition to the weekly competition for the President and Golf Club cups at the Park Golf Club, tomorrow, there will be play for the club championship, the qualifying round of which was played on Labor Day. Tomorrow the first round will interest the members.

Besides the golfing events there will also be tennis at the Park Golf Club tomorrow. There are a number of enthusiasts who are reviving interest in the game.

There will be a dinner-dance at the Plainfield Country Club tomorrow night, music to be furnished by a stringed orchestra. The improvements at the clubhouse now being completed, they afford additional comfort and conveniences for the members.

The women golfers of the Plainfield Country Club will soon resume their schedule for the fall months. In the spring several interesting events were arranged and brought out a number of women contestants.

Mrs. N. Pendleton Rogers, who has been sojourning out of town for several weeks, has been keeping up her game of golf, and upon her return she expects to continue playing on the local golf courses, principally Baltusrol.

Several new members of the Plainfield Country Club have been figuring lately in the events at the club, and have proved formidable opponents in the contest for points.

The tennis events arranged for the fall at the Plainfield Country Club is sure to awaken considerable interest among the devotees of the game. Tomorrow the men's singles for the club championship will be continued from last Saturday. The women's singles for the club championship will also be started.

AGED CRANFORD MAN HAS ODDLY VANISHED

Mystery surrounds the disappearance of Philip Jahn, of Cranford, who has been missing from his home in that place since August 31. Mr. Jahn is 71 years old.

Herman Lodge of Free and Accepted Masons of Cranford, of which Mr. Jahn was a member, has been asked to look for the missing man. The Cranford police have also been ordered to be on the lookout for him.

When Mr. Jahn left home he wore a blue coat, light trousers and waistcoat and a straw hat. He had blue eyes and an iron gray moustache.

There seems to be no explanation of Mr. Jahn's disappearance. When he left he gave no intimation that he would be away longer than usual, and he did not have much money with him. Relatives and friends in other cities have told his wife that they have not heard from him. There is no reason to suspect foul play.

Mr. Jahn is well known in the county. He is a master painter and decorator and has been in business for many years.

MAY BUILD A NEW HOME FOR ORPHANS

Providing the proposed orphan asylum shall be built in Union county and by all the Roman Catholic churches in the county in common, the Rt. Rev. John J. O'Connor, bishop of the diocese, is reported to have consented to allow the asylum to be built.

The Very Rev. Martin F. Gessner, of St. Patrick's church, Elizabeth, received a letter from the bishop about a month ago saying that he would not consent to the project. Dean Gessner has been planning for the asylum for years, and has raised a large sum of money for it. He had purchased a site at Second street and Broadway, Elizabeth.

Dean Gessner was in favor of a plan of building the home near the school and church property in Court street so that the children could receive the advantage of religious training and education in St. Patrick's grammar and high school.

It is evidently Bishop O'Connor's intention to have an orphan asylum built which would be a benefit to the orphans of the several local Catholic parishes.

VETERANS MEET IN RED BANK REUNION.

Attorney-General Edmund Wilson welcomed the few survivors of the Twenty-ninth Regiment of New Jersey at their twentieth annual reunion held at the Y. M. C. A. hall at Red Bank yesterday. Remarks were also made by Grand Chaplain W. T. Abbott, of Asbury Park. The following officers and committeemen were elected:

Honorary president, Major J. T. Field, of Middletown Township; president, James Campbell, of Long Branch; secretary, T. Con. Morford, of Long Branch; treasurer, W. L. Atkinson, of Asbury Park, executive committee, W. L. Lippincott, Long Branch; S. C. Omerod, Asbury Park; William Cook, Monmouth Beach; Uriah Seeley, Orange; W. C. Hulse, Marlborough; John Banton and Charles Curtis, Red Bank; B. L. Lawrence, Elizabeth; W. L. Atkinson, Asbury Park; David E. Wooley, Matawan.

At the afternoon session Attorney-General Wilson, the Rev. Dr. H. Rdigely Robinson and Charles H. White, of Red Bank; John Foster and Peter Morrison, of Asbury Park, and Victor B. Kenny, of Holmdel, were elected honorary members. Dinner was served by the King's Daughters, who were given a vote of thanks.

Secretary Morford reported the deaths of Comrades H. B. McCabe, A. Wallang, John Hillhouse, John Vanderbilt, Robert Miller, H. John Wanamayer, Benjamin Doughty and Cornelius Pearce.

Long Branch was selected as the next place of reunion.

Plainfield, N. J., September 10, 1909.

THE RIGHT MAN.

Newton B. Smalley will be the next mayor of North Plainfield. That decision was made at a gathering of representative men of the borough last night and unquestionably their choice will be ratified by their fellow Republicans. Granting this, in the face of the hopeless minority of Democrats, he will naturally receive an overwhelming majority should the opposition party name a candidate.

The selection will be a wise one in every sense of the word. Previous to the election of Samuel Townsend, the candidate of both parties two years ago, Mr. Smalley had served the borough in that capacity for nine consecutive years. The period was one of unprecedented progress and growth. Improvements almost innumerable were made under his regime and when he left the office he did so against the wishes of the big majority of the taxpayers who had found in him a capable executive. It is certainly good news to learn that he consents once more to assume the reins of government.

IT PROVES THE RULE.

The reliability of the public press was well demonstrated in the case of the late E. H. Harriman. Despite the repeated statements of men of public reputation who were personally near to the railroad king that he was only slightly indisposed, the newspapers told the people long ago that the magnate was a doomed man. These declarations met with persistent denials from the specialists and from the barons of Wall street, from all of whom the truth might and should be expected. But newspapermen are accustomed to such conditions and gave little or no credence to such sources of information. Such things as these happen every day. Men of wide reputation in all walks of life will deliberately misrepresent facts when it is for their own purpose and nothing is thought of it, but let a newspaper unintentionally be guilty of such an offense and the cry goes up "you can't believe what the newspapers say."

Doesn't it occur to Governor Fort that it's time for action, not for talk, when it comes to Atlantic City's defiance of the law?

PLAN FOR CONVENTION

Arrangements Made for State Gathering of Christian Endeavorers.

THE FOUNDER TO BE HERE.

Union Service on Wednesday, October 6, Will Inaugurate the Three Days' Session.

At a meeting, in the Temple Baptist church, last night, of the local committee having charge of the details of the State Christian Endeavor convention to be held here October 6, 7 and 8, the provisional program was discussed and a favorable report was received regarding the official program. It is expected that both will be ready for announcement within a few days. A large chorus choir will be present at the convention meetings, in charge of Frank Stewart. Charles L. Lewis, as musical director for the Endeavor Union, will train the choir. All persons who can sing and who desire to contribute their services are requested to make the fact known as soon as possible.

The first meeting of the convention will be held on Wednesday night, October 6, and will be a union public service in which all the local churches will unite. The midweek prayer-meeting services for that night will be given up for the big gathering. It is expected that J. T. Sproull, State president of the Endeavor Society, will be in charge. The actual business of the convention will be transacted on Thursday and Friday, concluding Friday night with a meeting of unusual interest. Rev. Dr. Francis E. Clark, the father of the Endeavor movement, will address the gathering, coming to Plainfield especially for the purpose.

The Endeavorers are planning to give Dr. Clark a rousing reception and make the event a noteworthy one in every detail. Many of the delegates to the convention will not reach Plainfield until Thursday morning, when the first business session will be held. Owing to limited accommodations, the general public will not be admitted to the business meetings, as there will be so many delegates to be provided for and who of necessity must attend.

DUNELLEN SCHOOL BODY SELECTS NEW PHYSICIAN

The Dunellen Board of Education at a regular meeting, last night, appointed Owen Mohan a truant officer for the coming year, and the resignation of Dr. Daniel Main, as school physician, was received and accepted. He has moved to Jacksonville, Fla., where he will practice, and for this reason relinquished the job. Dr. T. H. Platt was named as his successor, and a committee was appointed to wait on him and ascertain whether he would accept. It is believed he will.

A number of repair bills were ordered paid and the failure of Walter G. Clawson, contractor to complete the addition to the school building by August 1, as agreed, was commented upon to some extent. Excellent reports were received regarding general school conditions, the enrollment being large this year. The schools re-opened for the fall and winter terms on Tuesday with the new principal, Guy Rentchler, formerly of Roselle, in charge. He is the only new teacher this year. Principal Davis, whom he succeeds, has taken a position teaching a school near Perth Amboy.

MORRISTOWN MAYOR IS SEEKING ANOTHER TERM.

Morristown, Sept. 9.—It was announced Wednesday that Mayor Theodore Ayers was a candidate for renomination. David F. Barkman was selected as the safest man to circulate a petition for signatures to Ayers' petition, and thus the Republicans are now appealed to to support Mr. Ayers.

It was at a private meeting he'd somewhere around the park, for no one at the meeting cares to say where it was held, that Mr. Ayers was decided upon as the candidate. Of course, this does not prevent any other Republican from circulating a petition for the nomination, but it settles the choice of the local machine. Ayers is the machine candidate. Mr. Barkman said this morning it was true he is obtaining signatures to the Ayers petition.

"The Mayor was selected at a private meeting as the candidate, wasn't he?" Mr. Barkman was asked.

"Oh, well, now, don't call it a meeting; just a gathering of ward committeemen."

"Where was the meeting held?"

"Never mind about that," was the reply.

The Democrats are hopeful of carrying Morristown this fall. They are looking to Alderman John F. Conkling to run for Mayor and believe he can win. Mr. Conkling has a good record in the Board of Aldermen and is regarded as a hustler for votes.

Plainfield in .... The Olden Days.

Re-printed from The Weekly Constitutionalist

January 26, 1871.

Messrs. Spicer and Hubbard are putting in a new boiler at their Sash and Blind Factory of greater capacity than the old one, to faciliate their increasing business. They will soon be at work again.

Mrs. Jean Marc, of this city, received the first prize, $15.00, in class D., for the best specimen of Darned Garments, awarded by Orange Judd & Co., proprietors of Hearth and Home.

The congregation of the Reformed Church, Second St., will hold worship at Laing's Hall until the completion of their edifice, which is undergoing repairs.

The new firewell corner of Fourth and New Sts., is about completed, and undoubtedly will prove an excellent well in case of need. It has a 6 ft. 6 inch funnel and 6 feet of water. When the springs are again supplied with an abundance of water, the well will be deeper than any other firewell in the City. Now is the time to dig more of them while the water is low.

The pupils of the North Plainfield Public School will give an entertainment in Warren Mission Chapel, Friday evening, Jan. 27th, at 7 o'clock. Admission 25 cts. Children 15 cts. The exercises will consist of Declamations, Dialogues and Singing. The proceeds are to be appropriated to the purchasing of a Library for the School. We hope our citizens will attend this entertainment and help the good cause along.

Attention is directed to the advertisement of Ackerman & Hoagland, which will be found in another column. These gentlemen having bought out the establishment of E. D. Bellis are now offering to the public an assortment of first class groceries, which they sell low for cash. They are the right kind of men to deal with, as will be found by giving them a call.

COPPER IN RUSSIA.

Consul General Hunter Sharp, of Moscow, furnishes the following statistics covering the output of copper in Russia and the outlook for enlarged production:

The production of copper in Russia amounted to 10,306, 14,554 and 16,591 tons in 1906, 1907 and 1908 respectively, showing a steady increase. Deposits of copper in the Caucasus present vast opportunities, and enormous beds of corrolies exist in Central Russia and in the Dniester basin, the quantities in the latter alone being estimated as high as 27,000,000 tons.

The production in the several districts in 1908 were as follows, in tons: Ural, 8,429; Caucasus, 4,780; Siberia and Kirghis, 2,416; all othe districts, 966. The consumption of copper in Russia in 1908 was as follows: Produced in the empire, 16,478 tons; imported, 4,855 tons; total, 21,333 tons, less 113 tons exported. The prices of copper in Moscow during 1908 ranged from 61.75 to $8.50 per pood of thirty-six pounds.—Consular Reports.

PATROLMEN CHEER FORT

(Continued from page 1.)

hasty call for assistance to the Asbury Park local and the result. The bill died in the hands of the Committee. Such results as these should prevent any such feeling as I think exists.

In conclusion I would ask each representative to remember that what is a benefit to your local is a direct benefit to the people you represent and what is a detriment to you is a detriment to your people.

Patrolman Dobson had this to say to his fellow members:

"The Plainfield branch of the Patrolmen's Benevolent Association was organized December 8, 1908, and was incorporated August 2, 1909. With eighteen out of the twenty patrolmen of the department enrolled, and the three superior officers as honorary members, the association has prospered and holds popular favor among the citizens of Plainfield.

"The objects of this association are to unite fraternally and to give all moral and material aid to members in good standing and to establish a sick and death benefit fund, and we are accomplishing our purpose. It was not until the patrolmen in the local police department organized and became incorporated that its principles were valued generally and now we enjoy the esteem of the great majority of the people of our city.

"The association has been striving to bring about a more advantageous scale of wages, something that will correspond to the salaries paid in other cities of the same class and before long we are assured we will succeed. The association has petitioned the Common Council (our governing body) for permission to submit the question of pensions for police officers to a vote of the people at the general election in November, and the members have already been assured that the effort will be successful. A majority of the Common Council favor the plan whereby two per cent. of each man's salary becomes a part of the fund to sustain this system.

"Through the courtesy of the Councilmanic Police Board, the association has been granted permission to hold a dance for the benefit of the association sometime in November. There is now a strong probability that the Westfield police department will join the Plainfield association, making it stronger than ever. The force in that town is not large enough for an independent branch and the suggestion that it unite with Plainfield will doubtless be followed."

Other speakers were Mayor McBride, of Paterson; Mayor Wittpenn, of Jersey City; Mayor Haussling, of Newark; Mayor Mravlag, of Elizabeth; Mayor Cardwell, of East Orange; Senator Hinchliffe, Vivian M. Lewis, Speaker Prince, Assemblyman Baker, of Jersey City; Chief Bimson, of Paterson; Francis B. Lee, of this city; Henry W. Weller, the retiring president, and representatives of organized labor of Essex county.

The organization, which was organized nine years ago, has 3,700 members. This year has been the most successful in its history. This was largely due to the work of former President Weller, of Newark.

The following officers were elected for the ensuing year: John Beggans, of Jersey City, president; James O'Brien, of Elizabeth, vice president; William H. Goodwin, of Paterson, secretary; E. S. Longstreet, of Asbury Park, treasurer, and John German, of Bayonne, sergeant at arms.

The Plainfield contingent report having a delightful and entertaining as well as an instructive time. The next convention will be held at Atlantic City in 1910.

Fine Bill at Proctor's.

The vaudeville bill at Proctor's is doubtless one of the best ever offered. Kelly & Catlin, "The Chinaman and the Coon," are a scream from start to finish, and a comedy banjoist, is exceptionally clever with his work. The DeVole trio, comedy gymnasts, are headliners, while Cartwright and Aldrich, in a sketch, "Alls Fair in Love," win applause.

SELF-MASTER LODGE NEW RESCUE MISSION

Probably no stranger contrast in the methods of dealing with the weak and the offender can be seen anywhere than in the outskirts of the nearby city of Rahway, where, almost side by side, stands two institutions, both of them with the same purpose in view—the betterment of mankind, but both going about the work of reformation in distinctly different ways.

One is widely known. It is the New Jersey State Reformatory, supported by State funds and backed by a mighty commonwealth. The other is the newly established Self-Master Colony, where men and boys are allowed to roam at will and do just as they like as long as their behavior is not questionable and they perform their daily toil.

Unlike the reformatory there are no prison bars nor cells, there is na harsh discipline for the unruly, no special diet, only the normal restraint such as would be in order in any well-regulated family. Each individual is put upon his own honor. This latter institution is a new departure in philanthropic work and unique in the annals of sociology.

It is the exemplification of an idea that originated in the brain of Andrew S. Floyd, a young man who for years had made a study of the problem which he is now trying to solve. Mr. Floyd, who is conducting the institution referred to, for many years studied the missions, ten-cent lodging houses and various places of like character in New York city. The short-term jail and State prison were also subjects of much consideration from him.

He saw flaws in all of them. The prison did not reform a man. It protected society, but did not improve the man. The mission and the charity home gave money and food to the unfortunate but did not give him a chance to help himself. Thus there were defects in both, according to his ideas, and so he started an institution, founded on an ideal, but quite simple as to its methods.

The Potter estate in East Hazelwood avenue, Rahway, was the spot selected for the working out of the self-master idea. The large dwelling and admirable surroundings were well adapted for a place of the kind. Mr. Floyd received sufficient funds to make a start, and now for a year has been conducting the Self-Master Lodge.

Here the various arts and crafts are taught to those who desire to learn them. Carpets and rugs are woven, brass is worked onto rare and beautiful designs, garden products are raised and other work of a self-supporting nature is carried on. As yet the institution is not on an entirely independent basis, but with the few contributions received Mr. Floyd is able to carry on the work on a small scale.

There are at present twenty-two persons at the lodge, each trying to work out his own reformation, and in many cases succeeding. Fully 150 could be accommodated at the lodge were there sufficient funds, but more money is needed and both Mr. Floyd and Miss Lillian Kline, his secretary, are making appeals to the kindly disposed. A magazine, edited by Mr. Floyd and styled The Self Master, is sold, and this also helps to maintain the unique home.

Those who come to the home are usually young men who have been "sowing their wild oats." Many of them are the sons of the wealthy, who have gone downward in the social scale and who have not the courage to return to the early home environments. Others are the sons of the poor—the men and boys who have scarcely had a chance; who have never seen anything but the seamier side; men who drink because all their companions do likewise; who have no incentive to do better.

Mr. Floyd has many ways of getting in touch with these men and they, hearing of the "simple life" methods and kind treatment at the Self-Master colony, come to the place without urging. Their records are generally known to Mr. Floyd, and no one who has been convicted of a crime is admitted. It is the man who is an habitual drunkard—perhaps a gambler—the man who has stolen bread to keep from starving, who is wanted at the home—he who is losing in life's battle and is discouraged. There are thousands of these, and Mr. Floyd's great regret is that he cannot look after all of them.

When the day's work of seven hours is done and meals are served, the men are allowed to choose their own recreation. They sing in the parlor, play the piano or guitar, contributions from friends of the home, read the contributed books or leave the grounds and go wherever they please. There is no restraint. The men are placed on their honor and each appoints himself his own guardian. Drinking intoxicants is forbidden, but smoking is permitted. Tobacco is furnished the men and they can purchase clothing and other things with the money they earn at the home. The small wages they receive are their own, and as they do not have to pay for their board or lodging many of them save all they earn and use it when they resume their places in the world. Any time they desire to leave the home for good they can do so, but its doors are always open for their return.

Each member of the family is allowed to worship in whatever manner he chooses, there being no stipulations in this regard. The lawn and the flowers that ornament it are looked after by the inmates. The interior of the home is kept bright and clean and a personal interest taken in it by all.

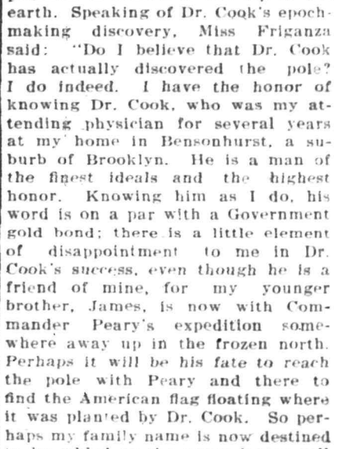
The place has a home-like atmosphere and cheerful air. In the rear there is a large frame building where the men weave rags into carpets and rugs and do other work. Mr. Floyd is their teacher, studying all the crafts that he may be able to instruct those under his care. The implements of industry in use at the lodge are by no means adequate. There is a loom inuse which is probably 200 years old, and it is to remedy defects of this character that Miss Kline and Mr. Floyd have appealed for aid.

Mr. Floyd will speak at the League House, Metuchen, on Tuesday night. His subject will be "The Homeless Man."

LOCAL AMUSEMENTS

There is a keen interest manifested by the local amusement lovers in the engagement of Joseph M. Weber's much-heralded comedy drama, "The Climax," by Edward Locke, which is announced as the attraction tonight at the Plainfield theatre. "The Climax" is said to be the real thing of the year in a theatrical way, and comes highly endorsed by the critics of New York and other cities, wherever the play has been seen this season. The play has achieved a most brilliant triumph at Weber's theatre, New York, where it is attracting large and delighted crowds. Never before in the history of New York theatricals has a play received such flattering comments from the dramatic critics of the metropolis as "The Climax;" for without one dissenting voice they proclaimed it the play of the year. It is a drama which makes a particularly strong appeal to lovers of music, for the manner in which music is blended into the play is perfectly delightful. Only four characters figure in the cast, and three of that number are professional musicians. The story is that of a young girl, fresh from the country, who has a splendid voice, and operatic aspirations. She has a distant relative in New York with whom she goes to live and become his pupil. The relative has a son, who is a composer and a pianist. He falls desperately in love with the girl. A young doctor from the girl's home, who is also in love with her, tries to persuade her to abandon her musical career to marry him, but she refuses to give up her prospective stage career. She has a slight operation performed upon her throat and the young doctor uses the power of mental suggestion so effectively that the girl imagines that she has lost her voice; but she regains it again and everything ends happily. An excellent presenting cast will be seen in the different roles.

A three act musical comedy that differs from its contemporaries in divers ways will be the next attraction at the Plainfield theatre tomorrow night. It is from the pen of Edwin Hanford and is entitled "His Honor the Barber." As presented by the famous "Smart Set" company with S. H. Dudley in the stellar role, the offering has become one of the real treats of the season. Although the comedy contains fifteen original song hits, musical numbers and ensembles it could easily hold its own on the strength of its brisk and humorous dialogue, situations, novelties, features, etc., and the interpretation of the company itself which is composed of sixty capable people. Mr. Dudley is seen at his best as



S. H. Dudley with "The Smart Set," at Plainfield Theatre Saturday Matinee and Night.

Raspberry Snow, a negro who wants to shave the President of the United States. As Mr. Dudley portrays the character it becomes one of the funniest and best developed types seen hereabouts in years. "Rastus," the trained donkey, which was such a favorite last season, has been retained. "Rastus" is the constant companion of Raspberry and the two have many side-splitting adventures during the action of the play. In point of durable excellence, style and originality, the comedy is said to be the most pretentious ever offered in years.

Miss Trixie Friganza, the featured comedienne of "The American Idea," has had a strong personal interest in the discovery of the North Pole by Dr. Frederick Cook, of Brooklyn, in view of the fact that the world's greatest discoverer was for several years her personal physician, and that her brother, James, is now with Commander Peary on his latest expedition in search of the top of the earth. Speaking of Dr. Cook's epoch-making discovery, Miss Friganza said: "Do I believe that Dr. Cook has actually discovered the pole? I do indeed. I have the honor of knowing Dr. Cook, who was my attending physician for several years at my home in Bensonhurst, a suburb of Brooklyn. He is a man of the finest ideals and the highest honor. Knowing him as I do, his word is on a par with a Government gold bond; there is a little element of disappointment to me in Dr. Cook's success, even though he is a friend of mine, for my younger brother, James, is now with Commander Peary's expedition somewhere away up in the frozen north. Perhaps it will be his fate to reach the pole with Peary and there to find the American flag floating where it was planted by Dr. Cook. So perhaps my family name is now destined to be added to the great honor roll of Arctic exploration. However, it is a blessed thing that the Pole was discovered by an American, because it plants the flag on the very apex of the earth with its axis for a staff. One thing I do know from observing my brother's mathematical work in taking observations for latitude and longitude, is that Dr. Cook's daily observations will infallibly prove the accuracy of his story. It would take years to fabricate such observations, and even then they would not stand the test of expert inquiries." "The American Idea" will be presented at the Plainfield theatre Monday night.

The greatest play of the time and the most popular, will be the attraction at the Plainfield theatre on Wednesday, September 15, matinee and night, when the Wagenhals & Kemper Co. offers Eugene Walter's "Paid in Full" with a cast that brings out in highest degree the superbly dramatic qualities, the human sympathy, the comedy that make this the most appealing work the stage has seen. "Paid in Full" is a masterpiece. It drives across the footlights and grips with a power that is not once relaxed. It contains every factor that lifts a play to highest place in public favor. Consider its wonderful record and it becomes plain that everybody likes it. Two years in New York it ran, going without halt through a summer, exceeding in drawing power the musical shows that until then had been the only form of hot weather theatricals Broadway would patronize. At the same time in Chicago it scored an all summer run. Then throughout last season five companies appeared in it, more than ever before had played any piece at the same time, and again this year an equal number are touring the country.

—The Councilmanic street committee has about exhausted its supply of street oil, but Chairman Gloak thinks it will be necessary to order another limited supply to finish up a few streets needing attention.

CHRISTIAN ENDEAVOR.

Prayer Meeting Topic For the Week Beginning Sept. 12, 1909.

By REV. S. H. DOYLE.

Topic.—Temperance in all things.—I Cor. ix, 23-27.

The word "temperance" is usually limited to sobriety—temperance in alcoholic drinks. But it has a much broader meaning than that. Temperance is moderation. It is antagonistic to anything that flavors of excess. Therefore it not only applies to sobriety, but to every phase of life where harm may come through excess, no matter how harmless, yea, even beneficial, the thing may be if used in moderation.

Paul here speaks of the necessity of "temperance in all things" in living a successful Christian life that will result in the salvation of the soul. He speaks of the Christian life as a fight or a contest and also a race, in each of which temperance and moderation are an absolute necessity. No runner could have been successful in the Olympic games unless he had prepared himself for the race, especially by exercising temperance in everything that would hinder him in doing his very best. Moderation must be the watchword of him who would win the crown of victory. Besides moderation in eating and drinking, he would need even to be moderate in training. Excessive training has lost many a race and many a fight. The same thing is true of the Christian life. Intemperance in anything that hinders Christian growth must be avoided if the Christian attains the best possible results and makes salvation doubly sure.

The doctrine of "temperance in all things" needs to be emphasized today, perhaps as in few other ages. The tendency of our generation is toward intemperance. The business man lacks moderation in his labors to make his business a success. The man who desires to make a fortune must do it in a day, and rushes into ventures that become a burden and a worry to him. Intemperance in speech is a common weakness because of the undermining of the nervous system in the incessant rush of life in one form or another. Many lack moderation in their actions, losing entire control of themselves at the least opportunity. The results are weakened bodies, enfeebled nerves and mental power and the incapability of reaching a high spiritual standard. Excessive eating of a "Sunday dinner" has taken the spiritual appetite from thousands of Christians and unfitted them for religious exercises during any time later in the day. To be "temperate in all things" may require divine grace and the exercise of all our will power, but we should attain to it. Contestants in Paul's day did it to obtain a laurel wreath, a corruptible crown; much more should we be willing to do it, since in our case victory means an incorruptible crown—eternal life that never fades away.

"You Let Me Slip."

I have frequently heard the objection to Christian Endeavor that it is doing little or no positive good work. "Your young people," we are told, "hold their meetings, socials by preference, and that is the end of it. There is no manliness in Christian Endeavor, nothing to attract and hold the young man."

One might, if one chose, point out not a little positive good work done along social and civic lines by Endeavorers, about which critics seem to be strangely ignorant; but at present I wish to emphasize the fact that a large part of the power of Christian Endeavor is expended in preventing the necessity of helping people in later life by making them good citizens and good Christians from the start. An important part of the work of Christian Endeavor is preventive. It is more farreaching and effectual than the rescue of dilapidated units, however fine that may be, for the salvation of the boy or the girl means the making of a man or a woman and the happiness of a family. The church needs to hold her own in the struggle, and there is no organization better fitted than the Christian Endeavor society to help her to do so. It takes hold where the Sunday school often loses its grip. Wise leaders therefore will seek to strengthen Christian Endeavor and enable it to accomplish a maximum of good.

Dr. J. Wilbur Chapman says that at a conference of ministers in Philadelphia one man remarked that the people of the slums are the lost sheep of our own households. A minister sprang to his feet and said, "It isn't so." Two or three others, among them Dr. Chapman, said, "We'll find out." Here is the doctor's testimony:

The vilest man I ever have seen in this city of Philadelphia, when I told him that I was the minister of Bethany church, stood on his feet and clinched his fist and shook it in my face and said: "Bethany! I sat in your church, and nobody ever spoke to me!"

The vilest woman I have ever seen in my life I saw at 2 o'clock in the morning in the slums of Philadelphia, and when I said, "I am from Bethany school," she burst into tears and said: "Bethany! My mother carried me there in her arms. I was in Miss Brown's class. I sat as a girl until I was sixteen years of age three seats from the front in the benches on the left. And," she said, "I am here—here!" And she seemed to lose all her passion and pathos, and, brushing away her tears, she said, "You let me slip."

If Christian Endeavor can stop that gap even partially, if it can prevent the church from letting any of its young people slip, who dares say that it is not accomplishing a positive good work? It is a work that can never be tabulated. Only eternity can reveal it.—Ripple in Christian Endeavor World.

After a short meeting of the Camden County Board of Equalization of Taxes yesterday it was announced that Camden City's tax rate had been fixed at $2, an increase of eleven cents.

Elizabeth Green was arrested at Millville on the charge of cruelly beating a small daughter of Mrs. Emma Elliot at Millville, and was held under $200 bail for court by Justice of the Peace Birch.

George Nist, of 235 Gates avenue, Jersey City, accompanied his five-year-old son George to the Pasteur Institute, Manhattan. A few days ago the child was bitten by a mongrel dog while playing near his home.

Edna, the five-year-old daughter of Charles Frankenfield, of Baltimore, narrowly escaped death Tuesday when a boy with whom she was playing at Bordentown threw a lighted match which ignited her clothing and she was burned about the arms, back and neck.

Announcement is made of the engagement of Sheriff Thomas L. Wilson, of Woodbury, and Miss Elizabeth T. Rambo, daughter of Mr. and Mrs. Alonzo P. Rambo, of Thorofare. The sheriff will be a brother-in-law of Prosecutor Alexander L. Rogers, who recently married a sister of the bride-to-be.

Molten lead, which he was using in his work at a foundry in Vine street, Paterson, accidentally fell on the right leg of William Braddock, of 223 Slater street, that city. The calf and ankle were so badly burned that Slater last night applied for treatment at St. Joseph's Hospital.

Rev. N. Segatori, of the Catholic church at Williamstown, was stricken with paralysis while alone at his home, in bed. He managed to crawl downstairs, but could get no further, and lay all night alone on the floor until found by the milk boy in the morning. He was taken to St. Agnes' Hospital, Philadelphia.

Unable to speak, Mrs. Mary Wells, of Berlin, wrote on a piece of paper to Assitant Prosecutor Wolverton, at his office in Camden yesterday, that she had been brutally beaten by her husband, Lewis V. Wells, a former justice of the peace. Wells was committed to jail by Justice of the Peace Huyett in default of bail. The woman was partly paralyzed.

E. S. Blizzard, assistant station agent of the Pennsylvania Railroad at Beverly, while in the middle of the river, a half mile from shore, yesterday afternoon, stepped from a sailboat into an attached canoe, when a lurch threw him into the water. Weighed down with his clothes, Blizzard floundered about while his friend tried in vain to bring the sailboat about. Blizzard espied a government buoy and swam to it, having just strength enough to clutch it. A rower from the shore paddled to his rescue.

CHRISTIAN FIELD.

A QUIET CAPITAL.

Crying babies and crowing roosters in Washington may yet feel the weight of the mighty arm of the law. A prophet has arisen who says that there shall be no more unnecessary noise during the hours set apart by common usage for slumber. For the public welfare, an organization is being formed for the prevention of noises, and the Constitution has been invoked to protect citizens against needless disturbance, either at home or abroad, at unseasonable hours. The crowing of the neighbor's rooster at 2:17 in the morning will no longer be tolerated, nor the rattle of milk cans at 4:12, when the new regime holds sway; the slamming gate and door, the squeaking, noisy trolley car, the boisterous ice car will never be heard in those halcyon days. The care for the nerves of the nation is surely a new phase of altruism.—National Magazine.

ATTORNEY CRANE OPPOSES SIGNING EXTRADITION PAPERS.

Robert Newton Crane is in Trenton today opposing the signing by Governor J. Franklin Fort of the extradition papers signed by Governor Stuart, of Pennsylvania, for the Riccardis, father and son who are accused of stealing two horses at Pittston and trying to dispose of them in the borough of North Plainfield.

Attorney Crane believes that the Riccardis are innocent of the crime with which they have been charged. He says that he has made investigations at Pittston and other places near that city which convinces him of the innocence of the two accused men. Both of the Riccardis bear good reputations in and around Pittston, it is said.

Among this number are General Peter D. Vroom, Ferdinand Dayton, medical director; Colonel P. J. Yorke, and Captain Edward P. Mount, the county collector of Mercer. The Second Cavalry gained distinction among the 10,000 Western cavalry troops composing the command of the great raider, General Grievson, by whom it was called the "Fighting Second."

The stock was subscribed on Tuesday, and work has already been started on clearing the debris from the site on Washington street upon which a new structure is to be erected.

A "DANCE MAD" CITY.

New York is dance mad. If you walk along Grand street on any night in the week during the winter months the glare of lights and the blare of music strike you on every side. It might be an esplanade at Dreamland instead of a business street. Columbia street, Delancey street, Stanton street, Allen street, Houston street, all have their quota of places, good, bad and indifferent. Further uptown the dance places hold sway in almost every locality, and the problems which this dancing mania presents vary from the moral issues of the lower east side to the drink temptation that beset the girl further uptown. This is essentially the winter problem. Down on the east side dancing is cheap. Twenty-five cents a couple, is all it costs—ten cents for girls, because, as I have said before, the girls are the desirable quantity. Throughout the city the rule obtains that it shall cost the girl less to enter the hall than the man. Downtown the dancing academy presents its worst features.—From the July Survey.

Favor Amendments.

A number of Morris County business and professional men of both political parties issued a statement last night at Morristown urging the voters to support the constitutional amendments. Dr. Chambliss Addresses Convention.

Trisks in All Trades.

Stranger—Zum Donnerwetter, now you have cut my chin a second time! If you can't shave better than that you will lose all your customers pretty quick.

The Lure of the Mask

By HAROLD MAC GRATH

Copyright, 1908, by the Bobbs-Merrill Co.

"I must see your face. I shall never be at peace if I do not."

"Certainly you will never know any peace if you do. Be careful."

His free hand stole toward the strings of her mask. She moved not. His face was very close to hers now. If only she would struggle! He released her wrist.

"No; I haven't the courage. If I take that mask from your face it will be the end. And I do not want this ever to end. If you will not let me see your face of your own free will, so be it. I shall see it some day, mark me. Fate does not cross two paths in this manner without a purpose." He stepped back slowly. "You do not understand the lure of that mask."

"Perhaps I do. I am beginning to admire your self control, Mr. Hillard. But I am tired now, and I must ask you to go."

"Once more, will you let me see your face?"

"No. If, as you say, fate intends for us to meet again you will see it. But I have my doubts. So it is my will to pass out of your life as completely as though I had never entered it—from one fog into another. No, I am not a happy woman. I am not happy in my friendships. Listen to me," and her voice grew low and sweet. "Let me appeal to your imagination. This light adventure shall be a souvenir for your old age. One night romance stepped into your life and out of it. Think! There will always be the same charm, the same mystery, the same enchantment. I shall always be Cinderella or the sleeping beauty or what your fancy wills. Do you understand me?

"Nothing," she proceeded, "nothing lasts so long in the recollection as a pleasant mystery—in other days, in other times. Well, on my side I shall recall this night pleasantly. Without knowing it you have given me a new foothold in life. I did not believe that there lived a single man who could keep to the letter of his bargain. Good night! And do not lean out of any more windows," she added lightly.

"You are right," he said reluctantly, "something to dream over in my old age. And certainly I shall dream of it—a flash of sunlight in the window."

Then slowly he reached down toward her wineglass. She understood his purpose and essayed to stop him.

"Do not deny me this little thing," he said.

She let her hand fall. He took the glass, held it against the light to see where her lips had touched it. Carefully he poured out the wine from the opposite side and kissed the rim.

"I shall keep this glass. I must have some visible object to make sure that this hasn't been a dream."

"You may kiss my hand, Mr. Hillard."

He bent quickly and kissed not the hand, but the wrist where the marks of his fingers still remained faintly. He squared himself and gazed long and steadfastly into her eyes. There was a flutter in her heart that she was unable to define. On his part he realized the sooner he was gone the better. There was a limit to his self control. He gained the street somehow. There he stopped and turned. Did the curtain move? He wasn't sure, but he raised his hat, settled it firmly on his head and walked rapidly away.

There was little sleep for him that night, and in the morning the first thing he did was to pick up the wineglass. It was all true. And then his good resolutions melted and vanished. He must have one more word with her, happen what might. So at 10 o'clock he called a cab and drove rapidly to the Sandford place. Snow had fallen during the night, and many of the steps were still spotless white. Impossible! He leaned from the cab and rubbed his eyes. Absolutely impossible! For what did he see? Wooden shutters over all the lower windows and the iron gates closed before the doors! And not a footprint anywhere. This was extraordinary. He jumped from the cab, ran up the steps and rang the bell—rang it ten times with minute intervals. And no one answered. Then he heard a call from across the street. A man stood in one of the areaways.

"Be careful."

"Nobody home!" he shouted. "Gone to Egypt."

"But there was some one here last night," Hillard shouted back.

"Dreaming. That house has been empty since November. I happen to be the caretaker."

Hillard went back to his cab dazed. No one there last night? Come, come; there was a mistake somewhere. He would soon find out whether or not he had dined there the night before.

"A cable office!" he cried to the cabby. "Hurry!"

Once there he telephoned downtown and secured Sandford's cable address. Then he filled out a blank, which cost him $10. Late that night at the club he received his reply. It was terse—

You are crazy. House absolutely empty.
SANDFORD.

CHAPTER VII.

THE TOSS OF A COIN.

HILLARD made an inexcusably careless shot. He grounded his cue and stood back from the table. That was the way everything seemed to go—at tennis, at squash, at fencing, at billiards, it was all the same.

"I say, Jack, what's the matter with you anyhow?" asked Merrihew, out of patience.

"It was bad," Hillard agreed. "Perhaps I am not taking the interest in the game that I formerly took."

"And when I make a proposition," pursued Merrihew, "to ride to the Catskills and back, something you would have jumped at a year ago, you shake your head. Think of it! By George, you had a bully time last year! You swore it was the best trip we ever took on the horses. Where's your spirit of adventure?"

"I'm sure I don't know where it is. Shall we finish the game?"

"Not if you're going to throw it like this," declared Merrihew.

"Ten and a string against your half a string," said Hillard, studying the score. "I'll bet a bottle that I beat you."

"Done!" said Merrihew. Being on his mettle, he made a clean score of twenty, five to go. "I can see you paying for that check, Jack."

But the odds tingled Hillard's blood. He settled down to a brilliant play and turned sixty-one in beautiful form.

Later the two passed upstairs to the secluded alcove. Merrihew filled the glasses with the air of one who would like to pass the remainder of his days doing the same thing—not that he was overfond, but each bottle temporarily weeded out that crop of imperishable debts. To him the world grew roseate and kindly viewed through the press of the sparkling grape, and invariably he saw fortune beckoning to the card tables.

"Now, then, Jack, I've got you where I want you. Who is she?"

"On my word, I don't know."

"Then there is a woman!" cried Merrihew. "I knew it. Nothing else would so demoralize you. Drink a health to her."

Hillard raised his glass and touched that of his comrade. For the peace of his mind he determined to tell Merrihew the whole adventure.

"To the lady in the fog!" he said.

"Fog?" blankly.

"Well, the lady in the mask."

"Fog, mask? Two of them?"

"No, only one. Once I met her in the fog, and then I met her in the mask."

"I'll drink to her, but I'm hanged if I don't believe you're coddling me," said Merrihew disappointedly. "This is New York."

"The whole story, Jack, details and all; no half portions."

Hillard told the yarn simply, omitting nothing essential. He even added that for three weeks he had been the author of the personal inquiry as to the whereabouts of one Mme. Angot.

"I don't know, Dan, but this has taken so strong a hold on me that I shan't forget it soon. Imagine it yourself. Oh, but she could sing! I am a man not to be held in the leash of an adventure like this, but she held me. How? By the hope that one day I might see her face with no veil of mystery to hold her off at arm's length."

Merrihew was greatly excited. He was for ordering a second bottle, but Hillard stayed him.

"By George! And you are sure that it was at the Sandfords'?"

"I am positive. But there is a puzzle that I have failed to solve—Sandford's cable and the caretaker's declaration. I know that I was in that house. The patrolman says that he has seen no light in the house since the family sailed for Africa. It is no dream, but it begins to look as if I were the victim of some fine hoax."

"It is more than a hoax, in my opinion. Wait till Sandford returns and finds his silver gone."

Hillard started.

"And his gold plate," continued Merrihew, pleased with the idea. "My boy, that's what it is—the best dodge I ever heard of. It will make a good story for the Sunday papers. You won't be in it unless she ropes you in as an accomplice."

"I'm a romantic ass!" Hillard sighed. Leddy Lightfinger! If this turned out to be the case he would never trust a human being again.

"Let's take that ride on the horses," Merrihew urged. "That'll clear your brain of this sentimental fog."

"No!" Hillard struck his hands together. "I've a better idea than that. I shall go to Italy, and you shall go with me."

"Impossible. Why, I'm all but broke."

"I'll take you as a companion. I'm a sick man, Dan. I'm likely to jump overboard if some one isn't watching me every minute."

"I'd like to go, Jack. Heaven and earth, but I should! But I can't possibly go to Italy with a letter of credit no more than twenty-five hundred, and that's all there is in the exchequer at present."

"Between such friends as we are"—

"That racket won't work. I could not take a moment's peace if I did not feel independent."

"But I'm not going to give it to you," Hillard protested. "I am going to lend it to you."

"And could I ever pay you back if I accepted the loan?" humorously.

"There's Monte Carlo. You might pull down a tidy sum," said the tempter.

"That's the way, you beggar. Hit me on the soft side." But Merrihew was still obdurate.

"Now, listen to reason, Dan. If you wait for the opportunity to go to Europe you'll wait in vain. You must make the opportunity. One must have youth to enjoy Italy thoroughly. The desire to go becomes less and less as one grows older. Besides, it completes every man's education. I'll put the

A scar ran from his cheek to his chin.

proposition in a way you can't possibly get round. You will always have that thousand, so don't worry about that. You have twenty-five hundred on hand, you say. With that you can see Italy like a prince for three months."

"What's the proposition?" Merrihew drained the bottle.

"This—I'll agree to take not a penny more than twenty-five hundred myself. We'll go on equal terms. Why," confidently, "besides living like a prince you'll have four hundred to throw away at roulette. Boy, you have never seen Italy; therefore you do not know what beauty is. When we eventually land at Bellagio, on Lake Como, and I take your lily white hand in mine and lead you up to the terrace of Villa Serbelloni and order tea, then you will realize that you have only begun to live—gardens, towering Alps, the green Lecco on one side and the green Como on the other and Swiss champagne at $1.40 the quart! Eh?

"And then," Hillard added, "there's Kitty Killigrew singing her heart out to a people who can't understand a word she's singing."

"Can it be done for twenty-five hundred?"

Merrihew chewed his cigar with subdued fierceness. He knew very well that he was destined to go to Europe. Kitty Killigrew, who had promised to mail the route they were to play and hadn't!

"It is written, Dan, that you shall go with me."

"We'll settle this argument right here now." Merrihew drew out a coin. "Call it," he cried recklessly.

"Heads!"

The coin flickered in the light, fell and proved that all money is perverse by rolling under the davenport upon which they were sitting. An amusing hunt followed. They ran their hands over the floor, turned the rug, pulled out the davenport and looked behind, burned innumerable matches and finally rang for the attendant. The situation was explained, and he procured a candle. He was ultimately successful.

"Here it is, sir."

"What is it, head or tail?" asked Merrihew weakly.

"Head, sir," said the attendant.

"Keep it," said Merrihew generously, even sadly. He never got up a game of chance that he did not get the worst of it. And now, Italy! All that way from home! "Boy, bring up a bottle of '96."

"And the lady in the mask?" asked Merrihew as they at length stood up.

"I must relegate her to the fog she came out of. But it would be a frightful thing if—if"— He hesitated to form the words.

But Merrihew had no such scruple. "If the silver and plate were missing when the Sandfords return?"

"Oh, bosh! It's all some joke, and I'm the butt of it. She was in that house by the same authority she rode the horse."

"A woman of that sort would have no difficulty in hoodwinking the stablemen," declared Merrihew.

"By the way," he continued, "received a postal from Kitty this morning from Gibraltar. Fine trip. Visited the gun galleries and the antique furniture shops. Says no sign of prima donna as yet, but believes her to be on board. O'Mally's on the water wagon. But Kitty aggravates me."

"What has she done now, refused you by marconigraph?"

"No, but she promised me her address."

PEARY'S SHIP FITTED UP BY ELIZABETHANS

To Elizabeth ship carpenters and joiners belongs the credit of fitting up Commander Peary's boat, the Roosevelt, for her successful dash for the North Pole. Through their mechanical skill the boat was put in the excellent condition which enabled her to weather the ice drifts in the Arctic Ocean and land the American explorer at the goal for ages sought by the world's greatest navigators.

It will be remembered by most Elizabethans that the *Roosevelt* was for several months at the Shooter Island shipyard after her first dash for the Pole. It was at that shipyard, under the able foremanship of Alfred Anstey, of 9 Florida street, who is at present employed by the electric launch company at Bayonne, that the Elizabeth men overhauled the Roosevelt. The boat left the shipyard two years ago last June.

When it is known that the Roosevelt carried the seal of the City of Elizabeth interest in Commander Peary's great exploit is enhanced in Unioncounty.

In conversation with a reporter Captain George Coon, of the launch Comfort, told the story of how the seal of Elizabeth was carried to the Polar regions probably unknown to Commander Peary and his crew. He said that just before the Roosevelt left the Shooter Island shipyard, he went there with a party of friends to inspect her.

"I do not know what prompted me to do it," he said, "but the thought occurred to me that it would be a novelty if Peary should be successful in his dash and should have some souvenir aboard the boat from Elizabeth. I had an Old Home Week button bearing the seal of th. city of Elizabeth on the inside of my coat. Unnoticed, I stuck it in the woodwork in the keel. The chances are that it is still there, for the spot where I placed it was afterward covered by the ship carpenters."

There are many Elizabethans who have souvenirs from the Roosevelt. John J. Cottrell, who conducts a cafe, has three canes made from wood taken from the Roosevelt when she was being overhauled. The canes are made from the wood of which the hull of the Roosevelt is constructed. The name of this is said to be "greenheart." Because of its peculiar composition it is better able to withstand the ice drifts. Colonel George H. Rhodes, of the firm of Rhodes & Manvel, also has a cane made from the same wood.

Part of the crew of the Roosevelt who were with Peary when he made his first dash for the Pole, were aboard the Roosevelt during the time she was at Shooter Island. Some of Mr. Peary's Eskimo helpers and several of the dogs were on the ship.

THE QUEEN BEE.

The truth is, throughout all the wonder-workings of the beehive, the queen is little more than an instrument, a kind of automaton, merely doing what the workers compel her to do. They are the real queens in the hive and the mother-bee is the one and only subject. The workers have made her for their own wise purposes, just as they make the comb and the honey to store in it. The egg she is hatched from is in no way different from any worker-egg. If you take one from a queen cell and put it in the ordinary cell it will hatch out a common female worker-bee, and an egg transferred from the worker comb to a queen cell becomes a full-grown queen. Thousands and thousands of worker eggs are laid in a hive during the season, and each of those could be made into a queen if the workers chose. But the worker egg is laid in a small cell, and the larva is bred on a bare minimum of food, at the least possible cost in time, trouble and space to the hive; while, when a new queen is wanted, a cell as big as a finger-tip is built and the larva is stuffed like a prize pig through with unlimited food and time and all its five days of embryo life, until room to grow in it comes out at last a perfect mother-bee.—Van Norden Magazine.

Made Wrong.

Johnny Jones was in Sunday-school for the first time, and didn't know much about religion. For instance, when he was asked the first question in the catechism, "Who made you?" he balked.

Tommy Tooter, on his right, nudged him: "Say 'God.'"

So Johnny said, "God made me," and waited for developments.

"That's right," said the teacher, "God made you. He made your eyes to see with, your nose to smell, your mouth to eat, your ears to hear, your hands to feel, and your feet to run. Now, I wonder if you, Tommy, can tell me what God did."

Tommy scratched his head. "Well, He made me wrong," he said. "For sometimes my nose runs and my feet smell."—New York Times.

FLAG NOW AT POLE MADE IN PATERSON

The flag which Commander Robert E. Peary says he "nailed to the Pole," was made in Paterson expressly for the purpose. The emblem was made from a special weave by the Phoenix Silk Manufacturing Company. It was made waterproof, so that in the snows and ice of the north the colors would not run.

It was on the occasion of Peary's visit to Paterson, five years ago, as a guest of Judge Francis Scott, that public-spirited citizens interested the Daughters of the American Revolution in a plan to present Peary with a flag, so that if Peary landed the American emblem on the summit of the earth it would be of the best possible make. It is a peace flag, surrounded by a broad white border. It is not very large and was woven so that it could be rolled or bundled in a very small space, so as to be conveniently carried.

It was presented to the explorer by Mrs. Donald McLean, president general of the Daughters of the American Revolution, when he sailed on the Roosevelt last year, with the request that he should fling it from the Pole when discovered.

N. Y. AMUSEMENTS.

The success of Lew Fields' production, "The Midnight Sons," at the Broadway theatre, continues unabated and unparalleled.

Brooks and Dingwall's production of the great Drury Lane drama, "The Sins of Society," now running at the New York theatre, has demonstrated that the time is ripe for melodrama when it is done in a modern and approved manner after the style of this wonderful staging of a strongly drawn story.

Since his return from Europe just a month ago, Charles Frohman has successfully produced "Detective Sparkes," with Miss Hattie Williams in the title role. "Arsene Lupin," and the Viennese musical comedy, "The Dollar Princess." On November 14, Mr. Frohman will make a Chicago production of "Arsene Lupin." This company will cover the middle and extreme West of the country, while the play is still being performed in New York.

Charles Frohman has decided upon Tuesday, September 21, instead of Monday, for the first performance of the new John Drew comedy, "Inconstant George," which will follow Mr. Drew's two weeks' engagement in "Jack Straw" at The Empire theatre. "Inconstant George" had its first rehearsal on the stage of the Empire theatre recently. The company, as assembled, includes Martin Sabine, Fred Tiden, Rex MacDougall, Mary Boland, Adelaide Prince, Jane Laurel and Desmond Kelly.

Lillian Russell opens her New York season next Monday night in Edmund Day's modern comedy, "The Widow's Might," at the Liberty theatre, where the famous American beauty is booked for an indefinite run. Miss Russell and the members of her company gave the new piece a thorough tryout in Springfield, Mass., the latter half of the week, where the comedy came up to all sanguine expectations of her management and scored a solid hit with the audiences that witnessed the opening performances. The fair Lillian's newest vehicle is a comedy of Wall street and social life in New York and it presents her in the most serious character she has undertaken since she deserted the musical stage for the more exacting art of the comedienne.

William Morris, circuit builder and pioneer of independent vaudeville, inaugurated the regular season of fall fashions in vaudeville at the American Music Hall, New York city, on Monday night, with a gala bill. The Divine Myrma, the "Mermaid Mystery," the beautiful water nymph who has been heralded as the sensation of Trouville and other French watering places, provided a veritable sensation on this, the occasion of the American debut. Annette Kellerman, the Finnery Girls and others have demonstrated their grace and endurance before the New York public here now, but the Divine Myrma can actually give lessons in diving to the much lauded Annette, and as for beauty of face and figure, she has a further advantage.

An Autmun Possibility.

There has been much conjecture concerning the tailored suit of the future should the panier become popular. But at last an inkling has been given of what we may expect. One of the suits for earliest autumn is of cheviot with a very long coat. The gown underneath is trimmed around the hips with a short tunic of the cloth itself. This, while it fits the figure, is cut on panier lines or circular, and it is only evident when the coat is removed.

KNIGHTS TEMPLAR DAY

Nineteen Commanderies to Be Elaborately Entertained at Atlantic City.

WILL BE FINE DRESS PARADE.

Plan Reception and Dance for the Women Visitors and a Trip to Ocean City.

Arrangements are now completed for the annual field day of the Grand Commandery, Knights Templar, of the State of New Jersey, which will be held at Atlantic City on Friday, on which occasion nineteen commanderies representing every part of the State, and Mary Commandery, No. 36, Knights Templar, of Pennsylvania, stationed at Philadelphia, will pass in review before Right Eminent Sir Charles A. Mohn, grand commander of New Jersey. Among the commanderies will be Trinity, of this city.

For months past Atlantic Commandery, No. 20, which will be the host this year, has planned to make this gathering the greatest held in the State, and the parade on Friday afternoon will be the largest ever witnessed in New Jersey. The visiting Knights Tebplar and their ladies will remain in Atlantic City until Sunday evening, and their entire time while there will be one continuous program of entertainment.

The grand parade will take place on Friday afternoon, starting at 2 o'clock. Following the dismissal of the parade, there will be an informal reception to the officers of the Grand Commandery at their headquarters at Haddon Hall. On the evening of Friday Atlantic Commandery will give a reception and dance in the Music Hall, Steel Pier, to all the visiting Sir Knights and their ladies. The hall will be beautifully decorated for the occasion.

The grand march will begin at 9:15 o'clock, and during the dance intermission the drill corps of Atlantic Commandery will give an exhibition. It is estimated that more than 2,000 Templars in their full-dress uniforms will attend this function.

Saturday, Sept. 18, although given up to the entertainment of the visiting Sir Knights, will practically be known as Shrine Day. In the morning the Knights Templar will be taken in special cars over the Shore Fast Line to Ocean City, where they will be received by the Mayor and the Sir Knights of Ocean City and entertained. The party will return to Atlantic City in special trains, leaving at noon.

On Saturday afternoon the members of several temples of the Mystic Shrine, escorted by their patrols, will parade over the same route. In the evening there will be a special entertainment in the Casino Hall of the Steel Pier, followed by a dance in the Marine Hall of the same pier. The same evening there will be a special ceremonial session of the Ancient Arabic Order Nobles of the Mystic Shrine in the Music Hall of the pier. During that day there will be numerous Templar receptions and other forms of entertainment.

Sunday morning the visiting Templars will be taken on a rolling chair ride up the boardwalk, followed by being entertained at the Ventnor Yacht Club. Part of this entertainment on Sunday afternoon will be sail and motor boat rides on the Thoroughfare.

Nearly all the hotels and all the business places in Atlantic City have arranged to decorate their places in honor of the visiting Knights Templar.

Dr. Isaac E. Leonard, eminent commander of Atlantic Commandery, has as his committee arranging for this field day the entire membership of Atlantic Commandery. Mayor Stoy, other city officials and many of the promientn citizens of Atlantic City are members of this commandery.

It is feared that he has wandered away in a temporary aberration and the police of all towns and cities have been asked to be on the lookout for the man.

REV. DR. M'CREA TO STAY

Report That He Had Resigned Pastorate Without Any Foundation.

BACK FROM EUROPE TODAY.

Mrs. McCrea Makes Emphatic Denial of Story—No Choir at Dickinson College.

Rev. Dr. Abel C. McCrea will remain pastor of the Centenary Methodist church, Newark, despite the rumors that have been circulated here to the contrary.

The clergyman, who was formerly pastor of the First M. E. church here, is due to arrive home today from a two months' trip in Europe and on the continent. A letter received from him two days ago, in which he outlined the church work he intended to promote as soon as he reached home, put a quietus on the feeling that had spread that he would resign his charge to accept a chair as an instructor in Dickinson College, Carlisle, Pa.

When seen last night at the parsonage at 39 Kearny street, Mrs. McCrea said:

"You cannot say too emphatically that Dr. McCrea will not accept a chair at Dickinson College, and, furthermore, I doubt if he has ever considered such a thing. He will be home tomorrow afternoon at 5 o'clock from his trip abroad, but I received a letter from him only two days ago, and nothing was said about such a change. In fact, there is no vacancy in the staff at the college, as nothing has been said regarding any resignations in the teaching force."

Dr. McCrea is accompanied by the Rev. Lincoln A. Ferris, a former pastor of St. Paul's Methodist Episcopal church, Newark.

UNION CO. ENDEAVOR RALLY ON THURSDAY

A rally of the Christian Endeavor societies of Union county, with an "echo" of the international convention held at St. Paul in July, will take place at Greystone Presbyterian church, Elizabeth, on Thursday evening, September 16. All the Plainfield societies have been invited, and it is expected that a large delegation will attend. The usual order will be reversed, and refreshments will be served in the form of a light supper at 6:30 o'clock in the entertainment room of the church. The convention report and other features will follow at 7:45 in the church auditorium.

This arrangement has been made with a view to securing the attendance of young people who may be employed in Newark or New York and who by this plan can go direct to Elizabeth from their places of business. Music will have a prominent part in the program of the evening. Two hymns written for the State Christian Endeavor Union will be sung for the first time, and conventions hymns will be used.

The report of the convention will be presented by Miss Nellie K. Foote, of Elizabeth, who attended the convention as the delegate of the county union. All Endeavorers who can be present are asked to be at the church promptly at 6:30 o'clock. Those who cannot attend this social part of the evening's program will be heartily welcomed at the later service. The Plainfield Endeavorers will go in a body leaving on the 5:53 train from the North Avenue station.

Borough Schools Open Tuesday.

All arrangements have been made for the opening of the borough public schools Tuesday morning, September 14. Monday morning from 9 to 12 o'clock, Supervising Principal H. C. Krebs will be in the office of the Somerset School to receive and register pupils who have never before attended the borough schools. At 4 o'clock in the afternoon there will be a general teachers' meeting, and at 5 o'clock a special meeting of high school teachers in charge of Principal Phelps.

Another Dentist in Town.

Dr. G. F. Watts, formerly of New York, a graduate of Howard Dental College, will locate here on October 1, at 308 East Third street, occupying the offices recently vacated by Dr. Wormley, who has returned to Washington.

UNION BUDGET $395,000

Figures Submitted at County Board Meeting Show $62,000 Increase.

TO FIX RATE NEXT WEDNESDAY

Appeals to Be Received on Tuesday and Will be Heard by the Board on Later Date.

At a meeting of the Union County Board for the Equalization of Taxes held this morning in the Courthouse, the budget for the maintenance of the county for the fiscal year was submitted. The figures for 1909 show an increase over last year of $62,000, which is due to normal growth in county expenses. The figures for this year are $395,000 and for 1908 $343,000.

There is a considerable gain also in the amount requested by the State for the support of State schools. These figures, based on the ratables for the county, are $320,715.27, as compared with $251,798.80, an increase of about $70,000.

The board will meet next Wednesday and will consider the matter of fixing the county tax rate at that time.

Appeals will be received next Tuesday by the board. These appeals will be submitted later to the State Board. This year, it is understood, that there are no important dissensions from the assessments. All the county tax book, with the exception of that of the Sixth ward of this city, have now been revised.

The State school figures were submitted to the Tax Board through the State Comptroller. The work of the board is fast nearing completion, the appeals being the last matters to be considered.

LYONS RAKED BY COURT; SENTENCE SUSPENDED

James Lyons, of 621 South Second street, whom Judge Runyon characterizes as the meanest of his kind, was given a chance this morning to go out and earn money for his family, consisting of a wife and three children.

Lyons yesterday attempted to steal away with two of his wife's coats which he was going to pawn for the purpose of obtaining money with which to buy liquor. He was seen to be on the way with the clothing by one of his young children who notified police headquarters. Detective Sergeant Flynn went to the house and arrested Lyons, who was given a severe reprimand this morning.

This man is an habitual drinker and it was only upon his promise to get out and work that Judge Runyon allowed him to go after giving him a sentence of $50 of 100 days in jail. Lyons' wife is in delicate health and has no other means of support otherwise the sentence of the court would have been carried out.

MAY REGISTER ANEW. ON SPECIAL ELECTION

That those voters who must be registered anew for the constitution election in New Jersey next Tuesday and who failed to enroll last Tuesday may do so at the special election has been announced by Assistant Attorney General Gaskill.

He has empowered the committee of the State Bar Association on the judiciary amendment to give notice that he concurs in the opinion of the committee that there is ample authority for the registration of any qualified voter at the polls on Tuesday.

Surprise to William Matthews.

A surprise party was given to William Matthews, of North avenue, last evening by a large number of friends. Games and music combined to afford a good time for all. Those present were Winnie Brennan, Agnes Regan, Sarah Head, Ada Smith, Minnie Wuergler, Olga Ebert, Carrie Muir, Nellie Brennan, Wilda Biddle, Katie Miller, Elsie Walpole, Mamie Paoli, Melita Cody, Florence Long, Anna Wuergler, Cecilia Brennan, May Biddle, Mamie Brennan, Horace Adams, Ernest Neal, Frank Sterphone, Charles Schroder, Lewis Lane, Charles Finarey, George Neal, Frank Ferraro, Samuel Montross, Frank Schropfer, Nelson Leonard, Paul Richter, George Hook, A. SPLENDID PRESENTATION OF LOCKE'S "THE CLIMAX"

"The Climax" given in the Plainfield theatre last night pleased a not overcrowded house and brought to the four artists who presented the play, instant recognition of their individual worth and capabilities. All four parts were acted naturally and by many it was thought the cast was equal to the original Broadway quartet. Raphael Newman, as Pietro Golfanti, while apparently nervous in the first act improved wonderfully as the play went on and at the finish shared the plaudits of the audience with the older members of the company.

Miss Florence Weber, the only woman in the cast, was capital, and she played her part to perfection.

HELD AT ELIZABETH POLICE STATION FOR PROTECTION.

A seventeen-year-old girl, giving her name as Ethel Walker and her address as Plainfield, is being held at police headquarters in Elizabeth, pending the arrival of her brother who the police of that city say has been sent for. Miss Walker was apprehended on the street in Elizabeth and taken to police headquarters for protection.

The address of the young woman in this city is not known at present as no one has been found who knows her. There is no such name in the Plainfield directory nor can any one be found who can connect the young woman with any of the Walkers in this city. There is no charge against the young woman.

MISS CORA TOMLINSON DIES IN ELIZABETH.

Miss Cora Tomlinson, sister of Rev. Everett Tomlinson, of Elizabeth, died yesterday at her home in that city after an illness of about two months.

NURSE A WITNESS IN HOLTON WILL CASE

The continued hearing yesterday in the Miss Mary E. Holton will case before Judge Schenck in the Somerset county Orphans' court, was occupied with the examination of Mrs. Nellie Barnes, the nurse, who took care of Miss Holton during her last illness. Her testimony was practically completed, unless it may be decided later to call her in rebuttal.

Mrs. Barnes made an excellent witness for the executors of the will. She was subjected to a most severe cross-examination on the part of the several lawyers. In relating the details connected with the signing of the will, she said that Miss Holton, although critically ill, called attention to the fact that there was no seal on the instrument and asked the lawyer whether that would affect the legality of it, indicating that her mind was perfectly clear.

Upon the completion of taking Mrs. Barnes' testimony, court adjourned to Wednesday, September 22, when further testimony in behalf of admitting the will be taken.

CASHLIN NEARLY DIED FROM EFFECTS OF DRINK.

John Cashin, of Elm place, when arraigned before Recorder Dolliver in the borough police court this morning on the charge of intoxication presented a sorry spectacle. Both of his eyes were swollen and blackened and the eyelids cut and bleeding. His nose and mouth were badly cut and his whole face bruised and covered with blood. He was arrested last night by Marshal Pope on Chatham street, who found him in a helpless condition. At the police station he was attended by a physician. Shortly after reahcing the police station the man lost consciousness and for a time it was feared that he would die, but this morning he was well enough to be arraigned.

Cashin, who is but twenty-three years old, told the Recorder that he had drunk but two or three glasses of beer. The prisoner was willing to accept the doctor's opinion, however, and announced that it was his first and last drunk. Recorder Dolliver suspended sentence saying that he thought the man had been punished enough.

Told to "Beat It."

John Popo, the Italian tramp, who claimed that he hailed from Canton, Ohio, and who was arrested by Patrolman Dunlap yesterday, was told to "beat it" out of town this morning after being shown the nearest way out. There was no criminal record against him.

WHAT AMENDMENTS MEAN

Craig A. Marsh Makes Convincing Argument in Their Favor.

DISPROVES MARTINE TALK.

The Proposed Changes Are in the Interests of the People and Justice to All.

According to a newspaper report of the recent public debate in this city on the proposed Judiciary amendments, the following language was used by Mr. James E. Martine:

"Who asked for these changes, anyway? Why, the legal fraternity, of course. And why? Do we want our sacred constitution tinkered by the lawyers and then presented to the people for their acceptance? I guess not.

"Is there a widespread demand for these changes? Almost ninety per cent. of the legal fraternity, mostly corporation attorneys, are demanding the amendments to the constitution; not the people."

Let us consider what weight is due to such a consensus of opinion of lawyers (as that alleged by Mr. Martine) on a constitutional question.

It will be conceded that, of all constitutions, the greatest is the Constitution of the United States, of which Gladstone said that it was "the greatest instrument ever struck off at one time by the brain and purpose of man." That instrument, as was well said by one of the speakers addressing the flower of the bench and bar of England on a memorable occasion, "is the only charter of government which in conception, spirit and execution is wholly the work of lawyers." * * * Of the twenty-one Presidents of the United States (speaking in 1900), seventeen have been lawyers. Of our cabinet ministers, four-fifths have been lawyers. The Constitution was made by lawyers, and our institutions of government have been built up by lawyers."

Nor is the reason for such disinterested service by lawyers to the State in all our history, State and national, far to seek. By instinct, by training, by force of habit so strong as to be a sort of second nature, all lawyers worthy of the name have always regarded their duty to the State in matters touching the fundamental law, as a sacred trust to be performed with unswerving fidelity, regardless of consequences to self. In constitution building, the people of necessity look to lawyers for guidance, and are, indeed, their clients, and, just as the individual client implicitly entrusts the defense of his property, his reputation or his life to his counsel, so the people have with equal confidence looked to the bar of the country to protect and defend the greater interests of State and nation.

In the present matter, if lawyers consulted their personal interests only, they would not support the proposed amendments. They are familiar with the present system and the adjudications thereunder. This learning, now a great asset and the result of years of study and research, will become in large measure obsolete, if the proposed amendments are adopted. The double appeals now permitted in many cases add to our income, and if the proposed amendments are adopted, this and other similar sources of income will be cut off. Many of the technicalities permitted under the present system to be decisive of a pending case and to require a new trial or a different form of action or a suit in another tribunal, will be abolished under the proposed amendments, and thereby another prolific source of revenue to experienced counsel will come to an end. More time and labor will be required of counsel, for some years at least, without any corresponding increase in emoluments. Why, then, do lawyers advocate the adoption of the proposed amendments? Because they seek to be worthy of the best traditions of their calling, and place the welfare of the State above the desire for private gain.

It is fair to say that some lawyers of the highest character and ability oppose the amendments, but the State Bar Association and most lawyers urge their adoption, and the amendments are in line with the recommendations of the special committee of the American Bar Association, appointed to suggest remedies and formulate proposed laws to prevent delay and unnecessary cost in litigation.

The proposed amendments were prepared after great labor and research by ex-Supreme Court Justice Van Syckel, Charles L. Corbin, John H. Hardin, ex-Gov. Murphy, and ex-Gov. and ex-U. S. Attorney General John W. Griggs. The principal objects sought to be attained are to secure an independent Court of Appeals; to secure Supreme Court Justices to preside at jury trials in the

PREDICTS FAILURE FOR THE AMENDMENTS

City Attorney James F. Connolly, of Elizabeth, in explaining the proposed constitutional amendments to the Elizabeth Board of Trade at its meeting Thursday night expressed the opinion that the amendments would probably not meet with the approval of the majority of voters in the State at the coming special election on September 14.

Mr. Connolly declared that the so-called reform measures were difficult for any but lawyers to understand, and that the people at large were satisfied with conditions as they exist. This was one of the premises upon which he based his opinion as to the fate of the measures.

Mr. Connolly went into a long explanation of the purport of the amendments as to the judiciary, instructing the members of the board as to the manner of voting, etc. He pointed out that the ballot for the special election contained so much printed matter, in explanation and definition of the amendments, that it would be impossible for the ordinary person to read and comprehend them in less than fifteen minutes. He therefore advised the members of the board to familiarize themselves with the amendments as much as possible before the election.

TERM OF GOVERNOR WOULD BE EXTENDED

If the people of New Jersey should adopt the proposed constitutional amendments on Tuesday at the special election would the term of Governor Fort be extended from January 1911 to 1913? This question has been raised by many lawyers.

While it is generally believed that the proposed amendments to the constitution, if adopted, will not bring about such a result, still the language of one of the amendments is so ambiguous that it might be construed by the courts as extending the term of the present Governor for two years and putting in his hands an immense power and patronage that would go a long way toward making him the absolute dictator of the politics of the State.

This ambiguous language occurs in the proposed fifth amendment. One part of the amendment reads as follows:

"Strike out paragraph 3 of Article V and insert in place thereof the following:

"3. The Governor shall hold his office for four years, to commence at 12 o'clock noon on the third Tuesday of January next ensuing the election for Governor by the people, and to end at 12 o'clock on the third Tuesday of January four years thereafter; and he shall be incapable of holding that office for four years next after his term of service shall have expired; and no appointment or nomination to office shall be made by the Governor during the last week of his said term."

Further along in the same amendment is the following provision:

"Add to Section 2 of Article VII three paragraphs, to be known as paragraphs 12, 13 and 14, to read as follows:

"12. All elections for Governor, members of the Senate and General Assembly, sheriffs, coroners, county clerks and surrogates of counties and all other offices now or hereafter necessary to be chosen by the electors of the whole State, or of any county thereof, shall be held every second year, on the first Tuesday after the first Monday in November, beginning anno domini one thousand nine hundred and ten.

"13. All election for justices of the peace and all and any municipal officers, as distinguished from State and county officers as hereinbefore provided, now or hereafter necessary to be chosen by the electors of any city, borough, town, township, village or subdivision thereof, or any municipality of this State, except counties, shall be held every second year on the first Tuesday after the first Monday in November, beginning anno domini one thousand one hundred and eleven.

"14. Except as herein provided with relation to the office of Senators, all officers filling any elective office at the time these amendments take effect shall continue in the exercise of the duties thereof according to their respective commissions or terms of office, and until their successors may be elected and qualified under the provisions of these amendments, and all officers whose terms of office would expire after these amendments take effect and prior to the election and qualification of their successors in office, at the election for the respective offices first held under the provisions of these amendments, shall continue in office until their successors can be elected and qualified, at the election for such office or offices to be held next after these amendments take effect, according to the provisions hereof."

$100,000 LEGACY LOOKS LIKE A JOKE.

Mrs. Hattie Belle Carhart Winders, a young widow living in Edinburg, twelve miles from Trenton, is wondering who is trying to play a hoax on her by notifying her that $100,000 had been willed to her by the late William H. Anderson, of London, England, a former resident of Trenton and father of her former sweetheart, William H. Anderson, Jr. Her cable to England expressing her readiness to accept the money, has been returned marked "Not delivered," indicating that the persons addressed could not be found.

Mrs. Winders was located through a newspaper advertisement, which requested her to communicate with a firm of London solicitors. She was led to believe that the money had been left to her because she once saved the life of young Anderson in a runaway accident. The young man was seized with a fit while driving a team of spirited horses. Mrs. Winders, or Miss Carhart, as she was then, grabbed the reins and succeeded in bringing the horses to a halt. After bringing her stricken sweetheart out of his fit she drove him home in safety.

Mrs. Winders does not intend to spend any money in an effort to collect the London legacy unless she has good proof that the cash is actually awaiting her. She fears the advertisement may be an old legacy swindle worked under a new guise.

The local baseball game of interest today will be between the Plainfield Baseball club and the Elizabeth A. A., on Crescent Oval. Both teams are well matched and the contest should be exceptionally fast.

It will be a case of Ortlieb pitching against his old team mates, while Brewer will be on the firing line for Plainfield with a fine team to support him.

Manager Dorflinger has certainly given the fans good baseball this season, securing the best teams available.

Jack Martin, who has been playing with the Worcester New England League team, will be at short stop position for the Plainfield club today. While away Jack made good and he will doubtless be a regular at Worcester next year. It is also said that Emery is likely to be a member of the same team.

Although Brit. Martin has been playing baseball for many years, he is just as good as ever. He covers second base in faultless style and when a hit is needed he is generally there with the goods and he occasionally cleans the bases to the delight of his friends.

Now that he knows he cannot win the American League championship, Manager Stallings of the Yankees is going to give several youngsters a trial.

A New York sporting writer referring to the fact that Tenney's absence from the initial bag for the Giants had scarcely been felt, because Merkel is doing so well, only proves that a team can get along without the best of them. This might apply to one John J. McGraw, who has occupied the position of *manager for the Giants so long* that he forgets to win a pennant.

The supporters of the Giants again have occasion to feel disappointed over the showing of the team. Although they are in third position the team has been playing of late as though they were a sub-cellar aggregation.

Baseball fans are hoping that by next season Manager Stallings will be able to show a championship club. He has the ability and judgment and if he can get the players will doubtless make good.

Water Wagon For Chauffeur.

J. B. R. Smith, State Commissioner of Motor Vehicles, announced Thursday at Trenton the revocation of the drivers' licenses of Bert N. Hickok and Charles Barker, of Philadelphia, both of whom are accused of intoxication, and reckless driving at Jersey coast resorts. The Commissioner insists that all chauffeurs keep on "the water wagon," with the loss of their licenses the penalty for falling off.

The BOYNTON

PATENTED

FURNACE

reverses the usual order of furnace facts. It requires the least amount of fuel and the least amount of care. In return it gives the biggest, hottest fire you ever knew; a clean, clinkerless fire. It burns all the coal and when you shake it *all* the dust goes up the chimney. BOYNTON furnaces are clean. They give the maximum of heat for a minimum of expense. We will gladly give you the name of the nearest BOYNTON dealer, so that you may investigate.

There are BOYNTON heating plants of all kinds. Ask about our Round or Sectional Boilers for Steam or Hot Water. Also Ranges.

Plainfield, N. J., September 11, 1909.

And, pray what has Mr. Colby to say in reply to the Major's charges?

It would be a great misfortune to Somerset county should Assemblyman W. W. Smalley decline to accept a renomination.

Commander Peary may have struck the right course to reach the North pole but his utterances since have not been such as to reach the hearts of the American people.

Is it not meet and proper that some other multi-millionaires read the lessons preached in the newspapers on the life and works of the late E. H. Harriman, who was every inch a man?

COLBY WOULD MAKE BLAUVELT A SENATOR.

Paterson, Sept. 11.—Former Senator Colby spoke to a large gathering at Broadway and Madison avenue, Thursday night. He urged his audience to cast their votes for James G. Blauvelt for Senator from Passaic county. "If my own brother was on the ticket in opposition to Blauvelt," he declared, "I should cast my vote for Blauvelt." Continuing, he said:

"This is a time to fight and you can't fight unless you can hit hard. No man can punch unless he feels that he is working in a great cause. Blauvelt is such a leader. Prince is not. Prince wants to do the right thing, and he wants to be useful, but he has not the faintest conception of the nature of the struggle. The Senate of New Jersey, like the Senate of the United States, is perfectly self-satisfied, is hide-bound in its partizanship and muzzled by stupid precedents. It is controlled by a majority of members who come from a section of the State little disturbed by the great abuses that exist in the northern counties. Blauvelt is aggressive, forceful and independent, and would bring to the debates a knowledge of the law and a familiarity with existing conditions that Mr. Prince does not possess."

STATE DETECTIVES' WORK IS LIMITED.

State detectives, at Atlantic City to break up gambling, will not be enlisted in the reform war against Sunday saloons, according to Prosecutor Goldberg, who has refused to allow the special men to be used as constables for serving of warrants charging Sunday rum selling.

In a statement issued yesterday the prosecutor declared that his men will be kept busy closing gambling joints, which have been put under ban by the Governor, and that their presence has no connection with the battle between reformers and advocates of open Sunday saloons.

FALLS FROM CAR, DIES.

Henry L. Felger Topples from Rear Platform, Fracturing Skull.

Henry L. Felger, forty-two years old, of No. 154 Orange avenue, Irvington, a member of the jewelry manufacturing firm of F. & F. Felger, in Marshall street, Newark, was killed last night by a fall from a trolley car in Kinney street, on a steep hill between Washington and High streets, Newark.

As the conductor, Charles Ahrend, was preparing a transfer Felger suddenly fell backward from the rear platform, landing head first on the paved street. The car was stopped and he was rushed to the Beth Israel Hospital, less than a block away. It was found that his skull was fractured and he was otherwise injured. He soon died.

Mr. Felger leaves a widow and five children. The conductor and David Keegan, the motorman, were taken to the First precinct police station, but were paroled.

MAN DROWNED IN STREET.

Stunned by Fall, Falls Face Down in Pool.

Policeman Peter Fritz found Patrick Shortell, fifty-five years old, of No. 407 Marshall street, Paterson, dead in a pool of water in a ditch alongside the tracks of the Lackawanna spur at the foot of Atlantic street, yesterday morning.

There was a gully worn in the embankment by the rain, and it is believed that in the semi-darkness of the early morning he stumbled down this, falling into the pool of water face downward and, being stunned by the fall, was drowned.

EARTHQUAKE FIND RETURNED.

Mayor Sells, of San Francisco, Gets Jersey Zouave Badge Awarded 1886.

Colonel E. C. Stahl, of Trenton, has returned to Major William H. Sells, treasurer of the San Francisco Custom House, the latter's New Jersey Drake Zouaves badge, presented to him in 1886, when he entertained the Zouaves in Salt Lake City.

Mayor Sells lost the badge in the fire and earthquake in San Francisco. It was found in the ruins by General John P. S. Gobin, of Philadelphia, who sent it to Colonel Stahl, asking him to locate its owner.

JOURNALISTIC OPINIONS

Honor For New Jersey.

While the world is giving unlimited honor to an American for pushing his way to the very Nor'n Pole itself, New Jersey is feeling an additional touch of pride because Major W. B. Martin, of Elizabeth, has won the military championship at Camp Perry, and stands today the best military sharpshooter in the United States.

This is by no means the first of Major Martin's successes with the rifle. He went to England twice as a member of the American team; he has been a representative of the New Jersey rifle team for several years; he won the $500 Wimbledon Cup in 1901 at Sea Girt, and he has medals enough to make him round shouldered, sturdy and stocky as he is, if he should attempt to wear them all at once. He may even yet win more of them in the Sea Girt tournament about to open between the States of New York, Pennsylvania and New Jersey.

The winning of the military championship of the United States is the highest honor a soldier can gain in time of peace, and to bring this honor to New Jersey, after the hottest kind of competition, is a matter not to be slightly regarded. It is an inspiration to the whole State militia; an example that will give a new impetus to rifle practise in this State. With such a successful rifleman as Major Martin instructing the members of the National Guard a higher degree of efficiency is almost certain to be reached; and this of itself gives to his achievement an importance that exceeds even the medal and the great honor he has won for himself and for this State.—Newark News.

NEW JERSEY DAY AT STATEN ISLAND FAIR.

This, the last day of the Staten Island fair, has been set aside as New Jersey day and special features will be provided for the large number of New Jersey folk who always attend the big Staten Island fair. The horse show will be finished, there will be spirited trotting and running races on the half mile track, open air vaudeville and a balloon ascension with a triple parachute drop by Professor A. W. Marsh.

There will be band concert, fireworks and confetti carnival tonight to mark the closing of the tricentennial celebration of Staten Island. The attendance has been gratifying to the fair management.

The Judge Person—You mean to say that this physical wreck gave you a black eye?

USED CHURCH TO AID IN SWINDLING WORK.

The presence of several coal wagons in front of St. George's rectory at Paterson yesterday afternoon, the drivers of which wanted to put half a ton of coal into the coal bins there, brought to light a clever swindle that had been worked on half a dozen or more coal dealers. All the dealers were visited yesterday afternoon by a well dressed young man, who asked that half a ton of coal be delivered at once to St. George's church. He tendered a check of $14 for payment in each place. The checks bore the stamp of the church and were apparently signed by the rector, the Rev. Joseph F. Dolan.

The half ton of coal cost $3.12, and the stranger in each case received $10.88 in change. Four dealers were swindled in this manner. Father Dolan was mystified at the procession of coal wagons to the rectory, and the forgery was discovered when one of the drivers was sent back to the yards. The young man who worked the game has not been caught.

Miss Mary J. Thickstun, of Central avenue, has returned from Belmar, where she spent a delightful summer.

HERE AND THERE.

Rev. T. D. Wesley, of Pluckemin, makes the following interesting comment regarding the forthcoming Hudson-Fulton celebration, under the caption "Pluckemin and Herr Knickerbocker:"

"Many people have the wrong impression that Dutch means German. This is not so. The real Dutchman is a Hollander. In the interest of the discovery of the Hudson river in 1609 by Hendrick Hudson and of the settling of the Dutch on American soil, the people of Pluckemin will celebrate a Hudson-Dutch fair on September 23, 24 and in case of storm, one day longer. There will be exhibited a revival of Dutch costumes and associations. Holland decorations, maids, souvenirs, pictures of the Isle of Marken, lunches, etc., will be in evidence.

"The Far Hill band and a merry-go-round with other features have been engaged for both days. This fair is the most significant of its kind ever gotten up in Pluckemin. As the town is off from the railroad, conveyances will be in waiting at the New Jersey Central station, Somerville and at Far Hills on the Lackawanna Railroad."

IT WOULD REFORM THE CHILDREN NOW.

New Brunswick, Sept. 11.—The attention of the Eastern Synod of the German Reformed church was occupied yesterday with a discussion of Sunday-school work, the chief thought being the formation of plans to bring about a higher degree of morality among the children. One clergyman in discussing the matter, declared that the children of the United States were among the most immoral in the world.

The synod decided to urge that the public schools be closed at noons on Wednesday, so that the pupils can attend church and receive instruction in Bible study. Children not attending are to be compelled to continue their lessons during that afternoon at the public schools.

An appeal is also to be made to the churches for young men to enter the ministry, the reports showing that there are more calls to pastorates than can now be filled. Twenty-five young men selected from the various churches are to be sent to Franklin College to take up ministerial work.

A new constitution was adopted of a more modern and up-to-date character. Under this a minister receiving a call can have an executive board grant him permission to accept instead of waiting for action by the whole classis. Rev. J. S. Kosower, of Cleveland, urged more missionary work among the Hebrews and destitute children. Rev. P. Simmelatil, of Philadelphia, urged the sending of delegates to the Northwestern Synod at Huntington, Ind., on October 6, to secure a more fraternal union between the two synods.

CHARGED WITH STEALING GOLD

Newark Jewellers Say They Lost $10,000—Employe Arrested.

Samuel Cotler, who for thirteen years held a trusted place as weigher with Schamblacher & Brod, manufacturing jewellers of Newark, was arrested last night, charged with having systematically robbed his employers. The concern had missed gold for several years, but never suspected Cotler, believing that part of the loss was due to shrinkage. But recently the supposed shrinkage became so great that the police were called in, and Detectives Tuite and Horter were detailed on the case.

For two days the detectives were concealed in the building where they could watch the employes, and what they saw led to the arrest of Cotler. After they arrested him they say they went to his home and got nearly $700 worth of raw gold. The detectives assert that Cotler confessed. The firm places its loss at $10,000. The thefts have been going on for about eighteen months.

Suit for Breach of Promise.

Mary L. Vincent, of Newark, has brought suit for $5,000 damages for alleged breach of promise against William Walker, formerly of that city. Miss Vincent avers that she was engaged to Walker and that August 3 last was set for the wedding, but Walker had the date set back and did the same on subsequent dates. Walker has disappeared from the city.

Mrs. Reicheimer and son, Frank, of Greenpoint, N. Y., who have been visiting the former's brother, James Colvin, of West End avenue, have returned home.

AMENDMENTS ARE THE GOVERNOR'S TEXT

Governor John Franklin Fort was the guest of members of the Hudson County Bar Association at Jersey City Thursday night, where, at Elks' Hall, he delivered an address advocating the adoption of the judiciary amendments to the constitution. He had dinner at the Carteret Club on the Heights and was taken from there in an automobile to Elks' Hall.

The Governor was introduced to a large audience by Harry Louderbough, president of the Jersey City Board of Trade, who was made chairman of the meeting. He was accorded an excellent reception upon his introduction. His speech was considered one of the best he has delivered since he has been Governor, and was frequently interrupted with applause. Among other things he said:

"Now, another thing I want to say personal. These amendments do give me, or will give me, a little trouble, because if there is any one thing that the Governor of the State does not like it is appointments. That is the most difficult thing we have. I would rather have anything else to do in New Jersey than make appointments. I know Mayor Wittpen will tell you exactly the same thing about Jersey City if you ask him.

"The one thing that breaks a man in office is to have appointments. But these appointments—four of them, I think, justices of the Supreme Court—if these amendments prevail—four justices will have to be named. I know the judges of the Circuit Court today, and I know the lawyers, and I am going to say here frankly that I think there are four judges on the Circuit bench today competent to be judges to be appointed if these amendments prevail. That much I am going to do."

The Governor went on to analyze the amendments as he has done in previous speeches, only in more detail. He defended each and asked for its support. It was a lawyer's brief, with many citations from federal, foreign and other State court decisions and constitutions.

BASEBALL.

The name of the new three-act musical comedy in which S. H. Dudley, the popular and talented negro comedian, will appear at the Plainfield theatre tonight supported by the popular "Smart Set" Company, is entitled "His Honor the Barber." The piece is in three acts and seven scenes. It is by Edwin Hanford, who wrote the book, and Messrs. Brim, Smith and Burris, who composed the music and lyrics. The production has been staged in a first class style by Messrs. Barton and Wiswell, under whose direction Mr. Dudley is starring this season. He has a part which is said to fit his unusual talents like a glove. The supporting cast which numbers sixty people is a capable one and contains the names of some of the cleverest funmakers in the country. The management has spared no expense to make the production one of the most pretentious offerings of the year. There is not an interpolated musical number in the play, all of the melodies, "business" and other stage features being part and parcel of the production. Matinee will be given this afternoon.

S. H. Dudley with "The Smart Set," at Plainfield Theatre Today Matinee and Night.

Here are a few of the song punctuations that have helped to make "The American Idea," Geo. M. Cohan's latest girl show, which Messrs. Cohan and Harris are presenting this season, one of the biggest successes of the past decade: "In Gay Paree," "Brothers and Sisters," "Sullivan," "They Always Follow Me," "Too Long From Long Acre Square," "We're Supposed to Be," "Cohan's Pet Names," "Order Wedding Bells For Two," "F-a-m-e," "American Rag Time," "The Garden That Blooms For You," "Whoop La-La," and what is predicted will be the greatest song hit of the year, Trixie Friganza, America's representative comedienne, heads the excellent company of seventy-five, which will present this famous Cohan play. The same massive and elaborate production will be offered here as used last season. The engagement will be at the Plainfield Theatre for one performance, Monday night. The cast of principals who will support clever Trixie Friganza in young Geo. M. Cohan's 100 girl power Paris-American musical gaiety includes many well known actors and comedienes who are favorites here. Arthur

Hilton and Mlle. La Reve. Besides these clever people there is an extremely large well drilled Cohanesque chorus numbering over fifty and a costume equipment of massive and elaborate design.

"Paid in Full," Eugene Walter's play of modern life, is acknowledged the greatest drama of recent times. Its human interest quality is uncommonly strong, and the author has displayed keen knowledge of mankind in drawing his characters. He has crowded his play with those things that are most entertaining on the stage. He has combined power and depth and humor. Grave situations are skilfully alternated with droll comedy. Nobody can fail to be impressed by "Paid in Full." Everybody finds it entertaining. There has never been a play which appeals so generally as this one, and for that very reason it is the most popular of any recent success. "Paid in Full" will be presented at the Plainfield theatre on Wednesday, matinee and night. The cast the Wagenhals and Kemper Company is sending here has won recognition in New York. It is one of the five organizations that all last season appeared in this celebrated play, each of which was called into New York in the course of the repeated engagements of "Paid in Full" in that city.

WILL ARREST 100 MORE SALOON MEN.

Saloon men, threatened with being forced to put up bonds of $1,500 each by Magistrate Hughes at Atlantic City for selling rum last Sunday in that city, stole a march on that official Thursday by entering nominal bail of $200 before other magistrates.

Victor Freisinger, proprietor of Old Vienna, was the first to try the new plan, under which the liquor sellers hope to circumvent the plan of reformers to place them under bonds so large that they would be forced into jail for lack of bondsmen.

Under a State law defendants are allowed to appeal to the "nearest magistrate" for hearings, and it is believed that the new scheme of the rum sellers to appear before justices not in sympathy with reform will prevent both the imposition of high bail and the threatened arrests of those who fail to appear before Hughes.

Reformers still delay their avowed move to rearrest Mayor Stoy for failing to close saloons last Sunday, and refuse to give any outline of their intended plans. Arrests of over 100 saloonkeepers who failed to close on last Sunday have been ordered.

Winfield Scott Post, No. 73, G. A. R., will hold a regular meeting Tuesday night.

CURED TO STAY CURED.

How a Plainfield Citizen Found Complete Freedom From Kidney Troubles.

If you suffer from backache—
From urinary disorders—
From any disease of the kidneys,
Be cured to stay cured.
Doan's Kidney Pills make lasting cures.

Plainfield people testify.
Here's one case of it:

Mrs. J. Mottley, 546 West Sixth street, Plainfield, N. J., says: "Doan's Kidney Pills cured me of kidney trouble three years ago and I have never had a return of it since. I am glad to confirm the public statement I gave in favor of this remedy at that time."

The endorsement to which Mrs. Mottley refers was given on August 26, 1905, and was substantially as follows: "About two months ago I was seized by a severe backache and dull pains in the top and back part of my head. I could not rest well and had no strength or energy to do my housework. Doan's Kidney Pills which I procured at Randolph's drug store gave me prompt relief and I am convinced that they are a first-class remedy."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

The Lure of the Mask

By HAROLD MAC GRATH

Copyright, 1908, by the Bobbs-Merrill Co.

"Address her care Cook's, Florence, Rome, Venice. It's the popular mail box of Europe, and if she has given them the address they will forward."

"That helps considerably. I'm glad there's one Cook which can be relied on."

"In the morning I'll arrange for passage. We'll try the Celtic."

"I'll leave the business end of the trip to you."

"The first Saturday in March, then, if we can get booking. That will be in less than two weeks."

In the lobby of the club as they were about to enter the coat room Hillard ran into one of several gentlemen issuing.

"Pardon me," he said, stepping aside.

"Non importa!" said the stranger, with a graceful wave of the hands.

Hillard looked quickly into the gentleman's face. "I am clumsy," he said in Italian.

Then the other stared at him and smiled. For a moment there was a brief tableau, in which each took the other's measure and noted the color of the eyes. The man was an exceedingly handsome Italian, for all that a scar ran from his cheek to his chin. It was all over in a moment, and Hillard and Merrihew proceeded to the street.

"Handsome duffer," was Merrihew's comment. "But you never can tell a man by his looks. Gaze on me, for instance."

"Go home!" Hillard slapped him jovially on the shoulder.

"Home! Ah, yes! But shall I have a home to go to when I get back? You have roped me in nicely. My poor little twenty-five hundred! But Swiss champagne at $1.40 the quart! Well, every cloud has its lining."

As Hillard never received any answer to his personal, he discontinued it. Truly, she had returned to the fog out of which she had come. But it was no less difficult for him to take up the daily affairs again. What mystery veiled her? Whither had she gone?

Giovanni was delighted when he heard the news. He would go, too, and act as valet to the signor and his friend till they put out for Rome. Then, of course, he would be obliged to leave them. Occasionally Hillard would reason with him regarding his deadly projects. But when a Latin declares that he has seen through blood, persuasions, arguments, entreaties, threats do not prevail. He comforted himself with the opinion, however, that Giovanni's hunt would come to no successful end.

"You will surely fall into the hands of the police."

"What God wills comes true. But by this time they will have forgotten me."

"But your man might be dead."

"He is not dead. If he were something would tell me."

"It is a bad business, and I wish you no luck."

Giovanni smiled easily. Wishes seldom interfere with any one.

"I will double your wages," said Hillard, "if you will go where I go and return with me when I come back to America."

A deprecating movement. "Money? It is nothing. I am rich after my kind."

"Are you still in the church?"

"I confess regularly once a week. Oh, I am a good Catholic."

"Take yourself off. I am displeased with you."

* * * * * * * *

It was a drizzling, foggy morning when they drove down to the boat. But the atmospheric effects made no impression on the volatile Merrihew. And he had an eye for all things, from the baskets of fruit and flowers, messengers with late orders from the stores, repeated farewells, to the squalling babies in the steerage.

At 4 o'clock they were on the high seas, heading for the Azores. Hillard was dreaming, and Merrihew was studiously employed over a booklet on how to speak Italian in one day. Giovanni, who had been arranging the luggage, came up on deck. He had two packets of letters and telegrams. One he gave to Merrihew and the other to his master.

Hillard found among his a bulky envelope postmarked Naples. Naples! He sat up. It had been addressed to the house and the address typewritten.

"Look at this!" he cried.

"Good Lord!" Dan gasped, his feet coming down to the deck.

Hillard was holding up for his inspection a crumpled black silk mask.

CHAPTER VIII.

WHAT MERRIHEW FOUND.

THE great ship had passed the isle of Ischia, and now the bay of Naples unfolded all its variant beauties. Both he and Merrihew were foremost in the press against the forward rail. To the latter's impressionable mind it was like a dream—yonder, the temples and baths of Nero of the golden house; thither, the palaces of the grim Tiberius; beyond, Pompeii, with Glaucus, Ione and Nydia, the blind girl. The dream picture faded, and the reality was no less fascinating—the white sails of the fishermen winging across the sapphire waters, leaving ribboned pathways behind; proud white pleasure yachts, great vessels

from all ports in the world, and an occasional battleship, drab and stealthy, and the hundred pink and white villages, the jade and amethyst of the islands, the ruined temples, the grim giant ash heap of Vesuvius.

"See that village on the cliffs toward the south?" asked Hillard. "That's Sorrento, where I was born. Sh! Look at Giovanni!"

Merrihew looked at the old Roman. Tears were running down his cheeks, and his gaze strove to pierce the distance to the faroff Sabine hills, Italy! Hillard leaned over and touched him on the arm, and he started.

"Take care, Giovanni."

"Pardon! I am weak this day, but tomorrow I shall be strong. Seven years! Have you not longed for it yourself? Has not your heart gone out many times across the seas to those cliffs?" pointing to Sorrento.

"Many times, Giovanni. But remember and control yourself. Presently the carabinieri will come on board. You will see that all our luggage goes promptly to the Bristol once we are through the customs."

"Trust me, signor."

They landed at the custom house at 2 in the afternoon and passed without any difficulty.

Hillard obtained rooms pleasantly situated looking out upon the sparkling bay. Giovanni began at once to unpack the trunks, happy enough to have something to occupy him till after dark, when he determined to venture forth. The dreaded carabinieri had paid him not the slightest attention. So far he was as safe as though he were in New York.

It was yet so early in the day that the two young men sallied forth in quest of light adventure. Besides, Merrihew was very eager to find some Roman and Florence newspapers. The American Comic Opera company was somewhere north. They found stationed outside the hotel a rosy cheeked cabby who answered to the name of Tomasso, or Tomass, as the Neapolitans generally drop the finals. He carried a bright red lap robe and blanket, spoke a little English and was very proud of the accomplishment. He was rather disappointed, however, when Hillard bargained with him in his own tongue. Tomass shook his fingers under Hillard's nose, and Hillard returned the compliment. Finally Tomass compromised on 1 lira 50 centesimi (30 cents) per hour, with 50 centisimi (10 cents) as a pourboire (tip). Crack, crack! Down the hill they went, as if a thousand devils were after them.

"By George," gasped Merrihew, clutching his seat, "the fool will break our necks!"

Tomass grinned and cracked his whip. He did not understand the word slowly in his own tongue or in any other, at least not till he reached the shops. A dozen times on the Via Roma Merrihew yelled that they would lose a wheel. But Tomass knew the game.

Merrihew had never seen such shops. Coral, coral wherever the eye roamed—where did they get it all, and to whom did they sell it? Necklaces, tiaras, rings, brooches, carved and uncarved—were there women enough in the world to buy these things?

"If I had a wife"— he began.

"Well?"

"I'd feel devilish sorry for her husband at this moment."

"But isn't the color great?" said Hillard. It was good to be in Naples again.

"I never saw so many kids," Merrihew finally observed, "so many dirty ones," he added. "Herod would have had his work cut out for him here. Now where can we get some newspapers? I must know where she is."

At the bookshop in the piazza they found the Rome and Florence papers. Hillard went through them thoroughly, but nowhere did he see anything relative to the doings of the American Comic Opera company.

"Not a line, Dan."

"But there must be something in the Florence paper. They should be playing there yet."

"Nothing. These papers are two weeks old."

Merrihew stared blankly at the sheet. "I should like to know what it means."

"We will write to the consulate in Rome. If there has been any trouble he will certainly notify us. I'll write tonight. Now, here's Cook's next door. We'll ask if there is any mail for Kitty Killigrew."

But there wasn't, nor had there been, and the name was not on the forwarding books.

"Looks as if your Kitty were the needle in the haystack."

"Cut it!" savagely. Pictures and churches and museums were all well enough, but Merrihew wanted Kitty Killigrew above all the treasures of earth.

When they turned down to the Via Caracciolo, with the full sweep of the magnificent bay at their feet, Merrihew's disappointment softened somewhat. It was the fashionable hour. The band was playing near by in the Villa Nazionale. Americans were everywhere. Occasionally a stray princess or countess flashed by inert and listless against the cushions and invariably overdressed. And when men accompanied them the men (if they were husbands) lolled back, even more listless. And beggars of all sorts and descriptions besieged the "very great grand rich Americans."

They were nearly a week in Naples. They saw the galleries, the museums and churches; they saw underground Naples; they made the weary and useful ascent of Vesuvius, and Merrihew added a new smell to his collection every hour. Pompeii by moonlight, however, was worth a thousand ordinary dreams, and Merrihew, who had abundant imagination, but no art with which to express it, happily or unhappily, saw Lytton's story unfold in all its romantic splendor.

They lingered at Amalfi three days and dreamed away the hours under the white pergola. Merrihew was loath to leave, but Hillard was for going on to Sorrento, for which his heart was always longing.

A spring rain fell as they took the incline, and it followed them over the mountains and down into Sorrento. They finally drew up in the courtyard of the Hotel de la Sirena, and the long ride was at an end. The little garden was white and pink with roses and camellias, and the tubbed mandarins were heavy with fruit.

"And this is March," said Merrihew, his thought traveling back to his own bleak country, where winter is so long and summer is so short.

Their rooms were on the northeast corner, on the first floor, and from the windows they could look down upon the marina piccola and the tideless sea, a sheer 150 feet below. Everybody welcomed the Signor Hillard. The hotel was his and everything and everybody in it.

Later, when they were alone, Hillard began to explain.

"They remember my father. He used to live like a prince in Sorrento. Every time I come here I do the best I can to keep the luster to his name. Tomorrow I shall point out to you the villa in which I was born. A Russian princess owns it now."

"A real live princess!" said Merrihew. "Is she beautiful?"

"Once upon a time," returned Hillard, laughing.

Giovanni did not return till late that night, and on the morrow Hillard questioned him.

"I have been to see a cousin," said Giovanni, "who lives on the way to El Deserta."

"Ah! So you have a cousin here?"

"Yes, signor."

How old he looked, poor devil! Hillard had not taken particular notice of him during the past week's excursions. Giovanni had aged ten years since they landed.

"And was this cousin glad to see you? And is he to be trusted?"

"Both, signor. He had some news. She—the girl—is a dancer in a Paris cafe."

"Would you like me to give you the necessary money to go to Paris and bring her back to the Sabine hills?" Hillard asked softly.

"I shall go to Paris, signor—after."

"What is his name?" Hillard had never till this moment asked this question.

"I know it. That is sufficient. He is high, signor, very high, yet I shall reach him. If I told you his name"—

"There would be the possibility of my warning him."

"That is why I hesitate."

"You are a Catholic, Giovanni."

Giovanni signified that he was.

"Does not the God of all Catholics, of all Christians, in fact—does he not say that vengeance is his and that he will repay?"

"But there are so many of us, signor, so many of us small and of slight importance, that, likely enough, God, with all his larger cares, has not the time to remember us. What may happen to him in the hereafter does not concern me, for he will certainly be in the purgatory of the rich and I in the purgatory of the poor. It must be now, now!"

"Go your own way," said Hillard, dismissing him. "I shall never urge you again."

Giovanni gone, Hillard leaned against the casement. The sun was bright this morning, and the air was clear. He could see Naples distinctly. Below, the fishermen and their wives, their bare feet plowing in the wet sands, were drawing in the nets, swaying their bodies gracefully.

And then Merrihew burst in upon him wildly excited and flourished the hotel register.

"Look at this!" he cried breathlessly. He flung the book on the table and pointed with shaking finger.

Hillard came forward, and this is what he saw:

Thomas O'Mally
James Smith
Arthur Worth
La Signorina Capricciosa
Kitty Killigrew
Am. Comic Opera Co., N. Y.

"Kitty has been here!"

"Perfectly true. But I wonder"—

"Wonder about what?" asked Merrihew.

"Who La Signorina Capricciosa is. Whimsical, indeed. She must be the mysterious prima donna."

Hillard studied the easy flowing hand and ran his fingers through his hair thoughtfully.

"What is it?" asked Merrihew curiously."

"I am wondering where I have seen that handwriting before."

Another fortnight found the pair back in Naples after spending a week on Capri. At the hotel they found a batch of mail. There was a letter which held particular interest to Merrihew. It was from the consul at Rome, a reply to Hillard's inquiries regarding the American Comic Opera company.

"We'll now find out where your charming Kitty is," Hillard said, breaking the seal.

But they didn't. On the contrary, the writer hadn't the slightest idea where the play actors were or had gone. They had opened a two weeks' engagement at the Teatro Quirino. There had been a good house on the opening night. The remainder of the week did not show the sale of a hundred tickets. The American manager had shown neither foresight nor common sense, and his backer withdrew his support. The percentage demanded by the managers in Florence, Genoa, Milan and Venice was so exorbitant (although they had agreed to a moderate term in the beginning) that it would have been nothing short of foolhardiness to try to fill the bookings. The singing of the prima donna,

"Look at this!" he cried.

however, had created a highly favorable impression among the critics, but she was unknown. The writer also advised Mr. Hillard not to put his money in any like adventure.

"That's hard luck," growled Merrihew, who saw his hopes go down the horizon.

"But it makes me out a pretty good prophet," was Hillard's rejoinder. "The angel's money gave out. Too many obstacles. To conquer a people and a government by light opera—it can't be done here. And so the American Comic Opera company at the present moment is vegetating in some little boarding house waiting for money from home."

Merrihew gnawed the end of his cane. All his pleasant dreams had burst like soap bubbles. Had they not always done so? There would be no jaunts with Kitty, no pleasant little excursions, no little suppers after the performance. And what's a Michelangelo or a Titian when a man's in love?

"Brace up, Dan. Who knows? Kitty may be on the high seas—that is, if she has taken my advice and got a return ticket. I'll give you a dinner at the Bertolini tonight, and you may have the magnum of any vintage you like. We'll have Tomass drive us down the Via Caracciolo. It will take some of the disappointment out of your system."

They had ridden up and down the Via Caracciolo twice when they espied a huge automobile, ultramarine blue. It passed with a cloud of dust and a rumble which was thunderous. Hillard half rose from his seat.

"Somebody you know?" asked Merrihew.

"The man at the wheel looked a bit like Sandford."

"Sandford? By George, that would be jolly!"

"Perhaps they will come this way again. Tomass, follow that motor."

Sure enough, when the car reached the Largo Vittoria it wheeled and came rumbling back. This time Hillard had no doubts. He stood up and waved his arms. The automobile barked and groaned and came to a stand.

"Hello, Sandford!"

"Jack Hillard, as I live, and Dan Merrihew! Nell," turning to one of the three pretty women in the tonneau, "what did I tell you? I felt it in my bones that we would run across some one we knew."

"Or over them," his wife laughed.

When we meet an old friend in a foreign land, one who has accepted our dinners and with whom we have often dined, what is left but to fall on his neck and weep? There was, then, over this meeting much ado with handshaking and compliments, handshaking and questions, and, as in all cases like this, every one talked at once—how was old New York, how was the winter in Cairo, and so forth and so on—till a policeman politely told them that this was not a private thoroughfare and that they were blocking the way. So they parted, the two young men having promised to dine with the Sandford party that evening.

FORM OF BALLOT

FIRST AMENDMENT.

FOR THIS AMENDMENT.

AGAINST

1. Strike out paragraph ten of Section VII of Article IV, and change the numbers of the following paragraphs to correspond.

SECOND AMENDMENT.

FOR THIS AMENDMENT.

AGAINST

Change paragraph ten of Article V to read as follows:

10. The Governor or person administering the government, and four citizens of the State appointed by the Governor, by and with the advice and consent of the Senate, shall constitute the Board of Pardons. The members of said Board, or any three of them, of whom the Governor or person administering the government shall be one, may remit fines and forfeitures, and grant reprieves, commutations, pardons and paroles, after conviction in all cases except impeachment. The four members specially appointed shall hold office for five years, and receive for their services a compensation which shall not be diminished during the term of their appointment.

THIRD AMENDMENT.

FOR THIS AMENDMENT.

AGAINST

(The different paragraphs of this amendment being necessarily interdependent, are considered as one amendment.)

Change Section I of Article VI so as to read as follows:

SECTION I.

The judicial power shall be vested in a court for the trial of impeachments, a Supreme Court, County Courts, and such other courts, inferior to the Supreme Court, as may be established by law, which inferior courts the Legislature may alter or abolish as the public good shall require.

Strike out all of Sections II, IV, V, VI and VII of Article VI, change the number of Section III of Article VI to Section II, and insert the following sections in Article VI:

SECTION III.

Any judge of any of the courts of the State may be removed for disability continuing for one year, or for refusal to perform the duties of his office, by a vote of two-thirds of all of the members of the Senate and of two-thirds of all the members of the House of Assembly voting separately, after a hearing before both Houses in joint session.

SECTION IV.

1. The Supreme Court shall be organized in three divisions, namely, the Appeals Division, the Law Division and the Chancery Division. It shall consist of a Presiding Justice of the Appeals Division who shall be styled the Chief Justice, a Presiding Justice of the Law Division, who shall be styled the President Justice, and a Presiding Justice of the Chancery Division, who shall be styled the Chancellor, and eighteen Associate Justices, which number may be increased by law.

2. The Appeals Division shall consist of the Chief Justice, and six other Justices of the Supreme Court to be assigned by the Governor. A Justice of the Supreme Court assigned by the Governor to the Appeals Division shall serve in said division until the end of his term.

The remaining justices shall be assigned by the Supreme Court to the Law or Chancery Division, as the business of the Court may require.

3. Whenever the number of causes before the Appeals Division shall be so great that the Division cannot promptly hear and determine them, the Governor shall, when authorized by statute, temporarily assign five of the justices of the other divisions to sit in the Appeals Division, which shall thereupon sit in two divisions for the hearing and decision of causes pending at the time of such assignment.

4. Four justices shall be necessary to constitute a quorum on the final hearing of any cause in the Appeals Division, but the Supreme Court may provide by rule for the making of interlocutory orders by a lesser number of justices or by one justice; such orders to be subject to revision by the Appeals Division.

On the hearing of a cause in the Appeals Division, no justice who has given a judicial opinion in the cause in favor of or against the judgment, order or decree under review shall sit at the hearing to review such judgment, order or decree, but the reasons for such opinion shall be assigned to the Court in writing.

5. A majority of all the members of the Supreme Court, to be presided over by the Chief Justice, shall constitute a quorum for the assignment of justices, and for the appointment of officers, and the enactment of rules.

6. The Supreme Court shall appoint one or more reporters, not exceeding three, to report the decisions of the Court, and shall by rule define his or their duties and powers. The reporters shall hold office for five years, subject, however, to removal at the discretion of the Court.

SECTION V.

1. The Appeals Division shall have and exercise the appellate jurisdiction heretofore possessed by the Court of Errors and Appeals, the jurisdiction heretofore possessed by the Supreme Court on writ of error, and the jurisdiction heretofore possessed by the Prerogative Court on appeal, and by the Ordinary on appeal, and such further appellate jurisdiction as may be conferred upon it by law, together with such original jurisdiction as may be incident to the complete determination of any cause on review, saving, however, the right of trial by jury.

2. The jurisdiction hertofore possessed by the Supreme Court and the Justices thereof not hereby conferred on the Appeals Division, and the jurisdiction heretofore possessed by the Circuit Courts and the judges thereof, and such further original jurisdiction not of an equitable nature, and such further appellate jurisdiction from inferior courts as may be conferred by statute, shall be exercised by the Law Division of the Supreme Court and by the several justices thereof, in accordance with rules of practice and procedure prescribed by statute, or in the absence of statute by the Supreme Court.

3. The jurisdiction heretofore possessed by the Prerogative Court and the Ordinary, not hereby conferred on the Appeals Division, and the jurisdiction heretofore possessed by the Court of Chancery and the Chancellor, and such further original equity jurisdiction as may be conferred by statute, and such further orignal jurisdiction as is now conferable on the Prerogative Court shall be exercised by the Chancery Division and by the Chancellor and the several justices of said division in accordance with rules and practice and procedure prescribed by statute, or, in the absence of statute, by the Supreme Court, but the justices of that division shall be under such control and supervision by the Chancellor as shall be provided by the Supreme Court.

4. Terms of the Supreme Court presided over by a single Justice of the Law Division for the trial of issues joined in or brought to the Law Division of the Supreme Court shall be held in the several counties at times fixed by the Supreme Court. Until so fixed, such trial terms shall be held at the places and times now fixed by law for the holding of the Courts of Common Pleas in the several counties.

5. The Supreme Court may provide by rule for the transfer of any cause or issue from the Law Division to the Chancery Division, or from the Chancery Division to the Law Division of the Supreme Court, and from the County Court to the Law Division or the Chancery Division of the Supreme Court, and for the giving of complete legal and equitable relief in any cause in the court or division where it may be pending.

6. Nothing herein contained shall prevent the alteration, by law, of any statutory power or jurisdiction conferred upon any court or judge since the adoption of the Constitution in the year one thousand eight hundred and forty-four, and nothing herein contained shall prevent the Legislature from conferring upon any inferior court which may hereafter be established such power or jurisdiction as was exercised by any court which may now be conferred upon the inferior courts mentioned in section 1 of Article VI of the Constitution of 1844.

SECTION VI.

The County Courts shall have and exercise, in all cases within the county such original common law jurisdiction concurrent with the Supreme Court, and such other jurisdiction heretofore exercised by courts inferior to the Supreme Court and the Prerogative Court as may be provided by law. The final judgments of the County Courts may be brought for review before the Supreme Court in the Appeals Division. Until otherwise provided, the jurisdiction heretofore exercised by the Courts of Common Pleas, Orphans' Courts, Courts of Oyer and Terminer, Courts of Quarter Sessions, or by the judges thereof, shall be exercised by the County Courts pursuant to rules prescribed by the Supreme Court. The justices of the Law Division of the Supreme Court shall be ex-officio judges of the County Courts. All other jurisdiction or authority now vested in any court, judge or magistrate with jurisdiction inferior to the courts in this section mentioned, and not superseded by this article, shall continue to be exercised by such court, judge or magistrate until the Legislature shall otherwise provide.

EDITOR IN A RUNAWAY.

Washington, N. J., Sept. 11.—Charles L. Stryker, owner and editor of the Washington Star, is confined to his bed as the result of injuries sustained Thursday night, when he was thrown from his wagon while returning from Hampton.

Mr. Stryker had gone to that town to bring home his two daughters who were on a visit, but they decided to remain until today. While on his way back he lost his hold on the reins momentarily, and in an instant his horse started to run away. Mr. Stryker, in trying to recover the reins, was pitched against the dashboard, which broke, and he was thrown to the ground.

His six-year-old son, who was now alone in the wagon, did not lose his nerve, but slid out of the back of the wagon. He was slightly hurt.

Father and son were given medical attention as soon as they reached home. The horse was caught near the school-house.

William Sediak, of Greenpoint, L. I., was committed to jail in Newark Thursday in default of $1,000 bail, on a charge of robbing the home of Thomas Lesgato, of No. 554 Market street. While Mrs. Lesgato and her husband were discussing the robbery in which a muffler and prayer book were stolen, with a friend in the street, they noticed a man with a prayer book sticking from his coat pocket. Mr. Lesgato seized the fellow, who proved to be Sediak. A muffler was also found in his pocket.

JERSEY POSTAL CLERKS ARE FOR PARCELS POST.

Declaring his conviction that the Federal Government could better spend money for raising the salaries and conditions of postal clerks and other civil service employes than in building warships, Representative T. He promised support for the old age pension and other projects of the postal clerks.

BAYONNE POLICE MUST AID THE HEALTH BOARD.

Bayonne, Sept. 11.—Chief of Police John Yore was formally notified by the City Council Thursday to assist the Board of Health in its efforts to make Bayonne a clean and healthy city. This action was the result of a resolution passed by the Council the previous night. Health Commissioner Edward Benson, who was present at the meeting, said:

"We have invited the police to cooperate with us, but the trouble is that the Board of Health is regarded as a joke. We have one policeman to look after the entire city sanitary condition. We cannot do what we should do unless we have a larger appropriation. It would be much better if the police would aid us, but they do not, so we ask the co-operation of this board."

The Council unanimously voted to give the desired co-operation.

COHAN & HARRIS' GREAT SHOW WILL APPEAR HERE.

Cohan & Harris, who have booked Miss Trixie Friganza in George M. Cohan's American-Parisian sensation "The American Idea," for the Plainfield theatre, Monday night, in a personal letter to Harry S. Sanderson, have the following to say about the production:

"'The American Idea' will come to you in all its original perfection. Here is an organization headed by one of the most perfect comediennes in the world which ran nearly an entire season at the New York theatre and later spent six months at the Colonial theatre, Chicago. It goes on the road intact. It is not a case of everything changed but the name. There is nothing of the 'road' company or the No. 2 about it. If anything it is better than ever. New costumes and new scenery have been provided and the chorus enlarged. We are frankly proud of Miss Friganza and 'The American Idea.' Mr. Cohan never wrote a better musical play than this and certainly no musical play has ever been better played and presented. In every way we guarantee. 'The American Idea' and you can announce it from this time on feeling certain that your patrons will have a delightful treat when the show reaches your house."

BUD'S IMPORTANT JOB.

"It ain't that I don't like to see people look up, an' put the best foot for'ard, an' all that," said Mrs. Ripley, according to Youth's Companion; "But Mary Haines always overdoes it." Taking the darning-egg out of one of her husband's socks and inserting it in another, she turned to her visitor and went on:

"She was down here last Tuesday, chock full of news about the sawmill the city folks have started up on Popple brook. Mr. Haines, she said, had got a job on one of the saws, an' Bud was going to have 'a position.'"

"What doing, I wonder? Bud's a real good-natured boy, but I never thought he knew any more'n the law allows," Mrs. Page commented frankly.

"I wondered, too," confessed Mrs. Ripley, "but I didn't have to ask.

"'Tomorrow,' says Myry, 'Bud will begin his new duties as chief of the commissary transporation department at the new sawmill. We expect,' 's she, 'that he'll develop great expertness in his new duties.'

"'Do tell!' I says.

"Mebbe 'twas stubborn, but I just wouldn't show one mite of curiosity. I talked a mile a minute as long as Myry stayed, an' she couldn't get a word in edgeways.

"Next day, though, I started on up to Popple Brook, an' dropped in on Myry. It was about 11 when I got there, an' she was flying round the kitchen like a hen with its head cut off, filling a whole row of dinner pails with hot victuals. Bud, with cap an' all on' cept his mittens, set tilted back against the wall, waiting."

"Well, I declare!" said Mrs. Page, as one who suddenly saw light.

"Yes, that's it!" confirmed Mrs Ripley. "Bud's 'position' of 'chief of the commissary transportation department' is carrying dinner pails—his father's an' the hands Myry's taken in to board—to an' from the sawmill.

"When she'd loaded all the pails on to a pole an' started him off, Myry turned to me.

"'Bud's going to do splendid at it,'" 's she; 'he's taken right holt.'"

WHAT AMENDMENTS MEAN

(Continued from page 1.)

circuits; to simplify proceedings and lessen the danger that meritorious cases may be lost or criminals escape on technicalities, to lessen the expense of litigation, and to shorten the time required to end it; and to secure more certain and more speedy justice.

The principal arguments to prove that the adoption of the proposed amendments will secure some of these ends and tend to promote all of them, have been printed and given wide publicity throughout the State. To me they seem unanswerable.

To the citizens of Union county, perhaps one fact will prove more persuasive than any additional argument. The fact, I mean, that the proposed amendments are in large measure the work of the great judge who adorned the bench of the Supreme Court and the highest court for thirty-five years until temporary ill health led him to resign, and who, during most of those years, presided in our courts at Elizabeth. Judge Van Syckel, while presiding over our courts, gained such prestige for his profound learning and sense of justice that lawyers had difficulty in convincing their clients that it was ever worth while to appeal from his ruling; and when, during his last two terms, there were rumors of his retiring, citizens of the county of all parties and with one voice demanded that he continue on the bench. The fact that ex-Judge Van Syckel, with his colleagues, has given to the State this product of his and their best thought, while his intellectual power is still at its maximum, needs no argument to bring home its significance to the citizens of this county.

To conclude with a concrete illustration of how a lawyer, now a judge, true to the tenets of his chosen profession, can sink self in the interests of the State, I quote the following from the Hon. Wilbur A. Heisley, Circuit Judge, whose office will be abolished at the expiration of his present term if the amendments are adopted, but, who, if the amendments are defeated, is morally certain to remain on the bench as long as he will consent to do so.

In the course of a published interview, Judge Heisley said:

"To my mind the people of this State would make a very great mistake and do themselves incalculable injury by voting against the proposed changes.

"In their interests and theirs alone I do most earnestly advise that they listen to the voice of reason and not that of the demagogue and secure a judicial system simple in its formation, quick in its results—a system devised solely in the interest of litigants and which I firmly believe, will in coming years be regarded as one of the very best in existence."

CLAIMED KAVIS USED BRASS KNUCKLES IN FIGHT

Frank Williams, John Kusman and Joseph Kavis, all Poles got into a three cornered fight last night at their boarding house, 215 West Front street and the three were considerably blood be-spattered when they made their appearance in court this morning before City Judge William Runyon. All three were corralled by Patrolman Flatley, who became suspicious of the noise in the apartments of Williams and made an investigation. Policeman Flatly told the court that he saw Kusman and Kavis emerging from the rear of the house and upon questioning them decided to go back an investigate a story they told of a man trying to whip everybody in sight.

He found Williams nursing a bleeding optic and from the conditions of things determined to arrest all three. In court this morning Williams claimed that he was hit by Kavis who used a pair of brass kunckles, but a search of the man failed to reveal the instrument his story lacked confirmation. Accord to an interpreter the fight was a general mixup in which the moving factor was the usual booze. Judge Runyon find all three making it $5 or twenty days.

Got Susupended Sentence.

Charles Hawkins who was found intoxicated on Sycamore street Saturday night got a suspended sentence from Judge Runyon in the city court this morning. Hawkins pleaded that he was suffering from a fit and that he was not under the influence of liquor. This prompted Judge Runyon to remark that "fits" were becoming epidemic among the colored population, and that Hawkins should seek some other remedy than brandy when he is next taken ill.

The Crane Building Sold.

U. B. Crane has sold his business property on West Front street, formerly occupied by him to Leo Slonim for investment purposes. The store is now occupied by George J. Finger. The consideration is said to be $15,000.

CHRIST AS THE PILOT

Rev. Chas. A. Goodrich Draws Lessons from Recent Trip Abroad.

WHY THANKFUL TO RETURN.

Says Communication With God Is as Reasonable as Wireless—God the Safe Guide.

Rev. C. L. Goodrich, pastor of the Congregational church, was in his pulpit yesterday morning having returned home on Saturday afternoon. The sacrament of the Lord's Supper was celebrated in the morning and Mr. Goodrich's address was brief. He gave as texts for his sermon, John 16:16 and Matthew 28:20, "A little while, and ye shall not see me; and, again a little while, and ye shall see me, because I go to the Father;" and "Lo, I am with you alway, even unto the end of the world."

Mr. Goodrich prefaced his remarks by telling of a question which was asked of him Saturday morning while the ship was approaching the harbor. "What are you specially thankful to come home for? They *do things so much better in England.*" His questioner was a young woman passenger. He said: "We do not have to try to think of a reason why we are thankful to return. Do we not love those to whom we are returning? And is not that sufficient reason?

"Of the return we may say that it may leave pictures on our minds if it kindly will. Vast stretches of smooth sea greeting the eye on every hand, and as the sun dips into the distant horizon we catch glimpses of the azure turning into burnished gold as the great orb of day sinks to rest in the west. The glint of the ship's light at the masthead foretells the coming night. The kindly stars which shine like the eyes of savage beasts on the edge of a forest. The silver sheen of faroff sun-lit waters of the morning. The intense masses of blue curling up alongside the ship and slipping back while the spray blows away in rainbow tints.

"Then comes a mist. It changes to rain. Then the wind thrashing the sea into great surges. As far as the eye could reach one could see great blue waves beating up and up and the great ship moves on, ever steady, never swerving from her course, steadily on and on. All leads *to the thought of home; the loved* ones, the friends seem to come to one out of the vastness of the deep.

"And Christ bring this picture to us in as clear a vision. 'A little while and ye shall see Me.' On our voyage the pilot takes us just a little way then leaves the ship to go on its enterprise alone. He is with us but a little while and is gone. Jesus took his disciples just a little way on their journey and left them to face their great duty, the stupendous enterprise, to let them make the voyage as best they could. And so he lets the church go on. The compass of wisdom, skill and power, to accomplish the voyage successfully.

"It was a marvel how the infant church was piloted past the shoals and reefs of its early existence; but 'Lo I am with you alway' shows that the pilot of then is the pilot of today. God is able to guide your life and my life and make it safe. It is for us to do, to suffer and enjoy leaving all to God and make the eternal future secure. If there can come messages through the ether to those on board the ship is it not equally possible for messages to come from God and prayers to reach Him? Let us go forward under the divine guidance and do what we can for God's Kingdom and our fellow men."

MARTINE MAKES REPLY

In Answering Corporation Counsel, He Again Attacks Amendments.

THEY SHOULD BE DEFEATED.

Says Distinguished Lawyers Are as Human as Laymen—Farmer Orator's Letter in Full.

James E. Martine today makes a reply to the communication of Corporation Counsel C. A. Marsh, president of the Union County Bar Association. Mr. Marsh's letter was in answer to a speech delivered by the farmer-orator, who has this to say today:

I have no desire to engage in a controversy with my friend, Mr. Craig A. Marsh, nor would I pick one leaf from the laurels that adorn the brow of the "legal fraternity," but still I declare there is no widespread demand for the proposed Constitutional amendments, outside of the legal profession. If our constitution is to be amended let it come from a constitutional convention, broader and more comprehensive in *its scope. But all propositions* looking to such a convention have been studiously voted down by the great "interests" and lawyers of our State. I will not dispute Gladstone's judgment of our National Constitution, but there is no evidence that it might not have been even better, had these been a more liberal sprinkling of laymen in its councils. I deny that "our institutions, government and liberties are dependent on lawyers," and that that profession guard our fundamental law more honestly and jealously than do laymen. It was from great legal minds, some years ago, that we first heard the slogan that there was a "higher law than the constitution." I thoroughly appreciate that the legal profession is a most valuable adjunct to society, *but I do not consider them "the* whole thing."

As to the distinguished gentlemen who drafted the amendments, viz: Justice Van Syckle, Charles L. Corbin, John H. Hardin, ex-Governor Murphy, Hon. John W. Griggs, I know them all personally, and have the highest regard for their intelligence and legal ability. I have also learned to regard them as well as other lawyers, as being wonderfully human; not unlike their laymen fellow citizens, liable to prejudice, likes and dislikes, follies and errors. That lawyers predominate in our legislative halls, I confess is true, and as a result our law books are fairly choked with laws, conflicting with each other and difficult of interpretation, demanding frequent revision by these "lawyer legislatures."

But, Mr. Marsh, there is something more than the judiciary affected by these proposed amendments. *There are amendments proposing* to extend the terms of Governor, State Senator, Assemblymen, county clerk, register and surrogate. What about these? will answer, that "this is to separte city and town elections from national." Amendments to the State constitution are not necessary for this. Repeal the so-called "Meeker act" and elections will be divorced at once. I shall earnestly oppose any step that may tend to remove the government further from the people, as unwise and dangerous.

In your closing you quote Judge Heisley, who arraigns the opposition as that of the "demagogue." This arraignment I deem to be ill-tempered, in ill taste and unqualifiedly untrue. And now prompted by motives quite as lofty and patriotic as those of the above quoted judge, I sincerely urge my fellow citizens to vote against these amendments—Strike out the word "For" in each.

JAMES E. MARTINE.

MISS CURRY HONORED

Called "The Wonderful Woman," Stupendous Energy Required for Work.

SOME INTERESTING STATISTICS.

Most Successful Season in History of Home—3,079 Children and Mothers Cared For.

Amid the surroundings of a perfect night and in a handsomely decorated pavilion the last goodbys to Miss Curry, "The Wonderful Woman," were said Saturday night. By last goodbys is meant only for this season, as she promises to return with her changes again next year and continue in the work which has made her loved by everyone who knows of her magnificent efforts in behalf of the poor children of the East Side of the big city.

The fact that Miss Curry has been given the title "wonderful" was patent Saturday evening, when in no les than four speeches she was thus referred to. The occasion was a reception tendered to her by her friends in Netherwood and other parts of Plainfield and about fifty of these gathered to bid her Godspeed in the winter's work in New York and to shake her hand in parting for a season.

The pavilion was draped with American flags and garlands of flowers, while rustic swings and chairs were found here and there for the special purpose of making the place look homeloke and inviting. It was pleasing to see and the social time which followed the reception was much enjoyed.

No formal report of the season's work was read owing to a misunderstanding, but enough figures were gathered to show that a stupendous missionary work is being carried on and in a most economica. manner. David M. Runyon, cashier of the First National Bank, gave out a few figures which showed the condition of the finances from the end of last year's work to the conclusion of the work of this season. He said that that the season last year opened with a deficit of $60, and closed with all bills paid and a balance on hand of $122. This year opened with a balance on hand of $620, ade up of the previous balance of $122 and contributions of the balance. During this season about $1,500 had been contributed and the expenditures had been about $2,000, so that with all bills paid there will be left about $140 with which to begin next year's work.

During the summer 2,105 children have been cared for at the home besides 974 mothers, making a a total of 3,079 souls whose physical and spiritual welfare have been safeguarded. 15,005 loaves of bread were eaten; 10,502 biscuits were disposed of to say nothing of 4,105 quarts of milk.

Owing to a sudden call out of town J. D. Loizeaux was unable to be present at the gathering and James F. Parker had charge. Mr. Parker made a brief address in which he paid a high tribute to Miss Curry's unselfish devotion to the cause of the little people to whom she has ministered so long. He said: "Her whole heart is given to the Master's work and she succeeds in giving the children a happy time while she looks after the welfare of their characters and their souls. I think there is no object in this world to compare with that, and when we remember that it is done for Him it exhibits the same spirit as was shown by Mary who annointed the feet of Jesus with the precious ointment."

Mr. Thresher, who has been intimately connected with the work of the home and is in touch with it all the year round said that the financial support while great was only a small part of the undertaking and only those closely associated with the work knew of its immensity. The thousand and one details which are so ably handled seem as nothing to those who merely see the surface and that is one reason why Miss Curry is wonderful. He also declared that it was impossible for anyone to realize the work they were helping to support. "There is no work anywhere," he said, "where a dollar goes farther. I visited an institution yesterday where they spend more in one week than is spent here in the whole season and yet the whole work of that institution is surface work. It does not reach the souls of the children. I can see how the influence of Miss Curry's life is something that cannot be calculated. You cannot afford to withdraw your support. It is her personal touch. She is accomplishing what all the New York churches, with all their means cannot do."

Among the others who spoke were Benjamin F. Hadley, Mrs. William Henry, Miss Minna Bock and George Chapman. All these speakers gave their views of the work and Mr.

TWELVE YEAR OLD BOY TAKEN TO PROTECTORY

William Madden, twelve years old, a homeless lad, was taken to the Catholic Protectory at Arlington, today, where he will be looked after until he is better equipped to take care for himself. He was abandoned by his mother some time ago and has earned a precarious living ever since. His father was killed on the railroad several years ago.

Recently the boy has been working for John F. Wilson in North Plainfield, but he is inclined to be wild and it was thought best to place him where he would be out of the way of temptation. Acting probation officer C. W. Irwin took the boy to the Protectory this afternoon.

PUBLIC SCHOOLS OPEN TOMORROW MORNING

Owing to the delay in the delivery of the school desks at the new Darrow avenue building, known as the Washington school, it will be impossible to open the same until Thursday. The opening will not be marked by any special exercises, but when everything is fully completed and the grounds graded, public exercises will be held. At the time an American flag will be presented by the four councils of the Jr. O. U. A. M. of this city and the building will be open for inspection by the public.

Everything is in readiness for the re-opening of the Plainfield and North Plainfield public schools tomorrow morning. At the high schools of the city and borough, the work of registering pupils has been in progress for a week and it is believed that the figures will exceed those of any recent years. Principal Best will be at the Plainfield High School all day to consult with parents about their children, and Principal Krebs will also be at his office for the same purpose.

All of the buildings have been put in first-class condition, thoroughly renovated and cleaned, while the schools grounds have also been put in shape. Where needed repairs have been made and the new school year will open under most favorable circumstances.

Mr. and Mrs. Phelps Return.

Mr. and Mrs. B. J. Phelps, who were married on September 1, at the home of the bride's parents at West Suffolk, Conn., and left on a brief honeymoon to Montreal, Can., St. Johns, N. SALOONS NEED NOT BE CLOSED TOMORROW

Hotel and saloonkeepers will not be required to close their bars tomorrow during the hours while the election on the constitutional amendments is being held. Neither will the banks nor schools be closed.

Governor Fort has declared that the election is a special one and that the laws regarding the observance of general elections as holidays can not be held to apply to this case.

No opinion on the matter has been received from the attorney general but in all parts of the State the views of Governor Fort will be accepted, as correct and there will be no suspension of the liquor business tomorrow.

SOMERSET COUNTY G.O.P. WILL SUPPORT SMALLEY

The first annual outing of the Somerset County Republican Committee was held at Boehm's Hotel, New Dorp, Staten Island, on Saturday. More than five hundred followers of Senator Joseph B. Frelinghuysen enjoyed the three hour sail before landing at the grove where they enjoyed a clambake.

Nearly every Republican politician in the county was aboard the boat and many from other counties, including Frank H. Smith, chairman of the Union County Republican Committee. There were no speeches at the dinner; the crowd was too anxious to eat and to cheer for Senator Frelinghuysen as the next Governor of this State.

The most interesting event of the day was the baseball game between the fat men and the shadows. Senator Frelinghuysen did the pitching for the heavyweights while "Charlie Fleischman did similar duty for the slim jims. Judge Schenck was the umpire. Three consecutive home rnns were made off Senator Frelinghuysen and he retired in favor of another whose identity has not yet been made public. The scorer refused to make public the details of the game so it was declared a tie.

Some interesting talk was overheard as to the Assembly nominations in Somerset. Charles Fleischman seemed to be the one to be most thought of for the place by the young men and is considered to be the logical man for the job. W. W. Smalley who has already served three terms in the House, was the favorite of the older Republicans, who pointed to his record in the Legislature as the best argument why he should be returned there. The judgment of the older men prevailed and it was decided to support Mr. Smalley.

SEMMER HELD FOR ARSON

Storekeeper at 531 W. Third Street Accused of Setting Fire to His Place.

HOUSE GUTTED LOSS OF $1,500.

Families on Upper Floors Have Narrow Escape—Semmer Seen to Leave Ten Minutes Before Discovery of Fire.

What is believed by the police to have been a deliberate attempt at arson was committed last night by Nathan Semmer at his store at 531 West Third street. Flames were discovered about half past eleven issuing from the store and reaching up into the air for twenty feet. Over the store there were asleep the members of David Strauss' family and in the rear Semmer's wife and children, some ten in all. That they all escaped alive was a miracle as the flames swept up and through the house with incredible rapidity and in ten minutes the place was a roaring furnace.

The alarm from box 46 brought a prompt response from the fire department and the spread of the flames was checked although the house was gutted and the contents consumed, involving a loss of $1,500 mostly insured.

It was said that Semmer was seen leaving the store ten minutes before the flames were discovered and it is this fact that throws suspicion on the man. He has failed to satisfy the police that he is innocent and has made no statement. V. W. Nash, Jr., appeared in behalf of Semmer in the city court this morning and asked that bail be fixed, but Judge Runyon refused bail until a thorough investigation of the fire can be made.

Patrolman Vanderweg heard the cries of fire while patrolling his beat in the neighborhood of West Third street and ran with all speed to the box at the corner of Second and Liberty streets and turned in the alarm. In the meantime the loud shouts of the people in the street aroused the sleeping tenants and all got out in safety although there were several narrow escapes. It required an hour's hard work to subdue the fire. The building was owned by K. Sachar and Semmer occupied the lower floor as a candy and fruit store. Judge Runyon remanded Semmer until tomorrow morning when he will be given a hearing.

"JOY RIDER" IN TOILS; HE WAS NOT DRINKING

Another joy rider is in the toils and this time as far as known liquor did not figure in the proceedings. Frank Newman, an employee of F. L. C. Martin, is the man and he is enjoying his liberty only through the kindness of Joseph C. Blimm, who signed the bail bond of $500.

Newman took out a party of men for a ride around the city Saturday afternoon and left them at the Hunt Club, where they had dinner. He called for the party again after the dinner and took them for a little ride all of which was legitimate and in the day's work.

Instead of returning the car to the garage after the last trip with the party who had rented it, he left the machine on the street and sneaking into the garage registered the time of the legitimate trip and taking the car went for a ride with some personal friends returning at 4:20 yesterday morning. During his ride he broke the speed laws of the State and in so doing damaged the machine.

Newman was arrested on the charge of reckless driving and was put under bonds as noted above to await the action of the grand jury. City Judge Runyon presided at the hearing yesterday.

Fred Moore to Wed.

Announcement is made of the approaching marriage of Frederick S. Moore, of this city, and Miss Jeanetta Kiger, dauhgter of Col. and Mrs. William H. Kiger, of Atlantic City. The ceremony will take place on Sunday afternoon at the Westminster Presbtyerian church, Atlantic City. Rev. Dr. John McMillian, the pastor, will officiate. Mr. Moore is a prominent member of the Elks and has a host of friends here.

A Birthday Surprise.

A birthday surprise party was given Charles L. Force, of Mountain avenue on Saturday night and was complete in every way. Mr. Force received several remembrances from his friends. Games, instrumental and vocal music and refreshments were the features of the evening.

School re-opens tomorrow morning at 9 a. m., after a three months' vavation. The only change in the corps of teachers will be Miss Hoffman, of Martinville, N. J., who takes the position left vacant by the resignation of Miss Smith. Miss Hoffman is an experienced teacher and comes well recommended and will no doubt make a valuable addition to the corps.

The evening service at the Methodist church last night was devoted to the interest of Camp Wolf, the Westfield Fresh Air Camp. Trixie Friganza and Arthur Lipson in Geo. M. Cohan's Big Musical Comedy Success, "The American Idea," at Plainfield Theatre Tonight.

LOCAL AMUSEMENTS

Geo. M. Cohan's "The American Idea," a musical frivolity fresh from the pen of the versatile comedian and composer which has had long runs in New York, Boston and Chicago, comes to the Plainfield theatre tonight. The author describes the piece as his youngest hit and critics seem to agree that it is the most Cohanesque of all the Cohan repertoire of successes presenting "Cohanics" raised to the limit of activity. It shows the genius of George M. at its fastest gait and in its greatest variety. The plot builds itself upon the social aspirations of two rival Brooklyn millionaires, one Irish and the other German, who are lured into buying each other's sons as French Counts for their daughters, thanks to the enterprise of a Yankee showman and grafter, one Stephen Hustleford, who is stranded in the French capital. There is a big gallery of characters of whom all the principals are Americans abroad with the exception of the Count de Souchet, a bogus nobleman played by Arthur Lipson in an inimitable manner. He is bought with perfectly good American money by Mrs. William Waxtapper (Trixie Friganza), who wants a blue-blooded husband. The plot is as complicated as any that Cohan has evolved and that is saying a great deal. The piece is a merry satire throughout on international marriage and while "The Yankee Prince" has fun with the British nobility, "The American Idea" takes liberties with the aristocracy of France. The company presenting "The American Idea" is a permanent one known as the Cohan and Harris Comedians. It is headed by Trixie Friganza, assisted by Arthur Lipson, Raymond Finlay, Mark Hart, Hugh Mack, Dan Day, R. L. McAndrews, Rose King, Beatrice Whitford, Myrtle Gilbert, Bessie Crawford, Edith Ross and Lola Hilton. These are supported by seventy-five singers and dancers, including Mlle. La Reve, the great Parisian danseuse, brought to America by Mr. Cohan. They are worked almost into hysterics in the numerous kaleidoscopic gatling-gun numbers furnished by Mr. Cohan, who believes in keeping his choruses busy. In selecting the girls for "The American Idea" Mr. Cohan went in for beauty more than is his usual wont and these girls represent a combination of voices, figures and activity that excel anything brought to this city in a long time. They are all workers who can do a hundred yards

Myrtle Gilbert in Geo. M. Cohan's Most Successful Musical Offering "The American Idea."

in ten seconds and they need all their speed in a number called "American Ragtime," which is announced as the hit of the piece. Songs are scattered through "The American Idea" with a lavish hand. Much is promised of "Sullivan," a topical song sung by Mark Hart, which Cohan himself considers better than his "Harrigan." Then there is "F-a-m-e" another hit of the "M-o-n-e-y" type; "Too Long From Long Acre Square," "They Always Follow Me" and "My Garden That Blooms for You." The piece is lavishly staged and costumed by Mr. Cohan, he having endeavored to beat the London producers at their own game in these particulars. As usual Mr. Cohan presents an original character such as the public has come to expect in each of his new pieces. This time it is the "Mysterious Man" played by Hugh Mack, who dramatizes his own part in the action of the piece, and is a combination of "Foxy Quiller," "The Lone Fisherman" and "Evangeline." He is aided and abetted by "The Mysterious Girl," played by Miss Lottie Burke. But above all the distinctive feature of the piece is announced to be speed. Mr. Cohan tried to find how much entertainment could be packed into the three acts. The result has been described as a quick-firing gun hitched to a kaleidoscope on board the Twentieth Century Limited, with Victor Herbert's, Sousa's and Maurice Levi's bands playing at the same time.

"Paid in Full," the great Eugene Walter play, will be given at the Plainfield theatre on Wednesday, September 15, by a powerful company under the management of the Wagenhals & Kemper Company of the Astor Theatre, New York. "Paid in Full" has made the greatest success of any play of contemporaneous life. There is not a dull moment in it, nor an instant in which attention is not closely centered and sympathy held. Five companies are at present engaged in its representation, and this one is the best, having been specially engaged for the principal cities of the Atlantic Coast.

Anna Chance, of the Charley Grapewin Company, will be seen at the Plainfield theatre Saturday matinee and night in Mr. Grapewin's new offering entitled "Above the Limit." She takes a trip in the role of Marjory, all the way from Arizona to her uncle's beautiful residence on the banks of the scenic Hudson, often called the Rhine of America. There she falls in love with Jimmy Hicks, the character assumed by Mr. Grapewin, and in his effort to win her is told a pretty story of everyday life, full of heart interest and humor and pleasing beyond measure to all who like to see the poor boy grow great.

MEMORY'S MELODIES.

A slumber-song at eventide,
With the cradle slowly swinging;
"Fast fals the night, with Me abide"
Her soul was softly singing.

The song is hushed, the music's died,
That Voice sings now in Glory;
But ho! I'd give the world beside—
As once again a little child —
To hear the Old, Old Story!

Yet, in my ears, on down the years,
Sweet echoes keep a-ringing;
Through doubt's dumb fears and wisdom's tears;
Whene-er the twilight hour appears,
I hear Love's Song still singing!

Soft lullabies from Land-o'-Dream,
Love's cradle-songs sweet and low—
Those melodies forever seem
Still singing whereso'er I go;
Once dear to Childhood's hour and scene,
Life's Heart of Age still keeps them so!

"NO FORLORN HOPE" FOR HARRY MARSHALL.

Harry W. Marshall, of this city, who was endorsed by the Union County Democratic Committee, last week, for one of the Assembly nominations, today informed a reporter for The Daily Press that he would not accept the nomination under any circumstances.

When announcement of his endorsement was made last week by the Union County Democratic Committee, the newspapers were given to understand that Mr. Marshall's acceptance had been secured, but in view of his statement today, this would apepar to be erroneous.

Plainfield Horses Win at Lenox.

Plainfield horses were in the money at the Lenox, Mass., steeplechase meet on Saturday, when Hugh Gormley's Harry Baylor won the President's cup, and C. W. Fisk's Apple Jack finished second. Fred Bull's Midlothian, T. J. O'Donahue's Tots and Louis Batjer's Rosebank, were also in the money in the various races. This was one of the most important meets of the season and the entry list was unusually large. All the Plainfield horses were entered from the Watchung Hunt Club.

LOCAL OPTION TALK BY P. FRANK BURKE

J. Frank Burke occupied the pulpit at the First M. E. church, yesterday morning, speaking in the interest of the local option movement, especially in this State. There was a large congregation present and all seemed to be interested in the progress of the movement as set forth by Mr. Burke. He gave a history of the movement, explained its objects and displayed a map, showing that New Jersey is one of only four States in the country that has not allowed the question of local option to be submitted to a vote of the people.

In his reference to this fact, Mr. Burke said that the other three States are Pennsylvania, Utah and Nevada, and judging by the trend of affairs he felt sure that New Jersey would soon be in line with the majority of States. He told of the earnest work being accomplished in New Jersey in behalf of local option, of the enthusiasm being aroused among the supporters of local option and he felt sure that it would not be long before the people of the State would insist on the submission of the question to a vote.

During the course of his remarks, Mr. Burke gave statistics to show that local option appears to be the only solution to the all-important question.

Last night Rev. Dr. C. M. Anderson occupied his pulpit and preached a strong sermon on the parable of "The Pharisee and the Publican," which he illustrated with numerous pertinent incidents. The congregation was a large one.

COOKED SUPPER ON DRIVE; Y.W.C.A. ENJOY JAUNT

The Young Women's Christian Association is preparing to have a great time at the opening of their new building early in October. The new reception hall is almost finished, so it will probably be put into use next week.

The large plazza extending around the entire house is the pride of the members. The house is splendidly laid out and promises to be a source of pleasure and profit to the members.

The first of the fall series of walks was taken Saturday under the direction of Miss Margaret Mosher, physical director, to the old baby camp on Johnston's drive. The distance is about four miles.

Here they cooked their supper over an open fire. After resting for a while, they returned to the city, reaching the association rooms about 7 o'clock.

Until the new building is opened the secretary will have her office in the gymnasium, where she will give information as to classes. A new prospectus is being prepared for the fall classes and all indications point to a most successful year.

CHRISTIAN FIELD.

The Junior Christian Endeavor Society of Trinity Reformed church will meet Wednesday afternoon for the first time after the summer vacation.

Commencing next Sunday the Sunday-school of Trinity Reformed church will meet in the afternoon at 2:30 o'clock, instead of 9:30 in the morning and the morning preaching service will be at 10:30, instead of 10:45.

"His Honor the Barber," Pleased.

S. H. Dudley, the prince of colored comedians, supported by an exceptionally strong company, presented "His Honor the Barber," at the Plainfield theatre, Saturday afternoon and night to large audiences. The play is superbly staged, the costumes are elaborate and the specialties are above the average. The music is by James T. Brymm and James Burris. The latter, who takes the part of "Mose Lewis," a sport, and Andrew Tribble, as "Babe Johnson," are exceptionally clever, while Dudley is a show in himself.

Fined Him $5.

Wilbur Brown, a negro who resides at 644 East Second street, was taken into custody last night by Marshal Pope on a warrant issued on Tuesday charging him with disorderly conduct. Brown and three white men at that time were carousing on Somerset street with a woman named Katherine McCarthy. Marshal Pope arrested the girl and two of the men at the time, but the negro escaped. Brown when araigned before Recorder Dolliver in the borough police court this morning pleaded guilty. He was fined $5. He paid.

Trained Animals at Proctor's.

The new vaudeville bill at Proctor's theatre tonight, tomorrow and Wednesday, will be especially pleasing to the children and older people as well. It will include trained animals and a monkey; also clever dancing and singing by men and women and plenty of good comedy, with the latest films d'art.

The special election on the constitutional amendments will be held tomorrow. The pools will be opened from 6 o'clock in the morning until 7 o'clock in the evening.

THE VANITY MIRROR.

The vanity mirror is the companion of almost every woman today.

There are glove mirrors; lovely little things that can be slipped into a glove out of sight, or fixed with a clip so that they are always ready for use in the palm of the gloved hand. The wearer of one of these can glance at herself every few minutes, and no one will guess what she is doing, for the mirror could not be seen by anyone talking to her.

There are parasols with little round heads that open when a spring is touched and disclose a mirror concealed in the lid. Also there are miniature vanity boxes without number, all with mirrors. These little boxes are made in every conceivable shape and material. Some of gold, heart shaped, some round or square. Some, again, are like watches, and can be worn on a chain.

For use at balls or other evening entertainments tiny mirrors are fitted to fans, so that the owners can glance into them without attracting observation. Sometimes the little glass is so placed that it is hidden unless the fan is opened to the full extent. Occosionally, it is completely out of sight until a secret spring is touched.

A few women have had mirrors placed in the lid of an opera glass case. This, by the way, is a very satisfactory scheme, as the glass can be larger than the ones fitted to fans or the tiny vanity boxes. And, one may add, as a rule the very tiny mirror is worth nothing at all.

THAT VELVET CROWN.

The full-crowned hat made its first venture in Paris in the soft puff of silk chiffon, flowered lawn or hand-run lace, but drifted speedily over to a mass of velvet, despite the fact that midsummer madness alone could have sanctioned such a weight upon the head of delicate woman during our warmest days. The fashion seems not to be gaining ground so rapidly as might have been expected.

Perhaps we feel we were overcredulous in the matter of the peach-basket.

Had a Fit on Park Avenue.

John Hogan, of Park avenue, was the victim of an appoletic fit this morning. He was attended to at police headquraters and sent to his home.

MISS CURRY HONORED

(Continued from page 1.)

Chapman made it plain that while Mis Curry seemed to be endowed with more than human strength she should be compelled to take a rest of a couple of months so as to be able to take up the winter's work renewed in health and strength. Miss Curry was invited to say a few words and responded with a characteristic little speech in which she thanked all who had in any way contributed to the work of the home. She said it was much better and more satisfactory to work for Jesus than to discover the North Pole. In helping those who are deprived of the pleasant things of this life she finds help for herself. When she is tired she thinks of those who need help and at once becomes strong. Miss Curry asked for the prayers of all for the success of the winter's work. The formal part of the evening came to an end with a prayer offered by Mr. Parker.

Ice cream, cake and coffee were served and an hour was spent in social enjoyment. The home was closed for the winter Saturday night. Miss Curry will be at the Mission in St. Mark's place, New York, from now on unless she decides to obey the behests of her friends and take a vacation. The season just closed was declared to have been the most successful in the history of the home.

HAD DELIGHTFUL TIME IN BEAUTIFUL HUNTERDON

After a delightful outing at "Grandin Mere" Hamden, Hunterdon county, Mr. and Mrs. A. L. Force and daughter, Miss Lillian Force, and Mrs. and Mrs. Frederick S. Cutter returned home last night. Favored by exceptionally good weather and thoroughly enjoying every moment while the guests of Mrs. F. F. Grandin and her charming daughters, Miss Sara Todd and Miss Elizabeth Grandin, they were reluctant to leave picturesque old Hunterdon. Mr. Force and family had spent a week, as is their annual custom, at "Grandin Mere," and on Saturday they were joined by Mr. and Mrs. Cutter.

"Grandin Mere" is known for miles around in that locality for its attractiveness and for the uniform hospitality of Mrs. Grandin and her daughters. The place is one of the sights in Hunterdon.

Lawrence May Win Championship.

"Sprinter," in The New York Press of yesterday, says that Russell Lawrence, of this city, who will take part in the Metropolitan championship athletic contests at Travers Island, Saturday, will doubtless win the championship, as he can throw the shot forty-nine feet, while the best that any member of the New York clubs can do is forty-five feet.

DR. HERRING TALKS ON HIS TRIP ABROAD

Rev. Dr. C. E. Herring, who in company with his wife, returned last week from a ten weeks' trip abroad, leaving here on July 1, in his sermon at the First Presbyterian church last night gave a brief synopsis of the trip, which proved interesting. Later on he will give two or three lectures on the trip, giving his impressions.

In the course of his talk last night, Dr. Herring explained that he and Mrs. Herring left July 1 on the steamer Hamburg direct to Naples from Boston, then going to Port Said, Cario, Egypt, where they remained a few days; thence to Jaffa and to Jerusalem, where they tarried for five days. After that they took cluding Jericho, Hebron and Bethlecluding Jerico, Hebron and eBthlehem, and then took an overland journey to Tiberias, from which point they went by boat to Semach and then by train to Damascus, where they remained a few days.

After visiting the ruins at Baalbec they went to Beyrout, where they visited the American College. They then went to Constantinople, remaining there a few days; thence by rail to Venice, Florence and Rome and thence from Naples to Boston, arriving home last Thursday on the steamer Romanic of the White Star Line.

The journey was a delightful one throughout and not a thing occurred to mar the pleasures of it. Dr. Herring took a large number of pictures on the trip and these will be seen later when he gives his lectures.

HE RESIGNS PASTORATE AT SOUTH PLAINFIELD

The Rev. C. W. F. Attlee has resigned the pastorate of the Baptist church at South Plainfield. The resignation will take effect on the last Sunday of the month, September 26. The reason given for the retirement of Mr. Attlee is that the church is not able to support a pastor at present. What the congregation will do after this month has not yet been decided upon. At one time this was considered one of the best country charges, but in recent years many removals and the lack of new families moving in has had its effect on the church.

For some time Mr. Attlee has been combining his pastoral work with that of newspaper reporting and during the past summer he has devoted almost his entire time to reportorial work. After he retires from his present position at South Plainfield his plans will be announced. He and his family reside on West End avenue, the borough, the church having sold the parsonage to liquidate an indebtedness on the property.

Alexander Van Oss, of New York, formerly of this city, is spending several weeks in town taking his vacation.

Mrs. Robert Lowry, of East Seventh street, has returned from Lake Minniwaska, New York, where she was registered at the Cliff House.

WHAT THE WORLD THROWS AWAY.

"A Chinaman will live on what a Frenchman throws away; a Frenchman will live on what a German throws away; a German will live on what an Englishman throws away; an Englishman will live on what an American throws away." We are the most wasteful people in the world. This, says a writer in "Success Magazine," is so much the better for those who deal in our waste.

The humble junk business, the trade of unconsidered trifles, has prospered in America more than in all other countries. In Boston lives a dealer who has accumulated more than a million dollars; several of his competitors could sign checks in six figures. The leadeing dealer in Providence, who handles nothing but scrap iron, is worth half a million. Philadelphia has two junk millionaires and a cluster of near-millionaires. One of these Philadelphia dealers has half a million invested in buildings and equipment alone.

Ground in New York is too costly for many large warehouses or iron yards, and most of them are located in New Jersey. Scattered over that State are a dozen dealers who have made fifty, one hundred, two hundred, five hundred thousand dollars from that which the metropolis has thrown away. One of these New Jersey dealers recently bought the greatest "lot" of junk ever handled in the world's history—the old iron and refuse which the French abandoned at Panama. The original cost of this material was about twenty million dollars. What was the tune of the mere song he paid for it, or how much he has made by selling off the scrap iron and metal, no one has ever dared to estimate.

GOOD ROAD OR GOOD ROADS?

Shall it be a good road or good roads? questions H. H. Windsor in the Popular Mechanics, and adds:

"The State of Pennsylvania appropriated $3,000,000 to be spent during the next two years in the construction of a good road from Philadelphia to Pittsburg and on to the Ohio State line, the distance to be about 360 miles, which makes the average cost per mile $8,3000. Inasmuch as the route will doubtless follow to a large extent highways now in use, much of which is already fairly 'good roads,' the expenditure of such a sum, if honestly applied, cannot fail of superior results.

"The plan, however, is to be regretted. In the first place it is not needed. There is not now, nor is there likely to be, any considerable amount of trans-state freight traffic for such a road. All classes of freight are being moved by the railroads at rates which make hauling on highways prohibitive.

"The cities and villages on the immediate route would, of course, be benefited, but at the expense of other portions of the State.

"As an example of high-grade road building to the rest of the State it is of doubtful value, because of its very excellence. Few counties and fewer townships could or would feel able or inclined to duplicate it locally. On the contrary, on account of its cost, it places an argument in the mouths of those opposing the good road movement calculated to create adverse opinion.

"Vastly better would be a distribution of this money on a basis, say of $2,000 a mile to such counties as would spend an equal amount of their own money. This would provide for 1,500 miles of excellent roads, as $4,000 a mile spent on present highways would make a really good road where road material is as abundant as it is in Pennsylvania. This is the plan which has been adopted elsewhere, and is found not only to stimulate the desire for good roads, but enables any and all parts of the State to be equally benefited."

MORE THAN HE EXPECTED.

The professor steps into the barber's chair and assumes an attitude of deep meditation, relates Puck.

"Hair cut, sir?"

"Please!" The barber cuts his hair.

"Like a shampoo?"

"Um—please!" He gets the shampoo.

"Shave you, sir?"

"Um—yes!" One shave.

"Massage?" He nods assent, and consequently is messaged. The barber removes the towel, the professor arises, and mechanically takes the proffered check.

"What's this?"

"Your check, sir."

"My check?"

"Certainly, sir. Haircut, shampoo, shave, and massage."

The professor rubs his hand over face and head. "Did I get all that?"

"Surely, sir."

"It's queer, very queer—most extraordinarily queer! A most wonderful example of philosophical phenomena!"

"What's queer, sir?" asks the barber, in dismay.

The professor draws a small, oblong black box from inside pocket.

"Why, the working of the human mind. What I came in for was to get my razor honed."

A WOMAN'S THEORY.

"I do not see why we should try to dress well during the hottest summer months," a practical woman said the other day, and then she proceeded to explain her theory of dress. She said it was merely a matter of common sense. "Prints and muslins are more appropriate, anyway, for hot weather, and why should we not all wear them? For my part, next summer my wardrobe will contain not one dressy or silken gown. Every one will be so simple that it might be the property of some village maiden, and I shall wear any one of them into the city, if necessary shopping calls me."

And, really, the theory is not unreasonable. A woman in an immaculate muslin frock always looks presentable, even at a warm weather entertainment. It has been the custom to wear boned gowns in the city streets because neatness is demanded, yet, really, they are so uncomfortable and they so soon become shabby that they are very unsatisfactory. It may be that the theoretical woman will never be brave enough to put her theory into practice, yet some other woman may.

One exceptionally good wife and mother of my acquaintance decided when still a bride, that she would wear white-wash dresses in the house on all ocacsions, and she has now done so for twenty years. They are all of fine material, and they are very little trimmed, although sleeves and general appearance vary slightly with the prevailing fashion. Besides these frocks, all she needs is a single street suit for shopping and calling; her white dresses serve her even on the evenings she spends away from home.

Wash muslins are very inexpensive they cannot fade, and they wear a long time. If she need not economize on her laundry bills, the wearing of cotton fabrics is a fad that may be well taken up by the woman whose purse is none too fat.

THE WORLD'S BIG INDUSTRIES.

According to the latest figures, the water-power development of this country is reported at 5,357,000 horsepower, and the number of wheels which it turns at 52,827.

The canals of Holland have a total length of 5,000 miles, and they are much more important than the country's railroads, which have a mileage of 2,000 miles.

The available iron ore supply of the United States is estimated at 4,785,000,000 long tons.

The wealth production on farms, according to the estimate of the Department of Agriculture, was in 1897, $4,250,000,000, and in 1907, $7,412,000,000.

The production of iron ore from the mines of the United States in the year 1907 was 52,000,000 tons, the largest total ever produced in a single year.

The system of building embankments by running trains of loaded cars on rails hung from a suspension cable above the line of the embankment is being used with great success.

The foundation work alone of the new municipal building of New York city, which is to be at the Manhattan end of the Brooklyn Bridge, will cost nearly $2,000,000.

The postoffice business of the United States has grown from practically $1,000,000 in 1820, and $5,500,000 in 1850, to $20,000,000 in 1870, $33,000,000 in 1880, $61,000,000 in 1890, $102,000,000 in 1900, and $191,500,000 in 1908.

According to government statistics the estimated coal supply of the United States is put down at 3,135,708,000,000 tons, while the output from the mines of the United States in 1907, the year of the largest production, was 429,000,000 tons.

PROGRESS OF THE DAY ALL OVER THE WORLD.

The government is endeavoring to predict the spring freshets by gauging the snowfall in the mountains.

The snail industry of France has been considerably disturbed recently by the decision of the French Minister of Agriculture in establishing the legal status of the snail, in which snails are defined as animals injurious to vegetation, and therefore legally subject to capture and destruction at all times and seasons. This decision has created excitement and dismay among the numerous persons who earn a livelihood by collecting snails for market.

HER MOODS.

A woman is a thing, they say,
Of moods. To be explicative—
She points out to a man the way
To go—and that's INDICATIVE.

At first she does it gently, just
To save a scene compunctive—
Says that he "may," not that he "must,"
And that's her mood SUBJUNCTIVE.

If he demurs, does she give way?
Nay, never for a minute! I've
Known her to work for many a day
To win. And that's INFINITIVE.

But if suggestion, patience, tact,
Fail, she becomes declarative.
She orders—and you'd better act
Good, when her mood's IMPERATIVE!

The Lure of the Mask

By HAROLD MAC GRATH

Copyright, 1908, by the Bobbs-Merrill Co.

"What luck, Dan!" Hillard was exuberant.

"Saves you the price of a dinner."

"I wasn't thinking of that. But I shall find out all about her tonight."

"Who?"

"The lady in the fog, the masquerading lady!"

CHAPTER IX.

A TANGLED SKEIN.

SANFORD knew how to order a dinner, and so by the time that Merrihew had emptied his second glass of Burgundy and his first of champagne he was in the haze of golden confidence. He would find Kitty, and when he found her he would find her heart as well.

"Say, Jack," said Sandford, "what did you mean by that fool cable anyhow?"

Hillard had been patiently waiting for an opening of this sort. "And what did you mean by hoaxing me?"

"Hoaxing you?"

"That's the word. I was in your house that night. I was there as surely as I am here tonight."

"Nell, am I crazy or is it Jack?"

"Sometimes," said Mrs. Sanford, "when you put the chauffeur in the tonneau I'm inclined to think that it is you."

Hillard looked straight into the placid gray eyes of his hostess. Very slowly one of the white lids drooped. His heart bounded.

"But really," continued Sandford seriously, "unless you bribed the caretaker you could not possibly have entered the house. You have been dreaming."

"Very, well, then. It begins to look as if I had." It was apparent to Hillard that Sandford was not in his wife's confidence in all things. He also saw the wisdom of dropping the subject while at the table.

They took coffee and liqueur in the glass inclosed balcony. Hillard found a quiet nook not far from the lift. He saw that Mrs. Sandford's chair was placed so that she could get a good view of the superb night. He sat down himself, sipped his liqueur meditatively, drank his coffee and as she nodded lighted a cigarette.

"Well?" she said, smiling into his brown eyes. She was rather fond of Hillard, a gentleman always and one of excellent taste. There was never any wearisome innuendo in his wit nor suggestion in his stories.

"You deliberately winked at me," he began.

"I deliberately did."

"Sandford is in the dark. I suspected as much."

"Regarding the wink?"

"Regarding the mysterious woman who occupied your house by your express authority and who rode the hunter in the park."

"Was there ever a more beautiful picture?" sweeping her hands toward the city.

"The beauty of it will last several hours yet. Who and what was she?"

"I wish I could find you a wife. You would make a good husband."

"Thank you. I am even willing, with your assistance, to prove it. Who was she, and how came she in your house?"

"She wished that favor and that her presence in New York should not be known. Now describe to me exactly what happened. I am worrying about the plate and the silver."

He laughed. "And you will meet me halfway?"

"I promise to tell you all I dare."

"There is a mystery?"

"Yes. So begin with your side of it."

He was a capital story teller. He recounted the adventure in all its color—the voice under his window, the personals in the paper, the interchange of letters, the extraordinary dinner, the mask in the envelope. She followed him with breathless interest.

"Charming, charming!" She clapped her hands. "And how well you tell it! You have told it just as it happened."

"Just as it happened!" confounded for a moment.

"Exactly. I have had a letter—two, in fact. You did not see her face?"

"Only the chin and mouth. But if I ever meet her again I shall know her by her teeth."

"Heavens! And how?"

"Two lower ones are gone. Otherwise they would be beautiful."

"Poor man! You have builded your house upon the sands. Her teeth are perfect. She has fooled you."

"But I saw with these two eyes!"

"There is a preparation which theatrical people use—a kind of gum. She mentioned the trick. Isn't she clever?"

"Yet I shall know her hair," doggedly.

She put her hands swiftly to her head. "Now, you have known me for years. What is the color of my hair?"

"Why, it is blond."

"Nothing of the kind. It is auburn. If you cannot tell mine, how will you tell hers?"

"I shall probably run after every red headed woman in Europe till I find her," humorously.

"*Our ears never deceive half so often as our eyes.*"

"Her face is not scarred, is it?"

"Scarred!" indignantly. "She is as beautiful as a Raphael, as lovely as a

MATHUSHEK & SON PIANO CO.
310 West Front Street, Plainfield, N. J.

He recounted the adventure in all its color.

Bouguereau. *If I were a man I should* gladly journey round the world for the sight of her."

"I am willing, even anxious."

"I should fall in love with her."

"I believe I have."

"Come, Mr. Hillard. I am just fooling. You are too sensible a man to fall in love with a shadow—a mask. One does not fall in love that way."

"She is married?"

"Certainly I have not said so."

He flicked the ash from his cigarette.

"Have you those letters?"

"One of them I'll show you."

"Why not the other?"

"It would be wasting time. It merely relates to your adventure. She sailed the day after you dined with her."

"That accounts for the shutters. The police and the caretaker were bribed."

"I suspect they were."

"If I were a vain man, and you know I am not, I might ask you if she spoke well of me in this letter. Understand I am not inquiring."

"But you put the question as adroitly as a woman. We are sure of vanity always. Yes, she spoke of you. She found you to be an agreeable gentleman. But," with gentle malice, "she did not say that she wished she had met you years ago under more favorable circumstances."

"Come, give me the death stroke and have done with it. Tell me what you dare, and I'll be content with it."

She opened her handkerchief purse and delved among the various articles therein.

"I expected that you would be asking questions, so I am prepared. I did not tell my husband for that very reason. He would have insisted upon knowing everything. Here, read this. It is only a glimpse."

He searched eagerly for the signature.

"Don't bother," she said. "The name is only a nickname we gave her at school."

"School? Do you mean to tell me that you went to school with her? Where?"

"In Pennsylvania first, then in Milan. Read."

O Cara Mia—If only you knew how sorry I am to miss you! Why must you sail at once? Why not come to my beautiful Venice? I have so much to say that cannot be written. You ask about the adventure. Pouf goes my little dream of greatness. It was a blank failure. The officials put unheard of obstacles in our path. The contracts were utterly disregarded. In the first place, we had not purchased our costumes and scenery in Italy.

"Costumes and scenery?" Hillard sought the signature again.

The base of all the trouble was a clerk in the consulate at Naples. He wrote us that there would be no duties on costumes and scenery. Alas, the manager and his backer are on the way to America, sadder and wiser men! We surrendered our return tickets to the chorus and sent them home. The rest of us are stranded—is not that the word?—here in Venice, waiting for money from home. If I were alone, it would be highly amusing, but these poor people with me! There is only one way I can help them, but that—never! You recollect that my personal income is quarterly, and it will be two months before I shall have funds. There are persons moving heaven and earth to find me. My companions haven't the least idea who I am. So here we all are, wandering about the Piazza San Marco, calling at Cook's every day in hopes of money. I am staying with my maid in the Campo Santa Maria Formosa, near our beloved Santa Barbara. I have guaranteed the credit of my companions, and they believe that Venetians are generous people. Generous! Perhaps you will wonder how I *dared appear on the stage in Italy.* A black wig and a theatrical makeup—these were sufficient. A duke sent me an invitation to take supper with him, as if I were a ballerina! I sent one of the American chorus girls, a little minx for mischief. She ate his supper and then ran away. I understand that he was furious. Only a few months more, Neil, and then I may come and go as I please. Come to Venice. CAPRICCIOSA.

Hillard did not stir. Another labyrinth to this mystery! Capricciosa—Kitty Killigrew's unknown prima donna, and all he had to do was to take the morning train for Venice, and twenty-four hours later he would be prowling through the Campo Santa Maria Formosa.

Mrs. Sandford observed him curiously, even sadly. Why couldn't his fancy have been charmed by an everyday, sensible girl and not by this whimsical, extraordinary woman who fooled diplomats, flaunted dukes and kept a king at arm's length as a pastime? And yet—

Victoria Punch.

Pour one cupful of hot tea infusion over one cupful of fine granulated sugar, and as soon as the sugar is dissolved add three-fourths of a cupful of orange juice and one-third of a cupful of lemon juice. Strain into a punchbowl over a large piece of ice, and just before serving add one pint of carbonated water. Garnish with a few thin slices of orange from which the seeds have been removed. The ginger ale gives this punch a delightful sparkle.—Woman's Home Companion.

BARNES' HITS WIN GAME

First Baseman Straightens Out Ortlieb's Curves for a Percentage of 1,000.

BREWER HYPNOTIZES BATTERS.

Six Scattered Singles Gathered Off Plainfield Pitcher—Jack Martin Pleases Fans.

They came, they saw Brewer and were conquered. That is the story of the ball game between Plainfield and Elizabeth which was played Saturday afternoon at Crescent Oval. The Elizabethans looked swift enough in the preliminary canter, but when it came to playing ball Plainfield played rings around them and they were a subdued lot of ball tossers who wended their way toward the Singer City after they had vainly tried to locate Plainfield's lean pitcher's offerings.

At no time this season has Manager Doerflinger's club put up so snappy a game of ball. To be sure they have won games before, but not in so decisive and clean cut way. After the first session when Carlstrom managed to squeeze through on his own hit, a stolen middle sack and two outs, not a semblance of a tally came the way of the gladiators from Elizabeth. Brewer had them hypnotized and what the lanky pitcher did not have on the ball was not worth having. His mates, too, came up to the plate with determination to do or die and they didn't die.

Boyd, the first man up in the first inning, was passed. Emery advanced him by a neat bunt on which he died at first. Jack Martin got to first on McVicker's fumble on his grounder. Britt Martin struck out, but Barnes came along with a nifty two-sacker scoring Boyd and Martin and same home himself on Seery's and Schott's hits. Dodge ended the inning with a fly to Grossman in left field. In the second inning after Brewer had gone out on a little roller to Kling, Boyd batted safely, stole second and same home on Emery's two-bagger to left. This ended the scoring for the day, but did not stop some pretty playing.

The feature of the game was Barnes' splendid batting. Out of four times up he made four hits, one a two-bagger. Seery, while a little off on throwing to second, also batted well, making two singles. Of course, Jack Martin's game at short was watched with critical eyes and it is needless to say that he played the position perfectly. He had eight chances, all of which were accepted without an error and in the style usually looked for in a big league player. He covered lots of ground and was on the jump all the time. Britt Martin made a mess of an easy roller in the seventh, but more than offset it when he grabbed Kling's infield fly in the ninth about two inches from the ground and threw to first, doubling Nolan who had got on by a neat single over second. Nolan started for second when Kling hit the ball and was easily put out before he could return to the initial sack.

Altogether it was a finely played game and the thousand fans present, including many of the fair sex, thoroughly enjoyed it. The double umpire system worked nicely and perhaps Chief Kiely's presence in the stand had a soothing influence on the players, as no kicks were recorded.

ON THE GOLF COURSE AT THE COUNTRY CLUB

The weekly competition for the Fall handicap cups, Classes A and B, attracted a large number of players to the Plainfield Country club on Saturday. As the season progresses, the competition grows more interesting and the scores indicate that it will be a close one at the finish. The social features at the clubhouse were also greatly enjoyed, fully fifty guests being present at the dinner-dance. This is almost the capacity for the dining room.

In the competition on the course, the point winners in Class A were C. B. Morgan, Henry D. Hibbard and R. G. Morse, while in Class B they were G. F. Earl, C. C. Burke and H. F. Fox. The best scores:

Class A—C. B. Morgan, 84, 8-76; Henry D. Hibbard, 85, 9-76; R. G. Morse, 95, 13-82; Owen H. Fleming, 99, 12-87.

'TWAS CLIMAX IN NINTH

And it Was Defeat for Plainfield by Score of Five to Four.

SOME GREAT FIELDING THERE.

Terry Did Splendidly in the Box for the Triumphant Aggregation.

The Climax A. C. defeated the Plainfield A. C. on Hope Common Saturday afternoon by the score of 5 to 4. The contest was exciting and fast. E. Terry was in the box for the Climax and he had his opponents guessing most of the time. He struck out eleven batsmen, gave but one free pass and was touched up for eight hits. Slocum, who opposed him, struck out twelve men, allowed three passes and was reached for fiveh its.

The Climax won because they played a better fielding game, the work of J. Terry at short and Tappen in left field, being especially brilliant. These two players are putting up a great game of ball this season. The Plainfield came near winning in the eighth inning, when Dufford secured a hit, and base on balls was given to Moran and Meyers' long three base hit scored two runs and a fielders' choice brought Meyer over the plate, Hann going out at first, tieing the score. A hit and a wild throw scored the winning run for the Climax A. C. The score:

St. Mary's team, with "Hub" Conover in the box, went to Belle Mead, Saturday, and shut out the home aggregation by a score of 7 to 0. WARREN A.C. DEFEATS THE MONROE IN NINTH

The Warren A. C. baseball team defeated Monroe A. C., in a loosely played game by a score of 8 to 5. The errors on the part of Monroe A. C., were responsible for the first five runs by the opposing nine. This gave them more of a lead than could well be overcome during the remaining part of the contest. The Monroe A. C. did not score until the fifth inning. Another tally was made in the eighth and in the ninth they succeeded in getting three runs over the plate. The score:

DUNELLEN WALLOPED BY SCOTCH PLAINS NINE

The Scotch Plains team visited Dunellen, Saturday, and swamped the locals by a score of 10 to 1. The home team was no match for the 'Plains, ondy securing three hits off MacLaughlin's delivery. On the other hand, the visitors pounded Harney's delivery for a total of sixteen hits, which combined with numerous errors was responsible for the large score. The feature of the game was a great catch by Garretson in the third inning. For the most part the 'Plains toyed with the home team and not once was the result in doubt. The score:

SCOTCH PLAINS DEFEATS WESTFIELD AGGREGATION

The 'Plains team had no difficulty in defeating Westfield at the latter place, yesterday afternoon, the score being 4 to 1. At times it was a balloon ascension for both teams. Ortleib was on the firing line for his home town, and was touched for eight hits, and struck out two men. Miller and MacLaughlin did the box work for the 'Plains and held Westfield safe at all times.

Millre fanned two and allowed three hits in three innings, while MacLaughlin struck out seven men and allowed but two hits. The line-up and score by innings:

FUNERAL SERVICES OF WILLIAM H. WALDRON.

The funeral services of William H. Waldron were held yesterday afternoon. A short service was held at the house, 37 Summit avenue, at 1 o'clock and regular service at the Springdale church two hours later. Both services were largely attended.

Mr. Waldron was born at Martinsville 61 years ago and subsequently lived in Dunellen and Plainfield. He was a mason by trade and had many friends. Besides a widow, six children survive him. Mrs. Charles Hill, Mrs. James Kane, Miss Ernestine Waldron, George, Oscar and Bert Waldron, the last named being the son with whom his last days were spent. He leaves three sisters, Miss Rachel Waldron, of Martinsville, Mrs. Elizabeth Golthria, of Bound Brook, and Mrs. Hannah Humble, of Dunellen; and a brother, R. K. Waldron, of Martinsville.

BURGESS MORE SINNED AGAINST THAN SINNING.

Howard Burgess, who was allowed to go Saturday night on his own recognizance after having been charged with breaking the traffic laws of the city by riding on the wrong side of the street on a wheel was discharged in the city court this morning by Judge Runyon when the cause for the alleged trangression was explained. The wheel which belonged to George Hooley, son of A. G. Hooley, was wrecked.

Burgess stated that in trying to avoid running down two men who stepped from the sidewalk he made a quick turn behind a main line trolley car. A Fourth street car which was approaching from the opposite direction hit the wheel, throwing it about ten feet, knocking Burgess off and tearing his clothing. Young Mr. Hooley was in court and corroborated Burgess' account of the accident.

—Among the specials at Neuman Brothers are Bartlett pears and fancy crab apples. This is choice fruit, selected with great care and an opportunity to secure such fruit should not be neglected.

Mr. and Mrs. A. N. Setter, of Rockview avenue, are stopping for the month at Lake Hohowk Mountain House, New York.

PLAYGROUNDCOMMISSION

Mayor to Nominate Geo. P. Mellick, J. W. Gavett and H. W. Marshall.

TO INVESTIGATE PROPOSITION.

The Appointments Will Be Submitted to the Common Council for Confirmation.

Mayor Charles J. Fisk has decided to appoint Joseph W. Gavett, George P. Mellick and H. W. Marshall as playground commissioners, and will send the names to the Common Council at its next meeting for confirmation. The appointments are made in response to a resolution adopted by the Council requesting this action.

The commission will simply investigate the advisability and feasibility of establishing playgrounds in the city and submit a report later. Then further action will be decided as to the wisdom of proceeding with the original suggestion of Mayor Fisk.

The idea of having playgrounds in Plainfield was first suggested by Mr. Fisk, who has seen the benefits of them elsewhere. His idea is to establish one in the West End and another in the East End, providing places where children can enjoy various sports, without being compelled to go on the street as at present.

Mr. Fisk as well as other Plainfielders interested in the subject, has visited the playgrounds at East Orange several times, where they were much impressed with the advantages of them. The Plainfield Mothers' Association also supports the idea and at various meetings has been addressed by leaders in the movement. The commission appointed by Mr. Fisk is considered an excellent one and it is believed that its investigation will result in the establishment of playgrounds.

VOTE ON AMENDMENTS IS UNUSUALLY LIGHT

The special election on the constitutional amendments is being held today and as predicted the vote thus far is about the lightest known at an election. Some of the Republican leaders said that they did not believe that five per cent. of the normal vote would be polled throughout the city, and this would be unusually low.

In the three districts of the Fourth ward, especially, there was practically no interest shown. In the Second district five votes were recorded at 1 o'clock this afternoon. The result was about the same in the other districts. In the First district of the First ward, nine votes were announced at noon, and at 9 o'clock this morning but three votes were dropped in the First district of the Fourth ward. It is said that in the commuter wards the voting was a trifle heavier.

TRINITY WOMEN HOLD FIRST FALL MEETING.

The Ladies' Christian Work Society of Trinity Reformed church held its first fall meeting in the church yesterday afternoon, with the new president, Mrs. E. A. Parse, in the chair. One new member was elected and two visitors were present. There was a healthy enthusiasm displayed in taking up the fall and winter work of the society.

The society received as gifts from Mrs. Mary Disborough, an earnest member, two Biblical pictures to adorn the walls of the society room, also two handsome vases.

Mrs. B. D. Newell, the secretary, made a report concerning the album quilt, which was made by the members. She stated that it had been presented to Rev. Dr. and Mrs. Cornelius Schenck, and a beautiful letter acknowledging the gift had been received. The quilt contains about 800 names of members of the church and friends.

James W. Hall.

Following a lingering illness, James W. Hall, secretary and treasurer of the Union County Savings Bank, of Elizabeth, died yesterday in St. Elizabeth's Hospital, Elizabeth, where he had been a patient since Monday, August 30, a sufferer from cirrhosis of the liver. He was in his sixtieth year.

"SICKED" DOG ON MAIN

Li'l Oscar's Leg Chewed by Wm. Spring's Terrier—Has Bad Record.

RESULT OF GAME OF MARBLES.

Court Imposes Fine of $5—or "Get the Dog"—Bryant Don't Relish the Job.

Dog Catcher John Bryant has a job on hand which he does not relish and which he says involves danger to himself. William Spring, a young colored boy, of 508 West Third street, owns a Scotch terrier which is a terror to the neighborhood. Yesterday afternoon the dog bit Oscar Main, also colored, of 616 West Fourth street, so severely that he had to be treated at Muhlenberg Hospital for his injuries. A piece as large as a quarter of a dollar was bitten out of little Oscar's leg.

The "sicking the dog" was the result of a game of marbles in which a youth named Arthur Venable lost his "miggles" to Spring. Spring refused to return the trophies of the game to the loser on his demand and as Venable followed Spring into the latter's yard to enforce his demands Spring threatened to set his dog on him unless he got out.

The threat was not an idle one for suiting the action to the word Spring brought out his terrier and sicked him on Venable. But the dog evidently having no special powers of discernment attacked young Main instead of Venable, who had made a hasty exit from the yard, and bit a large chunk of brown flesh from Main's leg.

An aunt of the Spring boy was in court and informed Judge Runyon that his mother would not pay any fine for the boy and as the Judge had decided to fine him five dollars or have the dog killed, the unwelcome job of corralling the animal and destroying it falls upon Dog Catcher Bryant. Mr. Bryant says that he has had trouble with this same dog before and he asked permission from the court to "knock him out" once or twice before bringing him to the pound. Judge Runyon gave the required permission.

ARSON CASE POSTPONED AGAIN, ASST. PROSECUTOR NOT READY.

The case of Nathan Semer, who is accused of having set fire to his place of business on West Third street Sunday night, came up before Judge Runyon in the city court this morning and a further hearing was set for Saturday morning as Assistant Prosecutor Walter Hetfield, Jr., said he was not familiar enough with the details of the case to go on with it.

William Nash, Jr., counsel for the accused man, said that he would apply to Judge Atwater in the county court at Elizabeth today for bail to be fixed in Semer's case.

Arrested for Forgery.

Milton L. Arensberg, a cigar maker said to live at 268 Netherwood avenue, was arrested last night in North Plainfield by Chief Marshal Weiss on a warrant held by County Detective Toten, charging him with forgery. The complaint was made by President Roberts of the Bernardsville National Bank, who accuses him of forging a note for $1,500. He was taken to Somerville and held in $5,000 bail to await the action of the grand jury. No bail has as yet been offered.

Democratic Petition Changed.

On the petition for nomination for the Assembly on the Democratic ticket the name of Joseph D. Hague, Elizabeth, has been substituted for that of Harry Marshall, of this city, who has refused to run. Mr. Hague has been an assemblyman before having been elected in 1900. The other names on the petition are Frank Halliday, of Rahway, and Abram P. Morris of Union. Dr. F. H. Warnke, of Elizabeth, is included in this petition for the nomination for coroner.

Mrs. Joseph Sterpone.

Mrs. Joseph Sterpone, aged thirty years, who has many friends in this city, died at 5 o'clock yesterday afternoon at her home in Westfield, following a delicate operation in which three physicians assisted. She leaves a husband, who is employed in the Aeolian Works at Garwood, and four children.

Miss Lillian Paula to Wed.

Miss Lillian Paula, daughter of Mr. and Mrs. Emil Paula, of South avenue, and George Hooley, of the borough, will be married quietly tomorrow afternoon at 4 o'clock at the home of Miss Paula's parents, in the presence of the relatives and a few intimate friends.

PUBLIC SCHOOLS OPEN

New Faces Seen Among the Faculties in City and Borough.

ATTENDANCE IS INCREASED.

New Courses Are Added—Principals Make Brief Addresses to the Pupils.

The Plainfield High School was re-opened this morning for the fall and winter term, with appropriate exercises. Dr. H. M. Maxson, superintendent of schools, gave his annual talk to the High School pupils, speaking on vacation topics and extending a hearty welcome to the teachers and pupils. Principal Lindsey Best followed Dr. Maxson with a short talk in which he announced the plans for the ensuing term and urged the co-operation of pupils and teachers for a successful year.

The balcony was filled with parents, friends and many former graduates. One of the features of the morning was the almost complete re-union of the Class of '09.

Five new teachers have been engaged to fill the vacancies left last June. Principal Best's place as instructor of science has been filled by the appointment of Prof. Frederick H. Beals, formerly of Worcester Academy and a graduate of Harvard University. The other vacancies have been filled by the Misses Annie Miller, formerly of the Hartridge School; Grace E. Perlee, D. M. Day and Alice Forseith. The last named was formerly at the Stillman School.

The new freshmen class numbers 125 pupils and is one of the largest ever recorded in the history of the High School. Mr. Best's opinion is that the school will be well crowded throughout the year.

Among the various courses of the High School, a new one has been added, affording a broader chance of study. It is the manual training course and instead of the old form of having the work once a week, there will be a period every day. Mechanical drawing, instead of being a separate course, has been added to this department. It will be impossible to determine the exact enrollment before tomorrow. Announcement has been made that the new Washington School will be opened tomorrow.

The schools of North Plainfield opened this morning with a greater attendance than ever before. Principal H. C. Krebs and his teachers were busy all morning classifying the new pupils and assigning them to their classes. A teacher's meeting was held yesterday and the teachers given instructions for the coming year. This morning everything went along smoothly.

The registration in the Somerset School and the Watchung School to date is 46 pupils ahead of last year's. The principal increase is in the primary school. There it will probably be necessary to hold two sessions. The other grades although well filled are not over-crowded.

AUTOIST SMASHES BICYCLE AGREES TO PAY FOR REPAIRS.

An accident involving one of the parties to it in a fracture of the traffic regulations occurred yesterday afternoon in front of Proctor's theatre on West Front street. An automobile driven by R. E. Martin, of 137 Church street, New Brunswick, ran into and smashed a bicycle owned by George Neal, of 34 Wilson avenue, North Plainfield.

Martin was taken to police headquarters where upon a promise to pay for the repairs to Neal's wheel he was released. He was clearly in error by driving on the wrong side of the street.

Dirk de Haas a Candidate.

Dirk de Haas, of North Plainfield township, has announced his candidacy for freeholder on the Democratic ticket, in opposition to Freeholder William Demler, also a Democrat. The Republican nominee will be announced in a few days. Mr. de Haas filed his petition today. There was a meeting of Democrats in the township, last night, when there was an informal discussion of plans for the coming campaign. Francis E. Bodin presided.

Farm Hand Fined.

John McCann, 35 years old, a farm hand, working for L. D. Anderson, of North Plainfield, was arrested last night by Chief Marshal Weiss for acting in a disorderly manner on Somerset street. He was using vile language and making himself objectionable to the neighborhood. He was arraigned before Recorder Dolliver in the borough police court this morning pleaded guilty and was fined $7, which he paid.

FINED HIM FOR ASSAULT

Albert Apgar, of Oak Street, Punished for Striking John Howell.

FORMER'S DOGS CAUSE FIGHT.

Apgar Takes Unfair Advantage of Small Man and Lands in Court—Has Police Record.

John Howell, a small statured man, of Rock avenue, was the complainant against Alfred Apgar, of Oak street before City Judge Runyon this morning charging Apgar with assault. Apgar was given the choice of paying a five dollar fine or going to jail for twenty days.

Apgar owns a pair of dogs which Howell claimed had annoyed him and his wife on more than one occasion. Howell also has a dog which he is keeping for a friend. The three dogs do not agree very well and it was shown to the satisfaction of the court that Apgar's dogs were the aggressors in the cases mentioned by Howell. However, this was not the cause of Howell's complaint. He alleged that last Saturday night while on his way home in the company of his wife and two boarders after a shopping tour in the city, he was waylaid by Apgar and assaulted while unable to defend himself, simply because he asked Apgar to keep his dogs tied up.

The assault took place about 11 o'clock at night and according to the evidence was unprovoked. Threats to kill were murmered according to the stories of both men but the judge believed that Apgar was guilty and imposed the sentence noted above at the same time telling Apgar that his next offence would bring a jail sentence. Apgar was arrested and held for the grand jury in 1907 for illegal liquor selling.

HEBREWS PREPARE FOR THEIR NEW YEAR

The Hebrews of Plainfield will celebrate the Jewish New Year, Rosh Hoshonah, tomorrow evening, with elaborate festivities. On the Jewish calendar it will begin the year 5760. The Hebrews of the city will generally celebrate the day as a holiday, abandoning their business duties for the day.

At this anniversary celebration the sounding of the Shofar or Rams Horn in the synagogues will recall the custom which led to the title Feast of Trumpets being given the occasion.

Following these festivities there will be the celebration of Yom Kippur of the Feast of Atonement and Succoth, or the feast of Tabernacles. The celebration of these events is being preceded by solemn exercises in the synagogues and after the conclusion of the feasts there will be rejoicing among the Jews of the city. In the synagogue there will be a special program.

GAMBLING AT DUNELLEN; SCHNEIDERWYN FINED $10.

Joseph Gallagher, 17 years old, and Peter Schneiderwyn, 47 years old, both of Dunellen, were arrested last night by Marshal Slincy for gambling near the freight depot.

They were taken to the borough hall and arraigned before Recorder D. S. Campbell and the largest crowd ever present at a trial in the borough. The recorder decided that although Gallagher frankly admitted having gambled, he would suspend sentence on him on account of his youth. Schneiderwyn was fined $10.

Three Petitions Filed.

Inasmuch as candidates for office have until Saturday to file their petitions, but few have thus far reached the office of City Clerk J. T. MacMurray. Only three have been filed to date, those of John Manley, for constable; Frank H. Smith, as member of the county committee from the Third ward, and W. S. Tyler as a member of the Board of Education to succeed himself from the Third ward.

Men's Club To Hold a Banquet.

The Men's club of the First Baptist church is preparing to open the fall and winter season. The plans are to give a banquet at the Park club about October 10, when activities will be resumed. Several excellent speakers will be secured for the occasion, the idea being to stimulate greater interest in the club and church work.

ALECK KANE MAKES APOLOGY TO COURT

Aleck Kane, of Fillmore avenue, was the complainant in the city court this morning against Fred Randolph, of 425 Cottage street, charging Randolph with disorderly conduct while under the influence of liquor. Randolph stoutly denied that he was drunk and furthermore made a counter charge against Kane.

Both claimed that the other used profane language but owing to lack of witnesses the case was adjourned until Saturday morning to allow the men to produce witnesses.

Kane became impatient at the apparent slow moving of the wheels of justice before his case was called and made the remark that Judge Runyon should have been more prompt in disposing of the business of the court and not keep him waiting as he was a very busy man.

Judge Runyon was not informed of the fact of Mr. Kane's annoyance at the way things were done until after Kane had left the court, but on being told of the matter sent Detective Sergeant Flynn hot foot after the "misused" man. Kane returned somewhat out of breath only to listen to a lecture on court observances and was allowed to apologize to Judge Runyon.

Will Hold a Steeplechase Meet.

The Watchung Hunt club will hold a steeplechase meet at its grounds on Plainfield avenue, Saturday afternoon, October 16, when an attractive card will be presented. The horses to be entered will comprise some of the best in the metropolitan district, although a few will be missing because this being the hunting season, it will be impossible to get them The list of entries will be published in the near future. The farmers over whose lands the hunt club members hunt, will be accorded the usual courtesies of the grounds that day.

Designed Window Lamp.

Wallace R. Clarke, who is a designer and maker of art glass lamps and domes and who is located on West Front street, designed and made the stained art glass dome which is hanging in the window of the Ritz ice cream and candy store in the Babcock building on West Front street. The dome is beautifully finished, every piece being hand made. It attracts considerable attention from the passerby and marks a new era in window lighting in the stores of Plainfield.

AT ELEVENTH HOUR BARS ORDERED CLOSED

Assistant Attorney-General Nelson B. Gaskill gave to Governor Fort yesterday afternoon a formal opinion, to the effect that during the hours of the special election today all saloons and places where intoxicants are sold must be kept closed. Accordingly Chief of Police Kiely was instructed to notify the local saloonkeepers to keep their bars closed. The opinion by the Governor came much as a surprise, particularly as announcement had been made in Trenton earlier in the day that the Governor saw no reason for closing the saloons. This earlier opinion was published about the State. After his arrival at the State house yesterday Governor Fort sent for Mr. Gaskill, and the two went over the election laws together. Both the Governor and the assistant-attorney-general agreed that a proper construction of the various acts bearing upon the subject would require the closing of the saloons. The question is one which has been agitated for some time, and different opinions have been expressed as to the effect of the law on a special election day such as today.

The effect of the opinion was undoubtedly to close at least a considerable percentage of the saloons, though the enforcement of the laws will depend largely upon the attitude taken by the local officials.

New Retiring Room at Theatre.

The new retiring room for women was opened at the Plainfield theatre, last night, for the first and is sure to be a welcome feature on the part of the women patrons of the house. The room, which is situated next to the main entrance to the theatre, is handsomely furnished, the chief color being an attractive shade of green. There is a large mirror on the wall, easy chairs, all the toilet necessities, a table provided with writing paper, envelopes, pens and stamps, in fact everything that will add to the comfort and convenience of the women. A maid is in charge to give every attention required.

CHANGES AT HOSPITAL

Four More Physicians for Clinical Board Which Will Meet Daily.

STAFF RETIREMENTS PLAN.

George H. Goddard Is Succeeded by Harry W. Marshall as a Governor.

At the regular meeting of the Board of Governors of Muhlenberg Hospital, last night, H. W. Marshall was elected a member to succeed George H. Goddard, who resigned recently after long and faithful service.

A report was received from a committee relative to certain changes in the administration of the hospital and the committee was directed to make the changes. Heretofore members of the medical staff were appointed for an indefinite time, but under the new ruling they will be retired at the age of sixty-five years, and can then be appointed a consulting physician if the board so decides.

The changes also raise the office of clinical assistant to a higher grade and provide for the appointment of four additional physicians to the clinical board. Instead of the clinic being held only on Thursday, in the future it will be held every day and the assistants will act as chiefs at those times.

All appointments to the hospital staff are subject to the pleasure of the Board of Governors and changes can be made by the board any time it is so voted by the majority of the members. The rest of the business of the evening was of a routine nature.

SECOND WARD G.O.P. CHOOSES COMMITTEEMEN

Second ward Republicans met at Republican headquarters, last night, and discussed matters relative to the makeup of the city and county committeemen from that ward. Those suggested for members of the city committee are Arthur Lovell, Howard C. Tracy and Robert H. McCready, and those for county committeemen Arthur Lovell and H. H. Williams. The third name was not announced at this time. The meeting was a harmonious one.

There will be an important meeting of the City Republican committee tonight, when it is expected that an opinion regarding the changes in the election laws will be received from Attorney-General Wilson. Secretary W. R. Townsend has written to Mr. Wilson, requesting that he send his opinion in time for tonight's meeting. As a result the Republicans in the various wards are awaiting that opinion before naming the different members of committees.

Edward White's Will Probated.

It was learned here today that the will of Edward White, who took his life at Inter-Laken, near Asbury Park, several weeks ago, was offered for probate in Florida last Friday. AMONG OUR NEIGHBORS

DUNELLEN AND VICINITY.

Henry S. Garretson, the Dunellen postmaster, returned last night from a trip to Asbury Park and Atlantic City. His daughter Ethel with Mrs. Walter G. Clawson left today for Brooklyn. They will take in the Mardi Gras at Coney Island tonight.

Some confusion is caused at Washington avenue by the trolley "stop" sign. Some of the motormen insist on stopping on one side of it and some on the other. On rainy days this is a nuisance.

Amphora Art Pottery

3.50 to 8.00 Pieces to Go at 2.50

Lovers of art will be more than joyful over this announcement of a big sale of the wonderfully beautiful **Amphora Ware,** similar in character to the lot offered some months ago, which created such a remarkable sensation and was the biggest sale of art wares Newark had known up to that time.

Amphora Models are true and genuine, richly and harmoniously colored and exquisitely decorated. While of great individual beauty a few monstrosities are shown in the exclusive forms that arise from the grip of the potter's turning disk to please lovers of the unusual.

With the peculiar charm and touch of the ancients is blended the skill and handiwork and the beautiful colorings of the modern school, making the Amphora Ware of today vastly superior to that in the days when the Greeks and Romans were supreme.

There is a wide variety of pieces in this collection. Not a piece of it would sell in the regular way under $3.50, and from that the prices run to $8. There are many pieces worth **more than double** what you can buy them for in this sale, and you may choose from the collection, **Wednesday, beginning at 8:30 a. m., at only.. $2.50**

The results of the various local games on Saturday show conclusively that the teams are very evenly matched. The only big score was that of the 'Plains and Dunellen, 10 to 1, and that was to be expected.

The Elizabeth A. A. was given a surprise on Saturday. Little did they think that Plainfield would walk away with the contest. Ortlieb had plenty of steam, but there did not appear to be anything mystifying to his delivery, while on the other hand, Brewer was a puzzle from start to finish.

There are many fans that begin to think that Ortlieb has lost his cunning as a pitcher. During the latter part of his engagement with the Plainfield team he failed to deliver the goods, and since going to Elizabeth he has not been up to his former standard.

The Plainfield Baseball club team as it appeared on Crescent Oval Saturday is certainly hard to beat. Every position was fil'ed by a player of proved and tried ability and they all played as one man.

"Warry" MacLaughlin is pitching better ball than ever. It is a curious fact, but one that cannot be denied, that he never did pitch as well for a Plainfield team as one from out-of-town. There are numerous incidents in the past to prove this as the fans will recall.

In the opinion of Archibald Hacquer, who is the baseball writer on the Philadelphia Times, the Philadelphia Athletics will not win the American League pennant. He recalls the fact that the team lost four points last week, just at the critical moment in the season's race, while the Detroits continue to forge ahead steadily.

One scarcely ever hears a discussion about the Giants these days. They have dropped out of sight completely and no one seems to care either. The owners of the club must realize that before another season rolls around there must be a shake-up of the vigorous sort or the patronage will drop off perceptibly.

GOLF.

Programmes have made their appearance for the women's national golf championship tournament, to be held over the links of the Merion Cricket Club, near Philadelphia, October 4 to 9. This affair is open to all women amateur golfers who are members of clubs belonging to the United States Golf Association and to those foreigners visiting this country who may be invited by the executive committee of the association. It is an assured fact that the coming tournament will have several prominent entries from the other side.

The prizes will consist of the Robert Cox perpetual trophy, a gold medal for the winner, a silver medal for the runner-up and bronze medals for the other two in the semi-final round. There will be an eighteen-hole medal play qualifying round, and the thirty-two with the best scores will continue on in eighteen-hole match rounds. In accordance with the usual custom, one championship round will be played each morning, the afternoons being reserved for side events. On Tuesday afternoon there will be a consolation handicap for the non-qualifiers, while on Wednesday afternoon the side attraction will be a bogie handicap. There will be driving, approaching and putting on Thursday, and on the next day best-ball foursomes. Following the final championship round on Saturday there will be mixed foursomes medal play under handicap conditions.

Miss Kate C. Harley, of Fall River, the present national champion, is one of the entries, as are Miss Mary B. Adams, Miss Margaret Curtis, Mrs. Caleb B. Fox and Mrs. C. T. Stout, who on Saturday made a new woman's record of 79 over the Richmond County Country Club links.

With two championship tournaments scheduled for this week on nearby links, followers of the game in this section will have a surfeit of attractions. The annual intercollegiate tournaments starts today at Apawamis, and will continue until Saturday, while on Thursday and Friday the open championship tournament of the Metropolitan Golf Association will also claim attention at Wykagyl. Amateurs and professionals will also take part in four-ball competitions at Wykagyl on Wednesday. Out in Chicago there is to be no let-up in the competitive game, as the open championship tournament of the Western Golf Association is on for Thursday and Friday. Will Anderson, the present Western open champion, will defend his title against such prominent players as Fred McLeod, the former national open champion; Tom Vardon, Stewart Gardner, Lawrence Auchterlonie and a host of others.

HERE AND THERE.

C. H. Schermerhorn in conversation with his friend, Dr. Samuel Ayers, of 178 West 81st street, New York, who was formerly a Plainfielder, regarding the abuse of domestic animals in general and that of cats in particular, remarked that the cat is a much-abused animal, abused more on account of the thoughtlessness and heedlessness of their owners through any intentional neglect on their part. He further said that he has been in the habit of distributing beef's liver to a number of half-starved felines in his neighborhood for the past ten years. He has fed to these poor animals at least three pounds of liver daily, and without an intermission of a single day, as he has not been absent from the city a single night in fourteen years. During this period he has purchased, cut up and distributed more than four and half tons of liver. Many of these cats know their names. One is known as Levi Grey, others as Jeremiah Black, Demga Deen, Smutty Nose, Little Whiteface, Mumsie Grey Bird, Black Bird and Ted.

Edward H. Burley.

Edward Henry Burley, born October 18, 1850, died suddenly at his home at Cranford yesterday morning. Heart disease caused death. Mr. Burley was born in London. He had been a citizen of Cranford for nineteen years and for the past fifteen years was wholesale manager of the National Linoleum Company in New York. He is survived by a widow and seven children. The children are Mary A., Grace R. and Oral, Edward H., Albert W., Andrew and Chester, all of Cranford.

Black Hand Wanted $50,000.

Pietro Uregas was arrested at Keasbey, near Perth Amboy, yesterday, charged with having sent Black Hand letters to John A. Manley, superintendent of the cotton mill at the Johnson & Johnson plant at New Brunswick. The first letter made a modest demand for $20,000, but others that followed raised the price to $50,000. Death in the most horrible form was to follow a failure to pay.

AMERICAN IDEA CATCHY

Trixie Friganza Capital in George M. Cohan's Musical Comedy.

THE HARTS ARE IMMENSE.

A Two-hour and a Half Laugh is Furnished at the Plainfield Theatre.

Trixie Friganza was the real thing in "The American Idea" at the Plainfield theatre last night, her impersonation of Mrs. William Waxtapper keeping the audience in roars of laughter throughout the evening. As some one said, "she is a second edition of Marie Dressler," which is saying a good deal. She was ably supported by Arthur Lipson, Mark and Tony Hart. The music of the play is tuneful and pleasing and was appreciated by the large audience.

The plot builds itself upon the social aspirations of two rival Brooklyn millionaries, one Irish and the other German, who while sightseeing in Paris, are lured into buying bogus titles for their daughters, thanks to the enterprise of a Yankee showman and grafter, one Stephen Justleford, who is stranded in the French capital. There is a big gallery of characters, all of whom are Americans abroad, with the exception of the Count de Souchet, a bogus nobleman played by Arthur Lipson, who is well known to playgoers here. He is bought with genuine American money by Mrs. William Waxtapper (Trixie Friganza), who wants a blue-blooded husband. There is a clever juvenile love story interwoven with the main theme and the story is developed by a cascade of exciting incidents.

The piece is a merry satire throughout on international marriage, Mr. Cohan taking great liberties with the aristocracy of France. The company presenting "The American Idea" is a permanent organization known as the Cohan and Harris comedians. Trixie Friganza heads the cast; she is assisted by Arthur Lipson, Raymond Finlay, Mark Hart, Tony Hart, Hugh Mack, Dan Day, R. L. McAndrews, Rose King, Lottie Burke, Beatrice Whitford, Myrtle Gilbert, Bessie Crawford, Edith Ross and Lola Hilton. These are supported by seventy-five singers including Mlle. La Reve, the famous Parisian danseus, brought to America by Mr. Cohan to be featured in musical productions. As Genee is the great dancer in England, so Mlle. La Reve is the favorite of France.

Songs are scattered through "The American Idea" with a lavish hand. Much is promised of "Sullivan," a topical song sung by Mark Hart, which Cohan himself considers better than his "Harrigan." Then there is "F-a-m-e," another hit of the "M-o-n-e-y" type. "Too Long From Long Acre Square," "They Always Follow Me," and "My Garden That Blooms For You," are included in the song repertoire. The piece is lavishly staged and costumed. Mr. Cohan having endeavored to beat the London producers at their own game in these particulars. As usual Mr. Cohan presents an original character such as the public has come to expect in each of his new pieces. This time it is "The Mysterious Man," played by Hugh Mack, who dramatizes his own part in the action and is a combination of "Foxy Quiller," "The Lone Fisherman" and "Evangeline." He is aided and abetted by "The Mysterious Girl," played by Lottie Burke.

GOVERNOR PREDICTS AMENDMENT VICTORY

Governor Fort yesterday spoke very hopefully of the results of the election today, which is on the proposed constitutional amendments. He believes that they will be carried, basing this belief on the talk he has heard around among the people.

The governor has himself made the only canvass for the amendments, claiming that they should be carried in the interests of the people, the courts and for the officers whose terms will be held over if they are adopted.

He said yesterday that the Morris county vote would show a majority for the amendments, and of Hudson he has the highest hopes. He further said that in Ocean county there was great interest in them and that they would be carried in that county. Regarding the counties of Somerset and Monmouth, the governor believed that both would show a majority for them, and he had high hopes that the vote in Union county would show them on top.

While thinking that there would be a light vote, still the governor thought that this would be for the amendments, as those who might oppose them would not take the trouble to go to the polls and vote. The governor will receive the returns at Spring Lake.

Danish Lutheran services will be held tomorrow night at 8 o'clock in the W. C. T. U. rooms at 8 o'clock. There will be preaching by Rev. Mr. Beck, of Brooklyn.

SOME STATE NEWS BRIEFS

Rev. N. C. Dickey has resigned as pastor of the Universalis church, Hammonton, and will engage in missionary work in the South.

Arrangements are being made by the Board of Education of Millville to lay the corner-stone of the new $48,000 grammar school on September 25.

Five hundred persons Sunday witnessed the baptism of Claud Mallory, in Great Egg Harbor Bay, at the foot of Eighth street, Ocean City.

The Gloucester police are of the opinion that the old race track stables were fired by two persons who had been seen acting suspiciously in the neighborhood before the fire.

After suffering since Friday from burns sustained when her dress caught fire from a lighted candle, Eva Hummel, three years old, died at her home, 2713 Arthur avenue, Camden, Sunday.

Mrs. Garfield Watson, of Woodbury, whose life was saved by the "rat" in her hair in a trolley accident in Camden, Thursday, was taken home Saturday from the Homeopathic Hospital, Camden.

"Bob" Fitzsimmons, the veteran prize fighter, was the guest of the motormen and conductors of the Public Service Railway Corporation of New Jersey at their clambake in Bayonne Saturday night.

Much to the surprise of his congregation, Rev. Frank Anderson, pastor of the First Baptist church, Millville, tendered his resignation Sunday, to take effect on November 1. He has accepted the call to the pastorate of the First church, Johnstown, N. Y.

Woodbury Tuberculosis Society has secured a supply of printed rules relating to the health of the residents, and will have them distributed. The annual meeting of the society will be held October 14, when an able speaker will discuss the war on the white plague.

The dedication of the new $40,000 school house at Clayton has been postponed until Saturday next, and school will not open until the following Monday, as the building is not yet completed. At the dedication the P. O. S. of A. will present a large flag to the school.

While crabbing in Newark Bay off Bayonne Sunday from a rowboat Otto Schmidt, of Hoboken, who weighs 250 pounds, felt a bite. There was a six-ounce crab on the end of his line. In his excitement to land the crab Schmidt tumbled into the bay. He was rescued by companions but the crab got away.

The congregation of the Bergen Point Baptist church, Bayonne, turned out in large numbers Sunday when the new pastor, Rev. Edgar Bruce Price, was installed. Rev. Mr. Price is from Phoenixville, Pa., and succeeds the Rev. William W. Barker, who resigned to become assistant pastor of Calvary Baptist church, New York.

John Williams, a farm hand, was a prisoner in the Bridgeton lockup for the night at his own request. He went home Sunday afternoon, he says, and found his wife entertaining a man. He dashed at them with a drawn razor, but they jumped through windows and escaped. Then Williams went to city hall and surrendered himself. "I don't want to do murder," he said; "and I should surely kill them if I got a chance."

To save the lives of an automobile party George L. Dilks, of Wenonah, carries a broken arm in a sling. As Captain Robert Richman's automobile emerged from behind several wagons on Salem street Mrs. Dilks was horrified to find a rope stretched across the street just high enough to catch the necks of those in the machine. Mrs. Richman, Mrs. Dilks and Mrs. Ella McGill were seated on the high rear seat and there seemed to be no escape for them. The men in front might have dodged under, but Mr. Dilks thought only of the safety of the women and pushed the rope up over their heads. The machine was going so fast that his arm was broken and will lay him up for a long time, as he has passed his sixtieth year.

POLITICAL NOTES.

Only one mayoralty petition for the open primaries on September 28 was filed yesterday in Bayonne, and that came from City Controller Charles E. Annett, Republican. The city officials learned yesterday that the time for filing local petitions will not expire until next Saturday. There will be two other Republican candidates for Mayor in Bayonne, Councilman-at-Large Garret L. Post and T. M. Ten Broeck, and at least two Democratic candidates, Dr. Archibald C. Forman and former Assemblyman Peter Stillwell.

With the closing of the Morris county clerk's office yesterday afternoon the time expired for filing petitions for nominations for county offices. The Democrats have failed to place a nominee in the field for State Senator to succeed Thomas J. Hillery, and have also nominated only one Assemblyman, instead of two. For Senator the Republican aspirants for the nomination are Edward K. Mills and Joseph B. Righter. For Assembly the Republicans are Oscar B. Smith, William F. Burch and George W. Jenkins. The only Democrat seeking an Assembly nomination is Albert Bunn, of Parker.

The Middlesex county Democratic ticket was practically agreed upon and indorsed, at the meeting of the Democratic County committee Saturday afternoon as follows: Senator, George S. Silzer; county clerk, Bernard M. Gannon, of Perth Amboy; Freeholders, Garret Broadhead, of Perth Amboy; Anthony J. Gibbard, of Highland Park; Andrew Ely, of Dayton; Peter H. S. Hendricks, of New Brunswick; Albert S. Kerr, of South Amboy. Assemblymen, Dr. William E. Ramsey, Perth Amboy; John V. Booraem, of Milltown; third place vacant.

Everett Colby, on his return from Southampton, Long Island, yesterday declined to discuss the attack made on him in the speech of Major Carl Lentz last Friday. All that the former Senator would say was that among "other inaccuracies" the statement that he had called Congressman Parker a "traitor" was the most conspicuous.

STATE ETCHINGS.

Like the Turk, Major Lentz is simply dreaming in his guarded tent. What an awakening he will have on September 28!

If Somerset and Morris counties come in today with big majorities for the amendments, New Jersey will have the proud distinction of having a woman Alexander the Great.

The soap box from which Colby slipped in Passaic the other night was not of the Colgate variety.

The "new idea" that fitness rather than political pull entitles a man to office seems to have spread to the authorities in Washington who are appointing the census supervisors for New Jersey.

The Paterson Call overlooked a great opportunity when it failed to begin injunction proceedings to prevent the Newark aldermen from visiting the Wanaque watershed.

It would be in accordance with the usual order of things in Atlantic City if the National Guardsmen there should decide that they were justified in taking the orders of the political bosses instead of obeying instructions from official headquarters.

Some of the "regular" politicians of both parties have reason to agree with the prediction of a Burlington weather prophet that the coming winter will be an unusually severe one.

The excitement over the constitutional amendments election should not cause the voters to lose sight of the fact that the primaries are only two weeks off.

GALLAGHER AT IT AGAIN

Says He Will Present Affidavits of Borough Conditions to Court of Chancery.

WANTS INVESTIGATION MADE.

Dunellen Sprinkling Contract Stirs Up Animosity—Mayor Swackhamer Did Not Sign.

The Council and citizens of Dunellen were surprised and indignant last night at the special meeting of the Council, called to investigate the bill presented by Cornelius Huff for sprinkling the streets, to find that the contract which had been prepared had not been signed by the Mayor. The Council had decided at the last meeting to hear the testimony of several men who claimed that the borough was not getting a square deal from the contractors, and appointed last night as the time for the inquiry.

The Mayor had examined one witness and was preparing to take his affidavit, when Councilman George Huff stated that he did not see that the statements of the affidavit would show that the bill was not rendered according to the contract. The Mayor then startled the Councilmen and citizens by his announcement: "Gentlemen, there is no contract. I have not signed the agreement."

The job of sprinkling the streets was awarded to C. W. Huff, early in the summer, he being the lowest bidder. A contract had been drawn up, but owing to Huff's illness, the Mayor and he had been unable to get together and complete the agreement. A few days ago Huff signed it in the presence of Marshal Slinn y, but the Mayor was not present at the time and did not wish to sign it afterwards unless Huff was present.

The borough hall was crowded when the Mayor told the Council that the disputed document did not exist. The Council had allowed the work to go on and the bills to be paid for two months without taking the trouble to sign written terms. Michael Gallagher declared that he would present affidavits before the Court of Chancery today asking for an order compelling the officers of the borough to show cause why its affairs should not be investigated. "Things are in a pretty bad way," he said, "when the sons of councilmen can obtain borough jobs and then the Mayor not sign the terms, after two months' bills had been paid."

The members of the Council were as much astonished as the citizens. A motion was made that the Mayor should sign the paper then, but that was defeated. It was then decided to place the matter in the hands of the street committee after the evidence had been heard and give them until the next meeting to investigate.

Affidavits made by W. A. Coster, showing that the sprinkling wagon had not been operated nine hours a day, as the terms of the agreements which was to have been made, called for, by James Benson, a foreman and John Runyon, a driver, both employed by Huff, stating that they kept no record of the days they went out to sprinkle, nor the hours that they worked, were given to the committee. Frank Conger, another driver employed by Huff, swore that he did a day's work when he went out, but that he did not know just when he went out, that he drew a day's pay and that he had a poor memory. This affidavit as also given to the committee for consideration

What worries Huff most is the fact that he has no contract and that the terms on which he bid provide that he shall work only on days when directed by the committee to do so. He admits that he was never told to go out, but says that his father, Councilman George Huff, told him once or twice not to go out on rainy days. Now he is beginning to wonder whether he will get his money.

MATCHES CLAIM LITTLE VICTIM AT HOBOKEN.

Ebie Schubbs, 7 years old, of Hoboken, was terribly burned last night at her home. She was in the front room, and, picking up a match, attempted to light it. The tip flew off and set fire to her clothing. In a moment she was a mass of flames.

The child's screams brought her mother, Mrs. Mary Schubbs, to her aid. The woman picked up a rug from the floor and wrapped it around the child. The flames were extinguished, but not until the little girl had been fearfully burned about the body, face and hands.

She was removed to St. Mary's Hospital, where it was said her recovery was doubtful.

Woman Jumps Into Passaic River.

Mrs. John Gollar, of Passaic, jumped from the Garfield bridge into the Passaic river yesterday in an attempt to end her life. John Lakefield, who was out for an early morning walk, heard the splash and pulled the woman ashore. At St. Mary's Hospital, where Mrs. Gollar was taken, it was said that she would recover.

MANY SENSATIONS FOR FAIR PATRONS.

Six Drop From One Balloon—Airship Races and Desperado All at Trenton Fair.

First among all of the great fairs of the United States to recognize public demand for vaudeville, the Trenton fair has always enjoyed the reputation of giving to its patrons the finest vaudeville to be seen anywhere in the world. Every year has brought new vaudeville innovations to the Trenton exposition, and this year will prove no exception.

When it is stated in all sincerity that the length and breadth of the North American continent have been searched to provide the vaudeville entertainment for the Interstate fair of 1909 only part of the truth has been told, for not only have the agents of the fair exhausted the resources of America, but they have also called upon Europe and Asia for acts to interest the visitors to this wonderful fair.

Perhaps the greatest sensation to be offered will be that supplied by Desperado, who dives from a little platform fifty feet in the air into a wooden chute, striking on his chest. From this chute he slides up an incline and is emptied at the mouth. How the performer dives from such an extreme height and, striking flatly on his chest, escapes instant death is the one great marvel of the year.

Not far behind Desperado as an attraction comes the airship race between Lincoln Beechy and Captain Anton Snyder of the balloon corps of the German army. This is to be an actual race in the air, in which the daring navigators will go two lap heats.

Ernest Albert and his ten performing polar bears is another act that will be absolutely new to this section of the country. These bears do many thrilling feats and are certain to prove one of the most talked of features of the fair.

Polar, "The Man Up a Pole," who has been the sensation all season at Brighton Beach, has also been secured.

The Six Flying Banvards, acknowledged to be the foremost aerial act in the world, have been brought from Paris at an almost unbelievable expense. It is the only act of its kind in existence; therefore Secretary Margerum is willing to pay the toll.

The Dunedin troupe of acrobatic cyclists, fresh from a season of triumphs at the New York Hippodrome, will also perform for the Trenton fair patrons. There are six in this troupe, and all are stars.

Each year sees a new thriller along the line of ballooning, and this year the thrill has been provided by Edward Hutchinson, who makes six drops from a balloon in a single flight. Prior to this act the record was four drops made last season at the Trenton fair.

Johnny Mack and his troupe of death challenging balloonists have also been signed and will introduce a number of new and interesting feats.

In the opinion of many regular visitors at the Interstate fair—those who have not missed attending for ten or more years—the best act that has ever been offered was that of Schryer, the daredevil who dived from a bicycle all the way across the trotting track into a little tank of water. What will the "regulars" think when they read the announcement that this year a woman will do the trick?

Sounds impossible. Still it is the fact.

Sadie Knowlton is the young lady with sufficient nerve to attempt this wild act, and those who have seen her say that she begins where Schryer leaves off.

There are a dozen other acts on the program, making up a bill that easily excels anything the Trenton fair has offered in the past. Perhaps another such bill will never be offered again, because the expense attached to it is enough to daze even a Rockefeller.

"POLITICIANS' DAY" EVERYBODY'S CONVENTION DAY.

Leaders of Both Political Parties In New Jersey Will Meet at Trenton Fair.

As usual, "politicians' day" at the Trenton fair will be one of the really great days of the year, not only for the fair, but all over the state of New Jersey. The Trenton fair "politicians' day" has gradually grown to be almost a state institution, for on that day the leading politicians of every county in the state assemble within the hospitable gates of the fair, and there they make out the slates that are later adopted at the state, county and city conventions.

"Politicians' day" at the Trenton fair is the real convention day for the entire state, and right well do the leaders of both parties realize this. It is one of the feature sights of the fair to see these several thousand political leaders massed in the little tented village to the right of the grand stand. It is an all day session, and many a man is made and broken politically before this session is over.

This year Governor Fort will be one of the prominent figures at the fair Thursday, "politicians' day." He will be on the ground early, and with him will assemble all of the others, great and small.

Why Don't You Economize on Coal?

The hungry furnace and the coal man are a hard combination to beat, but the

BOYNTON

Square Fire-Pot

FURNACE

is the friend of the man who takes care of the fire. The square fire-pot prevents the clogging of clinkers around the sides of the fire. That means all fire—more heat per unit of space. The square pot gives a greater surface for combustion and heat radiation and actually takes less coal for a good fire. And then there's the Boynton special flue for carrying away the dust. You don't sift ashes all over the house when you shake down the BOYNTON.

Talk it over with the BOYNTON dealer in your town.

There are BOYNTON heating plants of all kinds. Ask about our Round or Sectional Boilers for Steam or Hot Water. Also Ranges.

LOCAL AMUSEMENTS

It will require little imagination on the part of those who see "Paid in Full" when the Wagenhals & Kemper Company sends the celebrated play to the Plainfield theatre tomorrow matinee and night to fit the characters and the episodes in the drama to this very city, even to their own immediate home neighborhood. There is an intimacy about this play that brings it close to every person. Its thoroughly understandable quality is the greatest element in its appealing power. We may not know directly all the persons in "Paid in Full," but we at least know of them, and because of this familiarity there is the deeper appreciation of those moments in their lives that the play reveals. The story of "Paid in Full" might be alive today in a home near our own, or in any city in this country, as much as in New York where the author, Eugene Walter, has placed it. It was rare skill that enabled Mr. Walter to create a drama so accurate of average American life that it seems actually to exist within view of our very windows. In this respect is is a notable exception to other plays.

For the purpose of expounding his theory and giving the good folk of Plainfield the opportunity of appreciating a new-found idea he has chosen the Plainfield theatre to take you, on Saturday matinee and night, soaring beyond the supposed boundries of fun in his brand new airship of humor, "Above the Limit," a little play in which, as a tough boy, he "slings the popular slang" so uniquely and so well, that he not only moves his audience to immediate and happy side-splitting laughter, but, as well, takes them into the pathetic struggles of a poor boy in his efforts to uplift himself by education to the plane upon which he can properly present a heart full of love to a woman of mere gentle birth. We all feel sometime that beautiful sentiment, love. The whole world loves a lover and the heart interest in this little play is pretty, sweet and clean and cleverly, as well as amusingly, shows that true American spirit, "Rank is but the Guinea's stamp, a man's a man for a' that." This poor boy educates himself and as a polished gentleman takes for his life's helpmate, the girl who inspires it all.

LITERARY

Two very brief, but none the less interesting and suggestive communications appear in the September issue of Cement Age, one relating to concrete telegraph poles and the other to concrete railroad ties. For both these purposes concrete has been used with success.

The glow of the "Golden West" permeates the September issue of the National. The editor, Joe Chappie, takes his gold-tipped pen in hand and starts through the yellow fields of the country, and describes graphically the wonderful development he finds everywhere in evidence.

MISSOURI'S APPLE TREES.

"Missouri's apple crop last year was enormous and netted hundreds of thousands of dollars clear profit."—Daily Paper.

'Way down in old Missouri
Against the springtime blue,
A wave of rosy blossoms breaks.
All starred with diamond dew,
The balmy air is scented
With delicate perfume
From miles of ancient orchards filled
With apple trees in bloom.

Then comes the summer's magic
Of sunshine and of showers,
And turns to swelling emerald spheres
The fair and fragrant flowers,
And autumn, bright and sunny,
Instead of gray and cold,
Appears and changes every one
To balls of shining gold.

From leafy branches bending
Beneath their burden rare,
Next busy fingers gather them
And pack them all with care
And trade, in crowded markets,
To yellow gold transmutes
The richest and the mellowest
Of all Missouri's fruits.

While others seeking fortune
Must wrest it from the soil,
Or blast it from the stingy rock
With danger and with toil,
Missouri finds her wealth at home
Where men must starve and freeze
Or hunt it in a country
Upon her apple trees.
—Minna Irving in Leslie's Weekly.

Change in Coal Business.

Boyd Bros., the well known coal dealers, have sold out their business to Wadley & Goodenough, a firm which has been engaged in the coal business for some time in Plainfield, N. J., and will continue both enterprises. Mr. Goodenough is the son of Rev. A. H. Goodenough, who is well acquainted in Stamford. The firm of Boyd Bros., which consisted of Charles and Andrew Boyd, started in business eleven years ago. They built up a good trade, and have for several years been factors in the local coal market. One of the members will remain as local manager of the new firm, which starts in its Stamford venture with the successful expenrience behind it, and with a good outlook, as it is taking over a well established business.—Stamford, Conn., Daily Advocate.

The Lure of the Mask

By HAROLD MAC GRATH

Copyright, 1908, by the Bobbs-Merrill Co.

"Capricciosa," he mused aloud. "That is not her name."

"And I shall not tell it you."

"But her given name? Just a straw, something to hold on. I'm a drowning man."

"It is Hilda."

"That is German."

"She prefers it to Sonia."

"Sonia Hilda. It begins well. May I keep this letter?"

"Certainly not. With that cara mia? Give it to me."

He did so. "Shall I seek her?"

"This is my advice—don't think of her after tonight. If you ever see or recognize her, avoid her. It may sound theatrical, but she is the innocent cause of two deaths. These men sought her openly too."

"What has she done?"

"She made a great though common mistake."

"Political?"

"Don't be foolish. I am sorry I let you see the letter. I forgot that she told me her hiding place."

"Her hiding place?"

"Mr. Hillard, she is as far removed from your orbit as Mars' is from Jupiter's. Forget her."

"My orbit is not limited. I shall seek her. When I find her I shall marry her."

"I like you too much, Mr. Hillard, to stand by and see you break your heart against a stone wall."

"Don't you see, the deeper the mystery is the more powerful the attraction becomes?"

The door to the lift opened and closed noisily, and Hillard turned negligently. A man sauntered through the room. The moment he came into the light Hillard's interest became lively enough. It was the handsome Italian with the scar.

"Who is that man?" he whispered. "Only a few weeks ago I bumped into him on coming out of the club."

"Do not attract his attention," she answered.

"Who is he?" he repeated.

"A Venetian officer and a profligate. I entertained him once, but I learned from him that I had been ill advised."

Hillard saw that this subject would admit of no further questions. The man with the scar had committed some inexcusable offense, and Mrs. Sandford had crossed him off the list.

It was after 10 when Hillard and his friend took their leave.

"We shall leave in the morning for Venice," said Hillard.

"Venice? How about Rome and Florence?"

"Which would you prefer, Rome and the antiquities or Venice and—Kitty Killigrew?"

"Kitty in Venice? Are you sure?"

"She is there with La Signorina Capricciosa. Oh, this is a fine world, after all, and I was wrong to speak ill of it this morning."

"If Kitty's in Venice I'm an ungrateful beggar too. But I do not see why Kitty's being in Venice excites you."

"No? Well, fate writes that Kitty's

mysterious prima donna and my lady of the mask are one and the same person."

"No!"

The two without further words marched along the middle of the Corso to the hotel. The concierge started toward them, but suddenly reconsidered and retreated to his bandbox of an office. The strangeness of his movements passed unnoticed by the two men, who continued on through the lobby into the first corridor. Hillard inserted his key in the door of his room and swung it inward. He paused on the threshold with good cause.

Two dignified carabinieri rose quickly and approached Hillard. There was something in the flashing eyes and set jaws that made him realize that the safest thing for him to do at that moment was to stand perfectly still.

WHERE HOTELS GET THEIR COFFEE

The Effort They Make in Perfecting It.

Hotels long ago discovered that guests are far more critical of their coffee than anything else on the table. And there are many cases where the coffee served has made or unmade the reputation of a hotel's table. Consequently famous hotels always originate special coffee blends for their own use and spend an amount of time and expense in perfecting them that would seem fairly astounding to the outsider.

Of all these special blends originated for hotels none is as famous as the *Hotel Astor Coffee*.

Originated for this well-known hotel, the fame of Hotel Astor Coffee became so widespread that it was put on the general market in response to the insistent demand. In perfecting this coffee it is a fact that every possible combination of every kind of coffee grown was tried to discover the one ideal blend. As a result it is pronounced by connoisseurs to be the *most delicious coffee on the market*. And because it is always made and put up in exactly the same way (in tins) it is always uniform and never deteriorates. Every can contains the same recipe for coffee making used in the Hotel Astor, so you are sure of getting the same delicious brew on your own table as has made the Hotel Astor famous.

Sold by most of the better grocers in one and three pound tins, in the bean, *ground or pulverized*. Your own grocer doubtless sells it, but if he does not, write the importers, B. Fischer & Co., 390 Franklin street, New York City, giving his name and address and they will tell you where you can get it.

CHAPTER X.

CARABINIERI.

"SIGNORI," began Hillard calmly, "before you act will you not do me the honor to explain this visit?"

"It is not he!" said one of the carabinieri. "It is the master, and not the servant. This is Signor Hillard, is it not?" he continued, addressing himself to Hillard. "The signor has a servant by the name of Giovanni?"

"Yes. And what has he done to warrant this visit?"

"It is a matter of seven years," answered the spokesman. "Your servant attempted to kill an officer in *Rome*. Luigi here, who was then interested in the case in Rome, thought he recognized Giovanni in the street today. Inquiries led us here."

"At any rate, it looks as though Giovanni had been forewarned of your visit," answered Hillard. "And may I ask what is the name of the officer Giovanni attempted to kill?"

"It is not necessary that you should know."

Hillard accepted the rebuke with becoming grace.

"And now, signor," with the utmost courtesy, "permit us to apologize for this intrusion. We shall wait in the hall, and if we find Giovanni we shall gladly notify you of the event."

"Hello! What's this?" exclaimed Hillard, going to the table when the officers had gone. It was a note addressed to him:

My Kind Master—The carabinieri are after me. But rest easy. I was not born to rot in a dungeon. I am going north. As for my clothes, send them to Giacamo, the baker who lives on the road to El Deserta. He will understand. May the Holy Mother guard you should we never meet again.

Hillard passed the note to Merrihew.

"That's too bad. I've taken a great fancy to him. It seems that the peasant has no chance on this side of the water. His child a painted dancer in Paris and a price on his own head! It's hard luck. And the fellow who caused all this trouble goes free."

"He always goes free, Dan, here or elsewhere."

"Why, we'd have lynched him in America."

"That's possible. We are such an impulsive race," ironically. "Yes, no doubt we'd have lynched him, and these foreigners would have added another ounce of fact to their belief that we are still barbarians."

"I hadn't thought of that," Merrihew admitted.

Merrihew became impatient.

"Now out with it. Where and how did you learn that Kitty is in Venice?"

Hillard told him briefly.

"And so they are all in Venice, broke? By George, here's our chance—everlasting gratitude and all that! We'll bail 'em out and ship 'em home! How is that for a bright idea?"

"Let me see," said Hillard practically. "There are five of them—five hundred for tickets and doubtless five hundred more for unpaid hotel bills. It would never do, Dan, unless we wish to go home with them."

"But I haven't touched my letter of credit yet. I could get along on two thousand."

"Not with the brand of cigars you are smoking, 30 cents each."

"No; we can't bail them out, but we can ease up their bills till money comes from home. Not one of them by this time will have a watch. O'Mally will remain sober from dire necessity. Poor Kitty Killigrew! All the wonderful shops and not a stiver in her pockets!"

Merrihew paced the floor for some time, his head full of impossible schemes. He stopped in the middle of the room with an abruptness which portended something.

"I have it. Instead of going directly to Venice, we'll change the route and go to Monte Carlo. I'll risk my four hundred, and if I win—"

"Then the announcement cards, a house wedding and pictures in the New York papers. Dan, you are impossible. You have gambled enough to know that when you are careless of results you win, but never when you need the cash. But it is Monte Carlo if you say so. Two or three days there will cure you of your beautiful dream. After all," with a second thought, "it's a good cause, and it might be just your luck to win. The masquerading lady! Monte Carlo it is."

Merrihew danced a jig. Hillard stepped to the mirror and bowed profoundly. The jig ceased.

"Madame, permit me, a comparative stranger, to offer you passage money home. We won it at Monte Carlo. It is yours. Polite enough," mused Hillard, "but hanged if it sounds proper."

"To the deuce with propriety!" cried Merrihew buoyantly. "We'll start tomorrow?"

From her window Kitty looked down on the Campo, which lay patched with black shadows and moonshine. How still at night was this fairy city in the sea! There were no horses clattering over the stone pavements, no trains, no omnibuses. The stillness which was of peace lay over all things. And some of this had entered Kitty's heart.

But for one thing the hour would have been perfect. Kitty, ordinarily brave and cheerful, was very lonesome and homesick. The dismal failure of it all! She had danced, sung, spoken her lines the very best she knew how, and none had noticed or encouraged her. It was a bitter cup after all the success at home. If only she could take it philosophically like La Signorina!

And there were so many things she could not understand. Why should La Signorina always go veiled? Where did she disappear so mysteriously in the daytime? And those sapphires and diamonds and emeralds? Why live here with such a fortune hanging 'round her neck?

BOWLING.

Notwithstanding that the present bowling season has just been started, local pin knights are putting up high scores, nightly, at Johnny Campbell's alleys.

The Armrights and Bill Schaub's Raritan team will meet in a five-man match on Thursday on the local drives.

Johnny Campbell is arranging for an individual tourney, to decide the city championship, and is receiving entries for this competition. Already several of the cracks are entered and as it is limited to but fifteen contestants the "champers" who wish to take part had better get busy.

BREACH OF PROMISE SUIT AGAINST SOMERVILLE DENTIST

A sensation has been caused in Somerville by the arrest and imprisonment of Dr. Richard F. Gordon, on a capias issued by the New Jersey Supreme Court in the civil action of Madie L. White, for $20,000 damages for breach of promise.

Dr. Gordon was taken into custody by Sheriff Frank T. Ross, at his country home, near Bound Brook, on Saturday night, and placed in the Somerset county jail under $5,000 bonds. The amount of bail was fixed by the Supreme Court.

Dr. Gordon is still in the county jail, and his friends are making an effort to have the amount of his bail reduced. Dr. Gordon, who is said to be a dentist, with offices in New York city and Red Bank, has been living with a woman who says she is his second wife, on a farm near Bound Brook, for about one year. Little is known of the couple at Somerville, as they have lived a very quiet and secluded life. Dr. Gordon is sixty years old, and the woman is less than forty.

Madie L. White is not known at Somerville, but it is understood that she is a resident of Monmouth county. Her counsel is John P. Lloyd, of Matawan.

There is much secrecy connected with the case. Dr. Gordon and his wife refuse to be interviewed and the officials are ignorant of the circumstances which caused Miss White to bring civil action against the aged dentist.

IT is now just 50 years this month since we organized THE GREAT ATLANTIC & PACIFIC TEA COMPANY to supply consumers direct with TEAS, COFFEES and GROCERIES at less than wholesale prices, and do away entirely with all middlemen's profits. We are free to admit that the idea at the time was a revolutionary and a bold one, that it struck at the very foundation of the routine traffic of middlemen who had grown rusty and cobwebby in the rut of the grocery trade as it had existed for ages. We well remember the consternation it produced among grocers, both large and small, when we announced that we would sell to consumers at less than wholesale prices in any quantity. What direful and sad forebodings were uttered against our undertaking. These were loudest and most pointed when uttered by those most to be affected by our success, and whose large profits on these articles of every day necessities were most to be affected by our new and startling enterprise. We will not deny that some of our best friends and well-wishers were nervous and timorous that we might not be equal to the full completion of such a stupendous undertaking. This was, perhaps, because they had not investigated the matter sufficiently to form a correct judgment. But for ourselves we can conscientiously say that we never for a moment lost faith in the soundness of our plans nor in the correctness of the commercial principle that actuated us at the time of starting our enterprise, and which has been our guiding star all along through fifty years of its success, and that is, that **the nearer a producer and consumer can be brought together by avoiding all the intermediate exchanges or transfers possible, the better will it be for producer and consumer, and the better for all mankind, because one-hundred exchanges can add nothing to the real value of an article, although it may add many hundred per cent. to its price.** This is not strictly and logically true, but is also just as true that all the time, talent and capital, of all the **unnecessary** exchanges might have been usefully employed in producing, or adding to values by manufacturing many other useful articles, the product of which would benefit and adorn the world

"GOLD DUST TWINS" NEARLY WIN FREEDOM

Irving and George Blaney, of Somerville, widely known as the "Gold Dust Twins," are back in the State Reform School again after a year's respite in which they have added many depredations to their long list of petty crimes. The twins made a characteristic exit from the field of their operations on Saturday, when Special Officer Smith, of the State Reform School, attempted to conduct them single handed from the Somerset county jail to the State institution.

Officer Smith, with a confidence born of long experience with the twins in the Jamesburg school, believed that the pair could be induced to walk along with him, although Keeper James P. Major, of the county jail, advised him to handcuff them and to obtain the assistance of two or three policemen to get them safely out of town. Smith started out from the jail with the twins unassisted, and had proceeded less than a block when the twins gave the officer a jolt and simultaneously made a break for liberty. Smith managed to catch George, but Irving sprinted down the street with Keeper Major in hot pursuit. When Irving reached the residence of Dr. Halstead, at the corner of Grove and High streets, he made a dash through the dooryard and then began a wild chase across lots and over backyard fences, which ended when Keeper Major caught up with the juvenile prisoner at a high-board fence and gave him a tap in the head that sent him sprawling to the ground.

In the mean time Smith handed the remaining twin over to the custody of Sheriff Ross, and started on a brisk run around the block to head off the escaping prisoner. Keeper Major returned to the starting point with his prisoner and Smith turned up later thoroughly winded from his fast run around the block. Smith borrowed a pair of handcuffs from Sheriff Ross. When the twins were finally chained together, Smith made another start, but the prisoners managed to slip the handcuffs and made a second attempt to escape, which was checkmated. The officers then placed a handcuff around the forearm of each twin and finally got them to the reform school.

The Blaney twins, who are now fourteen years old, are probably the most remarkable juvenile criminals on record. They started on a career of crime when seven years of age, and were imprisoned in both Middlesex and Somerset county jails several times for petty offenses before they had reached the age of ten. Thy gained widespread notoriety about four years ago, when they set fire to the old Somerset county jail with the object of effecting their escape. They have had a year's freedom, but petty thefts were traced to them and resentence followed.

DEFEAT FOR AMENDMENTS

Estimate Between 23,000 and 30,000 Majority Against Constitution's Change.

BEATEN IN UNION COUNTY.

Only Two of the Twenty-two Counties Are Supposed to Have Favored the Scheme.

Returns from the special constitutional amendment election, held yesterday, as received up to 2 o'clock this afternoon show that the suggested changes in the constitution have been overwhelmingly defeated. Only two of the twenty-two counties registered a favorable vote. It is estimated at this time that the plurality against the propositions will be anywhere from 23,000 to 30,000 and possibly more.

Union, Somerset, Essex, Hudson, Camden, Mercer and other conspicuous counties voted against any change. It is estimated that some 60,000 votes were cast and this is a very low percentage of the normal vote. The returns from Union are meagre, but they show a decisive defeat. The same is true of Somerset. In Somerville, only 129 votes were cast and seventy-five of these were against the changes. Hoboken and East Orange favored them, while Newark went by 6,600 the same way.

Hudson Car Makes Big Hit.

Everybody admired this car from the start and it is now recognized as the greatest car ever turned out for anywhere near its price. Mr. Thompson has sold quite a number of these cars, and reports that he is now sold ahead about six weeks. GET ALLEGED BURGLAR

Caught at Phillipsburg, Gardner is Turned Over to Local Police.

BRITTEN'S STORE IS LOOTED.

Suspected Man Released at Dunellen When No Evidence Was Produced of a Burglary.

George Gardner, the alleged burglar, who it is said broke into the store of Bennett Brittin, at 1220 West Front street, on the night of August 12, has been apprehended by the police of Phillipsburg and will be turned over to Chief Kiely today.

Gardner was arrested by Marshal Sliney, of Dunellen, August 13, on suspicion of having stolen some cigars which he was offering for sale at ridiculously low prices. When brought before Recorder David Campbell in the borough court Gardner claimed to have bought the cigars from a dealer in Plainfield on a speculation and was selling them at a profit.

Recorder Campbell telephoned to Plainfield police headquarters stating the facts and was informed that up to that time no robbery had been committed. Recorder Campbell thereupon released Gardner and he made good his getaway. Subsequently the robbery at Brittin's store was reported and a search for Gardner was instituted, with the above result.

EXTRADITION IS REFUSED

Gov. Fort Declines to Sign Papers Requiring Presence of Riccardis in Pa.

SUIT FOR VALUE OF HORSES.

Marshal Weiss, Richard Boice and Stonewall Jackson to Be Held Responsible for Horses.

As a result of releasing two horses claimed to be their property by the Riccardis, father and son, Chief Marshal George Weiss Richard Boyce and Stonewall Jackson, of the borough of North Plainfield, will have to face a suit for the recovery of the value of the horses, said to be $700. Lawyer Robert Newton Crane, counsel for the Riccardis says that the horses were in charge of the above named men and they are responsible for them.

Governor J. Franklin Fort refused yesterday to sign extradition papers for the Ricardis as requested by Governor Stuart, of Pennsylvania, and the men must be released. The charge of horse stealing is void as there was not sufficient evidence to hold them for the crime. On the contrary, it has been found that the men were of good repute and had purchased the animals in the city of Pittston, Pa.

Mr. Crane when seen this morning said that suit for the recovery of the value of the two animals would be begun at once, or as soon as the necessary documents could be prepared. Mr. Crane appeared personally before Governor Fort in behalf of the two Riccardis and convinced the chief executive of the State that his clients were being illegally held under bonds. The decision of the Governor was rendered late yesterday afternoon.

Michael and Benjamin Riccardi were arrested on September 1, on information given by Detective Charles H. Martin, and Jacob Lampert, of Norristown, Pa., who claimed that two horses then in the stables of Stonewall Jackson, on Somerset street, North Plainfield, were the property of Lampert. The Riccardis claimed to be the legitimate owners of the horses through purchase, which has since been proved to the satisfaction of the Governor.

REAL EXCITEMENT THERE

Dunellen Folk See Struggle to Lay Gas Pipes Under R. R. Track.

P. S. C. LABORERS DEFEATED.

As Quickly as They Dug Railroad Gang Filled in—Engine's Arrival Causes An Armistice.

New Market is in a state of considerable excitement today over a war between the Public Service Corporation and the Lehigh Valley Railroad. Some time ago the corporation asked for permission to lay gas pipes under the railroad crossing at New Market road. The railroad having the right of way refused. This morning the gas company sent a force of 100 laborers down to lay the pipes without the consent of the railroad. The railroad hearing of it sent a force of its own, who filled in as fast as the men from the gas works dug. Finally as neither side made any progress, both sat down and rested, watching each other suspiciously.

The P. S. C. sent in an application to the railroad company months ago for permission to lay pipes under its tracks. It was desired to lay the pipes two feet deep. This the railroad company objected to claiming that it would injure the roadbed, demanding a depth of four feet. The gas company would not agree to this and so refused to lay the pipes four feet deep as the terms of the owners of the right of way dictated. This morning they decided that as many prospective customers had been waiting for a long time for gas, an attempt would be made to lay the pipes without any consent.

The railroad officials were not slow in getting the news that a gang had descended on their tracks and were tunneling under them and a gang was sent to the scene. They went to the crossing and soon filled in all the dirt that the gas company's men had dug up. The P. S. C. laborers sat down and watched. When they had finished their task the railroaders sat on the other side of the road and watched to see that no more work was made for them. The railroad then had an engine sent to the seat of hostilities to make sure that the pipes could not be laid until the matter had been settled by arbitration. The P. S. C. people declare that two feet is quite deep enough and that the railroad is unjust in its demands.

CANNOT FIND BONDSMAN; ARENSBERG STILL IN JAIL.

Milton L. Arensberg, who is being held under $5,000 bonds to await the action of the grand jury on a charge of forging a note for $1,500, has not yet succeeded in obtaining a bondsman. He is still in the Somerville jail.

It is claimed by the accused man that the action against him is one of spite instigated by his brothers who with him are joint heirs to a valuable estate, and that the matter can be satisfactorily adjusted without the interference of the court. However, his story does not coincide with the facts so far presented to Judge Schenck who fixed the amount of bail.

SHE ATTEMPTED SUICIDE

Augusta Wolter, of South Somerville, Shoots Herself in the Hand.

SEARCHING FOR FORMER LOVER

Threatens to Drink Acid Then Disappears—Will Be Cared For When Found.

A curious story comes from Westfield which has the police of that town and all other towns between Bound Brook and Newark excited. It is said that a young and pretty girl who has given her name as Ethel Walker and her residence as Plainfield, attempted suicide directly after leaving a main line trolley car at Westfield, yesterday. She is said to have shot herself in the hand and as that was not a vital spot she is said to have threatened to use the contents of a phial of carbolic acid which she had with her.

It is reported that the young woman is infatuated with a former employe of the trolley corporation who at present is at work in one of the factories along the route of the trolley. She has been traveling back and forth on the cars of the company, evidently searching for her recreant lover and failing to locate him, it is reported, resorted to the suicide route to end her sufferings.

The police and others between the two points named are searching for the unfortunate girl and if she is found she will be brought to this city and placed in charge of those who will care for her. On Saturday night, last week, the girl was found by the Elizabeth police wandering around that city, evidently on the lookout for someone, but she refused to disclose to the police what her mission was. She stated that she was the daughter of highly respectable people in this city and had gone to Elizabeth to meet her parents and ride home on the train with them. This story was not credited by the police and she was held over night for safe-keeping.

A later story concerning the young woman referred to above gives her name as Augusta Wolter, and her address as South Somerville. It is said that her aunt, Mrs. William J. Waldron, who lives in Elizabeth, had the girl as a boarder up to a week ago when she decamped leaving an unpaid board bill. Mrs. Waldron gives the girl's age as sixteen and says she is wayward. Her sister when seen this morning said that Augusta had been wild and had a predilection for a certain man employed on the trolley, but she declined to give the name of the man or say where he is now located. She also averred that her sister had done wrong and when told of the attempted suicide did not seem at all surprised.

Augusta Wolter was seen last night at about midnight, alone, at the corner of Bridge and Market streets, Newark, but since that hour no trace of her has been discovered.

FOOT POWDER MAKERS FOUGHT OVER NAME

In the Circuit Court, Trenton, on Monday, Judge Lanning heard argument of counsel in the suit instituted by Allen S. Olmstead, of Le Roy, N. Y., to enjoin Joseph C. Allen, of this city, from infringing the trade name of the complainant. Both parties to the litigation are manufacturers of foot powder. Craig A. Marsh, of this city, is counsel for Joseph C. Allen, who is engaged here in the manufacture of foot, talcum and other kinds of powder.

It is understood that Joseph C. Allen began the manufacture of his foot powder in 1894, while Allen S. Olmstead introduced his powder in 1895. The contention, it is said, is relative to the use of the name of Allen. Certain changes, it is said, have been made whereby the litigants have reached an understanding as to the use of the name.

Revokes Chauffeur's License.

Frank Newman, who was employed by F. L. C. Martin at his garage on Park avenue, and who took out a party of friends in one of Mr. Martin's autos Saturday night on a no-drink joy ride, had his license as an auto driver revoked today by J. B. R. Smith, State commissioner of motor vehicles.

TAX RATE GOES SOARING

It Was $1.40 Last Year But Will Probably Jump Beyond $1.60 This.

CITY VALUE TOTALS $23,571,529.

County Valuations $127,013,402—School Rate and County Rate Are Both Increased.

Official figures announced by the Union County Board of Taxation show that the county valuation is $127,013,402, and on this basis the county rate for the coming year will be 31.1 cents on the hundred and the State school rate will 25.26 cents on the hundred. The county rate is an increase of 2.1 cents on the hundred and the State school an increase of 4.26 cents on the hundred, a total increase there of 6.36 cents.

The total valuation in Plainfield is $23,571,529, an increase of $764,960. There is an increase in the local school appropriation of $27,000, the figures last year being $35,000 against $62,000 this year.

The State school and county aggregates $133,000, an increase of over $20,000 over that of last year, which will materially aid to boost the rate in this city.

Until all of the figures are in it is impossible to announce the local tax rate for the coming year definitely, but it will be $1.60 on the hundred at least and probably more. Last year it was $1.40. The city spent a great deal in laying brick pavement in the business section, macadamizing of roads and the sanitary sewer extensions, as well as in making numerous improvements, all of which have combined to increase the tax rate.

WARREN TWP. CLUB HAS A JOLLY TIME

An unusual meeting of the New Warren Township society circles on the square occured last night in Bintz' Hotel, Mount Bethel. William Henry Roger presided and Guy D. Peck, the secretary, reported several new names for membership. The constitution and by-laws were ratified.

William Jeffery, of New Providence Township, in a forceful address urged the voters of the township to stand together and clean house. Elect the best men of the township to the offices. Let those who will sneer, such sneers are aimed not only at respectable citizens but are an insult to the women and the children. Mr. Jeffery said get the women and children with you and you are bound to win. He then sang a song composed by himself entitled "Warren," to the tune of "John Brown," and in a few moments the entire audience was singing as they never sang before.

Candidates were placed in nomination by the society on both tickets, and the petition were signed and executed on the spot. The Circles were organized and the meeting adjourned at midnight to meet again next Tuesday at the same place. Mr. Jeffery will then address the society and will also address the women of the township during the evening.

Junior Societies to Parade.

At a meeting of the local Junior Christian Endeavor Superintendents, Monday afternoon, it was decided as Friday, the last day of the State Endeavor convention is to be devoted to the Juniors, to have a parade precede the meeting, marching about half to three-quarters of an hour with a brass band. Each Junior will carry a flag and different societies will wear their badges and carry banners. A great time is expected as between eighteen and twenty societies have been invited to join and about 500 or 600 boys and girls are expected to join in the march.

Semmer's Bail Fixed at $2,000.

Judge Davis, of Newark, sitting in the County Court at Elizabeth in place of Judge Atwater, who is Connecticut, fixed the amount of bail which may be accepted in the case of Nathal Semmer, the alleged incendiary, at $2,000. He has given permission for Sheriff Kirkland to accept the bail in the absence of the judge. A brother of Semmer has arrived from Perth Amboy and will give the necessary surety for the furnishing of bail by a local owner of real estate. It is quite likely that Semmer will he released late today or tomorrow morning.

LOCAL AMUSEMENTS

Two millions five hundred thousand persons had seen "Paid in Full" when at the end of last season the Wagenhals & Kemper Company allowed its players a brief holiday before starting them out again this autumn in the celebrated Eugene Walter drama; and five companies had appeared in it for a total of two hundred and forty-four weeks and two thousand and twelve performances. Here is a record far exceeding any other in theatrical history the world over. A record maker indeed is this Eugene Walter play, and a rousing welcome will be extended to it by local playgoers when it comes to the New Plainfield theatre today, matinee and night. A feature of the forthcoming engagement is the brilliant cast that will appear in "Paid in Full." It is a New York company Messrs. Wagenhals & Kemper are sending here, a cast that was in the famous play in New York, where, as everybody knows, it made the biggest hit Broadway has ever known.

Boys' School Suits

WITH TWO PAIRS OF KNICKERBOCKER TROUSERS $4.95.

Right in the face of advance price of wool and increased cost of labor, with everything going up, up, up, we come to you with the best boy's suit we ever sold or that any one else ever sold for as little as **$4.95.**

These suits are cut from the latest models of strictly **all wool cloths,** not wool "commercially speaking," but **real, pure wool cloth,** tested and tried—positively wool; steamed and then sponged with ice water in a way that would show any possible flaw in the cloth, and that prevents shrinkage; and these suits are so tailored and trimmed thruout that they not only look right at the start but they set right and will stand the hard service that *boys going to school are bound to give them.*

The best thing about these suits is the fact that you get **two pairs of pants** with them, well *fashioned, generous sized knickerbockers* which go nicely with the double or single breasted **Derby back coats.**

Surely it will be a treat to all parents to secure suits such as these with an **extra pair of knickerbockers** for only..... $4.95

The Plainfield Baseball club has not yet secured a game for Saturday. Negotiations have been in progress with Rahway for a game here, but thus far the Rahwegians have not consented to leave their own fireside and get walloped.

By the way if Bound Brook should decide to play the Plainfield Baseball club on Crescent Oval, it would get all that is coming to it, as when the club played at New Brunswick last Saturday.

There is something rather suspicious about a team that refuses to play off its own grounds and continues to win every game. Manager Newhouse is a foxy quiller, all right.

Dunellen will go to Bound Brook on Saturday. The result can be guessed now.

Archibald Hacquer, formerly of this city, but now baseball writer for the Philadelphia Times, is covering the Athletics on their visit to New York this week.

The Y. M. C. A. team is scheduled to play the Kenwood A. C., of Newark, on Crescent Oval, Saturday. The Newark aggregation is said to be a strong one and a good contest should result.

"Outwardly all the insinuations of probable action by the National Commission, which would mean the barring of Johnny Kling from organized baseball for three years, do not appear to have the least effect on the erstwhile Chicago Cub catcher and billiard magnate," says the Evening Sun. "When reminded that he was making himself liable to such action by the supreme court of the national pastime Kling is reported as saying: 'Let the National Commission enforce its rules; I can't stop it if it wants to bar me from organized baseball for three years simply because I played against Callahan's team. It matters little to me. I am out of the big league for all time, and hereafter will devote my time to business interests. When the fancy strikes me I'll play a little 'semi-prof.' baseball. There's a good field in Kansas City and I have done well with local clubs this season. My efforts in the future will be to build up my business. How about those rumors of Kling's becoming a manager in 1910?"

Gibson's presence behind the bat for Pittsburg has undoubtedly been a great factor in the sterling showing of the Pirates in this season's National League race, and his feat of catching 112 consecutive games is a noteworthy performance. No one is more willing than Jim McGuire, newly appointed manager of the Cleveland Blues, to admit it, but the veteran has refuted the claim that catching 112 successive contests is a record. He said:

"Far be it from a veteran like me to try to take any credit from a nice young fellow like Gibson, but a reference to the National League records of 1895 will disclose the fact that in that year I caught 133 games for the Washington club, which was all there were on the schedule. The games were necessarily consecutive. Gibson deserves plenty of credit for his performance. I'm not even disposed to try to belittle the great performance of Chif Zimmer, who once caught 111 games in a row.

"But I do feel that so long as I'm connected with the game in some style or other they ought not to try to make any new records, just to obscure one that cost me considerable effort and of which I have always been pardonably proud."

GOLF.

The course at the Plainfield Country Club is crowded nearly every day with enthusiastic players and the fall competitions promise to afford much enjoyment for the members.

The next special event at the Plainfield Country Club will be the Election Day handicap, 18 holes, medal play, morning and afternoon, for cups presented by Percy H. Stewart and Silas P. Wood.

Then will follow the Thanksgiving Day handicap, "cross country" tournament, which is always popular. This will practically close the active season.

The rules committee of the Western Golf Association, at a meeting at the Chicago Golf Club, officially abolished Section 4 of Rule 32, which reads: "No puts shall be conceded." The committee, in place of the prohibitive rule, makes a recommendation that players do not concede puts to their opponents.

This action of the Western Golf Association rules committee places the question of conceding puts in complete accord with the United States Golf Association rules, and removes a source of friction between the two associations that threatened for a time last winter, and again during the present tournament, to result in the secession from the national body of many of the biggest clubs in the West that are members of both associations.

Hundreds of onlookers watched the putting matches by electric light at the Dunwoodie Country club, when the new putting course of six holes was used for the first time. Mrs. W. H. Wildman won the women's competition at twelve holes with twenty-seven strokes, and Mrs. George L. Hall was second at twenty-eight strokes. The men's contest was at six holes, J. P. Davenport winning with eleven and J. B. Wildman being second with twelve. In the red card competitions of the afternoon the winners were: Class A, W. E. Conklyn, 80—7—73; Class B, F. H. Lisson, 97—21—76; Class C, J. P. Davenport, 101—30—71.

—Rudolph Heinold, of Duer street, has been promoted to the position held by Harrison Fahn, who resigned last week at the Ritz ice cream and candy store in the Babcock building.

The annual meeting of the W. C. T. U. will be held in the rooms on Madison avenue tomorrow, with morning and afternoon sessions. There will be election of officers.

MUST REGISTER AGAIN FOR FALL ELECTION

Many persons have the erroneous impression that after having voted *yesterday they will not have to register* in order to vote at the general elections November 2.

No vote can be cast at the general elections unless the voter's name has been entered on the registry book for those elections. The fact that he voted yesterday does not carry him on the list of eligible voters.

The first regular registration day is Tuesday, September 28, which is also the day when the primary elections will be held.

In order to avoid danger of being barred from voting at the fall elections each voter should see to it, September 28, that he is duly registered.

NEW BRUNSWICK PRESBYTERY.

The Presbytery of New Brunswick will open a conference next Tuesday morning in the First Presbyterian church of New Brunswick. The opening exercises will consist of a commemorative service to John Calvin, in connection with which Rev. Dr. Henry Collin Minton, pastor of the First Presbyterian church of Trenton, will make an address. Addresses also will be made by other members of the official body, following which the reports from the various chairmen of committees will be received.

The report of Rev. Paul Hembosky, pastor of the Hungarian Presbyterian church, of New Brunswick, will furnish a subject for discussion. It will arouse an interesting discussion as to the advisability of erecting a similar edifice for the Hungarians of Trenton. This matter has been under consideration by the church extension committee of the presbytery for some time. Rev. Hugh B. MacCauley, of the Fourth Presbyterian church, of Trenton, will render this report.

FISCHER CENSUS SUPERVISOR.

Former Alderman George A. Fischer, of the Eleventh ward, Paterson, president of the Aetna Silk Company, will be the supervisor of the United States census in the Sixth Congressional District, his territory embracing Passaic, Bergen and Sussex counties, Mr. Fischer, who is a Republican, learned of his selection for this position Monday when he received notice from United States Census Director Doran to the effect that he had been recommended for the position by both Senators Kean and Briggs.

PLUCKEMIN CELEBRATION

Villagers Prepare Hudson-Dutch Fete to Mark Discovery.

TO BE HELD SEPTEMBER 23-24.

Mayor "Tune" Melick Promises to Make a Speech—Fair and Parade to Be Features.

Pluckemin has suddenly flung off its coat and rolled up its sleeves in preparation for a grand Hudson-Dutch fair to be held in that village September 23 and 24.

Advantage is taken of the great wave of patriotic sentiment raised in every breast of Dutch descent by the approaching celebration of Henry Hudson's discovery of New York for the Dutch Government in the year 1609. When Hudson discovered New York he did the same for New Jersey, and opened its doors to the splendid race of indomitable Dutch pioneers who have left so many marks of their enterprise and so many worthy descendants behind them.

It is recognized that Pluckemin once occupied a position of peculiar interest and importance to the early Dutch settlers of New Jersey, for, standing on one of the ramparts of the Watchung range of mountains, it served as the elevated halfway house, as it were, between two separate and distinct communities of those sturdy pioneers. Sloping to the south was the field of operation of those steadfast old pastoral home-builders, along the rich banks of the Raritan, while the northern incline, down toward the valleys of the Passaic and Hackensack, attracted the more commercial-minded, adventurous trader class.

At Pluckemin they met and fraternized, doubtless oft n over foaming steins and tankards of old Jake Eoff's best brew, seasoned by the genial wit of that famous boniface of old, in his long, rambling, one-story hostelry, historically remembered as the "barracks."

It is now proposed to rehabilitate this pretty village with some of its ancient consequence and glory, and to demonstrate that it is still the connecting link between the descendants of the worthy old settler fathers.

In the bazar, which will be an important department of the fair, will be gathered a great collection of old Dutch relics, which will be intensely interesting curiosities to the present generation. These will be on view in booths presided over by dainty maidens, costumed after the manner of their great-great-grandmothers:

"Rip Van Winkle is coming back to Pluckemin," the posters will announce.
